No. 61-C.—The following message issued by His Majesty the KING EMPEROR is published for general information :—

"TO MY PEOPLE,

The world-wide struggle for the triumph of liberty is entering upon its last and most difficult phase. The enemy is striving by desperate assault and subtle intrigue to perpetuate the wrongs already committed and to stem the tide of free civilisation. We have yet to complete the great task to which we have dedicated ourselves, and I would call upon you to devote a special day to prayer that we may have the clear-sightedness and strength necessary to the victory of our cause. This victory will be gained only if we steadfastly remember the responsibility resting upon us and in a spirit of reverent obedience ask the blessing of Almighty God upon our endeavours. Let us seek to be enlightened in our understanding and fortified in courage in facing the sacrifices we may yet have to make. I therefore appoint January 6th, the first Sunday in the New Year, to be set aside as a special day of prayer and thanks giving in all the churches throughout my Dominions."

No. 910-C.—The following Royal Warrant is published for general information :—

GEORGE R. I.

GEORGE THE FIFTH, by the Grace of God, of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, King, Defender of the Faith, Emperor of India, to all to whom these Presents shall come, Greeting !

WHEREAS Her late Majesty Queen Victoria, being desirous of distinguishing by some mark of Her Royal Favour the many heroic acts performed by Mariners and others who endanger their own lives in saving or endeavouring to save the lives of others from shipwrecks and other perils of the sea ; and the many heroic acts performed on land by those who endanger their own lives in saving or endeavouring to save the lives of others from accidents in mines, on railways and at fires, or other perils within Her Dominions, other than perils of the sea, did, by Warrants under the Royal Sign Manual bearing date respectively the 7th March, 1866, the 12th April, 1867, and the 30th April, 1877, for Herself, Her Heirs and Successors, institute and create as a mark of Royal Approbation of such heroic acts, new Decorations styled respectively "The Albert Medal of the First Class" and "The Albert Medal of the Second Class," which Decorations Her Majesty was desirous should be highly prized and eagerly sought after :

And whereas the said Warrants were subsequently amended and all the Warrants relating to these Decorations were consolidated by a Warrant under the Sign Manual bearing date the 5th June 1905 :

And whereas it is Our Pleasure to amend the style of the said Decorations :

We are graciously pleased to make, ordain and establish the following Rules and Ordinances for the government of the Decorations :—

I. It is ordained that the Decoration in each case shall be styled "The Albert Medal" ; but when it is awarded for acts of such extreme and heroic daring as to merit a special degree of recognition, it shall be styled "The Albert Medal in Gold."

II. It is ordained that the Albert Medal shall consist of a bronze oval-shaped Badge or Decoration, having in the centre a Monogram composed of the letters V. and A. erect upon an enamelled background, surrounded by a Garter inscribed in raised letters "For Gallantry in Saving Life at Sea," or "For Gallantry in Saving Life on Land," as the case may be, and surmounted by a representation of the Crown of His Royal Highness the lamented Prince Consort; but where the Medal conferred is "The Albert Medal in Gold," it shall consist of a gold oval-shaped Badge or Decoration having in the centre a Monogram composed of the letters V. and A. erect in gold upon an enamelled background, surrounded by a Garter in bronze inscribed in raised letters of gold, "For Gallantry in Saving Life at Sea," or "For Gallantry in Saving Life on Land," as the case may be, and surmounted by a representation in gold of the Crown of His Royal Highness the lamented Prince Consort. When the Medal is given for gallantry in saving life at sea the letters V. and A. shall be interlaced with an anchor erect in bronze or gold, as the case may be.

The Medal shall be suspended from a riband of an inch and three-eighths in width, having two white longitudinal stripes; in the case of the "Albert Medal in Gold" the riband shall have four white longitudinal stripes.

The colour of the enamel and riband shall be dark blue when the Medal is conferred for gallantry in saving life at sea, and crimson when it is conferred for gallantry in saving life on land

III. It is ordained that the Medal shall only be awarded to those of Our faithful subjects who, in saving or endeavouring to save the lives of others from perils of the sea, or from perils on land, have endangered their own lives, and that such award shall be made only on a recommendation to Us by Our Principal Secretary of State for the Home Department.

Provided always that where the Medal is conferred for gallantry in saving life at sea, the preliminary steps and enquiry shall, if the award be to anyone belonging to the Royal Navy or the Royal Marines, be with the Lords Commissioners of the Admiralty, and in other cases with the President of the Board of Trade.

IV. It is ordained that the names of those persons upon whom We may be pleased to confer the Medal shall be published in the *London Gazette*. Where the Medal is conferred for gallantry in saving life on land a Register of such names shall be kept in the Office of Our Principal Secretary of State for the Home Department. Where the Medal is conferred for gallantry in saving life at sea, a Register of the names of such of these persons as belong to the Royal Navy or the Royal Marines shall be kept in the Office of the Lords Commissioners of the Admiralty, and a Register of the names of such of these persons as do not belong to the Royal Navy or the Royal Marines shall be kept in the Office of the Board of Trade.

V. It is ordained that the Medal shall be worn suspended from the left breast.

VI. It is ordained that any act of gallantry which is worthy of recognition by the award of the Albert Medal, but is performed by one upon whom the Decoration has already been conferred, may, on a recommendation to Us by Our Principal Secretary of State for the Home Department, be recorded by a bar attached to the riband by which the Medal is suspended; and for every such additional act an additional bar may be added.

VII. In order to make such additional provision as shall effectually preserve pure these most honourable Decorations, it is ordained that if any person on whom any of such Decorations is conferred be guilty of any crime or disgraceful conduct which in Our judgment disqualifies him for the same, his name shall, by an especial Warrant under Our Royal Sign Manual, be forthwith erased from the Register of those upon whom the said Decoration shall have been conferred, and his Medal shall be forfeited. And every person to whom the said Medal is given shall before receiving the same enter into an engagement to return the same if his name shall be so erased as aforesaid under this Regulation. It is hereby further declared that We, Our Heirs and Successors, shall be the sole judges of the circumstances demanding such expulsion. Moreover, We shall at all times have power to order

that any person who may at any time have been expelled shall be restored to the enjoyment of the Decoration.

VIII. The Warrant of the 5th June, 1905, is hereby revoked.

Given at Our Court at *Saint James's*, this twenty-eighth day of *August*, One thousand nine hundred and seventeen, in the Eighth year of Our Reign.

By His Majesty's Command,

GEO. CAVE.

S. R. HIGNELL,

Chief Secy. to the Govt. of Bengal.

Delhi, the 21st December 1917.

CANTONMENTS—REGULATIONS.

No. 2227.—In Army Department Notification No. 2054, dated the 30th November 1917, the following amendments should be made to the new section 171-C of the Cantonment Code, 1912:—

For "Sections 158-K and 158-L" *substitute* "Sections 238-A and 238-B."

For "Section 158-B" *substitute* "Section 171-A".

RESOLUTION.

No. 2228.—In Military Department Notification No. 718, dated the 17th July 1903, the approval of the Government of India was accorded to the adoption of the system detailed below for the promulgation of Government and other orders to the Army in India:—

(1) The system of publishing orders to the Army in G. G. Os., G. Os. C. C., or India Army Circulars to be discontinued.

(2) All orders or notifications to the Army to appear either in the *Gazette of India*, or in orders published by the Adjutant-General's Department styled "India Army Orders."

(3) All such commissions, appointments, promotions, retirements, rewards, legal notifications, despatches connected with field operations, or other notifications to be published in the *Gazette of India* which it is usual or expedient to publish therein.

(4) Changes in organisation, etc., and rewards of a minor description, such as the grant of meritorious service medals, to be notified only in India Army Orders, as a rule.

(5) India Army Orders to commence with the notification of all Royal Warrants and Regulations or orders promulgated under the authority of the Secretary of State for India, or the Governor General in Council, and to be prefaced accordingly. Such notifications to be followed by orders which had hitherto appeared only in G. O. C. C.

(6) A quarterly appendix to the India Army Orders to be published in the place of India Army Circulars, to contain only corrections to the India Army Regulations, and to be printed separately so as to facilitate the correction of books of regulations.

2. The Government of India have had under consideration a proposal to modify the system under which the decisions of Government and the orders of His Excellency the Commander-in-Chief are communicated through the medium of Army Department letters and India Army Orders, respectively. Under the existing system, Army Department letters are generally addressed to the administrative Branch of Army Headquarters to which the subject-matter pertains, or to the General Officer Commanding Division or Independent Brigade, or Controller of Military Accounts concerned. They seldom reach the smaller formations and staffs without great delay and duplication of work and many never reach units at all. India Army Orders frequently contain much matter which is not proper to them.

3. In modification of the orders contained in the notification quoted in paragraph 1 above, the Government of India have decided that the procedure detailed below shall be adopted, with effect from the 1st January 1918, for

the promulgation of decisions of Government and orders of His Excellency the Commander-in-Chief to the Army in India :—

(*a*) *Army Department letters* conveying the sanction of the Government of India to proposals emanating from Army Headquarters or elsewhere will in future be restricted to cases of individual or of special application, and will not convey decisions which will form precedents for the Army as a whole. They will also deal with confidential matters, even of general importance, which cannot properly be published in India Army Orders.

(*b*) Decisions not within the powers of His Excellency the Commander-in-Chief in India and which convey the orders of the Right Hon'ble the Secretary of State for India or the Governor General in Council on matters affecting the Army as a whole will in future be issued simultaneously to all authorities in a form analogous to the British Army Council Instructions. The form of communication will be designated "Army Instructions (India)."

(*c*) The Army Instructions (India) will be printed over the signature of the Secretary to the Government of India, Army Department, and will appear on separate sheets numbered consecutively. They will be issued regularly once a week to all authorities, civil and military, from the Government Press: the distribution list corresponding approximately to that of India Army Orders.

A bound copy of these instructions will be issued monthly with an index.

(*d*) India Army Orders will in future be restricted to the promulgation of orders in which His Excellency the Commander-in-Chief in India is the deciding authority and to the republication of such War Office Army Orders as are deemed applicable to the Army in India.

ORDER.—Ordered that a copy of this Resolution be published under a notification in Part I of the *Gazette of India*, ordered also that it should be communicated to the several Departments of the Government of India; the Financial Adviser, Military Finance; all local Governments and Administrations; Heads of Branches of Army Headquarters; the Director, Royal Indian Marine, and all Controllers of Military Accounts.

CALCUTTA,

The 13th November 1917.

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

Two State Scholarships in Sanskrit and Arabic, respectively, of £200 per annum for Indians*

*[including those who, though born or temporarily resident in Native States, are domiciled in British India but excluding subjects of Native States and members of the European and Anglo-Indian domiciled community], 1918.

The scholarships will be awarded by the Government of India to Indians to acquire critical and scientific methods of Western scholarship in Sanskrit and Arabic of the value of £200 a year.

2. The language scholars are not expected to join colleges; but when they join colleges in Oxford or Cambridge with the permission of the Secretary of State for India their allowance will then be increased to £250 per annum.

3. The scholarships are tenable in Europe and for a period of two years in the first instance with possibility of extension.

4. The scholarships will carry with them no conditions as to any subsequent career or service under Government, and no expectations of such employment are held out.

5. The scholarships are open to well-qualified students with a genuine taste for Sanskrit and Arabic studies and to those already employed as Professors of Sanskrit and Arabic.

6. Intending candidates who are natives of Bengal or domiciled in Bengal are requested to make application to the Assistant Director of Public Instruction, Bengal, Writers' Buildings, Calcutta, on forms obtainable from the Personal Assistant to the Director of Public Instruction, Bengal, on or before January 25th, 1918, with a medical certificate of fitness to undergo a course of study abroad.

7. Selected scholars are required to lodge with the Education Adviser for Indian Students at the India Office before their arrival in England the sum of £25 for initial expenses. They will have no claim to payment of any instalment of their scholarship until this deposit has been made.

8. State scholars are required to proceed to England within a reasonable time from the date of their selection so as to arrive there not later than the middle of September and to reside there for the period of their scholarship, unless compelled to return sooner in consequence of ill-health. The scholarship will be payable from the date on which the scholars report their arrival in England. Selected scholars will be provided with a second-class passage

to England and also with a second-class return passage if they carry out the instructions of the Secretary of State and complete the full period of residence or are compelled by sickness to return within that period.

9. Necessary travelling expenses of scholars abroad by second class or by third class, if no second be available, will be defrayed by the Secretary of State. Travelling expenses in the United Kingdom will be borne by the scholars themselves. Charges for University and College fees, for private tuition, for books, hotel bills and medical attendance must be borne by the scholars and will not be defrayed by the Secretary of State.

10. For further particulars pages 1143 to 1153 of the *Calcutta Gazette*, dated the 21st June 1916, may be consulted.

W. C. WORDSWORTH,
Offg. Director of Public Instruction, Bengal.

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

State Scholarship of £200 per annum tenable in the United Kingdom or, with special sanction, in foreign countries by *Indian Girls or Women.

*[Including those who, though born or temporarily resident in Native States, are domiciled in British India, but excluding subjects of Native States and members of the European and Anglo-Indian domiciled community.]

THE scholarship will be granted for medical, and occasionally for other educational or professional, courses and will be tenable in the United Kingdom or, with special sanction, in foreign countries, for a period of three years in the first instance, with a possibility of extension to five years. The scholarship will carry with it no conditions as to any subsequent career or service under Government, and no expectation of such employment is held out.

2. The scholar will be selected by the Government of India from among candidates nominated by the Local Governments. Intending candidates from Bengal are requested to make application to the Assistant Director of Public Instruction, Writers' Buildings, Calcutta, not later than 31st January 1918. The application should be accompanied by (1) evidence of having obtained a degree of an Indian University in medicine or educational or professional courses; (2) a medical certificate of fitness to undergo, abroad, the course of study proposed; (3) a certificate from some person of recognised position well acquainted with the candidate, to the effect that she is a native of Bengal or domiciled in Bengal and of purely Indian parentage; (4) full details including the name and occupation of the candidate's father and place of birth, a summary of her academical career in India, and a statement of the course of study proposed to be followed; (5) full address of the candidate.

3. The State scholar is required to proceed to England within a reasonable time from the date of her selection, so as to arrive there not later than the middle of September, and to reside there for the period of her scholarship, unless compelled to return sooner in consequence of ill health. The scholarship will be payable from the date on which the scholar reports her arrival in England. The selected candidate will be provided with a second class passage to England, and with a second class return passage if she completes the full period of residence or is compelled by sickness to return within that period.

4. Charges for University and college fees, for private tuition, for books, instruments, hotel bills, medical attendance and travelling (except the two journeys between England and India) are not defrayed by the Secretary of State.

5. For further particulars pages 1143 to 1155 of the *Calcutta Gazette*, dated the 21st June 1916, may be consulted.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the Fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The Fund is now of ten years' standing and has a balance of over three and-a-half lakhs with Government on four per cent. interest. For forms of applications and rules of the Fund apply to the Comptroller, India Treasuries, Imperial Secretariat Buildings, Calcutta.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.,

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible, after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

Forecast of the Winter *Til* (Sesamum) crop of Bengal, 1917-18.

(Note.—On an average of the five years ending 1915-16, the area under* til *in Bengal has represented about 5·1 per cent. of the total area under* til *in British India.)

Sowings.—The weather at sowing time being unfavourable the area under the crop was considerably below normal. Sowings were begun in good time but finished late. The crop was damaged in October by excessive rainfall and floods. The dry weather in November however improved the later sown areas. The season on the whole has thus been unfavourable.

Acreage.—The total area sown this year is estimated at 52,700 acres against the same estimate (now revised) of last year, or 33 per cent. below normal. The small area under the crop is, as explained above, due to excessive rainfall at sowing time.

Outturn.—According to estimates of District Officers the outturn of the crop for the Province as a whole works out at 74 per cent. of the normal against 73 per cent. last year. Taking the normal yield to be 4½ maunds per acre, the gross yield for the Province is estimated at 6,100 tons against 6,000 tons (now revised) last year.

	Acres.	Acres.	Acres.					
24-Parganas ...	300	300	300*	83	67	August	Not yet commenced	The weather and condition of the crop have not been favourable.
Nadia	3,300	1,600	1,100	67	50	August. Normal	November. Normal	The decrease in area is due to heavy rain and consequent flooding of a considerable area. The weather was rainy at sowing time, which interfered with cultivation and growth of the crop. The outturn is therefore expected to be much below the normal.
Murshidabad ...	4,100	1,200	1,100	75	75	August to September. Normal. Jangipur. Late.	Not yet commenced	The decrease in area is due to heavy rain at sowing time. The weather has not been favourable. The outturn is expected to be less than the normal by about 25 per cent. owing to damage caused by heavy rain and flood.
Jessore	1,600	1,300	1,000	60	70	Between August and September. Late.	November. Normal	The decrease in area is due to flood and excessive rain at sowing time. The weather has not been favourable. About 30 per cent. of the crop has been damaged by heavy rain and flood. Hence the outturn is expected to fall below the normal.
Khulna ...	2,800	1,100	900	92	92	Latter part of August. Normal.	End of November. Late.	The decrease in area is due to excessive rain at sowing time which retarded the growth of the crop to some extent. The weather has not been favourable. Hence the outturn is expected to fall below the normal.
Burdwan ...	500	400	300	58	58	August except at Katwa where it commenced from the first week of November. Late.	Just commenced in the district except at Katwa.	The decrease in area is due to heavy rainfall at sowing time. Excessive rainfall and floods in some parts considerably damaged the crop. Hence the low outturn.
Birbhum ...	500	500	500*	75	92	August. Normal	December	The weather was fairly favourable. The outturn is below the normal due to excessive rainfall.
Bankura ...	3,300	2,800	2,900	83	83	July	Not yet commenced*	The weather has been fair.
Midnapore ...	3,000	2,300	2,300	85	85	July. Normal	November. Normal	Excessive rainfall was unfavourable to the growth of the crop. Some damage has been caused by excessive rain. Hence the outturn is expected to be below the normal.
Hooghly ...	1,000	700	700*	67	62	Middle of September. Normal.	End of November. Normal.	The weather has not been favourable for the growth of the crop. Some damage has been done to the crop by heavy rain and flood in the Arambagh subdivision. Hence the outturn is expected to be below the normal.
Howrah ...	300	100	.....	94	.....	.....	.....	The crop has not been sown this year in the Uluberia subdivision.
Rajshahi ...	3,700	1,400	1,400	60	60	Naugaon—Latter part of September. Late. Elsewhere first part of September. Normal.	Not yet commenced	The weather has not been favourable. The outturn is likely to fall below the normal owing to heavy rain in October.
Dinajpur ...	800	400	400*	76	74	September ...	Ditto ...	The weather was favourable at sowing time, but the growth of the crop was not very satisfactory owing to heavy rainfall in October. Hence the outturn is expected to fall below the normal.

	Acres.	Acres.	Acres.					
Rangpur ...	1,300	1,500	1,500*	100	90	Beginning of October. Normal.	Will begin from the middle of January.	The decrease in outturn is due to scarcity of rain at the time of sowing. The weather was not so favourable to the growth of the crop and the extent of damage done by the flood is estimated at 10 per cent.
Bogra ...	1,500	1,000	700	50	46	Latter part of September. Normal.	Middle of December. Normal.	The decrease in area is due to heavy rain at sowing time. The weather has been unfavourable for the growth of the crop. Some damage has been done by untimely rain. The outturn is therefore expected to be much below the normal.
Pabna ...	7,000	6,000	6,000	85	85	Middle of September. Normal.	Will begin by the end of January.	
Malda ...	1,500	1,500	1,500*	75	65	By the end of September. Late.	By the end of December. Late.	The weather was unfavourable from sowing time up to October owing to excessive rain. This retarded growth of the crop and did some damage. The outturn is therefore expected to be much below the normal.
Dacca ...	10,100	10,800†	9,800	75	70	End of August. Normal.	End of November. Normal.	The weather was unfavourable at sowing time owing to heavy rain.
Mymensingh ...	8,500	7,800	7,800	85	85	October. Normal	Will begin in the first week of January.	The weather was generally favourable except that it was rainy at Netrakona during the sowing time. The outturn is expected to be normal throughout the district except at Tangail and Netrakona subdivisions.
Chittagong ...	200	200	200*	90	90	August. Normal	December ...	The weather has been favourable.
Tippera ...	2,200†	1,800	1,800	60	70	November	Not yet commenced	The weather has not been favourable. Hence the outturn is likely to fall below the normal.
Chittagong Hill Tracts.	13,000	8,000	10,500	46	65	Middle of April. Normal.	Beginning of November. Normal.	The increase in area is due to favourable weather at the sowing time. The weather has been favourable on the whole at sowing time but rain in November did some damage to the crop. Insects also damaged the crop in parts of the district. The outturn is expected to be better than last year.

NOTIFICATIONS.

No. 67S.R.—The 8th January 1918.—In exercise of the power conferred by clause (*c*) of sub-section (*2*) of section 7 of the Bengal Excise Act, 1909 (Bengal Act V of 1909), as amended by the Bengal Excise (Amendment) Act, 1914 (Bengal Act VII of 1914), read with section 22 of the Bengal General Clauses Act, 1899 (Bengal Act I of 1899), the Governor in Council is pleased to make the following amendments in Notification No. 596S.R., dated the 30th March 1915, published at pages 562 to 578 of Part I of the *Calcutta Gazette* of the 31st *idem*, namely :—

(1) *Omit* item (*2*) in paragraph 11 of the said Notification.

(2) *Renumber* items (*3*) and (*4*) of the same paragraph as items (*2*) and (*3*), respectively.

No. 68S.R.—The 8th January 1918.—In exercise of the power conferred by section 85 of the Bengal Excise Act, 1909 (Bengal Act V of 1909), as amended by the Bengal Excise (Amendment) Act, 1914 (Bengal Act VII of 1914), read with section 22 of the Bengal General Clauses Act, 1899 (Bengal Act I of 1899), the Governor in Council is pleased to make the following amendments in the rules published under Notification No. 595S.R., dated the 30th March 1915, at pages 549 to 562 of Part I of the *Calcutta Gazette* of the 31st *idem*, namely :—

(1) *For* the words "Subdivisional Officer" and "Supervisor", wherever they occur in rules 21 to 27 and 39, *substitute* the words "Superintendent of Excise" and "Officer in charge" respectively.

(2) *Delete* the words "from a licensed cultivator" in rule 21, clause (*c*), and in rule 22.

(3) *Delete* the words "either direct from cultivators or through a broker" in rule 21, clause (*ii*).

(4) *For* the words "*ganja* cultivation" in rule 22, *substitute* the words "the public warehouse".

(5) *For* sub-rule (*2*) of rule 23, *substitute* the following sub-rule :—

"When the importer has completed his purchases the officer in charge shall, on proof of the execution of a bond as prescribed in rule 26 and on a requisition from the Manager or other duly authorised officer of the Naugaon Ganja Cultivators' Co-operative Society, issue the *ganja*. Each chest in which the *ganja* is to be packed shall be weighed and its number and weight shall be marked on it in paint. The *ganja* shall then be weighed and packed in the chests, all dust and refuse being removed. Seals shall be affixed at the interstices between the planks of the chests unless the *ganja* is enclosed in an inner covering of gunny which has been sewn and sealed along each seam. When ready for despatch, each chest must be again weighed and the number and gross weight of each, the net weight of *ganja*, the number of the pass, the name of the importer and the district to which the *ganja* is consigned must be legibly painted on each chest. All these operations must be performed in the presence of the officer in charge of the public warehouse."

(6) *Delete* the proviso to rule 38.

No. 69S.R.—The 8th January 1918.—In exercise of the powers conferred by section 86 of the Bengal Excise Act, 1909 (Bengal Act V of 1909), as amended by the Bengal Excise (Amendment) Act, 1914 (Bengal Act VII of 1914), read with section 22 of the Bengal General Clauses Act, 1899 (Bengal Act I of 1899), the Governor in Council is pleased to make the following amendments in the rules published under Notification No. 601S.R., dated the 30th March 1915, in the *Calcutta Gazette Extraordinary* of the 1st April 1915 (as subsequently amended), namely :—

1. *For* the heading "Cultivation, manufacture and storage of *ganja* at Naugaon, in the Rajshahi district", above rule 120 of the said rules, *substitute* the following heading :—

"Cultivation, manufacture and storage of *ganja* (including storage of *bhang*) at Naugaon, in the Rajshahi district."

2. *For* rules 120 to 149 inclusive and rule 229, *substitute* the following rules :—

120. The cultivation, manufacture, storage and issue of *ganja* in the *ganja mahal* at Naugaon shall be carried on under the direct control of the Superintendent of Excise, Naugaon, as Deputy Superintendent, acting under the general supervision of the Collector of Rajshahi, who is Superintendent of the *ganja mahal*.

121. A person desirous of cultivating the hemp plant for the purpose of making *ganja* shall apply in writing, before the 15th April of each year, to the Superintendent of Excise, Naugaon, for a license authorizing him to cultivate. The application shall be made in the prescribed form and shall specify the name of the cultivator, his residence, the area of the intended cultivation, the survey number of the field, and the name of the village in which it is situated. No application shall be accepted after the 15th April without the special sanction of the Commissioner.

122. The area to be licensed in each year shall be fixed by the Collector of Rajshahi with the sanction of the Commissioner, and shall not exceed 1,026 acres.

123. After considering the applications and making such inquiries as may be necessary regarding the applicants, the Superintendent of Excise shall pass orders on them. The licenses shall be issued by the 30th June.

124. The license shall be in force for one working season only, and the cultivator shall sign a counterpart, which will be filed in the office of the Superintendent of Excise. No fee shall be charged for the application, the license or the counterpart.

125. (1) No license shall be granted to a person who has been convicted of an offence against the Excise or Opium laws or a person who is suspected of having dealt illicitly with the *ganja* grown or manufactured by him or by others in previous years.

(2) In the absence of a satisfactory explanation, it shall be held to be an adequate ground for suspicion of illicit practices on the part of an individual, if in a previous year he showed an outturn considerably less than the general average of the *ganja mahal*.

126. The Superintendent of Excise shall, under the general control of the Collector, fix a number of *chatars* or manufacturing yards at which the cultivators shall be bound to manufacture their *ganja*.

127. (1) *Chatars* shall be constructed by the Naugaon *Ganja* Cultivator's Co-operative Society, Limited, and shall be in accordance with specifications approved from time to time by the Commissioner. They shall be arranged in the form of hollow squares or rectangles and shall be securely fenced. No buildings other than the quarters for the officers in charge and shelters for guards on duty shall be erected in proximity to the fencing. Each *chatar* shall be in charge of an officer not below the rank of Sub-Inspector.

(2) A licensed cultivator shall manufacture his crop at such *chatar* as the Superintendent of Excise may direct, and shall be bound to carry out all orders given by the officer in charge of the *chatar* or Excise Officers superior to him.

128. (1) A cultivator shall give notice, three days before he commences to cut his crop, to the Superintendent of Excise or to the Circle Officer, who shall thereupon endorse on the license to cultivate the requisite permission to cut.

(2) No cultivator shall employ, in the cutting or manufacture of the crop, any person who has been convicted of an offence against the Excise or Opium laws or any person to whom a license to cultivate has been refused under rule 125, or who is suspected of having resorted to illicit dealings with regard to *ganja*, or any person whose employment the Superintendent of Excise may prohibit.

129. *Cancelled.*

130. (1) A licensed cultivator shall not accumulate more than one maund of manufactured *ganja* at the *chatar*. Directly one maund has accumulated, or, if the outturn of the area cultivated be less than one maund, directly the manufacture of his crop has been completed, the licensed cultivator shall despatch the manufactured *ganja* securely packed in gunny to the public warehouse at Naugaon.

(2) Before despatch from the *chatar*, the *ganja* shall be carefully cleaned, and all dust and foreign matter removed, and it shall be securely packed in bags sealed along each seam and weighed by the officer in charge of the *chatar*. The name of the circle, the name and residence of the owner, the gross weight of the package, the net weight of *ganja*, the year of produce and kind of *ganja* (*i.e.*, flat or round *chur*) shall be legibly painted on each bag. The officer in charge shall also grant to the owner a transport pass in the prescribed form for each consignment.

131. All plants uprooted in the process of cultivation or of harvesting, and not used for the preparation of *ganja*, shall be destroyed under the supervision of the Circle Officers, and all dust and refuse which accumulate in the course of manufacture, or of cleaning the *ganja* before despatch from the *chatar*, shall be collected daily by the licensed cultivators in the centre of the *chatar* and burned each evening in the presence of the officer in charge.

132. A licensed cultivator shall be bound to deliver *ganja* at the public warehouse within the time stated in the pass specified in rule 130. On delivery of the *ganja* at the public warehouse the pass, together with the license to cultivate, shall be exchanged for a pass-book in the prescribed form stating the quantity of the *ganja*, the name of the owner, and the conditions under which the *ganja* is stored. The pass-book shall be furnished free of charge by the officer in charge and shall be produced by the owner on every occasion on which he deposits *ganja*. If the pass-book is lost, the owner shall be entitled to receive a fresh pass-book on payment of a fee of eight annas.

133. (1) The officer in charge of the public warehouse shall be bound to receive the drug whenever it is brought to him at any time during the hours that the public warehouse is open as provided in rule 135. On receiving it he shall cause it to be at once weighed and stored.

(2) No allowance shall ordinarily be made for wastage or dryage in transit between the *chatar* and the public warehouse, duty at the rate imposed under section 27 of the Act being realized from the licensed cultivator on the deficiency (if any):

Provided that small differences in weight may be adjusted by the Superintendent of Excise, Naugaon.

134. (1) All *ganja* received from cultivators shall be registered in the cultivator's *ganja* deposit register, and a ticket showing the number of the packages, the number of the owner's pass-book, the number of the warehouse, and rack and the net weight of *ganja* shall be attached to each bag before it is placed in store. *Ganja* belonging to different owners shall be stored as far as possible separately.

(2) The stacking, weighing and all handling of *ganja* inside the public warehouses shall be done by the regular establishment provided for the purpose by the Naugaon *Ganja* Cultivators' Co-operative Society, Limited.

135. Every morning at sunrise, except on Sundays and gazetted holidays, the officer in charge shall open the public warehouse and shall keep it open until 11 A.M. and again in the afternoon from 2 P.M. to 5 P.M. from March to September, and from 1 P.M. to 4 P.M. from October to February:

Provided that the Superintendent of Excise may, in exceptional cases, relax this rule and permit such business after office hours or on Sundays and holidays.

136. (1) The enclosure of the public warehouse shall, except during business hours, be kept locked, the key remaining in the custody of the officer in charge.

(2) Every building within the enclosure which is used for the storage of *ganja* or *bhang* shall be under the joint lock of the officer in charge and of the Manager or other authorized officer of the Naugaon *Ganja* Cultivators' Co-operative Society, Limited, and shall only be open when both are present. The lock used by the officer in charge shall be a Government lock and the key shall remain in his personal custody.

137. No person shall be admitted into the enclosure of the public warehouse between sunset and sunrise without the written authority of the Collector or the Superintendent of Excise, Naugaon.

138. No persons, except the following, shall be admitted into the enclosure of the public warehouse at any time without the written permission of the Superintendent of Excise, Naugaon :—

(*a*) Cultivators of the hemp plant (or their duly authorized agents) and such persons as may accompany them to assist them, when storing their crop.

(*b*) Licensed vendors of *ganja* (or their duly authorized agents) when holding a license granted by the Superintendent of Excise, Naugaon, to purchase *ganja*.

(*c*) Officers of the Excise Department and superior officers of other Government Departments having business therein.

(*d*) The Members of the Managing Committee and the Manager of the Naugaon *Ganja* Cultivators' Co-operative Society, Limited.

(*e*) Authorised employés and servants of the Naugaon *Ganja* Cultivators' Co-operative Society, Limited. A register shall be kept of the names of all such persons and they will be supplied with passes for ingress and egress.

(*f*) Members of the Grading Committee, when engaged in grading *ganja*.

139. The officer in charge of the public warehouse may eject and exclude from the warehouse enclosure any person whom he shall find to have committed, or to be about to commit, any breach of these rules or of the provisions of the Act, or who shall be intoxicated, riotous or disorderly. All action taken by the officer under this rule shall forthwith be recorded by him in writing in his official diary for the information of his official superior.

140. The Naugaon *Ganja* Cultivators' Co-operative Society, Limited, shall be bound by the provisions of the Act, and by all rules for the management of warehouses for *ganja* or *bhang*, or for issue of *ganja* or *bhang* therefrom, which may be prescribed under the Act from time to time, and by all special orders which may be issued by the Commissioner regarding the public warehouse, and shall cause all persons employed by them to obey all such rules.

141. If it comes to the knowledge of any member of the Managing Committee or of the Manager of the Society that any person employed by the society in the storage, receipt, handling, cleaning, packing or issue of *ganja* or *bhang* has committed any breach of the Act, or of the engagement entered into by the society, it shall be his duty to report the matter to the officer in charge. The society shall comply with the directions of the officer in charge respecting the continued employment of such person. The officer in charge shall report the matter together with the action taken by him through the Superintendent of Excise, Naugaon, to the Collector of Rajshahi.

142. (1) All *ganja* deposited in the public warehouse, except such *ganja* as is held to be of so bad quality as to be fit only for destruction, shall be purchased by the Naugaon *Ganja* Cultivators' Co-operative Society, Limited, at rates fixed by the society and approved by the Commissioner.

(2) The decision as to the quality of the *ganja* shall be made in the manner provided by the bye-laws of the society.

(3) All *ganja* which is held to be of so bad quality as to be fit only for destruction shall be kept apart from other *ganja* and shall be destroyed in the presence of the Superintendent of Excise as soon as final orders condemning it have been passed.

143. Whenever the Manager or other duly authorized officer of the society desires to remove *ganja* for export or transport he shall hand to the officer in charge of the public warehouse a requisition showing the name of the district to which *ganja* is to be exported or transported, the quantity of *ganja* required, the name of the purchaser and the number and date of the license to purchase. On receipt of the requisition the officer in charge shall forthwith issue the *ganja*.

144. The rate per maund at which *ganja* intended for export to other provinces shall be sold shall be fixed from time to time by the Commissioner. The price shall be calculated on the weight as ascertained at the time of storage under rule 133, sub-rule (*l*).

145. Rent shall be levied at the rate of Re. 1-2 per maund on all *ganja* so sold for export irrespective of the length of time for which the *ganja* may have been stored. The rent shall be paid by the purchaser in every case at the time of the removal of the drug.

146. All *ganja* shall be thoroughly cleaned under the supervision and to the satisfaction of the officer in charge of the public warehouse before it is exported or transported.

147. (1) The Naugaon *Ganja* Cultivators' Co-operative Society, Limited, shall be responsible for handling, cleaning and packing all *ganja* and *bhang* exported or transported and shall provide all the necessary labour, materials, apparatus and appliances.

(2) All assortment, grading, cleaning and packing of *ganja* and *bhang* shall be done within the enclosure of the public warehouse.

(3) All refuse resulting from the process of cleaning *ganja* shall be removed from the warehouse enclosure at the cost of the society and shall be destroyed at the cost of the society under the supervision of the officer in charge and in the presence of the warehouse clerk concerned and of the jamadar of the guard, in such manner as the Collector may from time to time direct.

148. A person holding a pass for the import of *ganja* into another province or a licensed vendor of the Presidency of Bengal holding a pass for the transport of *ganja* from Naugaon, whose original pass has been lost or destroyed after his transactions at Naugaon have been endorsed thereon, may, on payment of a fee of Rs. 2, be granted an authenticated copy of the entries in the *ganja* office weighment register which will have the force of the original pass.

149. (1) The officer in charge of the public warehouse shall verify the whole of the *ganja* and *bhang* in stock by counting the bags at the end of each month, and at the end of June and December in each year shall verify the balance of *ganja* in stock by weighment. Certificates of such verifications shall be submitted to the Collector of Rajshahi in the prescribed form within the first week of the following month.

(2) The Superintendent of Excise, Naugaon, shall once a quarter verify the whole of the *ganja* and *bhang* in stock by weighing the whole of the *ganja* and *bhang* stored in one gola in the public warehouse and by counting the bags in the other golas therein. A different gola shall ordinarily be selected for weighment at each quarterly verification. Certificates of such verifications shall be submitted to the Collector.

DESTRUCTION OF EXCISABLE ARTICLES DEEMED TO BE UNFIT FOR USE.

229. *Ganja* or *bhang* stored in a warehouse and deemed by the Collector to be unfit for use shall be destroyed at the end of the year, after the annual stock-taking and closure of accounts, provided that any *ganja* or *bhang* in the public warehouse at Naugaon left unsold shall, with the sanction of the Collector, if considered unfit for use, be destroyed after two years from the date on which it was stored. Such destruction will take place in the presence of the officer in charge If any *ganja* or *bhang* deposited in the public warehouse at Naugaon be at any time before the expiration of two years considered by the Collector as unfit for use, it shall be liable to be destroyed in the same way with the previous approval of the Commissioner.

DECLARATION.

No. 52Com.—The 8th January 1918.—Whereas certain land was acquired by the Government of Bengal, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz., for such portion of the Damudarpur siding of the East Indian Railway as lies between chainage 37·00 and chainage 56·60, such land being edged with pink on the plan L.A.M.A. No. 320, and whereas coal mines are situate under the said land, and whereas the Bengal Coal Company, Limited, have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the Poniati seam, and whereas the mines have been inspected by the officer appointed by the Government of Bengal for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Government of Bengal that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Bengal Coal Company, Limited, have agreed not to work and get minerals underlying the land acquired for their siding, or underlying the land acquired for the branch or other lines with which the siding is connected, or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working:

Now, therefore, the Governor of Bengal is pleased to declare, under section 5, sub-section (2), clause (*b*) of the abovementioned Act XVIII of 1885, that the working shall be carried on by the said Bengal Coal Company, Limited, in the manner and subject to the restrictions below specified, viz:—

1. Galleries not exceeding 12 feet in width by 12 feet in height shall be driven at distances apart not less than 62 feet, centre to centre, leaving pillars not less than 50 feet square to be left unworked for the support of the acquired land.

2. Manholes not exceeding 6 feet in height by 3 feet in width by 4 feet in depth may be made where required by any rules made under the Indian Mines Act, 1901.

3. Any inrush of water, quicksand or soft material shall be reported to the Chief Inspector of Mines in India without delay.

4. These restrictions apply to the Poniati seam only and to the area edged with pink on the plan, and Messrs. The Bengal Coal Company, Limited, shall give notice, under section IV of the Land Acquisition (Mines) Act, 1885, of their intention to work any other seam under such area or to work coal under any other area of the acquired land, and that in all the above cases, except to comply with the above conditions, no further excavation shall be made in any of the galleries which already have been driven, the actual heights and widths of which have been carefully recorded on the plan marked L.A.M.A. No. 320 signed by the Chief Inspector of Mines.

The plan referred to may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

No. 43J.—The 4th January 1918.—The following rules which have been made by the Chief Presidency Magistrate under sub-section (*1*) of section 21 of the Code of Criminal Procedure, 1898 (Act V of 1898), for the Courts of the Presidency Magistrates, Calcutta, in supersession of rules 2 and 3 of the rules published under Notification No. 6023P., dated the 17th April 1916, have been sanctioned by the Governor in Council and are published for general information :—

Calcutta.

Rules.

2. The Chief Presidency Magistrate shall ordinarily sit at the Southern Police Court and the Second Presidency Magistrate at the Northern Police Court. The other Presidency Magistrates shall sit where the Chief Presidency Magistrate may direct them to sit. In case of emergency any Presidency Magistrate may hold his Court at such place and hour as he may consider best suited to meet the requirements of the public service.

3. The Second Presidency Magistrate will divide the work at the Northern Police Court between himself and the other Magistrates, Stipendiary or Honorary, assigned to that Court. The Chief Presidency Magistrate will distribute the work at the Southern Police Court. The Honorary Magistrates shall take cognizance of such complaints and cases as may be made over to them by these Magistrates :

Provided that, during the absence of any Magistrate or in the event of any pressure of work occurring in any Court or for any other special reason, the Chief Presidency Magistrate may arrange for the distribution of the work among other Presidency Magistrates.

J. H. KERR,
Chief Secy. to the Govt. of Bengal.

NOTICE.

DEPARTMENT OF MINES IN INDIA, DHANBAD P. O., MANBHUM.

Indian Mines Act, 1901.

AN examination for first and second class Coal Mine Managers' Certificates of Competency under the rules applicable to coal mines will be held at the Railway Institute, Dhanbad, on the 20th, 21st and 22nd February 1918.

Rules 32 and 33 of the Indian Mines Act, 1901, require that a candidate for a first class certificate must be at least 23 years of age and have had at least five years' practical experience in a coal mine, and for a second class certificate be at least 21 years of age and have had at least three years' practical experience in a coal mine. The periods of practical experience may be reduced to three years and one year, respectively, in the case of a candidate who has received a diploma in scientific and mining subjects after a course of study of at least two years at an educational institution approved in this behalf by the Governor-General in Council, or who has taken a degree in scientific and mining subjects at a University approved in this behalf by the Governor-General in Council.

The fees are Rs. 15 in the case of first class certificates and Rs. 8 in the case of second class certificates. By rule 34 of Government of India, Department of Commerce and Industry, Notification No. 2968-82, dated the 21st April 1906, " these fees shall be paid, not less than one month prior to the date of the examination, to the Chief Inspector of Mines at his office." The fees may be remitted by money-order or paid in any other manner.

Applications and fees should be addressed to the Chief Inspector of Mines in India, Dhanbad P. O., East Indian Railway, and not to any officer by name. No candidate will be permitted to sit at the examination unless his application and fee is received on or before the 20th January 1918.

KING'S POLICE MEDAL.

NOTIFICATION.

(POLICE.)

Delhi, the 1st January 1918.

No. 1.-C.—His Majesty the KING, EMPEROR OF INDIA, has been pleased to confer the King's Police Medal on the following officers and men of the Indian Police establishments :—

• • • • • •

Bengal.

Name of officer and rank.	Statement of services for which in particular the decoration has been conferred.
13. Nalini Nath Mazumdar, Inspector, Calcutta Police.	This officer was transferred to the Calcutta Police in 1910 where he has worked ever since. His work has always been carried out in a praiseworthy manner and he has never spared himself in following hazardous cases to a successful conclusion.
14. Sashi Bhusan Bhattacharji, Inspector of Police, Bengal.	He is one of the most courageous officers in the department and has done most meritorious work in highly important and dangerous cases.

Bengal—*concld.*

Name of officer and rank.	Statement of services for which in particular the decoration has been conferred.
15. Rajendra Nath Basu, Inspector of Police, Bengal.	He is a most painstaking and reliable officer and has performed his duties in several dangerous and important cases courageously and efficiently.
16. Narendra Nath Mukharji, Sub-Inspector of Police, Bengal.	He has done exceptionally valuable detective work and has shown great devotion to duty and absolute fearlessness.
17. Jamir Khan, constable, Bengal Police.	This constable displayed conspicuous gallantry and presence of mind in arresting dangerous criminals in the following circumstances :— In April 1915 he accompanied the sub-inspector of his police-station on the occasion of the search for certain absconders. When the men were encountered, they attacked the police with deadly weapons and one of them attempted to spear the sub-inspector. The constable then intervened, and while warding off the blow with his *lathi* was struck in the abdomen. He did not flinch from his duty and eventually, after a prolonged struggle, succeeded in arresting his assailant, though he was again wounded by the latter's son. The accused were sent up and convicted under sections 324 and 353, Indian Penal Code.
18. Robert Martin Wright, Superintendent of Police, Bengal.	Mr. Wright displayed great gallantry in pursuing at night and arresting single-handed a dangerous armed dacoit.
19. Amrita Lal Singh, head constable, Calcutta Police.	This officer followed up a dangerous armed criminal and at the risk of his life pluckily arrested him with the help of three constables whom he had picked up on the way.
20. Azam Khan, head constable, Bengal Police.	While on ordinary round duty at night this officer observed a man running along a road and challenged him. The man replied by firing a pistol at him. The head constable dodged the shot and felled the assailant with a *lathi* blow on the neck and arrested him. He proved to be a dangerous criminal escaping from the police.
21. Ram Sakal Gossain, head constable, Bengal Police.	This officer displayed conspicuous bravery and incurred great personal risk in following, unarmed and on foot, a gang of twelve armed dacoits who twice turned and fired on him. He did not cease from the pursuit until darkness came on. Some of the men were subsequently identified by him and convicted.
22. Jogendra Chandra Gupta, Sub-Inspector of Police, Intelligence Branch, Criminal Investigation Department, Bengal.	This officer displayed great gallantry and presence of mind in pursuing and arresting a dangerous criminal armed with a loaded revolver.

NOTIFICATION.

POLITICAL.

Delhi, the 2nd January 1918.

No. 14.—In pursuance of section 2 of the Defence of India (Criminal Law Amendment) Act, 1915, IV of 1915, as subsequently amended, the Governor-General in Council is pleased to direct that the following amendment shall be made in the Defence of India (Consolidation) Rules, 1915, namely :—

After Rule 12-A the following rule shall be inserted, namely :—

"12-B. (*1*) Where the Governor-General in Council has by notification in the *Gazette of India* declared any area to be an area which it is necessary to safeguard in the public interest and where, in the opinion of the Local Government, any person has acted, is acting, or is about to act in a manner prejudicial to the safety of such area or any works or buildings therein or to the effective control of any such works, the Local Government may by order in writing direct that such person shall not enter, reside or remain in such area.

Power to order removal of suspects from specified areas.

(*2*) An order made under sub-rule (*1*) shall be served on the person in respect of whom it is made in the manner provided in the Code of Criminal Procedure, 1898, for service of a summons and upon such service such person shall be deemed to have had due notice thereof.

(*3*) Any officer of Government authorised in this behalf by general or special order of the Local Government may arrest, without warrant, any person against whom a reasonable suspicion exists that he has acted, is acting, or is about to act in the manner aforesaid and may, in exercise of the power conferred by this sub-rule, use any and every means necessary to enforce the same.

(*4*) Any officer making an arrest under this rule shall forthwith report the fact to the Local Government and may,

(*i*) if such person is prepared to give security, release him on his executing a bond that he will not, pending receipt of the orders of the Local Government, enter, reside or remain in any area notified under sub-rule (*1*); or

(*ii*) if the person arrested has not been released on a bond, by order in writing commit him, pending receipt of the orders of the Local Government, to such custody as the Local Government may by general or special order specify in this behalf for a period not exceeding fifteen days.

(*5*) When security has been taken under this rule the bond shall be deemed to be a bond taken under the provisions of the Code of Criminal Procedure, 1898, by the District Magistrate of the District within which the area concerned is situated, and the provisions of section 514 of the said Code shall apply accordingly.

(*6*) Whoever, being a person in respect of whom an order has been made under sub-rule (*1*), knowingly disobeys any direction in such order shall be deemed to have contravened these rules."

Explanation.—In this rule the expression "District Magistrate" shall be deemed, in the case of the Presidency Towns and Rangoon, to refer to the Chief Presidency Magistrate.

The scholarships will be awarded by the Government of India to Indians to acquire critical and scientific methods of Western scholarship in Sanskrit and Arabic of the value of £200 a year.

2. The language scholars are not expected to join colleges; but when they join colleges in Oxford or Cambridge with the permission of the Secretary of State for India their allowance will then be increased to £250 per annum.

3. The scholarships are tenable in Europe and for a period of two years in the first instance with possibility of extension.

4. The scholarships will carry with them no conditions as to any subsequent career or service under Government, and no expectations of such employment are held out.

5. The scholarships are open to well-qualified students with a genuine taste for Sanskrit and Arabic studies and to those already employed as Professors of Sanskrit and Arabic.

6. Intending candidates who are natives of Bengal or domiciled in Bengal are requested to make application to the Assistant Director of Public Instruction, Bengal, Writers' Buildings, Calcutta, on forms obtainable from the Personal Assistant to the Director of Public Instruction, Bengal, on or before January 25th, 1918, with a medical certificate of fitness to undergo a course of study abroad.

7. Selected scholars are required to lodge with the Education Adviser for Indian Students at the India Office before their arrival in England the sum of £25 for initial expenses. They will have no claim to payment of any instalment of their scholarship until this deposit has been made.

8. State scholars are required to proceed to England within a reasonable time from the date of their selection so as to arrive there not later than the middle of September and to reside there for the period of their scholarship, unless compelled to return sooner in consequence of ill-health. The scholarship will be payable from the date on which the scholars report their arrival in England. Selected scholars will be provided with a second-class passage to England and also with a second-class return passage if they carry out the instructions of the Secretary of State and complete the full period of residence or are compelled by sickness to return within that period.

9. Necessary travelling expenses of scholars abroad by second class or by third class, if no second be available, will be defrayed by the Secretary of State. Travelling expenses in the United Kingdom will be borne by the scholars themselves. Charges for University and College fees, for private tuition, for books, hotel bills and medical attendance must be borne by the scholars and will not be defrayed by the Secretary of State.

10. For further particulars pages 1143 to 1155 of the *Calcutta Gazette*, dated the 21st June 1916, may be consulted.

W. C. WORDSWORTH,
Offg. Director of Public Instruction, Bengal.

CALCUTTA,
The 22nd December 1917.

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

State Scholarship of £200 per annum tenable in the United Kingdom or, with special sanction, in foreign countries by *Indian Girls or Women.

*[Including those who, though born or temporarily resident in Native States, are domiciled in British India, but excluding subjects of Native States and members of the European and Anglo-Indian domiciled community.]

THE scholarship will be granted for medical, and occasionally for other educational or professional, courses and will be tenable in the United Kingdom or, with special sanction, in foreign countries, for a period of three years in the first instance, with a possibility of extension to five years. The scholarship will carry with it no conditions as to any subsequent career or service under Government, and no expectation of such employment is held out.

2. The scholar will be selected by the Government of India from among candidates nominated by the Local Governments. Intending candidates from Bengal are requested to make application to the Assistant Director of Public Instruction, Writers' Buildings, Calcutta, not later than 31st January 1918. The application should be accompanied by (1) evidence of having obtained a degree of an Indian University in medicine or educational or professional courses; (2) a medical certificate of fitness to undergo, abroad, the course of study proposed; (3) a certificate from some person of recognised position well acquainted with the candidate, to the effect that she is a

native of Bengal or domiciled in Bengal and of purely Indian parentage; (4) full details including the name and occupation of the candidate's father and place of birth, a summary of her academical career in India, and a statement of the course of study proposed to be followed; (5) full address of the candidate.

3. The State scholar is required to proceed to England within a reasonable time from the date of her selection, so as to arrive there not later than the middle of September, and to reside there for the period of her scholarship, unless compelled to return sooner in consequence of ill health. The scholarship will be payable from the date on which the scholar reports her arrival in England. The selected candidate will be provided with a second class passage to England, and with a second class return passage if she completes the full period of residence or is compelled by sickness to return within that period.

4. Charges for University and college fees, for private tuition, for books, instruments, hotel bills, medical attendance and travelling (except the two journeys between England and India) are not defrayed by the Secretary of State.

5. For further particulars pages 1143 to 1155 of the *Calcutta Gazette*, dated the 21st June 1916, may be consulted.

W. C. WORDSWORTH,
Offg. Director of Public Instruction, Bengal.

CALCUTTA, *the 19th December 1917.*

NOTIFICATION.

A State Scholarship of £200 per annum tenable in the United Kingdom by European and Anglo-Indian Girls or Women domiciled in India.

APPLICATIONS are invited for the above scholarship. The scholarship will be granted for educational or medical training and will be tenable in the United Kingdom or, with special sanction, in foreign countries for a period of three to five years. It will, however, be granted in the first instance for three years. The scholarship will carry with it no conditions as to any subsequent career or service under Government, and no expectation of such employment is held out.

2. The term "educational training" will be held to include (*a*) training of a secondary character for the teaching profession, (*b*) training in one or more branches of domestic sciences, (*c*) training as teachers of modern European languages, (*d*) training as music mistresses, (*e*) training as art teachers, (*f*) training in Kindergarten methods.

3. The scholar will be selected by the Government of India from among candidates nominated by the Local Governments. Intending candidates are requested to make application to the Inspector of European Schools, No. 8, Dalhousie Square, Calcutta, from whom further particulars may be obtained, in time to reach the Director of Public Instruction not later than the 1st of February 1918. The applications should be accompanied by (1) evidence of having obtained a degree of an Indian University; (2) a medical certificate of physical fitness to undergo abroad the course of study proposed; (3) a certificate of age; (4) a certificate from some person of recognised position well acquainted with the candidate, to the effect that she is a native of India within the meaning of Statute 33 Vict., cap. 3, section 6, and that her parents are not resident in India for temporary purposes only; (5) the names, addresses and other particulars of the candidate's friends or relatives in the United Kingdom willing to receive her during vacations; and (6) full details including the name and occupation of the candidate's father and

place of birth, a summary of her academic career in India, and a statement of the course of study proposed to be followed in the United Kingdom.

4. The term "Native of India" is not to be interpreted as excluding a person who, though born in a Native State or temporarily residing in a Native State, is domiciled in British India.

5. The selected scholar will be provided with a second class passage to England, and also with a second class return passage if she carries out the instructions of the Secretary of State and completes the full period of residence or is compiled by sickness to return within that period.

CALCUTTA UNIVERSITY.

NOTICE.

APPLICATIONS are invited from candidates who intend to compete for the Coates Memorial Prize for 1918.

The prize will be awarded to the best writer of a thesis on any indigenous drug or drugs to be selected by the competitor himself, subject to the approval of the Dean of the Faculty of Medicine. The writer of the thesis must be a graduate in Medicine of the Calcutta University, who has been engaged in the practice of the profession for at least five years.

The names of the drugs so selected must be submitted to the undersigned for the approval of the Dean of the Faculty of Medicine within three months from the date of this notice. The names of the drugs approved by the Dean of the Faculty of Medicine will, as soon as possible, be communicated to the candidates who submitted their applications within the specified time.

No prize will be awarded for a thesis on any drug which has not been approved by the Dean of the Faculty of Medicine.

The thesis must be written in English and it must be submitted to the undersigned not later than the 30th November 1918 in a sealed cover with the words "Thesis for Coates Memorial Prize" and the name of the writer distinctly stated on it.

P. BRÜHL, *Registrar*,

SENATE HOUSE, *the 9th January 1918.*

CALCUTTA UNIVERSITY.

NOTICE.

APPLICATIONS are invited from candidates for the Maharaja of Darbhanga Scholarship for 1918. Such applications are to reach the undersigned not later than the 30th April 1918.

The value of the scholarship is Rs. 50 per month. The scholarship is tenable for one year only from July 1918 to June 1919.

All graduates and licentiates in Medicine of the Calcutta University are eligible to compete for the scholarship.

Every candidate is required to state in his application the special subject or branch of medical science in which he proposes to carry on investigation or research work and also to state in what respects his investigations appear to him to tend to the advancement of medical studies. He is also required to state in his application the place where he intends to carry on his research work. If in a recognised laboratory or hospital, a recommendation from the head of such laboratory or hospital as to the fitness of the candidate to conduct such work, and the probable value of such work must accompany the application. If the candidate intends to carry on investigations privately, his application must be supported by a certificate to the above effect from a Member of the Faculty of Medicine.

The scholar will be appointed by the Syndicate on the recommendation of the Faculty of Medicine.

During the tenure of his scholarship the scholar will be required to devote at least four hours a day, Sundays and holidays excepted, to research work in the special branch of medical science selected by him and approved by the Board of Studies in Medicine, and his work will be open to inspection by a Member of the Faculty of Medicine to be specially deputed by the Faculty in that behalf.

During the tenure of his scholarship, every Research scholar will be required to submit short quarterly reports of his work to the Member of the Faculty of Medicine who may be deputed to inspect his work and upon whose favourable report the continuance of his scholarship will depend.

Each scholar will also be required to submit, at the end of his tenure of scholarship, a complete statement which must be typewritten and otherwise ready for publication and which will be laid before the Faculty of Medicine, who, if publication be deemed advisable, will decide all questions in connection therewith.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.,

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible, after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—
the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

Questions and Answers.

LIST OF BUSINESS—ITEM NO. 1.

STARRED QUESTIONS.

The following starred questions were replied to :—

By the Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR :—

*1. Will the Government be pleased to state whether it is a fact that non-official visitors to jails in Bengal have been informed that they are not allowed to inspect or inquire about political prisoners in jails, and, if the answer is in the affirmative, whether any steps have been taken to appoint special vistors for such prisoners? Non-official visitors and political prisoners.

Answer by the Hon'ble MR. KERR :—

"It is understood that the question refers to persons detained under Regulation III of 1818. These persons are detained under the warrant of the Government of India and the Regulation provides for the appointment of visitors. Such visitors have been appointed by the Government of India and are distinct from the ordinary jail visitors appointed by the local Government. Instructions have been issued accordingly to the jail authorities."

By the Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR :—

*2. (*a*) Is it a fact that at the Bagerhat Jail in the district of Khulna, Hindu prisoners are compelled to take their food from utensils used by Muhammadans? Hindu prisoners in Bagerhat Jail.

(*b*) If the answer be in the affirmative, will the Government be pleased to state whether they are taking any steps to remedy this state of affairs?

Answer by the Hon'ble MR. KERR :—

"No. There are separate cooking arrangements and utensils for Hindus and Muhammadans."

By the Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR :—

*3. Will the Government be pleased to state how much money is likely to be spent by the 31st March, 1918, out of the special grant of Rs. 2½ lakhs provided in the Budget for 1917-18, for mitigating the effects of floods in the Burdwan Division? Burdwan flood.

Answer by the Hon'ble MR. COWLEY :—

"It is anticipated that the full grant of Rs. 2½ lakhs provided in the budget for 1917-18 for mitigating the effects of floods in the Burdwan Division will be expended before the 31st of March, 1918."

Questions and Answers.

UNSTARRED QUESTIONS.

The answers to the following unstarred questions were laid on the table :—

By the Hon'ble MR. PROVASH CHUNDER MITTER :—

Village Union Committees.

I. (*a*) Will the Government be pleased to give an approximate idea of the total number of Village Union Committees that will have to be formed in order to parcel out all the districts in the Province of Bengal into Village Union Committees?

(*b*) How many Village Union Committees have been formed up to date?

(*c*) At the rate of progress for the last three years, what time is it likely to take to parcel out the whole of the Province into Village Union Committees?

(*d*) What is the existing machinery for starting, guiding and supervising Village Union Committees?

(*e*) Is the existing machinery well able to cope with the work indicated in clause (*d*)?

Answer by the Hon'ble MR. O'MALLEY :—

" (*a*) Taking the average area of a Union as 10 to 12 square miles, the number is 7,000 to 7,180.

(*b*) The total number sanctioned up to date is 233.

(*c*) Ten Union Committees were formed in 1914-15, 8 in 1915-16, and 72 in 1916-17 : the formation of 77 more Unions has been sanctioned since the end of the last year. The rate of progress in the past does not afford a criterion of the rate that may be possible in the future. It is hoped that when the Village Self-Government Bill passes into law, there will be a rapid extension of village self-governing bodies and that eventually there will be a network of them throughout the Presidency.

(*d*) Recently the District Board of Murshidabad has submitted proposals for starting Union Committees, but with this exception the initiative has hitherto been taken by the local officers of Government. The Union Committees are under the control of the District Boards, but in practice they are dependent for guidance and supervision on the District and Subdivisional Officers, and also on Circle Officers in districts in which such officers have been appointed.

(*e*) The number of Union Committees has, until recent years, been so small that the machinery has been adequate. Progress is at present checked by the limited number of Circle Officers available, but it is hoped to increase the number of these officers very considerably during the next few years."

By the Hon'ble MR. PROVASH CHUNDER MITTER :—

Co-operative movement in Bengal.

II. Taking into account the facts that the total number of members of the Co-operative Credit Societies in Bengal is only 121,833 (including non-agricultural societies) and the total agricultural population is over 33 millions, will the Government be pleased to give an approximate idea as to what time it is likely to take to confer the benefits of the co-operative movement on at least half the agricultural population of Bengal? Will the Government be pleased to state whether they are taking any steps for the expansion of the movement?

Questions and Answers.

Answer by the Hon'ble MR. KERR :—

" A statement is laid on the table showing for each year since the beginning of the Co-operative movement the number of societies and the number of members in the districts which now constitute the Presidency of Bengal. The Hon'ble Member is reminded that the rate of progress shown by this statement is far more rapid than was the rate of progress of Raiffeisen Loan Banks in Germany. The first German bank was opened in 1849, the second in 1854, the third in 1862, and the fourth in 1868. It was not until 1880 that they began to multiply perceptibly, and the number of 2,000 was reached in 1896, 37 years after the inauguration of the first bank. Government are not prepared to prophesy regarding the date by which half of the agricultural population of Bengal will be receiving the benefits of the Co-operative movement.

The question of increasing the staff of the department with a view to more rapid expansion is under consideration."

Statement referred to in the answer by the Hon'ble MR. KERR *to question No. II (unstarred) asked by the Hon'ble* MR. PROVASH CHUNDER MITTER *at the Council Meeting of the 18th December, 1917, showing the progress of the Co-operative movement in Bengal during the period 1904-05 to 1916-17.*

Year.	Number of Co-operative Societies.	Number of members.
1904-05	20	957
1905-06	34	1,767
1906-07	83	4,621
1907-08	225	8,013
1908-09	311	11,918
1909-10.	473	20,732
1910-11	719	29,674
1911-12	943	38,569
1912-13	1,121	57,061
1913-14	1,663	90,363
1914-15	1,992	107,118
1915-16	2,243	121,833
1916-17	3,086	143,448

By the Hon'ble MR. PROVASH CHUNDER MITTER :—

III. (*a*) Has any officer been appointed to inquire into the question of primary education in Bengal as promised by the Hon'ble Sir S. P. Sinha at the meeting of the Council held in September? Primary education in Bengal.

(*b*) If so, who has been so appointed?

(*c*) When did he start his work and when is he likely to submit his report?

Answer by the Hon'ble MR. O'MALLEY :—

" Mr. M. P. West, of the Indian Educational Service, has been placed on special duty for six months with effect from the 1st November, 1917, to conduct a survey of the state of primary education in Bengal. He is expected to submit his report on the conclusion of his special duty."

By the Hon'ble MR. PROVASH CHUNDER MITTER :—

IV. Will the Government be pleased to state the reason for not admitting eligible female students into the Calcutta Medical College? Female medical students.

Questions and Answers.

Answer by the Hon'ble MR. DONALD :—

" Government welcome the opportunity of giving a general statement of the facts of this case, which will incidentally answer questions IV—VII.

In 1884, the late Maharani Svarnamoyee came forward to supplement the efforts which were then being made by the local Government to encourage the provision of qualified female medical practitioners, and made a donation of Rs. 1½ lakhs for the promotion of female medical education. She imposed no restrictions upon the mode in which her gift should be administered, but it was understood at the time that she would be gratified if the money was expended on the construction of a hostel for Indian ladies studying medicine in Calcutta. Arrangements were consequently made for the construction of the hostel in the grounds of the Medical College, Calcutta, which now bears the name of the donor, at a total initial cost of Rs. 1,66,369, the difference between that sum and the amount given being borne by Government. Subsequent to that date, major improvements have been made in the hostel at a cost of Rs. 9,300, which has also been paid by Government. The management and control of the hostel was at first entrusted to the Bengal Branch of the Committee of the Dufferin Fund, but since 1913 it has been in the hands of the Governing Body of the Medical College; the whole cost of upkeep is met from provincial revenues, and the staff attached to it are treated as Government servants. There are at present 18 lady students at the College, of whom only one is of pure Indian nationality. In the last five years only 16 lady students have qualified, and of these only two bear Indian names; out of the 18 lady students referred to only 11 come from Bengal.

As is known, the number of male students in the Medical College has increased largely in recent years, the total being returned as 1,040 in 1917-18, as compared with 149 in 1889-90. It is also well known that more students apply for admission to the College than can be accommodated. Apart from this increase in the numbers to be taught, the expansion of the activities of the institution in many directions has led to an acute pressure on the space available within its boundaries, and it has become very desirable to find more accommodation for various purposes. Objection, again, has frequently been taken to the education of male and female medical students in the same institution, and there are various drawbacks attaching to arrangements for a few ladies only in a college of over 1,000 students of the other sex.

In these circumstances, a proposal was mooted that the hostel should be taken over for the general work of the College, while arrangements should be made for the education of lady students elsewhere. The Lady Hardinge Medical College at Delhi was started with the deliberate purpose of giving separate medical education to ladies in an institution staffed by ladies, and if the female students who had hitherto resorted to the Calcutta Medical College betook themselves in future to Delhi, their training could be completed in entirely suitable surroundings. Pending a final decision on this suggestion, the admission of more lady students to the Medical College was suspended, and it may be mentioned that no Indian student has, as a fact, joined the College since 1911-12; in any event, the present arrangements will be continued until those at present under tuition complete their training.

There has been subsequent discussion regarding the precise facilities which might be offered to ladies proceeding for this purpose to Delhi and enquiries have been made of the authorities of the Delhi College as to the possibility of admission there of ladies from this province. No final decision has been come to in the matter, and there is no wish to deal with the question without hearing the views of those interested in it. If the latter will communicate their opinions they will be duly considered.

Questions and Answers.

There is no intention of depriving ladies in Bengal of the opportunity for medical training; the scheme outlined would ensure this opportunity in circumstances more suitable than those which at present exist, while incidentally facilitating the work of the Medical College in the manner described. The action which has been taken has been with the knowledge of the Hon'ble Maharaja Manindra Chandra Nandi, of Cossimbazar, as representing the deceased donor.

As regards the specific reference in question VII of the Eden Hostel, that institution is excellently fitted for the training of men and women in gynæcology, but it is not a xenana hostel; it is already fully utilised for purposes of training, and is in fact almost inadequate for the numbers of students under instruction."

By the Hon'ble MR. PROVASH CHUNDER MITTER :—

V. (*a*) Is it a fact that the late Maharani Swarnamoyee built a hostel for facilitating the study of medicine by women in India? Hostel for female medical students.

(*b*) If so, is that building a trust building in the possession of the Government?

Answer by the Hon'ble MR. DONALD :—

" The Hon'ble Member is referred to the statement made in reply to question No. IV."

By the Hon'ble MR. PROVASH CHUNDER MITTER :—

VI. If it is a fact that eligible female students are no longer admitted into the Medical College, will the Government be pleased to state how it is proposed to facilitate medical studies amongst female students especially in this Province? Medical studies amongst female students.

Answer by the Hon'ble MR. DONALD :—

" The Hon'ble Member is referred to the statement made in reply to question No. IV."

By the Hon'ble MR. PROVASH CHUNDER MITTER :—

VII. (*a*) Are the Government aware of the opinion that has been expressed that the Eden Hospital is one of the best, if not the best, institution for the medical training of women in India, and especially for the relief of zenana women? Medical training for women.

(*b*) Is this institution fully utilised for such training?

Answer by the Hon'ble MR. DONALD :—

" The Hon'ble Member is referred to the statement made in reply to question No. IV."

By the Hon'ble MAULVI A. K. FAZL-UL-HAQ :—

VIII. (*a*) Is it a fact that Muhammadan boarders have been directed to remove from the boarding quarters attached to the Dacca College to rooms in the Secretariat building? Muhammadan student boarders at Dacca.

(*b*) What were the total charges, item by item, which boarders had to pay in the College boarding quarters and what will be the total charges, item by item, in the Secretariat?

(*c*) Will the Government be pleased to state, in detail, the reasons which led them to remove the Muhammadan students from the College boarding quarters to the Secretariat?

Questions and Answers.

Answer by the Hon'ble MR. O'MALLEY :—

" (*a*) Yes.

(*b*) The charge for Muhammadan students in the Dacca College hostel was only Re. 1-14 a month, viz., Re. 1 on account of electric light, 10 annas on account of conservancy and 4 annas on account of the hire of furniture. The number of Muhammadans in the College hostel was 34, and the same number of boarders in the Secretariat building pay Re. 1-14 or, if they provide their own furniture, Re, 1-10. Others pay Rs. 3-8 a month. The question whether the scale of fees should be revised is under the consideration of Government.

(*c*) It was decided to open a hostel in the Secretariat building in order that Muhammadan students living in unsuitable localities might be provided with good hostel accommodation and brought near the College, the gymnasium and the playing-fields; and it was considered desirable that those living in the College hostel should live together with their Muhammadan fellow-students.

By the Hon'ble MAULVI A. K. FAZL-UL-HAQ :—

Conversion of Mohsin grants into scholarships.

IX. (*a*) Will the Government be pleased to state whether leading non-official Muhammadan gentlemen were consulted before the conversion of Mohsin grants into scholarships was decided upon?

(*b*) If so, will the Government be pleased to lay on the table copies of opinions received from such sources?

Answer by the Hon'ble MR. O'MALLEY :—

" (*a*) It is presumed that the Hon'ble Member refers to the conversion into stipends of the grant given from the Mohsin Fund to schools and colleges on account of short-fee payments of Muhammadan pupils and students. The answer is in the negative.

(*b*) In view of the answer to (*a*) this question does not arise."

By the Hon'ble MAULVI A. K. FAZL-UL-HAQ :—

Vacancies in the Alipore Judge's Court.

X.—Is it a fact that recently on the occasion of a few vacancies in the Alipore Judge's Court, Muhammadan applications were not entertained, and that the vacancies were all filled up by the appointment of Hindus?

Answer by the Hon'ble MR. KERR :—

" Recently there were nine vacancies for probationers in the office of the District Judge, 24-Parganas, and there were 105 applicants, of whom seven were Muhammadans. The District Judge considered their applications, but was unable to appoint any of them on that occasion Subsequently, when three more vacancies occurred, the Judge sent for six of the Muhammadans who had previously applied. Only two, however, appeared; one was over age, but the other was appointed."

By the Hon'ble MAULVI A K. FAZL-UL-HAQ :—

Grievances of a Muhammadan probationer.

XI.—(*a*) Will the Government be pleased to state whether the following statement is correct :—

> One Tejarat entered the Jessore Collectorate as a probationer, after having passed the Entrance Examination and served at Magura as a comparing clerk for five years since 1912. His services were dispensed with owing to a fall in copying fees. At about this time, there was a vacancy in the Collector's office and many Muhammadans, including Tejarat, applied. The appointment was given to a Hindu who was much junior to Tejarat?

Questions and Answers.

(*b*) Will the Government be pleased to state the total number of ministerial officers in the Jessore Collectorate, and also how many of these are Muhammadans?

(*c*) Will the Government be pleased to state why the appointment in the vacancy referred to in clause (*a*) above was not given to Tejarat or to any Muhammadan and also why a Hindu, junior to Tejarat, was selected?

Answer by the Hon'ble MR. KERR :—

"(*a*) and (*c*) The Hon'ble Member is referred to the answer given to the question on the same subject [LV (*c*)] asked by the Hon'ble Maulvi Abul Kasem in the Council meeting held on the 20th November 1917.

(*b*) There are 59 ministerial officers in the Jessore Collectorate, of whom 14 are Muhammadans."

By the Hon'ble MAULVI A. K. FAZL-UL-HAQ :—

XII.—(*a*) Will the Government be pleased to lay on the table all papers relating to the establishment of the Permanent Committee for the supervision of Muhammadan Marriage Registrars? Supervision of Muhammadan Marriage Registrars.

(*b*) What were the objects for which the Permanent Committee was originally established and on what principles have appointments to the Permanent Committee been made in the past?

(*c*) What has been the average annual expenditure on account of the travelling allowances of members of the Permanent Committee for the period—

(*i*) from the establishment of the Committee up to the 30th November, 1917;

(*ii*) from the constitution of the present Presidency up to the 30th November, 1917.

Answer by the Hon'ble MR. KERR :—

"(*a*) The Permanent Committee for the supervision of Muhammadan Marriage Registrars was constituted by a resolution of the Government of Bengal dated the 31st May, 1884. A copy of paragraph 9 of that resolution which relates to the Permanent Committee, and a copy of the rules for their guidance referred to therein are laid on the table.

(*b*) The objects are stated in the rules which have been laid on the table. Muhammadan gentlemen who were believed to be in a position to advise Government regarding the administration of the Act have been appointed to the Committee.

(*c*) (*i*) Travelling allowance was first paid to Eastern Bengal members in 1908 and to Western Bengal members in 1916. No figures are available for the period before April 1, 1913

Rules for the guidance of the Permanent Committee for the supervision of Muhammadan Registrars appointed under Act I (B.C.) of 1876, and of Kazis appointed under Act XII of 1880. (*Referred to in the answer by the Hon'ble* MR. KERR *to question No. XII asked by the Hon'ble* MAULVI A. K. FAZL-UL-HAQ *at the Council Meeting of the 18th December, 1917.*)

1. The Committee shall consist of five or more members appointed by the Local Government, the appointments being notified in the *Calcutta Gazette*. The Inspector-General of Registration for the time being shall be *ex officio* President of the Committee. Three members to form a quorum. In case of the death, resignation, or inability (from any cause) to act of any member, the President shall submit a fresh nomination for the consideration of Government.

Questions and Answers.

2. The Committee shall meet at the office of the Inspector-General of Registration on first Tuesday in every alternate month, commencing from January, provided there is business to necessitate its assembling so often. Due notice of the matters to be laid before the Committee shall be circulated beforehand. In case of any urgent business, or upon the requisition of three members, the President shall call a special meeting of the Committee for the consideration of such business.

3. The Committee shall have power to deal with the following matters :—

(*1*) The consideration of all nominations to the post of Muhammadan Registrars, made by the District Registrars under Rule 2 of the rules framed under the Muhammadan Marriage Registration Act, for recommendation to Government.

(*2*) The temporary suspension or removal of Muhammadan Registrars, subject to the submission of a report for the final orders of Government.

(*3*) The consideration of all nominations to the post of Kazi, made by District Registrars, for recommendation to Government.

(*4*) The temporary suspension or removal of Kazis, subject to the submission of a report for the final orders of Government.

4. Subject to the approval of Government, the Committee shall be empowered to arrange for the examination from time to time of all Muhammadan Registrars :—

(*1*) In the Muhammadan law of marriage and divorce.

(*2*) Act I (B.C.) of 1876 and its rules.

Copy of paragraph 9 of Resolution, dated the 31st May, 1884, referred to in the answer by the Hon'ble MR. KERR *to unstarred question No. XII asked by the Hon'ble* MAULVI A. K. FAZL-UL-HAQ *at the Council Meeting of the 18th December, 1917.*

9. Mr. Rivers Thompson also approves of the rules proposed for the guidance of the Permanent Committee for the supervision of Muhammadan Registrars, appointed under Act I (B.C.) of 1876, and of Kazis, appointed under Act XII of 1880.

The Committee propose that this Permanent Committee should consist of five members, the Inspector-General of Registration for the time being to be *ex officio* President, three members to form a quorum, and the appointments to be gazetted. The Lieutenant-Governor accordingly directs the establishment in Calcutta of a Permanent Committee, which will be composed of the gentlemen named below, if they be willing to serve on the Committee :—

The Inspector-General of Registration—Member and President, *ex officio*.

The Hon'ble Syed Amir Ali.

Nawab Abdul Luteef, C.I.E.

Nawab Mir Muhammad Ali.

Muhammadan Marriage Registrars.

XIII.—(*a*) How many cases of—

(*i*) appointment;

(*ii*) transfer; and

(*iii*) punishment

of Muhammadan Marriage Registrars have come up before the Permanent Committee since the creation of this Presidency up to the 30th November, 1917?

(*b*) In how many cases were the recommendations of the Committee in agreement with the recommendations of District Registrars, and in how many cases did the Committee overrule the recommendations of District Registrars?

(*c*) Is it a fact that some District Registrars protested against the decisions of the Permanent Committee in some cases?

Questions and Answers.

(*d*) Is it a fact that some District Registrars have approached Government for the abolition of the Permanent Committee?.

(*e*) Is it a fact that Government propose to abolish the Permanent Committee at Calcutta?

(*f*) If the answer to clause (*e*) be in the affirmatve, will the Government be pleased to state, in detail, the reasons which have led the Government to decide upon the proposed abolition?

(*g*) Was Muhammadan opinion consulted in the matter? If so, will the Government be pleased to state the names of the gentlemen so consulted and also lay on the table their opinions and any other papers relating to the subject?

(*h*) Will the Government be pleased to state what new scheme they propose to adopt as a substitute for the Permanent Committee?

Answer by the Hon'ble MR. KERR :—

" (*a*)—

(*i*) 89.
(*ii*) 36.
(*iii*) 11.

(*b*) The Permanent Committee agreed with the District Registrar in 106 cases and disagreed in 23 cases: in the remaining 7 cases District Registrars had made no proposal.

(*c*) No such case had been brought to the notice of Government, but it has been ascertained from the Inspector-General that in one case the District Registrar expressed his dissatisfaction with the selection of a candidate made by the Permanent Committee.

(*d*) No.

(*e*), (*f*), (*g*) and (*h*) The Hon'ble Member appears to be under a misapprehension. Government have no intention of abolishing the Permanent Committee, but they have decided that local Muhammadan Committees will be in a better position than the Permanent Committee to advise them on the subject of appointments. Further details as regards this decision will be found in Resolution No. 1410 T.R. of the 24th September, 1917, which was published in the *Calcutta Gazette* of the 26th September, 1917."

XIV. Will the Government be pleased to indicate in what respects economy in public expenditure has been effected in consequence of the war in the various departments of the public service under their control? Economy in public expenditure.

Answer by the Hon'ble MR. DONALD :—

" It is impossible to give a detailed account of the economies effected in public expenditure in consequence of the war, since, as a result of the restriction of expenditure to schemes of imperative urgency, the preparation of new schemes has been largely suspended, while prepared schemes, not of an urgent character, have not been examined with a view to their relative importance and to the provision of funds in the budget. It may be said generally that in consequence of the war, Government have curtailed all heavy fresh expenditure which could not be justified by special considerations."

Office of the Registrar of Co-operative Societies.

XV. (*a*) Is it a fact that the office of the Registrar, Co-operative Societies has been removed from Writers' Buildings?

(*b*) If so, will the Government be pleased to state, in detail, the reasons which led Government to this decision?

Answer by the Hon'ble MR. KERR :—

"(*a*) and (*b*) The office of the Registrar, Co-operative Societies, will shortly be removed from Writers' Buildings to No. 6, Dacre's Lane, in order to provide space which is urgently required for the Press in Writers' Buildings."

Inter-departmental consultations by the Registrar of the Co-operative Societies.

XVI. (*a*) Is it necessary for the Registrar, Co-operative Societies, to have inter-departmental consultations with other departments?

(*b*) Who are the officers with whom the Registrar is most likely to have such consultations?

(*c*) In case such officers and the Registrar are located in different buildings, how will such consultations be carried on in future?

(*d*) Will the Government be pleased to state whether such consultations can generally be carried on by correspondence?

Answer by the Hon'ble MR. KERR :—

"(*a*) Yes.

(*b*), (*c*) and (*d*) The Registrar frequently has occasion to consult the Revenue Secretary and the Director of Agriculture; such consultations are generally conducted verbally and not by correspondence; the removal of the Registrar's office to No. 6, Dacre's Lane, will not prevent verbal consultation."

Cost of removal of the office of the Registrar, Co-operative Societies.

XVII. Will the Government be pleased to state the expense that will have to be incurred in removing the office of the Registrar, Co-operative Societies, from Writers' Buildings as—

(*i*) initial expenditure; and
(*ii*) recurring expenditure?

Answer by the Hon'ble MR. KERR :—

"The removal of the Registrar's office will involve some initial expenditure on racks and furniture, the amount of which has not yet been ascertained. As No 6, Dacre's Lane, is the property of Government, there will be no additional recurring expenditure."

Proposed local allowances to Government servants on small pay.

XVIII. (*a*) Is it a fact that the bulk of the Government servants drawing comparatively small pay have been put to difficulties on account of the abnormal increase in the prices of the necessaries of life due to the war?

(*b*) Are the Government contemplating remedial measures to afford them some sort of relief?

Questions and Answers.

(*c*) Are the Government aware of any action taken by the Government of Bombay relating to the appointment of a Committee to consider the question of the grant of local allowances, particularly in the case of Government servants drawing less than Rs. 100 per mensem, and of house-rent allowances for menial employees during the period of the war?

(*d*) If the answers to clauses (*a*) and (*c*) are in the affirmative, will the Government be pleased to state—

(*i*) whether they contemplate taking similar action in Bengal; or

(*ii*) whether they propose to meet the situation in some other way?

(*e*) If the answer to clause (*c*) is in the negative, are the Government considering the desirability of obtaining the necessary particulars from the Government of Bombay, with a view to the adoption of a similar measure in Bengal?

Answer by the Hon'ble MR. DONALD :—

" (*a*) All Government servants on fixed pay are suffering from the increase in the prices of the necessaries of life due to the war.

(*b*) and (*d*) No general scheme or enquiry is at present in contemplation.

(*c*) and (*e*) Government understand that such a Committee has been appointed, but have no definite information as to the terms of reference to it. They will take steps to ascertain the precise position."

Water-hyacinth in Eastern Bengal.

XIX. (*a*) Has the attention of Government been drawn to the fact that a species of water-hyacinth, commonly called *kachuri* in the vernacular, has been spreading far and wide throughout the eastern districts, fouling water and in many places obstructing navigation?

(*b*) Is it a fact that these plants contain germs of malarial poison, or has any investigation shown that they are in any way injurious to the health of human beings?

(*c*) If so, are the Government considering the desirability of instructing Magistrates, whether as District Officers or as Chairmen of District Boards, to take prompt measures through the thana officers, or the village panchayat, or any other agency available, to remove the obnoxious plants?

Answer by the Hon'ble MR. O'MALLEY :—

" (*a*) and (*c*) The Hon'ble Member is referred to the answer to question No. XXII asked at the Meeting of the Council on the 13th December, 1916.

(*b*) and (*c*). Government are advised that water-hyacinth does not contain germs of malaria poison, but that there is a danger of the plant obstructing waterways and assisting to bring about the silting up of tanks and thus indirectly affecting health conditions. The value of the plant as a manure when reduced to ash has been established and, as explained in a press *communiqué*, dated the 25th June, 1917, of which a copy is laid on the table, 4,000 maunds of ash have been purchased by Messrs. Shaw, Wallace & Co. and 550 maunds by the Government farm at Dacca, the total weight of the plant destroyed being over 17,000 tons. It is hoped that increasing quantities will be destroyed as the knowledge of its commercial value for manurial purposes spreads among the cultivators."

Copy of Press Communiqué *referred in the answer by the Hon'ble* MR. O'MALLEY *to question No. XIX (unstarred) asked by the Hon'ble* BABU AMBIKA CHARAN MAZUMDAR *at the Council Meeting of the 18th December, 1917.*

Calcutta, the 25th June, 1917.

Press *Communique* by—The Secretary to the Government of Bengal, Revenue Department.

IN a Press *communiqué* issued in April 1916 on the subject of water-hyacinth (*Eichornia crassipes*) it was stated that there was good reason to believe that this weed might, on account of the potash contained in it, prove of considerable value as a manure. It was further stated that field tests would be carried out at Dacca in the season 1916 to test the agricultural value of water-hyacinth.

The results of these tests are now available, and will shortly be published as a Pusa Bulletin* under the joint names of Mr. Finlow, Government Fibre Expert, and Mr. McLean, Deputy Director of Agriculture, Eastern Bengal. They confirm in every way the hopes expressed regarding the value of water-hyacinth as a manure.

* Water-hyacinth : Its value as a manure by R. S. Finlow, B. Sc., F. I. E., and K. McLean, B. Sc.

Jute was used at the test crop and the hyacinth was employed in two forms, viz. :—

(*a*) In the rotted state (37 maunds 10 seers=2,980 lbs. per acre).

(*b*) As ash after burning (365 lbs. of ash, containing 26 per cent. potash per acre).

Besides the ordinary check plots a number of other plots were manured with amounts of pure potash salts equivalent to those applied in the hyacinth. The tests showed that hyacinth, either rotted or in the form of ash, is a valuable manure for jute especially on the red soils of the Presidency, where its application may increase the yield of fibre by as much as 6 maunds per acre.

Similar increases in yields from plots manured with potash salts showed that the valuable constituent of hyacinth, as far as jute is concerned, is its potash.

It was found that the ash varies considerably in composition, its potash content having been found as low as 10 per cent., and as high as 34 per cent., the higher figure being obtained from a sample of hyacinth grown in deep water. Owing to the danger of loss of potash from the dried or rotted plant, it will be found more profitable to collect the hyacinth in the dry weather, *i.e.*, from the middle of October till the end of March. Messrs. Shaw, Wallace & Co. of Calcutta have offered to buy any quantity of hyacinth ash at the rate, until further notice, of Rs. 4 per commercial unit of potash delivered in Calcutta ; thus the price paid for ash will vary according to the quantity of potash contained, ash containing 10 per cent. of potash fetching Re. 1-4 a maund, and ash containing 30 per cent. of potash fetching Rs. 4-4 per maund delivered in Calcutta. This firm have already purchased over 4,000 maunds of ash at the above rates. This, along with 550 maunds purchased by the Dacca Government farm, means the destruction of over 17,000 tons of the weed. It also means the addition of over 33 tons of potash to the stock of manure in Bengal.

Hunger-strike by *détenus* in the Alipore Jail

XX. (*a*) Are the Government in possession of any information showing that it is in the contemplation of some of the State prisoners under Bengal Regulation III of 1818 and *détenus* under the Defence of India Act, now in the Alipore Central Jail, to go on hunger-strike owing to alleged hardships in that jail?

(*b*) Is it true that some of them have actually refused to take any food since the 1st December current?

(*c*) Are the Government considering the advisability of appointing a few non-official members of this Council to visit the State prisoners and *détenus* now in the Central Jail at Alipore, and, under proper safeguards, to inquire into and report on any complaints they may have to make as regards their treatment in that jail?

Answer by the Hon'ble MR. KERR :—

"(*a*) and (*b*) Some of the State prisoners in the Alipore Jail abstained from food on the 30th November. They definitely stated that they had no complaints as to their treatment in jail or as to the food or clothing supplied, but they refused to take their food as a protest against their incarceration.

(*c*) Any complaints that the State prisoners and *détenus* wish to make can be made direct to Government. Government do not consider it desirable to set up a Committee intermediate between themselves and the State prisoners."

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR, put the following Supplementary question :—

"Are the Government in possession of any information regarding the removal of one of these *détenus* from the Alipore Central Jail to Amraoti, and that he is now in a serious condition on account of his abstention from food. If so, will the Government be pleased to state what steps they are taking in regard to this case?"

The Hon'ble SIR HENRY WHEELER said :—

"I think, Sir, that this is a detail which hardly arises out of the question of the Hon'ble Member. I may, however, tell him that the latest information we have about this man was that he had taken food."

(*c*) Are such statements usually recorded during the period of detention of persons under rule 12 A of the Defence of India Rules?

(*d*) Is it a fact that the arrested persons are taken away several times in each case from their place of temporary detention, under rule 12 A to the office of the " S.B." or " I.B." of the Criminal Investigation Department in Calcutta for the purpose of making such statements?

(*e*) Are the Government aware of the general impression in the public mind that these persons are subjected, at the said office, to various kinds of torture unless they make these statements?

Answer by the Hon'ble MR. KERR :—

" (*a*), (*b*) and (*c*) Statements of persons arrested under rule 12 A are recorded by officers of all ranks, from Superintendents to Sub-Inspectors. They are recorded sometimes in the home of the person arrested, sometimes in the jail and sometimes in the Police office. There is no rule prescribing the attendance of superior officers, but in fact they are frequently present.

(*d*) Under the authority of Government a person detained in a jail under rule 12 A is sometimes taken to the offices of the Criminal Investigation Department in Calcutta for the purposes of the inquiry.

A deceased *détenu's* servant.

XXX. (*a*) With regard to the statement that Haridas's servant " undertook to cater for Haridas if the Inspector guaranteed payment," and that " this was done," will the Government be pleased to state where and when this arrangement was made, and for what reasons?

(*b*) For how long was this arrangement continued, and how much was the servant paid in pursuance thereof?

(*c*) Did the servant refuse to cater for Haridas at any time, and was any representation made orally by Haridas, before the said arrangement was made?

(*d*) What is the name and address of the said servant?

Answer by the Hon'ble MR. KERR :—

" The arrangement was made to meet the possibility of Haridas running out of funds before the grant of an allowance for which he had not applied at the time of his death. The name of the servant was Bonamali Das. Government have no further information on the subject."

Disposal of the remains of a deceased *détenu*.

XXXI. (*a*) With reference to the statement that the remains of Haridas were consigned to the Ganges, will the Government be pleased to state whether it is the usual practice in that part of the country thus to dispose of any unclaimed body after *post-mortem* examination?

(*b*) If not, why was this course adopted in this case?

Answer by the Hon'ble MR. KERR :—

" (*a*) The answer is in the affirmative."

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

Treatment of mentally deranged prisoners.

XXXII. (*a*) Will the Government be pleased to make a statement giving the name, age, and period of detention undergone, of each inmate of the jails in the Presidency of Bengal, who has been treated, or kept under observation, for mental derangement during the last six months?

(*b*) In which of these instances were the persons kept in solitary cells, and for what periods were they so kept, previous to such treatment or observation?

(*c*) How and where are each of these persons being treated now?

Answer by the Hon'ble MR. KERR :—

" During the last six months inmates of different jails in the Presidency were under observation for mental derangement for varying periods. Eventually these men have been, or will be, disposed of by the orders passed in their individual cases. The Governor in Council considers that no useful purpose would be served by the supply of the further details asked for, but if the Hon'ble Member desires information regarding any individual case he should refer particulars of it to the Secretariat."

Promotion of members of the Provincial Judicial Service.

XXXIII. (*a*) Will the Government be pleased to state the principle governing the promotion of the members of the Provincial Judicial Service?

(*b*) Will the Government be pleased to state whether the quality or quantity of work is taken into consideration in deciding whether any particular member of the Provincial Judicial Service is efficient or not?

(*c*) Is there any prescribed mode of judging the quality of the work done by the members of the Provincial Judicial Service? If so, what is that mode?

(*d*) Is there any circular issued by the Hon'ble High Court or the Government which insists upon any particular outturn of judicial work by the members of the Provincial Judicial Service?

(*e*) Is it a fact that there is a feeling of competition amongst the said members about the quantity of work done by them and that this has seriously affected the quality of their work?

Answer by the Hon'ble MR. KERR :—

"(*a*) The Hon ble Member is referred to the answer given to the Hon'ble Mr. Z. R. Zahid Suhrawardy at the meeting of the Bengal Legislative Council on the 13th December, 1916, on the same subject.

(*b*) The quality of an officer's work is the main consideration As between officers doing work of equal merit, consistent and unexplained deficiency in quantity is an element necessarily taken into account.

(*c*) No.

(*d*) No.

(*e*) Neither the Government nor the High Court can speak as to the feeling of competition. There is no reason to believe that there has been any falling off in the quality of the work done."

By the Hon'ble BABU AKHIL CHANDRA DATTA :—

Damage of crops by insect pests.

XXXIV. (*a*) Will the Government be pleased to state whether any attempt has been made to ascertain the total value of the crops damaged by insect pests?

(*b*) If so, what is the total loss?

(*c*) What steps, if any, have been taken by the Agricultural Department in regard to these insect pests?

(*d*) Is there any truth in the statement that the Agricultural Department does not possess sufficient knowledge and staff to deal with these pests?

(*e*) Is it also true that the Agricultural Department has so far done nothing in this direction and that the present Divisional Officers of that Department have given no help in any case of outbreak of insect pests?

(*f*) Is it in the contemplation of Government to employ special investigating officers to deal with the whole matter?

Questions and Answers.

Answer by the Hon'ble MR. KERR :—

" (*a*) No.

(*b*) The information is not available.

(*c*) The officers of the Agricultural Department visit the places where insect pests make their appearance, and suggest and demonstrate remedial measures. The expert officers of the department visited 35 localities in 1916-17 in this connection. The Economic Botanist is now engaged in testing the practical value of suggested remedies for insect pests and in investigating plant pests in general, in order to discover effective remedies.

(*d*) The allegation is not correct. The Department of Agriculture, like other scientific departments, does not claim to possess a complete knowledge of the subjects which it is investigating: an increase of staff would facilitate investigation, but an increase of the staff of other branches of the department is considered by Government to be more urgently required.

(*e*) It is not true that the Agricultural Department has done nothing with regard to insect pests or that the Divisional Officers have given no help. Particulars of the assistance given will be found in the annual report of the department, which will shortly be published.

(*f*) Government employ an Entomological Collector who investigates insect pests."

By the Hon'ble BABU AKHIL CHANDRA DATTA :—

XXXV. (*a*) Do the Agricultural Department take an annual survey of the ufra tract with a view to ascertain the progress of the disease—its appearance and re-appearance over certain tracts? Annual survey of ufra tract.

(*b*) Will the Government be pleased to state the way in which the special annual grant of the Government of India, in this connection, is being spent in Bengal?

(*c*) Is any experiment of any description conducted in Tippera and Noakhali?

(*d*) Is there any special officer of the Department appointed to look after the disease?

(*e*) Is so, where are his headquarters?

(*f*) How long has he been engaged and what has been the result of his investigations?

(*g*) Have the Government considered the desirability of training an Indian either here or in foreign countries, who will make a special study of insects and ufra?

Answer by the Hon'ble MR. KERR :—

" (*a*) A survey of the ufra-infected tract in Dacca district was conducted in 1915-16, and of the tracts in Bakarganj and Faridpur districts in 1916-17. No annual survey takes place, but observations are taken of the spread of the disease and of its relative intensity in different years.

Questions and Answers.

(*b*) The Government of India have made no special annual grant for the treatment of ufra.

(*c*) Yes.

(*d*) The Mycological Collector is principally employed in studying ufra: he works under the supervision of the Imperial Mycologist at Pusa, who is devoting special attention to this disease.

(*e*) The headquarters of the Mycological Collector are at Dacca.

(*f*) The Mycological Collector was appointed eight years ago. For detailed information as regards the present state of investigations the Hon'ble Member is referred to the report which will shortly be published.

(*g*) Government already employ Indian officers who have been trained in Entomology and Mycology on the study of insects and of ufra. It has recently been decided that for the present the entomological and mycological work of Bengal can be suitably controlled from Pusa, with the reservation that a special officer may be required for a time in connection with ufra."

Damage done by Ufra in certain districts.

XXXVI. (*a*) Will the Government be pleased to state the total damage done by Ufra in the districts of Tippera, Noakhali and Dacca since 1913?

(*b*) If this information is not readily available, will the Government be pleased to lay the same on the table at a subsequent meeting of the Council?

Answer by the Hon'ble MR. KERR :—

"(*a*) and (*b*) The information is not available, nor are there materials for obtaining it."

Agricultural officers in Bengal.

XXXVII. (*a*) Will the Government be pleased to state the names of the officers of the Agricultural Department in Bengal, in the Imperial, Provincial and Subordinate Services, and state their educational attainments, period of their service, the pay of the grade to which they belong and their present salary?

(*b*) To what grades, if any, do the scientific assistants of the experts belong, and what are the names of such officers and their educational attainments?

Answer by the Hon'ble MR. KERR :—

"(*a*) A statement containing the information is laid on the table.

(*b*) The assistants of the expert officers of the Agricultural Department are on a time-scale pay of Rs. 100 rising by annual increments of Rs. 10 to Rs. 250. A statement containing their names and educational attainments is laid on the table."

American trained agricultural students.

XXXVIII. (*a*) Did the Government send a number of passed students of the Sibpur Agricultural College to America?

(*b*) If so, are the Government in a position to say how these students are at present engaged?

(*c*) Are they in Government service?

(*d*) If so, in what capacities are they serving the Government?

(*e*) Will the Government be pleased to give a detailed statement of those employed in their service at present in this connection, showing—

(*i*) the grades to which they have been appointed in Bengal;

(*ii*) in what lines they have specialised in foreign countries and whether they are engaged in these lines; and

(*iii*) the nature of the work entrusted to them?

(*f*) Have they got sufficient training to continue the work of the experts when the latter go on leave?

(*g*) If not, are the Government taking steps to educate them up to it?

Answer by the Hon'ble MR. KERR :—

" (*a*) Eight such students were sent to America between 1904 and 1907.

(*b*), (*c*) and (*d*) Most of them are now employed in the Agricultural Departments of Bengal and of Bihar and Orissa.

(*e*) Mr. J. N. Chakrabarty, Mr. D. Datta and Mr. H. P. Mitra are employed as Divisional Superintendents of Agriculture in Bengal on pay of Rs 200—400. Mr. Chakrabarty has specialised in Agronomy and Dairying: Mr. Datta in plant-breeding and Horticulture, and Mr. Mitra in plant-breeding: they are not now employed as specialists.

Questions and Answers.

(*f*) and (*g*) Government have not as yet thought fit to appoint any of these three officers to officiate for officers of the Imperial Service when the latter have been absent on leave: academic qualifications are not the sole tests of fitness: Government do not contemplate taking any steps to improve their academic qualifications."

Rumoured retirement of the Director of Agriculture.

XXXIX. (*a*) Is there any truth in the report that Mr. S. Milligan, the present Director of Agriculture, Bengal, is shortly going to vacate his appointment?

(*b*) If so, will the Government be pleased to state the circumstances relating to his change of office?

Answer by the Hon'ble MR. KERR :—

" (*a*) Yes.

(*b*) When Mr. Milligan was appointed to officiate as Director of Agriculture, Bengal, he was allowed to retain a lien on his post of Imperial Agriculturist at Pusa. He desires to revert to his permanent post and he will do so as soon as arrangements have been made for the appointment of his successor."

Manufacture and price of salt.

XL. (*a*) Are the Government in a position to state the present retail price of salt in the different districts of Bengal?

(*b*) Will the Government be pleased to state what the approximate cost of manufacture of salt is in Bengal under existing circumstances?

(*c*) Are the Government considering the desirability of directing an inquiry into how far the manufacture of salt in Bengal may tend to reduce the prices in the local salt market?

(*d*) With reference to the memorandum by the Government of Bengal dated the 5th April, 1917, regarding the manufacture of salt in Bengal, will the Government be pleased to state whether any inquiry has been made as to the suitability of brine obtainable on the Chittagong side of the Bay of Bengal?

(*e*) Are the Government considering the desirability of making an inquiry as to the particular facilities for the manufacture of salt on the Chittagong side?

Answer by the Hon'ble MR. DONALD :—

" (*a*) The Hon'ble Member is referred to the prices-current of food-grains, salt, etc., for the last half of November 1917, published in the Supplement to the *Calcutta Gazette* of the 12th December, 1917. A statement giving the prices on the 15th December is laid on the table.

(*b*) No calculations have been made as to the cost of manufacture, and no approximate figure can be given.

Questions and Answers.

(*c*) The answer is in the negative. Madras salt is available in large quantities at prices lower than that of imported salt, which is the article ordinarily consumed, but there appears to be little disposition on the part of the public to have recourse to it.

(*d*) The possibilities of manufacture on the Chittagong side of the Bay of Bengal have been brought to the notice of Government. Suitable brine is said to be obtainable at Cox's Bazar and to the south, but a difficulty exists in the lack of easy communications to that area, while labour may not be readily available. It may be added in this connection that Government have ascertained that there is no immediate fear of any shortage of imported salt."

Ground-nut industry in Bengal.

XLII. (*a*) Are the Government in a position to give any information regarding the prospects of the ground-nut industry in Bengal?

(*b*) Are the Government aware of any experiment made in ground-nut cultivation in Bengal?

(*c*) If so, what are the results?

Answer by the Hon'ble MR. KERR :—

" (*a*) Yes.

(*b*) The crop has been under experimental observation in Bengal for some years by the Agricultural Department.

(*c*) The cultivation of ground-nuts has met with some success in the districts of Birbhum and Bankura and the area shows a tendency to expand The chief difficulty lies in harvesting the nuts, which have to be dug out of the ground. The crop is suitable for high lands and is capable of yielding up to 20 maunds per acre of unhulled nuts. The ground-nut crop in some parts of India has been subject to serious disease which has been partly met by the growing of disease-resisting varieties. Up to date no serious outbreak has been reported in Bengal. Until disease has, however, made its appearance and been successfully combated, or until further evidence has been adduced to indicate that the crop in Bengal may be considered reasonably safe from the more virulent diseases, it would be premature to assume that the industry will ultimately prove an economic success in the Presidency."

(*b*) On what principle is such distinction made?

(*c*) Will the Government be pleased to make a statement giving the names of newspapers that receive the free supply of the *Calcutta Gazette*?

Answer by the Hon'ble MR. DONALD :—

" (*a*) Yes.

(*b*) No definite principle has been laid down. As a general rule each paper is considered on its merits and with reference to its circulation. Recent applications for the free supply of the *Gazette* have been refused owing to the shortage of paper.

(*c*) A statement giving the names of the papers which are supplied with the *Gazette*, free of cost, is laid on the table. The question of the revision of the list is under consideration."

XLIV. (*a*) Is it a fact that in October last a representation was made to His Excellency the Governor over the signatures of Sir K. G. Gupta, Mr. S. C. Mukerjee, I.C.S., and other members of the Darjeeling Brahmo Samaj praying for the removal of the fish market from the immediate vicinity of the Darjeeling Brahmo Church? Brahmo Samaj Church in Darjeeling.

(*b*) Is it also a fact that a similar petition was submitted to the Commissioner of the Rajshahi Division?

Questions and Answers.

(*c*) Is it a fact that while no action has, up till now, been taken on the said petition, a masonry receptacle for depositing the refuse of the stalls, just in front of the ladies' entrance to the Church, is actually under construction?

(*d*) Are the Government aware that as a result of the above action of the Darjeeling Municipality, the local Brahmos have been obliged to discontinue holding their prayers in the Brahmo Church for nearly three months?

Answer by the Hon'ble MR. O'MALLEY :—

"(*a*) Yes.

(*b*) Yes.

(*c*) It is not a fact that no action has been taken on the petition. Instructions have been issued to the Commissioner of the Rajshahi Division in Municipal Department letter No. 2143 M., dated the 29th November, 1917, of which a copy is laid on the table. Government has no information as to the construction of a masonry receptacle.

(*d*) It is understood that the services at the Brahmo Church have been discontinued."

Copy of Municipal Department letter No. 2143M., dated the 29th November, 1917, to the Commissioner of the Rajshahi Division.

WITH reference to the correspondence ending with your memorandum No. $\frac{6190\text{-}G}{XLVII\text{-}41}$, dated the 31st July 1917, I am directed to forward, in original, for favour of disposal by you in consultation with the Deputy Commissioner, Darjeeling, the enclosed memorial from Sir K. G. Gupta and others, protesting against the use of the new structure on the east of Brahmo Mandir in the Darjeeling Bazar for the purposes of a fish market.

2. It appears that the fish market is a source of nuisance to the members of the Brahmo Samaj attending the Mandir and that in consequence of it Sunday services have had to be stopped. I am therefore to suggest that steps may be taken to bring about some means of relief by negotiations between the Samaj authorities and the Municipality, and in the last resort only by action under section 63 of the Bengal Municipal Act.

(*d*) If so, is this reduction proportionate to a corresponding falling off in the number of cases instituted?

(*e*) Are the Government aware of any expressed grievance against the way the work is managed by the present Munsiff at Tangail?

Answer by the Hon'ble MR. KERR :—

"(*a*) and (*b*) Statements furnishing the information are laid on the table.

(*c*) Yes.

(*d*) Since 1914 there has been a large falling off in title suits, which has permitted of the temporary deputation of one Munsiff to Netrakona and one to Jamalpur.

Looting of salt and cloth from markets and *hâts*.

XLVI. Will the Government be pleased to make a statement showing the number of loots of salt and cloth in the markets and *hâts* of the different districts of the Presidency during the last three months?

Answer by the Hon'ble MR. DONALD :—

"The following statement gives the number of looting cases reported up to the morning of the 17th December :—

Bakarganj	4
Bogra	4
Dacca	3
Dinajpur	3
Faridpur	2
Jessore	5
Mymensingh	3
Noakhali	13
Pabna	2
Rajshahi	1
Rangpur	14
Tippera	1
Total ...	55

It will be seen that the figures are largest in the Noakhali and Rangpur districts, and in both of these special preventive measures are being taken."

Inspection of the Dacca School of Engineering

XLVII. Is it a fact that the Principal, Dacca College, under whose supervision the Dacca School of Engineering has been placed, has not been able to make any official or unofficial inspection of the school up till now?

Answer by the Hon'ble MR. O'MALLEY :—

"The Principal of the Dacca College is also the Principal of the Dacca School of Engineering, and as such does not inspect it in any formal way. He visits the institution frequently and is in constant communication and consultation with the Head Master regarding business matters and the general control and efficiency of the school."

Questions and Answers.

By the Hon'ble BABU BROJENDRA KISHOR RAY CHAUDHURI :—

XLVIII. (*a*) Is it a fact that, unlike other institutions of its kind, *e.g.*, the Calcutta Commercial Institution, the Dacca School of Engineering has got no definite status of its own? Status of the Dacca School of Engineering.

(*b*) Is it a fact that in some respects it is treated as a college and in other respects as a school?

(*c*) Is it a fact that many of the theoretical subjects taught in the Dacca School of Engineering are on a par with those of the B.Sc. course of the Calcutta University.

(*d*) Is it a fact that the subjects taught in the Dacca School of Engineering are much higher than those prescribed for secondary education?

(*e*) Is it a fact that in the Calcutta Commercial Institution which has got the status of a college, the admission test is much lower than that prescribed for the Dacca School of Engineering?

Answer by the Hon'ble MR. O'MALLEY :—

" (*a*) The Hon'ble Member is referred to the reply to the next clause of his question.

(*b*) Yes.

(*c*) Government are advised that the standard up to which the theoretical subjects are generally taught is not so high as that of the B.Sc. course.

(*d*) Yes.

(*e*) Candidates who have passed the Matriculation Examination or any other examination held to be equivalent to it are eligible for admission to the day course of the Government Commercial Institute, Calcutta. Candidates who have attended the lectures in the day course are eligible for admission to the evening course. Others are admitted, both to the day course and to the evening course, if they satisfy the Education Department, by passing a preliminary test examination, that they have sufficient general education to enable them to derive advantage from the lectures.

Candidates for admission to the Dacca School of Engineering must have passed either—

(1) the Matriculation Examination of an Indian University or Standard VII of the Code for European Schools, or

(2) the B Final Examination, or

(3) the Sub-Overseer Examination from any affiliated technical school."

By the Hon'ble BABU BROJENDRA KISHOR RAY CHAUDHURI :—

XLIX. (*a*) Is it a fact that the teachers of the Calcutta Commercial Institution are designated as Lecturers and are beyond the operations of Circular No. $\frac{5A}{7P-25-16}$, dated Calcutta, the 9th January, 1917, of the Director of Public Instruction, Bengal? Teachers of the Dacca School of Engineering.

Questions and Answers.

(*b*) Are the Government aware that on account of the provisions of the circular referred to in clause (*a*), the graduate teachers of the Dacca School of Engineering, who have reached or are on the point of reaching the highest grade fixed, feel that their future prospects have been ruined as they have no chance of securing the Assistant Head Mastership of this Institution or the Head Mastership of any High School under the Government?

(*c*) Is it a fact that the Head Master of the above school is in the Indian Educational Service, while the Assistant Head Master, a B.A., B.E., is still in the Subordinate Service?

(*d*) Is it true that the Assistant Head Master is not given the allowance which is granted to Assistant Head Masters of Government High Schools?

Answer by the Hon'ble MR. O'MALLEY :—

"(*a*) Teachers of the Calcutta Commerical Institute are designated Lecturers. Circular No. $\frac{114}{7P-50A-17}$, dated the 11th May, 1917, to which the Hon'ble Member presumably refers, does not apply to them.

(*b*) Government are not aware of such a feeling. The orders regarding promotion to different classes of the Subordinate Educational Service, which were issued with the eircular above referred to, provide that officers holding lower posts can be transferred to higher posts provided they are competent to fill them.

(*c*) Yes.

(*d*) Yes."

Technical Examination Board and the Dacca School of Engineering.

L. (*a*) Will the Government be pleased to state whether the Inspector of the Joint Technical Examination Board has inspected the Dacca School of Engineering within the last five years?

(*b*) If so, will the Government be pleased to publish his recommendations?

(*c*) What effect has been given to those recommendations, if any?

Answer by the Hon'ble MR. O'MALLEY :—

"(*a*) There is no post of Inspector of the Joint Technical Examination Board: that body deputes one or more officers to inspect technical institutions on its behalf. An inspection of the Dacca School of Engineering was made in February, 1915, by Mr. C. P. Walsh, then Superintending Engineer, Eastern Circle, and Mr. B. Heaton, Principal, Civil Engineering College, Sibpur. An inspection of the electrical and mechanical branch of the school was made in December, 1914, by Mr. W. H. Everett, Offg. Superintendent of Industries and Inspector of Technical Institutions, and Mr. A. K. Taylor, Electrical Engineer in charge of the Calcutta Electrical Division of the Public Works Department.

(*b*) An extract from the inspection note of Mr. Walsh and Mr. Heaton is laid on the table, together with an extract from the inspection note of Mr. Everett and Mr. Taylor.

(*c*) Sanction was given to the affiliation of the school to the full upper subordinate standard of the Board in civil engineering for five years from 1915-16, and in mechanical and electrical engineering from 1913-14 to 1915-16. Subsequently orders were passed that the teaching of the mechanical and electrical branch of the overseer course should be discontinued with effect from the 1st April, 1916."

Questions and Answers.

Extract from a note on an inspection of the Dacca School of Engineering made by Messrs. C. P. Walsh, Superintending Engineer, Eastern Circle, and B. Heaton, Principal, Civil Engineering College, Sibpur, on behalf of the Joint Technical Examination Board, on Monday and Tuesday, 8th and 9th February, 1915.

WE recommend that the Government of Bengal may grant affiliation to the Dacca School of Engineering up to the full standard of the Board in Civil Engineering for a period of five years from the date of expiry of the last order. That the attention of Government be drawn to the following proposals :—

(1) To separate the school from the Dacca College and to style the Head Master "Principal".

(2) To constitute a governing body with functions similar to that of the Sibpur College.

(3) To fix for three years a consolidated grant for contingencies and for the repairs of the workshop buildings and to entrust its administration to the governing body.

(4) To the suggested strengthening and re-arrangement of the teaching staff.

(5) To the case of the Head Clerk.

(6) To the reduction of the numbers of reduced freeships at Sibpur and to the creation of four stipends yearly of Rs. 10, to enable poor students to attend the Dacca School of Engineering.

(7) To the granting of travelling allowance to the staff and students, so as to enable instructions in practical surveying to be carried out under canvas in a suitable locality.

(8) To the provision of furniture for the Science class-rooms, drawing boards and cement testing machines.

(9) To minor items of equipment required for the workshops.

Extract from a note on an inspection of the Electrical and Mechanical Branch, Dacca School of Engineering, made by Messrs. W. H. Everett and A. K. Taylor, on the 9th and 10th December, 1914.

As matters now stand we recommend : (1) that the present mechanical and electrical course at Dacca be terminated as soon as this can be done—the present third year students (four only in number) being accommodated at Sibpur ; (2) that the electrical laboratory be abolished and the staff transferred to Sibpur, where we understand extra help is required to cope with the rapidly increasing numbers in this branch. The Mechanics' laboratory should remain, as this will still be required for students of the ordinary Civil Engineering course. The school may be recommended for temporary affiliation in this branch for the overseer examination of 1915.

Secretary to the Joint Technical Examination Board.

L1. (*a*) Will the Government be pleased to state what are the exact duties and functions of Mr Everett, Secretary to the Joint Technical Examination Board ?

(*b*) What pay and allowance does he receive ?

(*c*) Will the Government be pleased to make a statement showing the number of inspections that he made of the different institutions under his control during 1914-15 and 1916-17 ?

Questions and Answers.

Answer by the Hon'ble MR. O'MALLEY :—

"(*a*) Mr. Everett is Officiating Superintendent of Industries and Inspector of Technical and Industrial Institutions for Bengal as well as Secretary to the Joint Technical Examination Board. His chief duties are to inspect technical institutions, to advise the Director of Public Instruction on technical and industrial education and to keep in touch with the industrial development of the Presidency. As Secretary to the Joint Technical Examination Board, he attends the Board's meeting and records the proceedings, conducts their correspondence and discharges other secretariat duties, such as arranging for the Overseer and Sub Overseer examinations, notifying the results and issuing certificates to successful candidates.

(*b*) The Hon'ble Member is referred to pages 280 and 281 of the Quarterly Civil List for Bengal corrected up to 1st April, 1917.

(*c*) The information is not available."

Commencement of Apprentice Department Session in Sibpur College.

LII. (*a*) Is it true that the Government have permitted the Sibpur College authorities to commence the session of the Apprentice Department in November every year?

(*b*) Are the Government aware that only Matriculates are allowed to be admitted in the Apprentice Department and that the result of the Matriculation Examination is usually published in June?

Answer by the Hon'ble MR. O'MALLEY :—

"(*a*) Yes. The date was changed to November, because candidates delay submitting applications for admission until after the Matriculation Examination results are published, with the result that the first year class cannot be formed till July and the work cannot be got into full swing before the vacation, which starts in August and lasts till November.

(*b*) Most of the Indian candidates admitted into the College are Matriculates. The Matriculation results are usually published in June."

Sibpur College and the Dacca School of Engineering.

LIII. Are the Government aware that in the Sibpur Civil Engineering College, Apprentice Department, 5th year boys and artisans are given stipends on much higher scales than those granted to 5th year boys and artisans of the Dacca School of Engineering?

Answer by the Hon'ble MR. O'MALLEY :—

"Yes."

Grievances of certain Bethune College students.

LIV. (*a*) Is it a fact that certain students of the Bethune College, who passed the Matriculation Examination this year, and were admitted on the date of the re-opening of the College, viz., on the 26th November, are being required to pay board and lodging charges for the months of August, September and October and 25 days in November?

(*b*) If so are the Government considering the desirability of directing the said authorities to cancel the rule under which this order was made, and to refund the money already realised?

Questions and Answers.

Answer by the Hon'ble MR. O'MALLEY :—

" (*a*) An annual hostel fee is charged to students residing in the College hostel : it is payable in 12 monthly instalments of Rs. 11 each This year it has been decided to meet the situation due to the late date of publication of the Matriculation results by charging—

(*i*) a maintenance fee of Rs. 2 for each of the months, August, September and October, and

(*ii*) Rs. 11 monthly for the rest of the year.

August is, by order of the University authorities, regarded as the commencement of the current academical year for first year students

(*b*) No money has yet been realised, except for the month of November. The amounts already paid will not be refunded."

The Bengal Tenancy (Amendment) Bill.

Mr. Cumming; The President; Babu Kishori Mohan Chaudhuri.

LIST OF BUSINESS—ITEM No. 2.

THE BENGAL TENANCY (AMENDMENT) BILL, 1917.

The Hon'ble MR. CUMMING moved that the Report of the Select Committee on the Bengal Tenancy (Amendment) Bill, 1917, be taken into consideration.

The motion was put and agreed to.

The Hon'ble MR. CUMMING said :—

"With your permission, Sir, I wish to make a further formal motion at this stage, *namely*, that the clauses be now considered for settlement in the form recommended by the Select Committee."

The PRESIDENT said :—

"May I explain to Hon'ble Members that this is purely formal and a necessary motion? The Bill has been altered in the Select Committee and we now desire to take into consideration the Bill as amended by the Select Committee."

The motion was put and agreed to.

The PRESIDENT said :—

"There will be some small alterations in the order in which the amendments are taken. Some of the amendments are not strictly in their correct order. The first amendment that will be taken up is the amendment proposed by the Hon'ble Babu Kishori Mohan Chaudhuri to omit the word "Hadis" in section 49A. That will be taken up first."

AMENDMENTS TO THE BILL.

(Amendment No. II (*l*).)

The Hon'ble BABU KISHORI MOHAN CHAUDHURI moved that the word "Hadis" in line 10 of sub-section (*2*) of section 49A be omitted.

He said :—

"My Lord, I think that the word 'Hadis' should be omitted whether they are taken as 'Hadis' or 'Haris' practically so far as Bengal is concerned they are naturalised. There are in Eastern Bengal persons who are called 'Hadis' practically carrying on the same profession as 'Haris' in Northern and Western Bengal too. In that case they should not be taken as aboriginals. I therefore propose that the word 'Hadis' should be omitted."

The Hon'ble MR. CUMMING said :—

"Sir, my opinion is that the Hon'ble Member seems to be under a misapprehension. I think he is referring to certain 'Hadis' in Northern Bengal, but as explained in the letter of the Director of Land Records which is included in the opinions which are before the Council, it was stated that these 'Hadis' are of Garo origin in Eastern Bengal; and it is to them that the Bill is intended to refer."

The Hon'ble BABU KISHORI MOHAN CHAUDHURI said :—

"My Lord, of course my information is that in Eastern Bengal there is another class of persons who are called 'Hadis' who might be of Garo

origin, but they are of long antiquity. My information is evidently not correct. I thought that 'Hadis,' or 'Haris', as they are called in Eastern Bengal, were meant.

In that case I beg to withdraw my amendment."

The motion was then, by leave of the President, withdrawn.

(Amendment No. II (*II*).)

The Hon'ble BABU KISHORI MOHAN CHAUDHURI moved that the word "Kochs" in line 11 of sub-section (*2*) of section 49A be omitted.

He said :—

"My Lord, Kochs in Bengal are naturalised, and I understand that the Hon'ble Mr. Cumming is also of the opinion that the Kochs should be included with certain restrictions; some insertion should be made so that it may be restricted to the Dacca Division only, and refer only to persons who are of Garo origin. My idea is that there may be some difficulty even in Eastern Bengal. I think it should be omitted altogether. If there are in Eastern Bengal—and I am not aware of it—some who are recent settlers there coming from the Garo tract, some restrictions may be made. So far as I know Kochs exist in different parts of Bengal; they came here long ago, even if they are aboriginals. If the Kochs are included then the Rajbansis should be also included, because there is no very great distinction between the Kochs and the Rajbansis. I think the 'Kochs' should be omitted altogether."

The Hon'ble MR. CUMMING said :—

"Sir, in view of the Hon'ble Member's amendment that the word 'Kochs' should be omitted, I propose to make an amendment which, I think, would meet his wishes, *namely*, that the term should refer only to those of that tribe who are in Eastern Bengal. Eastern Bengal officers have themselves recommended that the Kochs of that area should be included; and I think that the Hon'ble Member's idea was primarily obtained from the report of Mr. McAlpin who at first said that he thought that the Kochs were too advanced to be classed as aborigines, but who subsequently informed me that the Kochs of Eastern Bengal should be included. I therefore object to the omission of the word 'Kochs' altogether."

The Hon'ble BABU KISHORI MOHAN CHAUDHURI said :—

"If the Members coming from Eastern Bengal have no objection, I have no objection to accepting the amendment proposed, but I think that only the Dacca Division should be included. With that restriction my motion may be accepted."

The PRESIDENT said :—

"The Hon'ble Member in charge of the Bill proposes to move that amendment if the Hon'ble Member will withdraw his own."

The Hon'ble BABU KISHORI MOHAN CHAUDHURI said :—

"In that case, I withdraw my amendment."

The motion was then, by leave of the President, withdrawn.

(Amendment No. III.)

The following motion was also held to be withdrawn :—

The Hon'ble Kumar Shib Shekhareswar Ray to move that the word "Kochs" in line 11 of sub-section (2) of section 49A be omitted.

The Bengal Tenancy (Amendment) Bill.

Mr. Cumming; Babu Ambika Charan Mazumdar.

(Amendment No. I (*I*).)

The Hon'ble MR. CUMMING moved that after the word "Kochs" in line 11 of sub-section (2) of section 49A, the brackets and words "(Dacca Division)" be inserted.

He said :—

"Sir, for the reasons which I have already given, I propose to move the amendment."

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR said :—

"My Lord, it seems to me that both the words 'Bakarganj District' after the words 'Maghs' and the words 'Dacca Division' after the words 'Kochs' are unnecessary, and ought not to be there for the simple reason that we need not specify territories where those people may be. The Maghs in Bakarganj may remove to the neighbouring districts of Faridpur, and if they do so, there is no reason why they should not enjoy the protection which has been granted to Maghs in Bakarganj. I do not know why they should be at a disadvantage when they remove to any other place. Consequently the territorial distinction ought not to be there; wherever they may be they should have the rights and privileges conferred by the proposed legislation. As far as the words 'Dacca Division' are concerned, I know that there are no Kochs in the districts of Faridpur and Barisal, but I do not know whether they may not be found in Mymensingh and Dacca. However, in the view I have expressed, I hope that both the words 'Bakarganj' and 'Dacca Division' will be removed so that these privileges may be enjoyed by these specified tribes wherever they may be."

The motion was put and agreed to.

(Amendment No. I (*II*).)

The Hon'ble MR. CUMMING moved that for the word "Bakarganj" in line 12 of sub-section (2) of section 49A, the words "Bakarganj District" be substituted.

He said :—

"Sir, this is purely formal and would be in harmony with the addition which has already been made regarding the Kochs."

The motion was put and agreed to.

(Amendment No. I (*III*).)

The Hon'ble MR. CUMMING moved that the words "and allied castes or tribes" in lines 13 and 14 of sub-section (2) of section 49A be omitted.

He said :—

"Sir, the Hon'ble Babu Kishori Mohan Chaudhuri has a similar motion. Objection has been made, and I think, with some reason, that as we have tried to meet the opinions which have been given, by inserting a definite statement in the Bill of those whom Government hold to be aboriginals, we should not go back and insert an indefinite phrase like 'allied castes and tribes.' I am, therefore, prepared to withdraw that part of the clause from the Bill."

The motion was put and agreed to.

The Bengal Tenancy (Amendment) Bill.

The President; Rai Debender Chunder Ghose Bahadur; Mr. Cumming.

(Amendment No. II (*III*).)

The following motion was then held to be withdrawn :—

The Hon'ble Babu Kishori Mohan Chaudhuri to move that the words "allied castes or tribes" in lines 13 and 14 of sub-section (2) of section 49A be omitted.

(Amendment Nos. IV and V.)

The PRESIDENT said :—

"Amendments marked 4 and 5, proposed section 49E, deal with the same point. The Hon'ble Member whose names stands first on the agenda paper will move his amendment first."

The Hon'ble RAI DEBENDER CHUNDER GHOSE BAHADUR moved that for the words "under his own cultivation" in line 5 of section 49E, the words "in his possession" be substituted.

He said :—

"My Lord, in section 49E, line 5, we have the words 'under his own cultivation' with reference to the aboriginal tenure-holder, raiyat or under tenure-holder who does not necessarily cultivate his own land, and if you are to give the power to mortgage property to them, an aboriginal tenant, then by using the words 'under his own cultivation' you restrict his right to mortgage. I do not think that this was the intention of the framers of the Bill, and I believe that it was an oversight, and I therefore suggest that in line 5, the words 'in his possession' be substituted for the words 'under his own cultivation.' This includes direct as well as indirect possession."

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR moved that for the words under his own cultivation" in line 5 of section 49E, the words "held by him" be substituted.

He said :—

"My Lord, following in the footsteps of my learned friend Rai Debender Chunder Ghose Bahadur, I will go a step further and, to remove all ambiguity, ask that the words 'held by him' be substituted for the words 'under his own cultivation.' In fact the Government probably do not want to restrict the usufructuary mortgages simply to land immediately in the cultivation of an aboriginal. The expression 'in his possession,' as suggested by my hon'ble friend, may also be liable to misconstruction as to the meaning of the word 'possession' whether it is khas possession or indirect possession, so that to remove all doubts and difficulties, the words 'held by him' are necessary. In fact there may be many tenure-holders who have not an inch of ground under his own cultivation; the section proposes to give him the right of usufructuary mortgage be tenure-holders also, and in such a case the tenure-holder would be deprived of the advantage given by section 49E. So I think the words 'held by him' would cover both the intention of the framers of the Bill as well as the intention of my hon'ble friend. It is also a very comprehensive term and cannot lead to any misconception or misunderstanding."

The Hon'ble MR. CUMMING said :—

"Sir, far from this being unintentional and far from failing to carry out the intentions of the framers of the Bill, it is the very opposite; it is deliberately intended. The amendment proposed is a very dangerous one; it is

The Bengal Tenancy (Amendment) Bill.

Mr. Cumming.

intended that a person holding land through raiyats should not be allowed to mortgage, because, if he does so, the mortgagee would become the landlord over his raiyats, and the very evils which this Bill is intended to combat would come into being. Anyone who has studied the literature on the subject realises how the disintegration of these Sonthal villages has been continuous and that this is one of the methods by which this disintegration is produced. I therefore object to the amendment which strikes at the very root of the intention of the framers of the Bill."

The Hon'ble Rai Debender Chunder Ghose's motion was then put and lost.

The Bengal Tenancy (Amendment) Bill.

Rai Debender Chunder Ghose Bahadur ; Mr. Cumming.

(Amendment No. VI.)

The Hon'ble RAI DEBENDER CHUNDER GHOSE BAHADUR moved that for the word " seven " in line 7 of section 49E, the word " nine " be substituted.

He said :—

" My Lord, this is a section which gives liberty to an aboriginal tenant to enter into an usufructuary mortgage with another person for a period of 7 years. It appears that when the Bill was originally framed, the period given was 9 years ; when the Bill went to the Select Committee, the Select Committee found that in the Chota Nagpur Tenancy Act, Bengal Act I of 1908, the period given in such cases was 7 years, so, without giving any reason, they said that because it was 7 years in the Chota Nagpur Tenancy Act, therefore we must adopt the same period, *i.e.*, give 7 years as the maximum period of a usufructuary mortgage. Now this law is a law in continuance of the policy of this Government of making the rights of the less intelligent people of the country inalienable. They are improvident, extravagant and the State comes to their aid and says, 'Your rights, in your landed property, will not pass to another ; if it passes, it must pass to some person of your class.' One of the earliest legislative enactments in this connection was the Punjab Alienation Act, and in that Act the period given in these matters, *i.e.*, usufructuary mortgage is 20 years. Similarly, when there was a regulation passed for the Ajmere tracts, the period given was 20 years, and I am told,—I am not speaking from first-hand experience,—that in the Central Provinces also the period is considerably longer. In this Bill as it was framed the period was 9 years. The Bill, as I understand it, was originally framed by Mr. McAlpin, who has an intimate acquaintance with the conditions of life of these aboriginals in several districts, and the Bill was introduced in Council by the Hon'ble Mr. Beatson Bell, who certainly was not wanting in knowledge of the conditions of life of these people. Under these circumstances, without any reason, any intelligible reason being given, except that the period of 7 years is given in the Chota Nagpur Tenancy Act, Sir, I would submit that it is not safe to make it so short as 7 years. We must remember that in the Chota Nagpur Division there is a very large community of aboriginals, and it is not so small as we find in other districts of Bengal proper. That being so, you can have as short a period as 7 years because there would be many more people willing to advance money on the security of landed property in Chota Nagpur than would be the case in Bengal, and therefore I submit that it would be well to give a little longer period as originally given in the Bill. Nine years is not very long, but still I bow to the opinion of the gentlemen who are responsible for the Bill as it was originally framed."

The Hon'ble MR. CUMMING said :—

" Sir, I think these are rather meticulous criticisms. The Hon'ble Member has referred to Mr. McAlpin who, he says very properly, was the author of this legislation. At the time when the Bill was under preparation I asked Mr. McAlpin why the period of 9 years had been fixed ; unfortunately he could not tell me, and after much research it could not be found why 9 years had been fixed ; and it was on his initiative that we agreed to bring the Bill in conformity with the period which is already in force in section 46 of the Chota Nagpur Tenancy Act. I therefore hold, Sir, that there is no good reason why 9 should be taken, while there is good reason why 7 should be taken. I think that the Council may, without apprehension, adopt the period that was adopted unanimously by the Select Committee."

The motion was then put and lost.

The Bengal Tenancy (Amendment) Bill.

Rai Debender Chunder Ghose Bahadur: Mr. Cumming; Babu Ambika Charan Mazumdar.

(Amendment No. VII.)

The Hon'ble RAI DEBENDER CHUNDER GHOSE BAHADUR moved that section 49E be numbered as sub-section (*1*) of that section and that the following be inserted after the proviso to that section, namely :—

"(*2*) An aboriginal tenant's power and right to mortgage shall be restricted to only one form of mortgage, namely, the usufructuary mortgage."

He said :—

"My Lord, I find that in this Bill there is a later provision, section 49K, which debars the Court from selling the right of the mortgagee for the satisfaction of the mortgage-debt, and if that be so, it comes to this that if a man enters into a mortgage and agrees to repay the debt after a certain period and mortgages his right to the land as security creditor they will be without a remedy so far as security is concerned if he goes to court, because the court will refuse to sell the secured land of the judgment-debtor, and pass only a personal decree. That being so, it would be much better to say in so many words, without leaving this question to be raised hereafter, that there will be only one form of mortgage, *i.e.*, usufructuary mortgage and no other form of mortgage. It will save litigation."

The Hon'ble MR. CUMMING said :—

"I cannot accept the correctness of the Hon'ble Member's argument that, while a simple mortgage is not forbidden, yet under section 49K the remedy for enforcing an usufructuary mortgage through the civil court is forbidden, but I am prepared to meet him. I should like to read his amendment in the following form, if he will accept this alteration :—

'An aboriginal tenant's power to mortgage his land shall be restricted to only one form of mortgage, namely, a complete usufructuary mortgage.'"

The Hon'ble RAI DEBENDER CHUNDER GHOSE BAHADUR said :—

"I accept that."

The Hon'ble MR. CUMMING said :—

"Sir, I suggest that the amendment, as modified, be accepted."

The motion was put in the modified form and agreed to.

(Amendment No. VIII.)

Proposed Section 49F.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR moved that after sub-section (*1*) of section 49F the following be added, namely :—

"Provided that the Collector shall not ordinarily withhold such permission in the case of an aboriginal tenure-holder applying to settle with a non-aboriginal person any hill or rock or other land within his tenure which may be wholly unfit for cultivation."

He said :—

"My Lord, the amendment which I have moved refers to section 49F. That section deals with leases, sub-leases and mortgages by aboriginals to various classes of people. It is provided that if he wants to do all these things

The Bengal Tenancy (Amendment) Bill.

Mr. Cumming; Babu Ambika Charan Mazumdar.

he must go to the Collector to have his permission. That, no doubt protects, the aboriginal generally from letting out his land to a non-aboriginal to his own detriment, but it seems to me that there are certain classes of land which may be very usefully, I may say to the very best interests of the aboriginals, leased out to non-aboriginals. I have seen in many Sonthal Parganas districts where hills, rocks and other lands, wholly unfit for cultivation, have been let out to non-aboriginal persons to considerable advantage. These lands have long been useless to them, but to health-seekers and other people who want to build houses in these parts of the country, these rocks, hills and other lands, unfit for cultivation, are let at a very fair rent, and at the same time with a very fair bonus. We ought not to deprive the aboriginal tenure-holders or raiyats of these advantages. Of course Simultala and other places do not belong to Bengal now, but you may enquire of the Ghatwals of Telua or the Thakurs of Rohini, and you will find what advantages they have derived by letting out hills and rocks to other people which were perfectly useless to them before, and I think the objects of the Bill would be fully maintained if an additional advantage is given to the non-aboriginal tenure-holders and raiyats who has to let out lands which are wholly unfit for cultivation to non-aboriginals for purposes for which they themselves cannot use them, and with this view I move that this permission of the Collector shall not ordinarily be withheld in case an aboriginal tenure-holder applies for permission to settle with a non-aboriginal person land which is unfit for cultivation. I have used the word 'ordinarily' deliberately. I do not wish that the aboriginal tenure-holder should foolishly part with his land, which he may use for other purposes, and therefore when the Collector shall have to consider an application for settling land with other people made to him, he shall have an opportunity of considering whether it was a case in which permission ought or ought not to be granted for the benefit of the aboriginal. And, of course, if he finds an exceptional case he may withhold the permission. That is the object of this amendment, and I hope it will meet with the approval of Government."

The Hon'ble MR. CUMMING said :—

"SIR, the Hon'ble Member has prepared this amendment, as he says, in the interests of the aboriginals. My reply to that is that the clause as framed does not prohibit such a transfer; and if the Collector finds that it is to the interest of the aboriginals in such cases as the Hon'ble Member has mentioned, surely the Collector would be the very first to allow the transfer. But I go further and suggest that details of this nature seem rather out of order in legislation of this type. The underlying principle is that in certain classes of cases the aboriginal is not allowed to transfer of his own volition, but that he must get the permission of his Collector; and again I refer to the literature on the subject. The Sonthals say,—'We wish to be protected against ourselves; we wish that our power of transfer should be limited'; and I think that, if there is a transfer and if it is at all suitable in the interests of the aboriginals, the Collector would be the first to allow it to take place."

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR said :—

"My Lord, it is with the object of giving the Collector some idea of the policy of the legislation that I want this amendment, and I fully understand that the Collector may grant permission in case of hills, rocks and so forth, but the amendment would give him an idea as to the policy which we are pursuing in framing this section, *i.e.*, in the case of hills, rocks, etc., the policy is to grant permission and not withhold it. The Collector may be misled. He may have his own ideas and opinions and he may refuse bodily all

The Bengal Tenancy (Amendment) Bill.

Rai Debender Chunder Ghose Bahadur; Mr. Cumming.

applications of that sort. To give him an idea as to what is the policy of the law, not to restrict the right of transfer in certain cases, that I have moved this amendment."

The motion was then put and lost.

(Amendment No. IX.)

Proposed Section 46 G.

The Hon'ble RAI DEBENDER CHUNDER GHOSE BAHADUR moved that the word "valid" be inserted after the words "shall be" in line 4 of section 49G, and the rest of the section beginning with the word "registered" and ending with the word "jurisdiction" be omitted.

He said :—

"My Lord, I understand that the framers of the Bill would not have it declared that any transaction in contravention of the provisions of this chapter shall be valid, and that it will be more effective if we were to tell the Registrar not to register any instrument or transaction in contravention of the provisions of this chapter. It is throwing a very great burden on the Registrar and unfortunately the Registration Department is the least educated in law. I think it would lead to considerable legal proceedings or proceeding before the Sub-Registrar and District Registrar and so on if you allow a provision like this to remain in the Statute Book. But if you say it will not be valid, I think it will answer your purpose. The registration of a document does not necessarily make it valid ; it is merely a help in the procedure before a court as regards evidence of the transaction and also as evidence of something of a transaction that happened at a certain time. If the transaction itself is invalid, is forbidden by law, I do not see why you should go out of your way and say that no Registrar shall register it. There is no harm if it is registered, nor is it necessary in a legislative enactment to say that it will not be valid for any purpose. I do not know whether if you say it will not be valid, whether it will be recognised as valid by any court, in the exercise of its criminal jurisdiction, though it may be some evidence of the commission of a crime. I do not know whether you can restrict the criminal court from looking into it, and therefore I say that the rest of the sentence is needless."

The Hon'ble MR. CUMMING said :—

"Sir, the Hon'ble Member bases his amendment, I apprehend, on two grounds : first as a matter of drafting and secondly as a matter of common sense. First as to the matter of drafting, if the Hon'ble Member's proposal were carried out, I ask him to consider what would be the difference between 49G and 49B, and I would further point out to him that the phrases to which he objects are contained in no fewer than three Acts. In the Chota Nagpur Act it is said that no transfer shall be registered or shall be in any way recognised as valid by any court whether in the exercise of civil, criminal or revenue jurisdiction. In the Punjab Alienation of Land Act it is stated that an instrument which contravenes any provision of this Act shall not be permitted to be registered, and in the Sonthal Parganas Settlement Regulation it is stated that no transfer or transaction in contravention of this Act shall be registered or shall be in any way recognised as valid in any court whether in the exercise of civil, criminal or revenue jurisdiction. I think, Sir, whether on the ground of common sense or on the ground of drafting the framers of the Bill had ample reason for making this addition."

The Bengal Tenancy (Amendment) Bill.

Rai Debender Chunder Ghose Bahadur; Mr. Cumming; The President.

The Hon'ble RAI DEBENDER CHUNDER GHOSE BAHADUR said :—

"My Lord, there is a preceding section 49C, which says that any transaction in contravention of the previous section will be invalid, and my objection is that part if not the whole of section 49G is redundant. It is not necessary, and the luxury of having the provision as regards registration and having a broad statement to the effect that no court in the exercise of any civil, criminal or revenue jurisdiction will recognise it, will not make this piece of legislation a work of art. If you use other words, if you put in redundant or unnecessary provisions, then one cannot admire the workmanship."

The motion was then put and lost.

(Amendment No. X—first part.)

The Hon'ble MR. CUMMING moved that after the word "continued" in line 6 of sub-section (*1*) of section 49H the words "or is" be inserted.

He said :—

"The object of this amendment is purely verbal. The wording of the clause is 'has continued,' but the idea of continuance is not correct with reference to the use of section 49F, and I therefore wish to add the words 'or is' after the word 'continued' in order to make the whole phrase logical."

The motion was put and agreed to.

(Amendment No. XI.)

The PRESIDENT addressing the Hon'ble Rai Debender Chunder Ghose Bahadur said :—

"Does the Hon'ble Member wish to move his amendment?"

The Hon'ble RAI DEBENDER CHUNDER GHOSE BAHADUR said :—

"My proposed amendment will not now be necessary in view of the amendment which has been accepted."

The Hon'ble Member, accordingly, with the approval of the President, withdrew the following motion standing in his name—, namely, "that for the word 'or' in line 7 of sub-section (*1*) of section 49H the words 'or has been in possession in contravention of the provisions of' be substituted."

(Amendment No. X—second part.)

The Hon'ble MR. CUMMING then moved that after the figures and letter "49 F" in line 7 of sub-section (*1*) of section 49H the words "as the case may be" be inserted.

He said :—

"This again, Sir, is a matter of drafting. It is considered proper to make this addition if the first part of the amendment was accepted."

The motion was put and agreed to.

(Amendment No. XII.)

The Hon'ble RAI DEBENDER CHUNDER GHOSE BAHADUR moved that for the word "ejection" at the end of proviso (*b*) to sub-section (*1*) of section 49H, the word "ejectment" be substituted.

The Bengal Tenancy (Amendment) Bill.

Babu Ambika Charan Mazumdar; Mr. Cumming; Kumar Shib Shekhareswar Ray.

He said :—

"My Lord, 'ejection' is a good English word, but in this case of landlord and tenant the legal phraseology is 'ejectment.' I think, I am not wrong in saying that it is more usual to say 'ejectment' in place of 'ejection.'"

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR said :—

"'Ejection' is a queer expression, although it may be good English, but I would use the word 'eviction' which I think is more appropriate."

The Hon'ble MR. CUMMING said :—

"I accept the Hon'ble Member's amendment and beg to thank him for pointing out the defect."

The motion was put and agreed to.

(Amendment No. XIV.)

The Hon'ble KUMAR SHIB SHEKHARESWAR RAY moved that for the first two lines of sub-section (*2*) of section 49H the following be substituted, namely :—

"Within a month of passing an order under sub-section (*1*), the Collector shall either—".

He said :—

"My Lord, this is a small matter. A limitation of this kind is necessary because considerable delay may be caused in the Collector's office before the order is carried out and the land is disposed of in the manner prescribed. I therefore hope that my amendment will be accepted."

The Hon'ble MR. CUMMING said :—

Sir, I understand the Hon'ble Member to say that unless a limitation of this kind is imposed a considerable delay will occur in the Collector's office. I object to any limitation of this description. I think it unreasonable to bind the Collector to this period. Besides it is not inconceivable that the matter might never come up at all before the Collector within the prescribed period. It is rather unfair, and on general grounds it is unreasonable, to bind the Collector."

(Amendments Nos. XIV, XV, XVI and XVII.)

The PRESIDENT said :—

" In the next amendment on the paper, the Hon'ble Member in charge of the Bill proposes to leave out the word 'heir' and to substitute the words 'heir or legal representative' for it. The amendment which appears after that on the paper stands in the name of the Hon'ble Rai Debender Chunder Ghose Bahadur, who proposes to leave out the word 'heir' altogether and substitute the words 'legal representative' for it. I shall therefore call upon him to move his amendment first."

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR said :—

" My Lord, might I rise to a point of order and obtain Your Excellency's ruling? I think amendment No. XVI, which stands in my name, should precede both Nos. XIV and XV."

The PRESIDENT said :—

" I do not understand on what grounds the Hon'ble Member asks that his amendment should precede No. XV. The amendment will precede No. XIV, but I do not understand why it should precede No. XV."

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR said :—

" For this reason, my Lord, the amendment of the Hon'ble Mr. Cumming, No. XIV, is to add the words 'heir or legal representative' and amendment No. XV is also practically to that effect, but amendment No. XVI wants to eliminate the word 'heir' altogether and to substitute certain other words for it, so that if amendment No. XVI be carried it will not be necessary to move Nos. XIV and XV at all, but if amendments Nos. XIV and XV be carried, it will cancel No. XVI."

The PRESIDENT said :—

" I have already ruled to that effect. Amendment No. XV also proposes to leave out the word 'heir,' and there is no reason why Nos. XVI should precede No. XV."

The Hon'ble RAI DEBENDER CHUNDER GHOSE BAHADUR moved that in sub-section (*2*) of section 4911 for the word " heir ", in the two places where it occurs, the words " legal representative " be substituted.

The Bengal Tenancy (Amendment) Bill.

Mr. Cumming; Rai Debender Chunder Ghose Bahadur.

He said :—

"My Lord, as you recognise testamentary powers in aboriginals, it is just possible that on the death of an aboriginal, if he leaves a will which is proved, that his heir may not be the person to represent the estate. Somebody other than the heir may be his legal representative. An heir may be the legal representative, but not necessarily so; somebody else may also be the legal representative, and therefore I think that if the Collector or the person who has the disposing power is to find out the person to whom the possession of the property is to be given, and if he is not allowed any liberty in the matter, or if he has to find out the proper person to represent the estate, then the proper expression should be 'legal representative', which expression may include the heir, but not always so. As regards any other alteration, 'heir' or 'legal representative', of course that gives liberty to the disposing authority to select either the heir or the true legal representative who might not be the heir. That is my submission to the Council."

The Hon'ble MR. CUMMING said :—

"This is a matter of legal drafting; and in this case I am advised that although 'legal representative' might suitably be substituted for 'heir' it will be better to have both phrases. It is for this reason that my name is down for another amendment to that effect. But I appeal to Hon'ble Members that in actual practice in dealing with Sonthals the person who would first occur to the mind of the Collector if the aboriginal tenure-holder, raiyat or under-raiyat were not available, would be the heir of such person, failing a member of his own family. That being so, as a matter of practical politics I suggest that the word 'heir' be retained."

The Hon'ble RAI DEBENDER CHUNDER GHOSE BAHADUR said :—

"I accept the Hon'ble Mr. Cumming's suggestion and I beg to withdraw my amendment."

The motion was then, by leave of the President, withdrawn.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR moved that for the word "heir", in line 3 of clause (*a*) of sub-section (*2*) of section 49H, the words "son, daughter, wife or husband, as the Collector may think fit" be substituted.

He said :—

"My Lord, section 49H relates to eviction by the Collector in certain cases, that is to say, when a person comes into possession of any land in contravention of the provisions of the previous section, the Collector may evict him and restore the land to the transferee or his heirs. My objection is this. I do not want to cut down the power of the Collector; the word "heir" always implies a certain law under which this heirship is claimed. You cannot have an heir without some sort of jurisprudence to determine the heirship. As regards most of the aboriginals, they are neither Hindus nor Muhammadans. In certain tracts they are akin to the Muhammadans and in others they are akin to the Hindus, so that when the Collector shall have to determine an heir in the absence of a transferee, by what law is he to be guided? Will he come under the Hindu law or the Muhammadan law? I know that heirship is also determined by custom, but I think among these aboriginal tribes you cannot find a well-defined custom always prevailing, so that it will be very difficult for the Collector to find out the heir. Besides a man may turn up and say that he is the brother of the deceased and claim the property, and the Collector orders that the property be given to him. Then again someone else may turn up and say he is the son of the deceased. It would lead to interminable cases compelling the Collector to enquire into all sorts of

questions of law and custom. The object of the present measure is this, as it appears to me, that when the Collector takes up the matter into his hands, the land should go first of all to the nearest kith and kin of the transferor and not to a non-aboriginal. That is the spirit. Now, it is not also a case of heirship because as soon as the tenant transferor has made the transfer he loses his right, he forfeits it. Then the legislature wants to come in and say, 'We shall have someone nearest to him.' It is not a case of heirship, it is only a case of aboriginal *versus* non-aboriginal. In that case, I believe the object of the law would be fully satisfied if we distinctly mention son, daughter, wife or husband, as the case may be, or as the Collector thinks fit. I propose to give a wider latitude to the Collector; he may give it to the son or to the daughter or to the wife, or in the case of the wife being the tenant to the husband; so that it is not a case of heirship under any law; in fact there being hardly any law which you can say determines the case of this aboriginal or that aboriginal. In these cases, the purposes of the law would be best served by specifying the relations to whom the property can be given. Otherwise, the landlord will be involved in frequent quarrels and litigations, which is, I believe, not the avowed object of the proposed legislation. I have mentioned the specific heirst o provide that he is not a non-aboriginal and also that he is one of the nearest kith and kin of the transferor. So instead of having the word 'heir,' which would bring in intricate questions of law and fact, it would be much better to define exactly to whom the Collector may give the property,—the son, daughter, wife or husband, as the Collector may think fit. I want to give a certain amount of discretion to the Collector. I have already said there is no question of heirship, because the right has been forfeited. It is the intention of the legislature to keep the lands in the hands of the aboriginals by declaring in favour of anyone who may be nearly related to the deceased. The introduction of the word 'heir' will give rise to difficulties and uncertainties which we ought to avoid."

The Hon'ble MR. PROVASH CHUNDER MITTER said :—

"My Lord, I desire to support this amendment. The object of this is to afford protection to the aboriginals, and I understand that that protection would be amply secured if you give the protection to the immediate heirs of that aboriginal, and the words 'son, daughter, wife or husband' will preclude a lot of artful supposed distant relations coming forward as heirs, and as indicated by my hon'ble friend, these aboriginals are governed by customary laws. Then the object of this legislation not being to give it to such persons, therefore these words I submit will serve that object fully, and therefore I support this amendment."

The Hon'ble MR. CUMMING said :—

"My Lord, I have listened to the remarks of the hon'ble gentlemen who have spoken. I appreciate their arguments. They both desire that the property should be retained in the Sonthal family. That, of course, is the object of the Bill, but, at the same time, I am advised by those who have knowledge of the practical working that there will be no difficulty if the word 'heir' be retained. However, as I have already stated, I am prepared in order to cover the cases of those who are not actually members of the family, to include Sonthals who are local representatives. One Hon'ble Member desires to restrict the Collector to this form, but I think it is neither wise nor necessary. I would only suggest to him—supposing the grandson were the heir, would he be precluded from receiving the property? I do not think so. I, therefore, advise the Council to retain the phrase in this more generic form."

The Bengal Tenancy (Amendment) Bill.

Mr. Bompas; Mr. Cumming; Babu Ambika Charan Mazumdar; Kumar Shib Shekhareswar Ray.

The Hon'ble MR. BOMPAS said :—

"My Lord, as one well acquainted with the Sonthals, may I show to the Hon'ble Babu Ambika Charan Mazumdar that his apprehensions are unfounded and that the remedy he purposes will not meet the evil which he wishes to avoid? There is no real difficulty in finding what the customary law of a particular tribe is, with whom the Magistrate has to deal. As a matter of fact, as regards Sonthals, it has been reduced to writing and is explained in a whole series of case law. The difficulty, which he will fall into if this amendment were adopted, is that he will compel the Collector to give abandoned land to people who have no right to it. The object, I take it, is that if the raiyat, in defiance of this law, abandons or transfers his holding, he does so to the prejudice of his natural heir or the person who would, in due course otherwise, have succeeded him, and the Collector intervenes and restores that person who would in the natural course of events have succeeded to that holding. These words would, at any rate among the Sonthals, prevent the Collector from putting into an abandoned holding the former owner's natural successor. Among the Sonthals a daughter is not an heir; in the absence of a son, a brother is a prior heir; and in the natural course of events, if there are no sons or son's sons to the Sonthal, his brother and after him the brother's son would succeed. The Collector would be unable to do that simple act of justice. I am not aware of the tribal law prevailing among other races to which the Act may be applicable, but they may have other customs which also the Collector would be unable to give effect to if these four particular heirs and successors are mentioned and the Collector given no discretion."

The motion was put and lost.

The Hon'ble MR. CUMMING moved that in sub-section (*2*) of section 49H for the word "heir" in the two places where it occurs, the words "heir or legal representative" be substituted.

He said :—

"I now move the amendment which stands in my name. I need not elaborate the arguments already adduced, but ask the Council to accept this addition as meeting the points that have been already raised in the debate."

The motion was put and agreed to.

(Amendment No. XVII.)

The following motion, by the Hon'ble BABU AMBIKA CHARAN MAZUMDAR was then held to be withdrawn, viz., that for the word "heir," in line 1 of clause (*b*) of sub-section (*2*) of section 49H, the words "son, daughter, wife or husband, as the case may be" be substituted.

(Amendment No. XVIII.)

The Hon'ble KUMAR SHIB SHEKHARESWAR RAY moved that the words "on such terms as he deems fit", in lines 7 and 8 of clause (*b*) of sub-section (*2*) of section 49H be omitted, and that the words "on the terms on which it was held before the transfer" be inserted after the word "aboriginal" in line 8 of that clause.

He said :—

"This amendment is necessary as otherwise the Collector may make a settlement on easier terms which would mean so much less to the landlord, and that through no fault of his own. I, therefore, think that a restriction of this kind should be put on the discretionary power of the Collector."

The Bengal Tenancy (Amendment) Bill.

Babu Ambika Charan Mazumdar; Mr. Cumming; Kumar Shib Shekhareswar Ray.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR said :—

"My Lord, I fully support this amendment. We have already made the Collector a zamindar without a zamindari. I think we ought not to make him an irresponsible zamindar. When the Collector settles the amount, he ought not to be allowed to settle on terms other than those which appertain to the original holding, and I think it is but just and reasonable that he should be confined to the terms incidental to the original holding and not to deviate from them either in the way of strictness or of laxity."

The Hon'ble MR. CUMMING said :—

"Sir, this amendment is proposed on the ground that it is intended to prevent the detriment of the landlord's interest. I think the Hon'ble Members who have spoken have overlooked the fact that this is a penalty clause, that the landlord has already had one year in which to exercise his rights, and that the Collector does not come in at all within this year. I put it to the Council whether it is unreasonable after that period to give the Collector such discretion as he thinks fit to exercise. I, therefore, oppose the amendment."

The Hon'ble KUMAR SHIB SHEKHARESWAR RAY said :—

"My Lord, it is quite possible that a holding may not be taken on the same terms, but a non-aboriginal may come forward and pay the same rate of rent. The zamindar has got six months' time."

The Hon'ble MR. CUMMING said :—

"No, he has got one year's time."

The Hon'ble KUMAR SHIB SHEKHARESWAR RAY said :—

"It does not matter, it may be one year, it only shows that he cannot get an aboriginal tenant to take the holding at the existing rent, but that is no reason why he should not settle the holding with a non-aboriginal. It was not the zamindar's fault that the holding was taken away from the occupier and made over to him for resettlement."

A division was then taken with the following result :—

(Amendment No. XIX.)

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR moved that after sub-section (*2*) of section 49H the following be added, namely :—

" Provided that if the Collector restores the transferor to the possession of the transferred land, he shall order him either to refund the consideration money actually paid by the transferee or pay such compensation to him as may appear reasonable to the Collector under the circumstances of the case."

He said :—

" We have sufficiently safeguarded the interests of the aboriginals and we have gone so far as to lay down that if the transfer is in contravention of the provisions of this chapter, the Collector may turn out the transferee and restore the transferor to the possession of the transferred land or in his absence to his heir or legal representative. Now, Sir, it is a well-known maxim of law that no man ought to be allowed to derive the benefit of his own fraud. It is a mistake to suppose that aboriginals are so simple that we may not find simpler persons among non-aboriginals. If a person transfers his lands to a non-aboriginal and the Collector turns him out, is it not fair that he the transferor should also return the money which he has swallowed? If we do not provide a safeguard like that it might be said that we are putting a premium on fraud. I know some of these aboriginals to be very shrewd people, and in fact we should not be justified in presuming that the blame should be entirely on the side of the non-aboriginals. Both may be guilty or one may be more guilty than the other, and in these cases it is only just and fair that the money should be refunded by the transferor, and I have added further that it may not be the money actually paid ; it may be some reasonable compensation. If the Collector thinks that the transferee is more to blame than the transferor he may give him a nominal compensation ; if he thought the case was the reverse, he may give him the full compensation or the money actually paid, so that in any case he ought to compensate the transferee, whether in smaller or larger amounts it does not matter. It would be impolitic to allow an aboriginal to deal with his property in any manner he likes in contravention of this law, and then set the Collector in motion so that he may take the property as well as the money. It has often been said that one cannot be pardoned and yet retain the offence. I have not intentionally retained the words ' of the transfer ' for this reason that the transferor may have misused the whole of the money obtained by him, and his legal heir or representative may not have got anything out of it, so that this proposal for granting compensation to the transferee should not be extended beyond the transferor himself, and it seems to me that there is no reason why the Collector should not be empowered to consider whether in each particular case the transferor was not to some extent blameable for the transfer. He evidently got the money, and the Collector ought to have the power

to see whether he should go scot-free or whether he should pay something according to his complicity in the matter. I think it would not be good policy to allow the man to retain his land, and yet swallow all the money which he has received. I venture to submit that the Council will consider that it is not always the case that it is only a non-aboriginal trying to induce an aboriginal to enter into a transaction like this. I think it is fair that opportunity should be given to the Collector to decide whether he should be given compensation or not."

The Hon'ble MR. CUMMING said :—

"Sir, I object to this amendment. The Hon'ble Member will recollect that if a transfer is *ab initio* void, the Collector is trying to put it right. He first gives the landlord a chance of doing so, and then he takes action himself. The question for consideration is, I suggest, entirely alien to this, and I venture to think that an examination of this point would introduce many complications. At first sight it might appear that the aboriginal tenant had got the money in his pocket, and that all that ought to be done was to ask him to give it up, but in actual practice the consideration is probably the payment of some debt ; and if so, the Collector would have to examine the whole matter of the initiation of this debt. I therefore think that all this is alien to the object of the Bill. I, therefore, recommend to the Council that this amendment be not accepted."

The motion was then put and lost.

(Amendment No. XX.)

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR moved that at the end of section 49H the following be added, namely :—

> (*3*) Nothing in this section shall apply to or affect the right of an auction purchaser in a sale either under proviso (*a*) or proviso (*c*) to section 49K, whether he be an aboriginal or not ".

He said :—

"I move this amendment practically against the interests of my own profession which thrives owing to the obscurity of the law and the weakness of judges. We have in this piece of legislation two provisos (*a*) and (*c*) to section 49K which refer to sales either for arrears of rent or for the recovery of public demands. Evidently, Sir, the present legislation refers to private transfers. But difficulties may arise unless we explicitly say that these provisions do not apply to auction purchasers. Under these two sub-sections any tenure or holding belonging to an aboriginal may be sold in execution of a decree of a competent court, and purchased by anyone, and therefore to make it clear in this case the purchaser may be an aboriginal or a non-aboriginal, so that their case ought not to come under the stringent provisions of this new chapter. Only to make it clear, I say, let us distinctly say that it does not apply to their case."

The Hon'ble MR. CUMMING said :—

"Sir, I appreciate the point that has been raised by the Hon'ble Member who desires to make the Act more clear with reference to clause 49K, but as this is a matter of legal drafting, I suggest to him that the phrase with which the clause begins 'notwithstanding anything in this Act.....' is sufficient for the purpose ; and on the ground that the amendment is unnecessary, I ask that it be not accepted."

The Hon'ble RAI DEBENDER CHUNDER GHOSE BAHADUR said :—

"My Lord, section 49K does not end with the proviso (*a*), but there are other provisos, namely (*b*) and (*c*). It is not exactly clear, so it is a point

The Bengal Tenancy (Amendment) Bill.

Rai Debender Chunder Ghose Bahadur.

which ought not to be left in doubt. It is true that upon one reading of the Act the impression is that it relates only to transfers between parties independent of law courts, and it does not refer to involuntary or compulsory sales, but to avoid any unnecessary litigation it might be well to adopt my hon'ble friend's suggestion that it should be clearly stated that nothing in this section applies to what he calls auction sales and compulsory sales, and there will be no harm thereby especially when we find that the Bill is not free from redundancy in other matters ; for instance, as regards the validity of certain transfers coupled with the matter of registration, that any deed of sale in contravention of the provisions of this Act, or shall not be registered and no court shall recognise it. All that is redundant. I do not see why it should not be absolutely clear though we may be open to the charge of redundancy. As a matter of supererogation we might have the clause which the Hon'ble Member Babu Ambika Charan Mazumdar has suggested."

The Bengal Tenancy (Amendment) Bill.

Kumar Shib Shekhareswar Ray.

(Amendment No. XXI.)

Proposed section 49J.

The Hon'ble KUMAR SHIB SHEKHARESWAR RAY moved that the following be omitted from sub-section (*1*) of section 49J, namely :—

(*i*) the word "or" at the end of clause (*a*);

(*ii*) the whole of clause (*b*); and

(*iii*) the words and figures "subject to the provisions of sections 86 and 87" in lines 9 and 10 of that sub-section.

He said :—

"My Lord, this is a very important matter. Section 49J, as it now stands, threatens us with a serious encroachment on our vested rights—rights which we have been enjoying from time immemorial. Talking of vested rights, my Lord, I think I should make it clear at the very outset that the zamindars of Bengal will be the first persons to give up every bit of their vested rights for the benefit of their country if it can be proved to their satisfaction that by doing so the benefit obtained will be commensurate with the extent of sacrifice involved. But unless and until this can be proved, we can never entertain any proposal which interferes with our rights and thus means a repudiation of the sacred undertaking given to us by the Government at the time of the Permanent Settlement of Bengal.

My Lord, in the matter of settlement of our waste lands or lands abandoned or surrendered by our tenants, we have all along exercised a free and unrestricted right, but this provision of the Bill is going to put a restraint on our free action; it proposes to lay down that under certain circumstances we shall have to obtain the sanction of the Collector first.

My Lord, this is a very serious matter. Let us see how it is proposed to justify this interference with our rights. It is no doubt an admitted fact that the aboriginal tribes require some protection against being cheated out of their lands by designing persons. It is therefore undoubtedly necessary that certain restrictions should be put on them so that they might not run into hopeless debts or foolishly alienate their lands. With these ends in view, various enactments have been passed in the provinces of Bihar and Orissa, the Punjab and the Central Provinces. But let me tell your Lordship that nowhere in those enactments has any restriction been placed on the landlord as to how he should dispose of the holdings abandoned or surrendered by the aboriginals. Mr. Beatson Bell, who is originally responsible for this Bill, did admit in his notes that this is an innovation. He says :—

> 'This is new, but experience shows that provisions regarding the prohibition or restriction of transfers are defeated by so-called surrenders or abandonments. Provision is therefore made for making the resettlement of such lands by the landlord subject to the approval of the Collector.'

Yes, I admit that in theory at least there is a possibility of defeating the intention of the legislature in this way; but let us come to the practical side of the question. Do we for a moment realise that in order to alienate his holding by such surreptitious means the aboriginal shall have to enter into a conspiracy with his landlord and the intending non-aboriginal purchaser. But what gain does the landlord derive by joining the disgraceful conspiracy. It might be contended that a non-aboriginal will pay the landlord a bigger registration fee than an aboriginal purchaser. But we should remember that the maximum fee itself in one single transaction of this kind hardly exceeds Rs. 25, so the prospect of getting a rupee or two more is certainly not so big a temptation as to make a respectable zamindar stoop so low. Most of my official colleagues here surely know that no big or respectable zamindar can

The Bengal Tenancy (Amendment) Bill.

Kumar Shib Shekhareswar Ray.

act in this way ; they undoubtedly care more for their reputation than for such petty pecuniary gains secured by so unfair a means. Now let us see what grave risks the other conspirator, I mean the occupier of the so-called abandoned holding, runs. Under the Bengal Tenancy Act (section 87) the abandoned holding may be reclaimed by the original tenant at any time within a period of two years of the abandonment. Under the circumstances can we seriously believe that any sensible person will part with his hard-earned money for so doubtful and risky a transaction.

My Lord, I hope I have been able to show that the fears of Mr. Beatson Bell are entirely baseless. But assuming that he is right and we the zamindars are a set of unscrupulous people, I frankly ask the Member in-charge will this restriction be at all effective? When all parties are agreed, are there not a thousand and one ways by which they can secure the desired end? By previous arrangement, cannot the zamindar auction-purchase the aboriginal's holding in execution of a rent decree and then settle it with the desired party? I think that this is a much safer plan than the so-called surrenders and resettlements so much feared by Mr. Beatson Bell.

My Lord, it will thus be seen that while this provision of the Bill proposes to take away a long-enjoyed privilege from the zamindars, the benefit it intends to confer is practically nil.

In this connection I should also alike to point out that all non-officials consulted on this subject have objected to this intrusion on our vested rights. Even some of the very highly placed Government officials consulted have admitted the impropriety of the proposed interference with our rights.

The District Judge of Birbhum says :—

'In my judgment this is a most important innovation proposed. I find that nearly all the subordinate officers whom I consulted are against the proposed innovation. They are of opinion that the landlords' powers of resettlement should be left unfettered.'

The District Judge of Midnapore says :—

'This is a serious encroachment on a landlord's liberty of contract, and as I have already indicated, I am of opinion that there is no justification for it in a district where the aboriginals whom it is intended to protect have no inherent rights, so to speak, in the soil.'

The Commissioner of the Burdwan Division says :—

'Strong objection is taken to the curtailment of the landlord's right to settle abandoned holdings. Mr. Boyle points out that Sonthals very often abandon a village entirely owing to the death of a leader or some superstition and may desert their villages never to return, and if permission to resettle these holdings is to be obtained from the Collector, the time of the Collector and the landlord would be wasted and the aboriginal tenants would be put to unnecessary expense.'

My Lord, let me also quote what two of the premier zamindary associations of the country say on this subject.

The Secretary of the British Indian Association writes :—

'My Committee beg leave to point out that section 49J introduces a new element, in that it gives power to the Collector to interfere with the vested rights of zamindars. Under the Permanent Settlement the latter have the undoubted right to settle the land in the best way they can, and there is no restriction put on this right. This principle has been recognised and confirmed in all legislation subsequent to the Permanent Settlement relating to landlords and tenants ; and as the proposed clause will be a direct violation thereof, my Committee cannot too earnestly pray for its omission from the Bill.'

The Bengal Tenancy (Amendment) Bill.

Mr. Cumming; Mr. Bompas.

The Secretary of the North Bengal Zamindars' Association writes :—

'Section 49J of the Bill puts vexatious and unwarranted restraint on the free-will and judgment of the landlords and imposes on them an obligation which is hardly compatible with their permanent proprietary right; as such this section should be omitted altogether.'

My Lord, in view of the opinions expressed above may I not hope that our vested rights will be properly respected and not lightly set at naught as proposed.

My Lord, in dealing with the aboriginals every care should be taken to protect them from unscrupulous persons, but zamindar's aid and not his discontent should be sought to effect this. If any undue restriction is put on the zamindars it is the aboriginals who will suffer most. No zamindar, in that case will dare settle lands directly with the aboriginals. The only result of this interference with our rights would be that in future the poor aboriginals, instead of securing occupancy rights under us, will have to remain satisfied with the inferior and insecure position of under-tenants of our creatures whom we will be forced to set up as an intermediary between us and the aboriginals. My Lord, I have not concealed any facts, I have been plain and clear on every point and now I hope that the Hon'ble Member in charge of this Bill will realise the situation and be kind enough to accept my amendment."

The Hon'ble MR. CUMMING said :—

"Sir, I fully admit that this is an important innovation. It is alleged that the vested interests of the zamindar are in danger. Those who have framed this Bill have no desire to affect injuriously the vested interests of the zamindars, but there are some zamindars who are also money-lenders. The zamindars as a rule prefer Sonthal tenants, and the two representatives of the landlord community who were on the Select Committee and who had also Sonthal tenants considered that this amendment in its present form was a suitable one. The genesis of it is as follows :—

Mr. McAlpin from the beginning said that something should be done to prevent collusive surrenders. It was found then that in Chota Nagpur no action had been taken to meet this. The Chota Nagpur officers have reported to their Government that there is a defect here and that when the law is next amended, provision should be made on the lines of the clause as it stands in the Bill. That is why in drafting this Bill it has been determined to legislate against collusive surrenders. The Hon'ble Member has raised a point that such legislation does not exist anywhere else in India. I think, Sir, he is under a misapprehension, because in section 36 of the Central Provinces Tenancy Act provision has been made so that a heir of a raiyat who has surrendered his holding may apply to the revenue officer within two years to have him placed in possession of his holding. That is the same principle which we desire to enforce here. On these grounds, Sir, that it is to meet a definite evil and that there is an analogy for it in another Act dealing with similar circumstances, I think that the clause should stand as it is in the present Bill before the Council."

The Hon'ble MR. BOMPAS said :—

"My Lord, I do not think it is necessary to go so far as the Hon'ble Mr. Cumming to find a precedent for the provision which it is proposed to introduce into the Act. In the Sonthal Parganas, since 1872, the landlords

The Bengal Tenancy (Amendment) Bill.

Mr. Bompas.

have not been allowed to exercise the right of settling abandoned holdings; that right, in the interests of the village communities, was transferred to village headmen. The Sonthal Parganas were recently under this Government with its seat in Calcutta and a great part of the district consists of permanently-settled zamindari. That is a distinct precedent for controlling the power of resettlement of abandoned holdings. I think that the Hon'ble Members will not have any difficulty in supporting the clause, as it stands, if they have clearly realised the object of the legislation embodied in this Bill. We have a community of aborigines which originally had a strong village system, and it is found that the members of this community are losing their lands and that the communal system is being broken up. To remedy that state of affairs, two courses are possible: you may protect the individual against himself, or you may ignore the individual and look solely to the interests of the community. This Bill is to some extent a double-barrelled Bill and aims at both objects. When it forbids an individual aboriginal to mortgage his land for more than seven years even to another aboriginal, it is protecting the individual against himself; when the Bill forbids an aboriginal to sell or give his land to a fellow aboriginal it is restricting the liberty of the individual in the interests of the individual himself. There is another course which is primarily the object of this Bill, as is seen from the fact that it forms an amendment to the Bengal Tenancy Act, and that is to look to the interests of the community and protect the community against invasion from outside. The original system of tenure prevailing among the Sonthals is the communal system. The village community under its headman is responsible for the payment of rent of the village and within the village the headman is supreme. That is a rational system of land tenures and unfortunately as it is found in few parts of Bengal it is totally outside the purview of the Bengal Tenancy Act; it is not recognised by our Rent Law at all. In this amendment of the Bengal Tenancy Act there is sufficient recognition of it inasmuch as this provision is intended to prevent an encroachment on the rights of village communities and the breaking up of village communities. A Sonthal village is a self-contained unit. The village has its headman, its priest and its village messenger. Its numerous village festivals and ceremonies are all carried out as a community, and as a community the Sonthals are fairly strong; taken as an individual his want of intelligence makes him an easy prey to more intelligent people. The only hope of keeping these people as fairly self-respecting, independent members of society is obviously by maintaining the village communal system. You have a village of Sonthals and if you introduce into it a number of people of other castes of superior intellect and superior ability such people will not take any part in the village life; they will not be subordinate to the village headmen. They gradually increase their holdings and in the course of a few years your village community comes to an end. It is sufficiently apparent that once that process has set in, the only end is that the aborigines become landless labourers. Now this Bill prevents the transfer, except with the consent of the Collector, of aboriginal holdings to non-aboriginals, but it is found by experience that is not sufficient. I speak from experience. I was Deputy Commissioner of the Sonthal Parganas for six years; and during the whole of that period settlement operations were in progress. In the course of these operations full statistics were obtained of the manner in which holdings were alienated from aboriginals to non-aboriginals, and it were found that the greatest percentage of objectionable alienations took the form of resettlement with the consent of the village headmen or the zamindar's agent. That is natural. If a raiyat is entering into an invalid contract, it is almost certain that he must obtain the consent of the zamindar's agent or of the village headman, where it exists. When there is an obvious way of evading the provisions of the Bill that an aboriginal may not transfer his holding by making a collusive abandonment it is necessary to provide against such evasion and that is done by providing that in resettlements, sales or in other formal transfers, a fellow

aboriginal shall have a prior right to take the abandoned holding; and it is only by such a provision as far as I know and as far as my experience goes that you can maintain the integrity of the village community."

The Hon'ble KUMAR SHIB SHEKARESHWAR RAY said :—

"My Lord, it is surely not a good argument that because some people act in a suspicious manner all people must be suspected. In fact one can only rely on this argument when a large number of people act in a suspicious manner. I do not think that the Hon'ble Mr. Cumming has been able to show that a large number of zamindars act in this manner, and so, until he can show that, I do not think he can reject my amendment.

Then, again, he has referred to the provision in the Central Provinces Act. We have got a similar provision in section 87 of the Bengal Tenancy Act— 'If a raiyat voluntarily abandons his residence without notice to his landlord, and without arranging for payment of his rent as it falls due, and ceases to cultivate his holding either by himself or by some other person, the landlord may, at any time after the expiration of the agricultural year in which the raiyat so abadons and ceases to cultivate, enter on the holding, and let it to another tenant or take it into cultivation himself.'..... 'When a landlord enters under this section, the raiyat shall be entitled to institute a suit for recovery of possession of the land at any time not later than the expiration of two years, or, in the case of a non-occupancy raiyat, six months from the date of the publication of the notice; and thereupon the Court may, on being satisfied that the raiyat did not voluntarily abandond his holding, order recovery of possession on such terms, if any, with respect to compensation to persons injured and payment of arrears of rent as to the Court may seem just.'

Especially, in view of the further amendment that has been proposed by the Hon'ble Mr. Cumming himself, I do not think that there is any necessity for encroaching upon our rights. This amendment which is amendment 25, says :—'If any person, who is not an aboriginal, obtains or retains possession of any tenancy or portion thereof in contravention of the provisions of sub-section (*1*), such person shall, for the purposes of section 49H, be deemed to be a transferee, and the Collector may take action, so far as may be, in accordance with the provisions of that section.' As Mr. Cumming is going to move this amendment, I take it that it will be passed, in that case when the Collector comes to know that any so-called abandoned holding has been conveyed collusively, he may take steps under this section. So the real interests of the aboriginal tenants, that Mr. Bompas has referred to, will be amply safeguarded. Is there any force in the argument that land once held by an aboriginal should be always held by an aborginal? They are after all, as far as the non-aboriginal districts are concerned, only emigrants and as such what right have they to a preferential claim on a plot of land even if it has been abandoned by an aboriginal. I do not think they can have any preferential claim.

I think I shall have to ask for a division, and before resuming my seat I should like to appeal to my non-official European colleagues here that if they feel convinced by my arguments, they should not be deterred from voting in my favour solely on the ground that they belong to the Government party. There is no party in this Council. This Council is only an Advisory Board. We may succeed or fail in carrying a motion, but it does not affect the Government in the least, because our opinions are only a kind of recommendation to the Government. So under these circumstances it is rather the duty of everybody to vote as he thinks proper."

(Amendment No. XXII.)

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR moved that the words "retain it in his own possession", in lines 3 and 4 of clause (*ii*) of sub-section (*1*) of section 49J be omitted, and the following be added after that clause, namely :—

"(*iii*) retain it in his own possession".

He said :—

"This motion deals with the question of the settlement of land when it is vested in the zamindar on account of a void transfer, or when it is vested in him owing to surrender of land. In this case a zamindar may first of all settle the tenancy or a portion thereof with an aboriginal. He can do it

The Bengal Tenancy (Amendment) Bill.

Mr. Cumming.

without any reference to anybody, and in the second place, with the approval of the Collector in writing, he can settle it with a non-aboriginal ; and then it is said that he can retain it in his own possession. So that as the section stands, the power of the landlord to retain the land in his own possession is also subject to the approval of the Collector. My contention is that we have made sufficient encroachment on the rights of the landlord, and we need not encroach further. In the first place, when the right of settlement comes to him, he may settle with an aboriginal, that is all right. In the second place, if he does not want to settle with an aboriginal he is made to take the sanction of the Collector. But I do not understand why he should not be permitted to retain the land in his own possession when he fails to settle it with a non-aboriginal. It may be argued that if the landlord is allowed to retain the land in his own possession, without the intervention of the Collector, he may avoid settling it with any tenant whether aboriginal or non-aboriginal. My contention is this, that the landlord should not be debarred from dealing with his land, if he is a landlord, even to the extent of keeping the land in his own possession without the sanction of the Collector. Landlords of course are considering to be very rack-renting and so forth. My Lord, I am not one of those big zamindars who need complain about this provision, but I think in justice to them, we ought not to be very hard upon them. They are not in fact such unscrupulous people as they are supposed to be. They are very good people ; when they have to establish schools and colleges, and when they have to found charitable institutions they are very useful as collecting agents of Government ; they have to pay very heavy Government revenue, whether they realise their rent or not ; they have to pay the cess demand due from the tenants even before they can realise 50 per cent. of it from the tenants themselves. I think under these circumstances, it is not a wise policy to kill the goose that lays the golden eggs. Therefore, I wish to take the words ' retain in his own possession ' from sub-clause (*2*) and make it an independent sub-sectional clause. Three things are open to the landlord : first he will have to settle with an aboriginal, and in the second place if he wants to settle it with a non-aboriginal he will have to go to the Collector who will have an opportunity of seeing whether it was not possible for him to settle with an aboriginal tenant, and in the third place, if he does not want to settle with an aboriginal or non-aboriginal, he may keep it in his own possession. I do not see why you should compel him to ask the Collector's permission if he wants to keep such lands which have been surrendered by a tenant, in his own possession. I think that this clause ought to be taken out and made an independent clause so that it may not be affected by any approval or disapproval of the Collector."

The Hon'ble MR. CUMMING said :—

"Sir, the Hon'ble Member desires that if the landlord retains the tenancy in his own possession he should not require the approval of the Collector in writing; and by way of argument he says that we, that is to say, the Council, have already sufficiently encroached upon the rights and privileges of zamindars. I think the Hon'ble Member overlooks again what the object of the Bill is. The object of this Bill is, as far as possible, to keep the lands in the hands of the Sonthals. Now, as regards landlords, there are two classes. There are those who are not money-lenders and who always like Sonthals as tenants and there are those who are money-lenders. As regards the landlords who are not money-lenders, they have no objection to this ; they are quite agreeable that the Collector should have a say in the matter. The landlords who are money-lenders naturally object to this proposal, but it is precisely against the money-lender landlords that we wish to legislate. Therefore, it is highly desirable that the Collector should have an opportunity of approving the case in which the landlord desires to retain the tenancy in his own possession. The Hon'ble Member has spoken as if nothing has been

The Bengal Tenancy (Amendment) Bill.

Mr. Cumming.

done, no concession has been made; as if no consideration of the interests of the landlords has been taken at all. But he should realise that in the Select Committee, sub-clause (*b*) (*2*) of clause 49H was very materially altered; and it was laid down that the landlord had one year in which to exercise his right of settlement, and that the Collector on his part should exercise his right within six months. These are two material concessions that have been made to the landlord. I, therefore, think, Sir, that either on general grounds or particular grounds, there is no reason for altering 49J as it stands in the Bill at present."

(Amendment Nos. XXIII and XXIV.)

The Hon'ble MR. CUMMING moved that after the word "possession", at the end of clause (*ii*) of sub-section (*1*) of section 49J, the following be added, namely :—

"Provided that such approval shall not be withheld if the Collector is satisfied that the surrender or abandonment referred to in this sub-section is not made with the object of evading the provisions of sections 49B, 49E or 49F."

The Bengal Tenancy (Amendment) Bill.

The President; Mr. Cumming; Kumar Shib Shekhareswar Ray; Maharajadhiraja Bahadur of Burdwan.

He said :—

"Sir, it will be observed that the Hon'ble Kumar Shib Shekhareshwar Ray has tabled an amendment, the purport of which is that if the surrender is *bonâ fide*, approval should always be given. As the prime object of the drafting of this clause is to legislate against *mala fide* surrenders, I am prepared to suggest to the Council that a proviso be inserted in the terms which I have read. I wish, that the Collector should be satisfied that the surrender is not made for the object of defeating any of the principles of the Act. I, therefore, move the amendment which stands in my name."

The PRESIDENT said :—

"The Hon'ble Member (Kumar Shib Shekhareswar Ray) understands that if this amendment is carried, he will not be able to move his amendment (No. XXIV)."

The motion was put and agreed to. The following amendment was then held to be withdrawn :—

The Hon'ble KUMAR SHIB SHEKHARESWAR RAY to move that the following be added at the end of sub-section (*1*) of section 49J, namely :—

"Provided that such approval shall always be given if the surrender or abandonement referred to in this sub-section is made *bonâ fide*."

(Amendment No. XXV.)

The Hon'ble MR. CUMMING moved that for sub-section (*2*) of section 49J, the following be substituted, namely :—

"(*2*) If any person, who is not an aboriginal, obtains or retains possession of any tenancy or portion thereof in contravention of the provisions of sub-section (*1*), such person shall, for the purposes of section 49H, be deemed to be a transferee, and the Collector may take action, so far as may be, in accordance with the provisions of that section."

He said :—

"It will be observed, Sir, that this is an amplification of sub-clause (*2*) of section 49J, as it stands in the Bill before the Council, and the reason for this amplification is as follows :—

The Bill, as it stands, does not make it clear that the Collector can, on his own motion or on the motion of the landlord, turn out a money-lender who has managed to obtain possession by a collusive transaction with the landlord. Sir, it struck me, after the Bill had proceeded from the Select Committee, that there was a defect here; and after consideration this amendment has been drafted for the purpose of meeting that defect, *namely*, of turning out a money-lender who came into possession by a collusive abandonment.

It will be observed that he is called a transferee and reference is made to section 49H, under which the Collector can take certain action as regards eviction. I, therefore, recommend, Sir, this sub-clause in its revised form for the acceptance of the Council."

The Hon'ble MAHARAJADHIRAJA BAHADUR of Burdwan said :—

"My Lord, I was a member of the Select Committee and I wish to draw your Lordship's attention to the fact that had the amendment, which the Hon'ble Mr. Cumming has just moved, been moved or discussed in the form in which it is now proposed, some of us would have opposed it. In his desire

The Bengal Tenancy (Amendment) Bill.

Mr. P. C. Mitter.

to keep out the money-lenders, Mr. Cumming seems to overlook the fact that in this section we have been trying to give a little more free hand to the landlord who is after all the real proprietor and in his desire to keep out the money-lender, if the money-lender happens to be the zamindar himself, he will have to suffer because he lent the money to the aboriginal tenant. I prefer the wording of the section, as it stood and as it was passed by the Select Committee; and I, therefore, oppose this motion."

The Hon'ble MR. P. C. MITTER, said :—

"My Lord, I am sorry to have to oppose the amendment proposed by Mr. Cumming. The Council will observe that under section 49J, as it now stands, if this settlement with the tenant is in contravention of the provisions of sub-section (*1*), the Collector may take action, so ordinarily that ought to be sufficient. Now, the Council will also observe in the amendment proposed by the Hon'ble Mr. Cumming that no time-limit is mentioned. In the ordinary course, this will come under section 49H, sub-section (*2*) (*b*), and under clause (*b*) it will be observed that if the zamindar settles within one year, well and good, if not, the Collector may within six months settle the land on behalf of the landlord. This amendment wants to get rid of a suspicious settlement, therefore, in the amendment as it stands, there is nothing to prevent the Collector getting rid of such a settlement after 10 years. Some time-limit ought to be mentioned. There is another point which would appear, and that is in case of civil settlements, the person settling has to take the sanction of the Collector. If he has not, then clause (*2*) of section 49J will make such settlement a bad one. Therefore, Sir, from that point of view, the amendment seems to me to be unnecessary."

(Amendment No. XXVI.)

The Hon'ble BABU KISHORI MOHAN CHAUDHURI, with the approval of the President, withdrew the following amendment which stood in his name, viz.:—

" that before the decree, in line 2 of proviso (*b*) to section 49K, the " words '*bonâ fide*' be inserted."

(Amendment No. XXVII.)

The Hon'ble MR. CUMMING moved that in line 4 of proviso (*b*) to section 49K, before the word " contract " the words " *bonâ fide* " be inserted.

He said :—

" The reason for this amendment is the desire to meet the point raised by the Hon'ble Member who has just spoken, and I presume that, because I am moving this, he has agreed to withdraw his amendment."

The motion was put and agreed to.

(Amendment No. XXVIII.)

Proposed Section 49K.

The Hon'ble BABU KISHORI MOHAN CHAUDHURI moved that for the words " any contract " in line 4 of proviso (*b*) to section 49K, the words " any *bonâ fide* contract or transfer " be substituted.

He said :—

" I propose that in line 4 of proviso (*b*) to section 49K, the words 'any *bonâ fide* contract or transfer' be substituted. The only words I wish to add are 'or transfer'. If this is done, it will obviate the necessity of having section 49P. As far as I have been able to see 'transfer' is the only thing dealt with by that section. If '*bonâ fide* transfer' be added here along with 'contract', I do not think there will be any necessity to have section 49P. It is in that view that I propose to have the words or transfer added."

The Hon'ble MR. CUMMING said :—

" Sir, in answer to the Hon'ble Member the reply that one would naturally make would be that provision is already made for this in section 49P at the end of the Bill. He, however, says that if the words 'or transfer' be included in clause 49K. the necessity for 49P, will disappear. This, however, is a matter for technical drafting, and I am advised that it is desirable to keep the question of contract and transfer separate, and that is why there are two clauses ; moreover, we have got precedents for that in the Chota Nagpur Act. I, therefore, oppose the amendment of the Hon'ble Member."

The Bengal Tenancy (Amendment) Bill.

Babu Kishori Mohan Chaudhuri; Mr. Cumming; Mr. Ashraf Ali Khan Chaudhuri.

The Hon'ble BABU KISHORI MOHAN CHAUDHURI said :—

"If these two sections are retained separately, I have no objection. It is only for simplicity's sake, I urge this. If the Hon'ble Member thinks two sections should be kept separate, that can be done ; I have no objection."

The motion was then, by leave of the President, withdrawn.

(Amendment No. XXIX.)

The Hon'ble BABU KISHORI MOHAN CHAUDHURI moved that for the figures "1916", in line 4 of clause (*i*) of proviso (*b*) to section 49K, the figures "1917" be substituted.

He said :—

"In this amendment my intention is that the clause should not be retrospective. And if it is made retrospective at all, it may be made so only with effect from the date or month in which this amended Bill was introduced. Therefore I propose that in place of the figures '1916' in line 4 of clause (*i*) of proviso (*b*) of section 49K, the figures '1917' be substituted. My object is not to make it retrospective and I do not think that any case has been made out necessitating its being made retrospective for a year. I hope the Council will take into consideration whether it should have retrospective effect. I hope my amendment will be accepted."

The Hon'ble MR. CUMMING said :—

"Sir, the Hon'ble Member says that no reason has been made out why this should be retrospective. I wish to point out to him and to the members of this Council that legislation for the Sonthals of the districts of Bankura, Birbhum and Midnapore has been pending since 1914. The draft was circulated in 1914 and it was known that such legislation might at any moment be undertaken. Again in 1916 another draft was circulated and therefore it was made quite clear that Government had the matter under their consideration. When the Bill was brought before the Select Committee in the form in which it was introduced in Council, the period was two years, but the Select Committee thought it right to reduce the term to one year, to which I, as member in charge of the Bill, was prepared to accede ; and I do not think that it would be right to go any further. Those who know the area and the people concerned are aware that the Sonthals have been eagerly expecting legislation of this kind, and the people who have been dealing with the Sonthals have known for at least one year, I would go further and say two years, that they have been doing it at their peril. I therefore recommend to the Council that this amendment be not accepted."

The Hon'ble BABU KISHORI MOHAN CHAUDHURI said :—

"Very well Sir, after that explanation, I beg to withdraw my amendment."

The motion was then, by leave of the President, withdrawn.

(Amendment No. XXX.)

The Hon'ble MR. ASRAF ALI KHAN CHAUDHURI moved that clause (*b*)(*ii*) of section 49K, be omitted.

He said :—

"My Lord, this amendment is nearly the same as that moved by the Hon'ble Babu Kishori Mohan Chaudhuri. It is about the retrospective effect, but it does not concern the three districts of Bankura, Birbhum and Midnapore. It is about other districts to which this Bill will not apply at once. When the notification under section 49A will be published in the *Calcutta Gazette*, the Bill will apply. The transfer of land has been restricted by sale or by decree of Court. There are two provisos, one is that if the decree of the Court is for arrears of rent, then the decree for transfer is quite all right, or if there is a decree on account of the contract for sale, which

contract was made one year before the Act came into force. In the case of other castes and tribes also to which this chapter has been applied, this Bill will have effect from one year before the date of the publication of the notification under section 49A, sub-section (*2*), so it comes to this, that supposing after this Bill has been passed into law, after six months you publish the notification and if is there is a transaction within one year then it becomes null and void. I do not know about the Eastern Bengal and Western Bengal, but in the Alipur Duars and Darjeeling districts there are many tea plantations. There, there are several landlords and tenants who have bought lands and put money into the improvement of the land ; they have erected machinery and put in a large amount of money. If this clause is kept then after the notification is made, all those transactions that have been made within one year, become null and void and all their money goes. It is for this reason I say that this ought to be amended. As regards Birbhum, Bankura and Midnapore I do not object to it, because it might be said that before the Bill had been circulated in all these districts, they might have known all about it, but in Northern Bengal and Eastern Bengal I believe that the people do not know much about it. There might have been some circulation amongst the Divisional Commissioners and Collectors and some people may know about it, but the ordinary public do not know much about it, and for this reason I say this clause should be omitted."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ said :—

"My Lord, without entering into the merits of the controversy which has been raised by this amendment, I beg to point out to this Council that the accepted principle of legislation is that it should not interfere with rights already created. It is for this reason that whenever any amending Act is passed, care is taken not to make it retrospective, unless the exigencies of the moment require that the Act should take effect immediately or retrospectively. It is true, as the Hon'ble Member in charge of the Bill has pointed out, that sufficient notice has been given, by means of circulars and otherwise, that legislation on the lines intended was impending, but even then I should like to point out that it is very rarely that people can make out that although some sort of legislation might be pending, what would be the exact lines on which that legislation would be undertaken. That matter has been pointed out by the Hon'ble Mr. Ashraf Ali Khan Chaudhuri who said that there may be people who have, inspite of the fact that they knew that legislation was pending, spent money in the improvement of land which has somehow or other passed into their hands, and it will be a great hardship to them, if the Act is made retrospective so as to touch their interests. I should therefore heartily support this amendment."

The Hon'ble MR. CUMMING said :—

"Sir, the objections on theoretical grounds as explained in this amendment to the clause as drafted, namely, clause (*b*), sub-clause (*ii*), are greater than in the previous amendment, but at the same time I think that if the Council once appreciate the position of affairs, they must realise that there are good grounds for it. When the Bill was first drafted, the word 'aboriginal' was not even defined. In Select Committee it has been made clear, that it is intended to refer to the Sonthals of certain districts in the first instance, and then to certain other aboriginal tribes. At the present moment Government have no immediate intention of extending the Act, if it is passed into law, to any of these other aboriginals mentioned in clause 49K, but fair warning is now given to all those concerned that transfers of the nature contemplated in this Bill are not looked upon with favour by Government. I think, therefore, that if an undertaking be given that for a year from now no extension amongst other tribes will be made, then they will be in the same position as the landlords of the areas in which the Sonthals are. With this explanation I trust that the Hon'ble Member, who has raised this amendment, will not press it."

The Bengal Tenancy (Amendment) Bill.

Mr. Ashraf Ali Khan Chaudhuri.

The Hon'ble Mr. ASHRAF ALI KHAN CHAUDHURI said :—

"My Lord, I am afraid I cannot accept what Mr. Cumming has said, for this reason, that no immediate intention of the Government to notify will be worse for the people because they will know that if an undertaking is given, it will not be published for at least one year. Prudent people or those who are educated will not have dealings with any land belonging to aboriginals, but what will happen in practice? The poor people, agriculturists, will enter into dealings as to these lands, and they will purchase it ; you cannot alter their nature. When they know that it is not coming for some years, they will not stop or wait, they will go on buying lands. If it was passed into law at once, if there had been no retrospective effect, the Collector would come in and the dealings would become null and void. But the result of giving an undertaking would be a host of litigations and instead of these poor aboriginals being saved, they would be dragged into Court and they would lose all their money. That is the chief thing to which I should like to draw the attention of the Hon'ble Member in charge, and, it is for this reason, that I should like to oppose what Mr. Cumming has said."

A division was then taken with the following result :—

The Bengal Tenancy (Amendment) Bill.

Babu Kishori Mohan Chaudhuri; Rai Debender Chunder Ghose Bahadur; Mr. Cumming.

(Amendment No. XXXI.)

The Hon'ble BABU KISHORI MOHAN CHAUDHURI withdrew the following amendment which stood in his name, namely :—

"That the words 'at least one year', in line 3 of clause (*ii*) of proviso (*b*) to section 49K be omitted."

(Amendment No. XXXII.)

The Hon'ble RAI DEBENDER CHUNDER GHOSE BAHADUR moved that clause (*c*) of the proviso to section 49K, be omitted.

He said :—

"My Lord, my amendment refers to section 49K, the first part of which runs thus :—'Notwithstanding anything in this Act, no decree or order shall be passed by any Court for the sale of the right of an aboriginal tenure-holder.' Then comes the proviso which says : 'That if the landlord gets a decree for arrears of rent, he will have the right to sell it up,' and then comes clause (*c*) of the proviso, which says : 'Nothing in this section shall affect any right for the sale of any such tenure or holding for the recovery of any dues which are recoverable as public demands.'

Now as an ordinary person having a claim for damages or having an unsecured debt, will not be able to sell the land of an aboriginal, he is deprived of the ordinary rights of the creditor. But it is provided in the last part of the section that this embargo or this prohibition of the usual course by a creditor will not apply in the case of a proceeding for the recovery of any dues as public demands. That means that if there be a certificate under the Public Demands Recovery Act the person in whose favour the certificate is passed will be able to sell the right of an aboriginal tenure-holder, raiyat or under raiyat in his tenure or holding. It puts the holder of the certificate of public demands in an exceptional position, and there is nothing to justify this exceptional position of the holder of a certificate for public demands. I am aware that in such proceedings the Crown has priority for the realization of its dues, but others are not prevented from adopting the same course as the Crown adopts for the realisation of its dues, but by this Bill you tell the general public that you are entitled to a sum of money as a debt due by an aboriginal, the debt is not an arrear of rent, you have no remedy except to attach his person, but you tell the Collector to pass a certificate for public demands, and you will be able to recover whatever you want under your certificate from the aboriginal. The Collector who has been so very tender to the aboriginal is given a free hand to sell up the landed property of the aboriginal for the recovery of the public demand. I do not know whether many members are aware that by the certifiate procedure you can recover all sorts of things if it is a thing due to the State, the Government or to the Court of Wards or to the proprietor of an attached estate. Therefore you not only place Government in an exceptional position, but persons coming under the Court of Wards. Many extravagant and improvident men are wards of court and the estates of many such persons are attached and kept under the control of the Collector, and they will have the benefit of recovering their money like ordinary creditors and not placed in the same position as an ordinary creditor against an aboriginal under this Act. I do not think that this is evenhanded justice or fair treatment. If you do really feel for the aboriginal why then expel him from his lands if he has not paid up his certificate demands."

The Hon'ble MR. CUMMING said :—

"Sir, there is a superficial equity about the remarks of the Hon'ble Member, but I do not think he fully realizes that in the first place the Crown should have and has absolute priority, and in the second place by the balancing of sub-clause (*a*) and sub-section (*c*) it will be seen that the dues of landlords

and the demands of the general taxpayer are being placed on an equal footing. If the Hon'ble Member were strictly logical, he should also propose that sub-clause (*a*) should not also form part of the Bill, and I do not think he proposes to do that. The Bill, as it stands safeguarding the dues of the landlord and the dues of the general tax-payer, is, I think, fair. For this ground, Sir, I oppose the amendment."

The motion was then put and lost.

(Amendment No. XXXIII.)

Proposed section 49L.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR moved that after the words " reasonable time ", in line 7 of section 49L, the words " not exceeding three months in all " be inserted.

He said :—

" My Lord, it will be remembered that in the original Bill it was proposed to take away the power of the civil court in executing decrees against aboriginals. This was opposed in the Select Committee and it has been stated that the civil courts would be in a position to execute decrees for rent against aboriginal tenants, but it has been provided that the courts should give reasonable time to the debtor in order to pay off his debt. No time-limit has been fixed, and I consider it to be a very great hardship on the landlords just to hang on for the recovery of his rent for an indefinite period even when he has obtained a decree. In fact, up to the decree, it is an easy process. The difficulty of the landlord really begins after the decree has been obtained, and if it is left entirely to the discretion of the court to grant time to the judgment-debtor, in such cases, without any time limit, the decree may not be executed for a long time, say for six months or a year, and we ought to consider the position of the landlord. In this case it is a one-sided piece of legislation, but at the same time we must not forget that in showing our sympathies for the aboriginal, we should not be very harsh upon the landlord decree-holders. Therefore I propose that there should be a limit to the discretion of the court in granting time, and that it ought not to exceed three months. There may be a judgment-debtor against whom the landlord has got a decree for rent and he comes to court and says ' I shall pay you say within two or three years.' So let us have some limit not exceeding three months, and not keep the decree-holder hanging on for an indefinite period entirely at the discretion of the court ; this is not fair nor just."

The Hon'ble MR. CUMMING said :—

" Sir, the argument of the Hon'ble Member amounts to this, that if you give one concession, that is an argument for giving another. The Hon'ble Member has rightly pointed out that the clause in the original draft to which many took exception outside this Council has been modified and the terms of 49L as now drafted simply indicate to the court that reasonable time should be given. I think, in other circumstances, the Hon'ble Member would ask whether the civil court could not be trusted to use their discretion properly. I do not really see, Sir, why in this particular case their discretion should be circumscribed, and I can easily conceive of circumstances in which a period of three months might not be reasonable. I, therefore, oppose the amendment."

The motion was then put and lost.

(Amendment No. XXXIV.)

Proposed section 49M.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR moved that in the proviso to sub-section (*2*) of section 49M, after the word " officer " in the second place where that word occurs, the words " or Court " be inserted.

The Bengal Tenancy (Amendment) Bill.

Mr. Cumming; Rai Debender Chunder Ghose Bahadur; Babu Kishori Mohun Chaudhuri; Mr. Ashraf Ali Khan Chaudhuri.

He said :—

"In this section the power of revision is given to any officer whom the Local Government may appoint in that behalf. It may so happen that the officer whose order will be revised, will be the District Judge and in such cases power is generally given to the High Court to revise it. I do not think that the word 'officer' is sufficiently indicative of a tribunal like the High Court. Therefore, I suggest that after the word 'officer' the words 'or Court' may be inserted."

The Hon'ble MR. CUMMING said :—

"I am sorry, Sir, that I do not quite realise why the Hon'ble Member desires to introduce this. Let us consider what are the powers of the Collector under this Bill against which provision for appeal is made in clause 49M. There is the first, 49F, provision of transfer; there is next in 49H, provision for ejectment, and finally in 49J, there is approval of re-settlement. It is laid down in 49M, that appeals should lie against the order of the Collector of the district, and then in the sub-section to which the Hon'ble Member refers, provision is made that an appeal may lie to such officer as the Local Government may appoint. Surely, it is natural that the officer, who would be appointed, would be one who would be in the chain of which the Collector is one of the lower links. Therefore, on the ground that the addition is unnecessary, and to some extent meaningless, I oppose the amendment."

The motion was then put and lost.

(Amendment No. XXXV.)

Proposed Section 49O.

The Hon'ble RAI DEBENDER CHUNDER GHOSE BAHADUR moved that after the words "shall lie", in line 2 of section 49O, the word "in any Civil Court", be inserted.

He said :—

"The amendment, my Lord, is really a verbal amendment and it does not go against the objects of the Bill, but to make the Bill more clear. section 49O runs thus: 'Notwithstanding anything in this Act, no suit shall lie to vary or set aside any order passed by the Collector in any proceeding under this chapter except on the ground of fraud or want of jurisdiction.' I would add the words 'in any Civil Court' after the words 'shall lie' as the expression 'Criminal suit' is to be found in English statutes."

The Hon'ble MR. CUMMING said :—

"I accept the amendment."

The motion was then put and agreed to.

(Amendment No. XXXVI.)

The Hon'ble BABU KISHORI MOHUN CHAUDHURI withdrew the following amendment which stood in his name, namely :—

"That section 49P be omitted."

(Amendment No. XXXVII.)

The Hon'ble MR. ASHRAF ALI KHAN CHAUDHURI moved that clause (*b*) of section 49P be omitted.

The Bengal Tenancy (Amendment) Bill.

Mr. Cumming; Mr. Ashraf Ali Khan Chaudhuri; Kumar Shib Shekhareswar Ray; The President.

He said :—

"My Lord, it is the same as the amendment I moved a few minutes ago on the retrospective effect of the whole chapter. My argument will be just the same as that in my previous motion. I have nothing particular to say, but as the Hon'ble Member in charge is going to meet me by giving me an undertaking that no publication will be made within one year, I would say then that if his intention is that no retrospective effect will be given in practice, why burden this Bill with more paragraphs?"

The Hon'ble MR. CUMMING said :—

"Sir, as regards the principle at stake I have nothing to add to what has already been said under clause 49K. As regards the burdening of the Bill to which the Hon'ble Member has alluded, I have already explained why, as a matter of drafting, sections 49K and 49P have been prepared separately. I, therefore, oppose the amendment."

The Hon'ble MR. ASHRAF ALI KHAN CHAUDHURI said :—

"Does the Hon'ble Member give an undertaking that it will not be notified within one year and state how that undertaking will be put into practice?"

The Hon'ble MR. CUMMING said :—

"Sir, obviously my remarks regarding the other case are equally applicable to this; and, as to how the undertaking will be carried out in practice, if an officer of Government speaking in this Council gives an undertaking, I do not think that his successor will repudiate it."

The motion was then, by leave of the President, withdrawn.

The Hon'ble MR. CUMMING moved that the Secretary be directed to renumber the clauses and sub-clauses of the Bill in consecutive order and make corresponding alterations in all cross references thereto.

The Hon'ble KUMAR SHIB SHEKHARESWAR RAY said :—

"My Lord, can a motion be made under rule 46 of the Business Rules now?"

The PRESIDENT said :—

"I think it would be better to dispose of this formal motion now. After that a ruling will be given on the point raised by the Hon'ble Member."

The motion was put and agreed to.

The PRESIDENT said :—

"The Hon'ble Member asks whether it is now possible to make a motion under rule 46 of the Business Rules. I understand that under clause (*2*) of rule 47, an Hon'ble Member desires to object to the motion that the Bill be passed be taken to-day. If that is so, the next stage of the Bill will be postponed to a further meeting of the Council, and it will then be in order for any Hon'ble Member to send in a motion under rule 46. Unless the objection is made to-day, I think the Hon'ble Member would not be in order in moving a motion under rule 46, because if he will turn to rule 21, he will find that the Member who wishes to make any original motion on a Bill, must either give notice of his intention at the next previous meeting, or send such notice to the Secretary ten days before the day of the meeting at which he intends to make the motion."

The Bengal Tenancy (Amendment) Bill.

Babu Bhabendra Chandra Ray ; The President ; Mr. Cumming.

The Hon'ble BABU BHABENDRA CHANDRA RAY said :—

"My Lord, as certain amendments have been made, with your Excellency's permission, I object to the Bill being passed to-day under Rule 47 (2) of the business rules of the Bengal Legislative Council (page 167 of the Bengal Council Manual). From the many amendments brought forward by the Hon'ble mover in charge himself it is evident that the Bill was rushed through the Select Committee and that proper attention was not paid to it. Some important changes, such as the enumeration of certain particular classes in the Bill have substantially altered it and no reason according to Rule 37(2) of the Business Rules of the Bengal Legislative Council for inserting these particular names have been stated.

My Lord, for all these reasons we want little more time to consider the Bill in all its aspects and propose further amendment if necessary. My Lord, as the Bill is not of any urgency I hope your Lordship will be pleased not to exercise your extraordinary power of suspending the rules and to allow the Bill to be passed to-day.

The Hon'ble Member in charge has said that I have taken advantage of this particular section only to delay the matter as a matter of fact."

The PRESIDENT said :—

"As I read rule 47 an objection on these grounds will be valid unless the Hon'ble Member in charge can show any urgent reason why the Bill should be proceeded with to-day. Before, however, passing a final order on that ruling, I would like the Hon'ble Member in charge of the Bill to show cause, if he desires to do so, why the Bill should be proceeded with to-day."

The Hon'ble MR. CUMMING said :—

"Sir, I was unaware until about half the amendments had been disposed of that the Hon'ble Member desired to make this objection. Undoubtedly he is in order as the rule of the Council lays down that the burden of proof shall be upon the member of Government to show that it is absolutely necessary that the Bill should be proceeded with to-day. This Bill is not a matter of life and death, but at the same time I should like the Hon'ble Members to realize that this legislation has been asked for over 40 years, that it has been the result of a special inquiry made by a very able officer in the year 1909, and that it has been no less than three times circulated all over the Province. I do think, therefore, that it is asking a great deal by taking advantage of this particular rule to move the Council not to pass the Bill at this sitting. I cannot urge, however, that any untoward happening will ensue if the Bill be not passed to-day. I may state that there are few pieces of legislation which have been so carefully considered and which have been the result of a very definite local demand as this one has been. All those locally concerned, both officials and non-officials, Sonthals and non-Sonthals in the area concerned, are convinced that very prompt legislation of this nature is required ; nay more, the Sonthals themselves are most insistent on this point. Yes, they appeal to us 'do come and protect us', 'come over and help us'. If the members who represent the Indians in this Council think that their appeal should not be listened to, I have nothing more to say. But I think that it is taking an unfair advantage of the power that the rule gives to the Hon'ble Member."

The PRESIDENT said :—

"Does the Hon'ble Member desire to press his objection ?"

The Hon'ble BABU BHABENDRA CHANDRA RAY said :—

"Yes, my Lord."

The PRESIDENT said :—

"The next stage of the Bill will be taken in the January meeting of the Council."

THE BENGAL PUBLIC DEMANDS RECOVERY (AMENDMENT) BILL, 1917.

LIST OF BUSINESS—ITEMS Nos. 4 & 5.

The Hon'ble MR. CUMMING presented the Report of the Select Committee on the Bengal Public Demands Recovery (Amendment) Bill, 1917, and moved that the said Report be taken into consideration.

The motion was put and agreed to.

The Hon'ble MR. CUMMING also moved that the Bill be passed.

The motion was put and agreed to.

THE BENGAL PRIMARY EDUCATION BILL, 1917.

LIST OF BUSINESS—ITEMS Nos. 6 & 7.

The Hon'ble BABU SURENDRA NATH RAY moved for leave to introduce a Bill to provide for the extension of primary education in all municipalities in Bengal and in other selected areas in Bengal.

He said :—" My Lord, I beg leave to introduce my Bill for making primary education compulsory within the municipalities of this Presidency including the Municipality of Calcutta and to selected areas within the jurisdiction of the District Boards which have been constituted into Union Committees under section 38 of Bengal Act III of 1885. The question of compulsory primary education has been one of the most difficult questions for every civilised Government to deal with but we find that all civilised Governments have taken up the question as best as they can. With the progress of civilisation we feel the necessity of training the mind from the purely physical needs of the body and we can train the mind of the people by educating them. In these advanced times, when there is a keen struggle for existence, uncivilised and uneducated nations are bound to die out. We no longer hear of the Red Indians who at one time spread over the whole continent of America. Education can only enable a nation to survive the struggle for the fittest. If the masses of the Indian people do not see the light of education they also will in course of time cease to exist as a nation. But the masses cannot be educated in one day nor can they be expected to acquire the higher standard of education. The signs of the times indicate that unless early steps are taken to educate the masses of the people of India in however rudimentary a form they would not survive as a nation.

The masses may be roughly divided into two classes, viz., the agricultural class and the workmen or the labouring class. It is education which develops the faculties of men, helps them in the formation of regular habits and those qualities count a great way in the future prospect both of the agricultural and workmen class. I want, however, to impress upon this Council that education in however rudimentary a form, *i.e.*, reading, writing, and arithmetic imparted to the masses will not only be a great help to them but also enable this country to hold its own in the near future in respect of agricultural and industrial development against foreign competition. It has been said that from 'the standpoint of the nation as a whole, as organised in the State, and, therefore, also from the standpoint of the monarchy, there can be no doubt that it is in its own interest that all national forces should be developed to their utmost capacity in order that they may the better subserve the ends of national self-preservation and self-realisation. As things now are in the civilised world a nation lagging behind in this respect is bound to be overtaken by its more energetic neighbours. For no one can entertain any doubt that in the great struggle for national dignity and power, those nations will be best able to hold their own which best look after the training and

Babu Surendra Nath Ray.

education of youth by insisting on a high standard of efficiency in the schools.' It is also necessary that the masses of the people should take their proper share in the political advancement of the country and for this reason some education is necessary. There can be no greater misconception than to suppose that 'the ignorance of the masses is the best guarantee for a firm Government'.

In ancient times the goal of education was to make the rising generation fit for the State. It was expected that the citizen would be able to help the State in times of peace and war when required and in fact apart from the State they would have no separate existence. This was also the idea pervading Plato's Republic where he brings in the question of Philosopher King and the Communinty of men. In the Mediæval ages the dominating influence of the Church shaped the education of the times. and it was considered that the object of education was to render the citizens fit for the Church, *i.e.*, for the eternal kingdom of God and the training was rather of religious and ecclesiastical character. (In modern times, however, the interest of the individual has grown to be of more importance and to educate a man as a reasonable being free to determine his own life has grown to be the dominant ideal.)

(Education is now compulsory in most of the European countries.) (In England) elementary education had no national importance till certain voluntary societies took up the work. It was the society for promoting Christian knowledge which handed over its purely educational work to the National Society for promoting the education of the poor in the Principles of the Established Church. It was in 1833 that the first Government grant of £20,000 was voted for education. In 1839 a Committee of the Privy Council was appointed to administer the education and thus originated the Education Department. (By the Education Act of 1870 three new principles were introduced into educational legislation—a compulsory local rate, a representative local authority and compulsory attendance of children at school.) School Boards were to be established where the school accommodation was insufficient, or where an application was made by the electors. Compulsory attendance could be enforced if the Board desired, but no provision was made for compulsion apart from School Boards which were not bound to include religion in their course of instruction. The Act of 1870, however, left full liberty to the schools attached to the several churches to give to their scholars the distinctive dogmatic teaching to which the managers attached special importance provided that the secular instruction should fill four-fifths of the day's exercises and should be thoroughly efficient. On these conditions the State recognised voluntary schools and made liberal grants for their maintenance. (In consequence there was not a remote corner in England or Scotland where the inhabitants were not within reach of a public elementary school under Government inspection.) A later Act in 1876 enforced it to be the duty of every parent to send his child to school between the ages of 5 and 14, forbade employment under that age except to those who procured a labour certificate and provided that indigent parents might claim from the guardians the payment of school-fees. (In 1880 Mr. Mundella's Act established direct and universal compulsion, and empowered the local school authorities to enforce it. In 1891 Sir William Hart Dyke's Act practically abolished the payment of school-fees) and thus threw upon the State the duty of compensating school managers for the loss of nearly two millions of annual revenue hitherto contributed by parents. A subsequent Act in 1896 provided a special aid-grant for the further relief of voluntary school managers. Later legislation during the administration of Lord Salisbury had the effect of altering materially the proportions in which the educational revenue is provided. In the year 1899-1900 the contribution from public sources including the grants from the Treasury and from the local taxation amounted to £11,106,735 out of a total expenditure of £12,336,986. These financial

changes had not been without an important influence on the character of elementary education. It should be remembered that the department does not appoint or dismiss the teachers, nor pay them, nor recognise them as civil servants. The curriculum of instruction is largely in the hands of the local managers and from the first the main influence of the Education Department has been exercised through its methods of awarding grants to those bodies. In fact during many years the prime function of the department was not to direct education or to set up a national system but to distribute grant-in-aid of local effort, and to do this on a graduated scale under such conditions as would stimulate improvement and ensure to the nation a good educational return for its expenditure.

Education, specially primary education, has made great progress in Germany and France. In the beginning of the seventeenth century primary education was made compulsory in some of the smaller States of Germany and boys and girls between the ages of 6 and 12 were required to attend throughout the year except at harvest time. At first the enforcement of compulsory education met with serious obstacles in those countries partly owing to poverty and also because of the carelessness, indolence and obstinacy on the part of the parents. There were also difficulties in the way of introduction of compulsory education due to overcrowding of schools and the insufficient training of teachers. Besides public schools there was a very large number of private schools in the towns which seem to indicate that there was a demand for them. Although many of the primary schools of the century hardly deserve the name of educational institution compulsory school attendance paved the way for that uplifting of the masses which was accomplished in the nineteenth century. The general character of the period was marked by the steady progress of the masses and the spread of democratic spirit. The aristocracy had lost its former predominance. 'With the progress of commerce and manufactures personal property grew in extent and the middle classes attained legal and political equality. The Parliamentary representation of the people was, no doubt, originally intended to bestow on the well-to-do and educated middle classes, the influence which was their due. During the second half of the century a new movement began to make itself felt, the rise of a 'Fourth Estate'. With the rapid growth of large towns and capitalistic enterprise in the industrial world, with a steadily improving standard of life and education, these masses, *i.e.*, the labour party, constituting the political party of social democracy officially recognised as members of the political organism by the establishment of universal suffrage, have become an important factor of social and political life'.

It is said that in Germany the increasing prosperity of the training colleges and the primary schools was due to the earnest and elevating belief that it was a sacred duty to provide a proper training of youths, a true education of the whole people.

We find that in the United States education is highly prized, and next to primary it is here that the science of education is most widely studied. Each State makes its own educational arrangements, but there is a general uniformity of classification of the schools into elementary, secondary and University. Education is compulsory in some States but it is felt that the citizens appreciate education so highly that it is not necessary to enforce attendance at school.

I have given a brief history of the development of primary education in some of the countries of Europe and in the United States of America, which shows how education has developed in those countries.

The history of primary education in this country is not very clear. We had no doubt our seats of learning in Ancient India, but we do not know and are not in a position to say how far the masses of the people participated

in education, or more correctly speaking primary education in the sense in which it is used now. The Permanent Settlement of 1793 recognised in perpetuity the rent-free grants of land enjoyed alike by the Sanskrit *tols* and Muhammadan *muktabs*. It was, however, during the administration of Lord William Bentinck that in the year 1835 there was a widespread enquiry in the then existing state of popular education. Mr. Adam who was placed in charge of the enquiry estimated the number of village schools and *pathsalas* at about 100,000 in Lower Bengal and he earnestly pleaded for the instruction of the people. We find, however, that no general effort was made to assist or improve the indigenous schools for a number of years. It was in 1853 that the 'Circle System' was introduced which had for its immediate aim the improvement of the indigenous schools and masters. We find from the Report of the Indian Education Commission of 1883 that in 1870-71, excluding the primary classes of secondary schools, there were in Bengal only 68,500 pupils in primary schools recognised by the Department, while in 1881-82 there were nearly 900,000. (Still the proportion of public funds, including the term provincial, local and municipal funds, spent on primary education was by far the lowest in any province in India) being 13 per cent. less than in the Punjab, and 27 per cent. below Bombay.

That something has been done within recent years for the promotion of primary education cannot be gainsaid. But a great deal more ought to be done. 'We are all in agreement that primary education should be further extended' said by His Excellency the Viceroy at the last Conference of Public Instruction in January last.

I need hardly say that the state of primary education in this Presidency is far from being satisfactory. The total number of pupils attending primary schools on the 31st March, 1917, was 1,124,109, of these 550,806 were Hindus and 552,589 Muhammadans. The Hindus have now 32·7 per cent. of their boys of school-going age in primary institutions, and the Muhammadans 28·9 per cent. It is a matter of congratulation that the Muhammadans have made such progress and are running an equal race with their Hindu brethren.

I do not want to enter at present into the details of the financial side of the question. It is true there is a section in the Bill, (section 17 (1) about the imposition of an 'Educational Cess', but the cess is to be imposed if the existing resources of the local body or any grant from Government are not sufficient to meet the cost of such primary education. I have provided in clause (5) of the section that '(whenever an education cess is levied within any area primary education shall be made free within that area')

To impart education to the masses is the primary duty of Government. The people of this Presidency contribute very largely to the development of primary education.) Even the Director of Public Instruction in his last report said 'What is imperatively needed, especially in the Presidency and Burdwan Divisions, is more schools of some stability. This can only be effected by much larger contributions from public funds. (The pupils already contribute 56·3 per cent. of the funds. They cannot in fairness be asked to contribute more'. I need hardly say that we shall have to depend for the furtherance of primary education mainly upon the revenues of the country.

The municipalities of the Bombay Presidency are in receipt of handsome contributions from Government and for that reason they can very well afford to forego any help from Government for promoting primary education, but such is not the case with the municipalities of Bengal. (In Bengal, primary education will not make any progress without material support from Government.

In the Bombay Act, primary education is sought to be made compulsory within the municipal area of the Bombay Presidency except that of the town

of Bombay itself. I want, however, to introduce the provisions of the Bil not only to what I may term mufassal municipal area, but also to the city of Calcutta and to Union Committees, because there are places which, though they have not been constituted as municipalities, are still centres of trade and are busy haunts of men and where the benefits of primary education may with advantage be introduced.

I have made this Bill applicable to 'boys' only and not to 'girls'.

In one of his addresses on Education and Empire, the Right Hon'ble Mr. Haldane (now Lord Haldane) said 'Educate your people and you have reduced to comparatively insignificant dimensions the problem of raising the condition of your masses'.

I need hardly say that the above remarks apply equally to India. Some of the Indian States such as Baroda and Mysore have already taken up the work in right earnest and have made considerable progress."

The motion was put and agreed to.

The Hon'ble BABU SURENDRA NATH RAY also moved that the Bill be circulated for eliciting opinion thereon.

The Ho'ble SIR S. P. SINHA said :—

"My Lord, at this stage I desire to say very little except to congratulate the Hon'ble Member on having the privilege to introduce this Bill in this Council, so that Bengal follows at any rate if she does not lead the other provinces in introducing this necessary and long due measure. As the Hon'ble Member has observed, the necessity for universal primary education is admitted, on all hands, and the question has been hitherto one of ways and means. It is because the Hon'ble Member has sought to tackle, if I may use that phrase, the problem of problems—the question of ways and means by providing that municipalities should be able to raise the means for this purpose, it is because he has tried in this Bill to solve that problem in that way. that I specially congratulate him. My Lord, the Hon'ble Member quoted some interesting figures comparing what has been done in other provinces in the way of contribution for primary education, with what has been done in Bengal. It is true that the contributions in other provinces for the purpose have been very often larger than those in Bengal, but I think in fairness it ought also to be stated that the contributions for the purposes of secondary education and higher education have been in Bengal much larger than those of the other provinces. Perhaps in so contributing we have not sufficiently taken care of the interests of the poor; perhaps in doing what we have done, we have pampered the classes who ought to be able to look after their own education. I consider the introduction of this Bill a good augury for the day when the classes now called the educated classes will direct their energies for the purpose of impressing upon Government the necessity for spending all the money they can, not upon the education of the privileged classes so much as on the education of their poorer brethren. I also look forward to the day when it will be possible for the Hon'ble Member or some other Hon'ble Member to add to the Bill, or bring in another Bill for the purpose of including a not less important section of the community, viz., our girls, within the purview of this Bill, for until that is done, I do not think we shall be able to claim for ourselves, the same position and the same footing of equality with the civilised nations, the history of primary education among whom my Hon'ble friend has very pertinently referred to to-day. With these few words, I desire to commend on behalf of the Government this Bill for the earnest consideration of the Council and the country at large, and I trust that on all hands there will be the same burning desire as that which inspired my friend to-day to contribute each one to the best of his capacity for the purpose of providing education for the poor."

The motion was put and agreed to.

The Hon'ble BABU AKHIL CHANDRA DATTA being absent. the following resolution, which stood in his name, went by default and was held to be withdrawn :—

The Hon'ble BABU AKHIL CHANDRA DATTA to move that this Council recommends to the Governor in Council that a mixed committee of non-officials and officials, other than Police officers, with a non-official majority, be formed to examine the evidence upon which all orders of internment have been passed in Bengal under the Defence of India Act and to make such recommendations to the Government about each individual case as may be warranted by such examination.

LIST OF BUSINESS—ITEM No. 9.

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

" My Lord, before I move the motion that stands in my name, I beg to make an humble and respectful submission to Your Excellency. This is a very important resolution which is agitating my community at the present moment. My Lord, we have had a full day's work from 11 o'clock till nearly 5 o'clock. I am sure not only Your Lordship, but other members of this Council are quite fatigued after a whole day's strenuous and hard work. My Lord, when you made your able, interesting, eloquent and impressive speech on this matter, Your Lordship came from your breakfast table to the Council Chamber. Now, my Lord, after a full day's work to take up this important question, in which I understand many of my friends on the non-official side will take part, will be inflicting a very great hardship on us. I appeal to Your Lordship's sympathy—I should say mercy—and crave Your Lordship either to postpone this resolution either to to-morrow's meeting or to the next meeting of the Council, and direct the Secretary to put this as the first item on the agenda. I make this humble submission to Your Excellency and make a candid statement of our present position at this time when the sun is about to set."

The PRESIDENT said :—

" The Hon'ble Member's idea of a hard day's work does not coincide with mine. We have only sat since 11 o'clock, we have had one hour's interval, and it is now nearly a quarter to five. If the Hon'ble Member will do some arithmetic, he will find what his hard day's work consists of ; it is only 4 or 5 hours' work. I do not think the Council as a whole has had an unduly long day's work. I would suggest that the Council should at least sit for some little time longer ; some Hon'ble Members have come from a long distance to attend the Council, and the Hon'ble Member is of course perfectly aware of the rule that resolutions should be taken up at the end of the other business of the day. It was always the intention that resolutions should be taken up after the other business of the day had been dealt with. In these circumstances, I would suggest that the Council should at least sit a little longer before adjourning."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

" My Lord, I bow to Your Excellency's decision."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR moved the following resolution :—

This Council recommends to the Governor in Council that an advisory committee of officials and non-officials consisting, among others, of an Indian Judge of the High Court and a practising member of the Calcutta Bar, be appointed to investigate into and report upon all internment cases that have already taken place and that may take place in future and to recommend in each case—

(*a*) the place of detention ;
(*b*) the allowance to be granted to the *détenu* and to the members of the family as may be deemed necessary ;
(*c*) the educational facilities which may be required in particular cases ;

and that the said advisory committee be empowered to co-opt any resident in the district wherein the persons effected live and who, in their opinion, is likely to be of assistance in the investigation and examination of the case.

He said :—

"I would like to clear my ground before I enter into the merits of this resolution. We listened with very great attention to the interesting, able, and eloquent and impressive speech that Your Excellency delivered at the last meeting. We could not at that time quite follow what was actually intended to be done by Government to meet the public demand on this subject. Subsequently we had an opportunity of reading Your Excellency's speech and also of reading in the newspapers an official *communiqué* on the subject and we find that the Governor General in Council has been pleased on the recommendation of Your Excellency's Government to appoint a Committee presided over by an eminent judge of Great Britain and some of my countrymen, not only from Bengal but in other parts of India to investigate and to find out whether there is any widespread criminal conspiracy in India and whether any legislation is necessary to cope with the evil. My Lord, we have nothing to complain about this ; in fact, we welcome such an inquiry, but, My Lord, at the present moment, what we want is not merely an inquiry of the sort which has now been instituted by Government, but something more.

"My Lord, at the last Budget debate, while approving the detention of dangerous characters. I expressed a hope that a Committee may be appointed to investigate and inquire into the cases of suspected persons before their liberty is taken away and they are interned, causing distress, desolation and despair in their homes. Your Excellency with your high statesmanship and keen insight at once found out that there was not much difference between the Government and the public in this matter—the difference being only in the method of investigation of the cases. We are grateful that the attitude of the community is not misunderstood. Not merely loyalty to the British constitution and allegiance to the British Crown but our self-interest and self-conservation demand that peace and order should reign undisturbed throughout the length and breadth of the land. Anarchism must be suppressed. The political, social, moral and material advancement of the country cannot go on if the canker of anarchism finds lodgement in its body politics. When we remember the crimes against law and order that took place in the country we cannot but feel that it is our duty, in our own interests, to rally round the Government and to strengthen its hands in suppressing them. Economic causes may have brought forth this malignant disease, but that is no reason that it should be allowed to grow to the detriment of our lives and properties. This is the view of every British subject in this Presidency—nay, throughout India, who has a stake in the country. But the question which is uppermost in everybody's mind is, should not the Government change its method of dealing with the cases ? I hope I may be pardoned if I say that there is a widespread and deep-seated feeling of discontent throughout the length and breadth of the country at the manner in which these cases of suspected persons are disposed of by Government. At present it practically rests with the executive officer, namely, an additional Secretary of Your Excellency's Government to act on the Police reports that are often-times based on the information of spies and informers. Although the ordinary law of the land can be moved to bring the suspected persons to justice, for want of proper legal evidence the Government are advised to resort to the provisions of the Defence of India Act. I do not mean to say that the decisions in these cases are all unjustified or arrived at without due deliberation and consideration. I fully appreciate the difficulties of Government. On the one hand they must protect the lives and property of the people and on the other hand they must safeguard the innocent from being the victims of mischievous and intriguing people. It is our duty, My Lord, to assist the Government with our advice and suggestion in this matter and I hope that our suggestion will be taken in the spirit in which it is offered. My Lord, there is a general and insistent demand growing daily in intensity and volume

Resolutions.

Mr. Aminur Rahman.

that the administration of this Act should not be dependent on the unaided judgment of a single executive officer however fair-minded and impartial he may be. It is a stupendous task—a serious responsibility is imposed on the shoulders of a single officer armed with the power of depriving any one of His Majesty's subjects of his liberty which is his birth-right, on the *ex-parte* and untested reports of officers who might be possibly misled by others. My proposition, without weakening the hands of Government in any way, suggests a course which will be in conformity with the procedure which I believe exists in England and which will to a certain extent ensure justice and conciliate public opinion. In the absence of a judicial tribunal, a *quasi*-judicial advisory committee should be appointed to advise the Government in each case. The whole object is that as action is being taken under exceptional circumstances and under a special law without the ordinary safeguards there should be some *quasi*-judicial authority substituted for the executive to guarantee that the liberty of the unfortunate man will not be lightly and without a most careful consideration, as far as the altered situation will permit, be taken away. I think a committee consisting of a judge of the High Court, a practising lawyer who is capable of testing evidence, a high executive officer co-opting and a well known and well-informed resident of the district will be a perfectly independent and impartial body and will inspire the confidence both of the Government and the people. An Advisory Board with the co-opted local member will be in a better position to make a recommendation to the Government as to what allowance should be made to the *détenu* and to the family after due investigation of his pecuniary circumstances. As the application of the Defence of India Act merely restricts the movements of the persons interned and in the case of school boys the restrainment is made with a view to dissociate immature youths from evil companions without in any way intending to blast the future career of the youths or to cast an indeliable stigma upon them, it is hoped that the Government would take a paternal solicitude for their welfare and ask the Board to recommend what educational facilities can be arranged for the boy during the period of his internment. Such a committee will weigh with a full sense of responsibility all facts which will be brought to their notice. The analogy of a special tribunal may be taken as a proof to show how successfully a mixed tribunal has worked. The object of the Government and the people is the same, that the persons guilty or clearly suspected of commiting crimes should be punished or restrained. That object can be best attained by substituting the machinary of a *qausi*-judicial body in the place of a single executive officer. We are also anxious on behalf of the people to see that no injustice is done to any body by his liberty being curtailed on insufficient evidence and on mere suspicion. I am conscious that I am not addressing in vain your Excellency's Government in moving this resolution. Your Excellency is a representative of the British Crown, I know that it is repugnant to the instincts of the freedom-loving people of the British Isles to deprive any person of his liberty without trial. As in the absence of a regular trial the Government are liable to misconstruction and misunderstanding, we want the hands of Government should be strengthened by the appointment of the Advisory Board. I, therefore, earnestly hope that in the interest of Government as well as of the people Your Excellency may be pleased to accept the resolution."

The Hon'ble MR. AMINUR RAHMAN said :—

"My Lord, barely a month ago Your Excellency announced in this Council that the India Government has been persuaded to appoint a commission for the investigation of all matters connected with the anarchist movement in this country. It was also announced that the services of an eminent English Judge would be enlisted for the purpose. We have already

Resolutions.

Babu Bhabendra Chandra Ray.

seen the names of the gentlemen who are going to serve on this commission in the papers. Nobody will deny that it is a fairly representative body and consisted of men who stand very high in the estimation of the people. The very fact that the Government have at last agreed to let non-officials into the secret ought to disarm the suspicions of those who have held that the Government was pursuing a policy of unscrupulous repression. Even if there be some reasonable grounds for such suspicion one ought to suspend ones judgment about the policy of Government specially with regard to the arrest and internment of suspected persons until the commission has published its report on these matters. Any Committee that may be appointed by this Government will be placed in exactly the same position as the commission in regard to the facilities for the purpose of investigation and the materials that they will have to work upon. I do not think two separate bodies differently composed will come to two different conclusions if the facts and figures in connection with these matters are fully and honestly placed before them. For this reason I maintain that the establishment of a Committee for the purpose of investigation and report is absolutely unnecessary. The resolution goes further. It suggests that a Committee be empowered to make recommendations on each individual case about the place of detention, the allowance to be granted to a *détenu*, etc. If we agree to the appointment of such a Committee we have to assume that the present machinery is not working satisfactorily. In Bengal there is a strong prejudice against the Police and probably in some cases one can easily justify ones opposition to the system of Police administration. It may be that for this very reason even great public men who generally make a generous allowance for the frailties of human nature and the foible of a time-worn system have begun to denounce the Police. As for myself I cannot ascribe a policy of vindictive savagery to any responsible department of the Government. But I do think that there are cases where some unscrupulous and villainous members of the Police force have acted with an utter disregard to the feelings and prejudices and comforts of the *détenus*. I must say at once that I do not know of any such cases myself; but one cannot easily disregard the version given by eminent and responsible Indian leaders about individual cases of Police oppression that have come under their notice. One such case of wilful neglect of the health and comfort of a prisoner in any European country would be sufficient to create an agitation far more vigorous and probably far more impressive than any the Government has to deal with in this country. The people who are ignorant about the circumstances that lead to these arrests and who are kept in the dark about the conditions surrounding the life of these men naturally accept the statements of their leaders and feel compelled to bring them before the Government and urge on them the necessity of adopting some measure of reform in this respect. But there are difficulties in this way of the pursuit of the object which my Hon'ble friend has in view. In the first place any committee formed in Calcutta cannot conscientiously give any judgment about any of the matters enumerated in the list without the members themselves investigating on the spot the condition of the place of detention and the circumstances of the family. If they are not in a position to do that then they also may make such errors of judgment or unwittingly commit an act of injustice equal in gravity to any committed by the Police. The mere co-option of residents of different districts will not improve matters, as these also will have to labour under the same disadvantages. If the Hon'ble Member can suggest any way of avoiding these difficulties I may be inclined to support his resolution; but as it stands it has these obvious defects.

The Hon'ble BABU BHABENDRA CHANDRA RAY said :—

"My Lord, when at the last meeting of the Council the consideration of this resolution was postponed, it was with a view to enabling us to take stock of the situation created by Your Lordship's announcement of a Committee to

Resolutions.

Babu Bhabendra Chandra Ray.

which the whole matter of internment would be submitted for 'investigation and decision'. The constitution and terms of reference of this Committee have since been published. And it cannot have escaped your Lordship that the announcement in this behalf has failed to evoke any great interest among the public. So far as the personnel of the Committee goes, it may be unexceptionable in one way, but it certainly admits of improvement. The main purpose for which the aid of the Committee seems to have been invoked is the determination of the lines on which some permanent criminal legislation may be undertaken, if necessary, to meet the situation. This appears to have led some people to believe that there is no want of resolution on the part of the authorities as regards such an extraordinary legislation, and that it is expected that the newly appointed Committee will perhaps lend the weight of its high authority to any legislative proposal which Government may have up their sleeves. This may be a mere phantasy, but, My Lord, there it is in the popular mind. And I think it my duty to draw Your Lordship's attention to this matter, and I hope that something will be done to reassure the people as regards the intentions of Government.

To avoid misconception, I shall at once say that I admit the necessity for arming the executive with some emergency powers in a crisis like the one through which the Empire is now passing. But what we insist on, and what the present resolution asks for, is that we the non-official community are to be associated with the executive in the administration of these extraordinary powers. The very fact that the present demand was not put forward before now is ample proof that we were never in a mood to lightly interfere with the authority of the executive ; and that circumstances must have happened which do not permit us to acquiesce in the present system of administration of the Defence of India Act any longer. A somewhat similar demand was embodied in a resolution which was very ably moved in the Imperial Legislative Council by Mr. Dadabhoy in February last. Sir Reginald Craddock who replied on behalf of Government pointed out that even in England the order of internment is issued by the Secretary of State before reference is made at all to the Advisory Committee constituted under the Defence of the Realm Act, and that no such reference is made except when any individual interned has made a representation. My Lord, I must admit that the functions of the Committee which we now suggest will be of a more enlarged nature than those discharged by the Advisory Committee in England. It must be remembered that the operation of the Defence of the Realm Act affects only aliens and persons of alien associations, whereas the Defence of India Act is admittedly being made use of for dealing with the children of the soil. Moreover, the British police, on whose report action is taken in England, command greater confidence of the public than the Police here. Then again, if the truth must be told, the Home Secretary in England, being one of the people, enjoys greater confidence than our executive here, which is less pervious to the influence of public opinion. Our experience of the manner in which this war measure has been made use of, tells us that the Criminal Investigation Department in its capacity as the custodian of official conscience has had everything in its own way. And we would be failing in our duty if we were to maintain an attitude of indifference any longer.

The effect of the indiscriminate and reckless use of these extraordinary powers in Bengal was feelingly described by Mr. Bhupendra Nath Basu from his seat in the Imperial Legislative Council. And I cannot resist the temptation of repeating his eloquent words in this connection. 'If I could', said Mr. Basu, 'if I had the power and ability of placing before the members of this Council the scenes of desolation and sadness that pervade in the country homes of Bengal ; if I could place before you the agony, the despair of sorrowful and bereft families ; if I could place before you the discontent spreading from home to home, from hamlet to hamlet, from village to village, from city to city in Bengal ;

Resolutions.

Babu Bhabendra Chandra Ray.

if I could place before you what the future impression will be if things like these are allowed to go on from day to day; then I am sure we should find a ready response in support of the resolution so ably moved'. My Lord, the Hon'ble Mr. Cumming would perhaps characterise it as 'oriental hyperbole'; but this picture represents only too faithfully the state of things about a year ago, and the situation has certainly been aggravated now. Sir Reginald Craddock, with almost a chuckle of complacency, admitted the accuracy of the picture drawn. He said: 'I feel myself, Sir, and I think probably many of the Council will feel also that the harrowing scenes such as these, the truth of which I do not dispute, make it all the more imperative and necessary that all of us should do our best to check the young men of this kind being misguided and led astray'. The determined, heartless policy, which this cold-blooded attitude of Sir Reginald Craddock's typifies, has since levied its toll of tragedy in the shape of suicide, insanity and early death among *détenus* in Bengal. My Lord, picture to yourself a bright young man of good lineage, scarcely out of his teens, with a brilliant career before him—the delight and promise of his parents, and the future hope of his country—a loving friend and comrade—a spotless character, noble and sweet—the very pattern of youth. But perchance there lurks the faintest trace of suspicion against him in a pair of police brows, and his liberties are restrained without much time being wasted in useless enquiries. The grounds of suspicion, even according to the Code of the Criminal Investigation Department, are not apparently very serious, for we find him 'domiciled' with his parents—a rare indulgence, though it is enough to cut short his studies in which he has so long excelled. Some little time elapses, and it pleases the authorities to remove all restraints imposed on him, for quite as mysterious reasons as led to his internment. The absolute innocence of the boy was perhaps no longer a matter of doubt to any one. He is set free, but only in theory. For we find the relentless emissaries of the Criminal Investigation Department dogging his steps with unabated zeal, taunting him at every turn, warning him off the company of his friends, subjecting him in short to all the indignities of the worst felon. Another convincing proof of his restored freedom comes in the shape of an order prohibiting him from joining a college. We do not know, perhaps will never know, who really was responsible for this insensate order. Whether it were the local educational authorities, or some higher executive officials, who were guilty of this monumental indiscretion, we do not care. They will have to account for it before their God. But the result is that an unutterable sense of helplessness, degradation and despair comes upon the youth. The alluring prospects of an honourable and useful career are blotted out, leaving the horizon a perfect blank. Life loses all its attractions for him, and he seeks repose in death.

My Lord, who after all is responsible for the suicide of Sachindra? Is it not the soulless system of indiscriminate internment and espionage? This unfortunate young man employed his last moments in this world in framing as severe an indictment against the present administration as ever was framed by martyred humanity. Does your Lordship care to know how this case of suicide has stirred the inmost heart of Bengal? 'A throbbing of life will be felt in the country at my death', thus predicted Sachindra—and how truly predicted it! 'I shall thank God if my death be of any help to any one similarly circumstanced with me',—thus wrote he almost with the last drop of his blood. Will the last appeal of this young man fall on unheeding years?

My Lord, as I speak, there rises before my mind the vision of a score of my countrymen who have abstained from food for some days past as a protest against their detention and the treatment accorded to them. The condition of some of them is grave, but I am relieved to learn to-day that at least one of them has taken food and his life has been saved. They may be quite wrong in the step they have taken, but Your Lordship should take note of the seriousness of the situation which this indicates.

Resolutions.

Babu Surendra Nath Ray.

There are people whose blind wisdom leads them to deny the staring existence of things which they dislike to own. It pleased the Hon'ble Sir Henry Wheeler to have a fling at the non-official members of this Council who interpellate Government about the working of the Defence of India Act. He made the statement that 'the answers that they have given should have dispelled any uneasiness which might be created by the questions themselves'. If Sir Henry meant to be humourous, I think he could not have chosen a more improper occasion. If Your Lordship believes me, the questions, far from causing any uneasiness themselves, represent very imperfectly the state of unrest and alarm that exists in the land on account of the administration of the Defence of India Act and of the alleged unfair treatment of *détenus*. If I were permitted to retort to Sir Henry Wheeler, I would say that it is the answers that are given which increase the uneasiness among the people. The questions offer opportunities to Government to explain things; and if the answers are vague and given most grudgingly and in a fencing manner, they cannot satisfy the people. When for instance, any request is made for certain papers or some other information in connexion with the suicide of any *détenu*, and Government give a flat refusal, it does not certainly tend to dispel the uneasiness that exists independently of the questions. Fortunately for the official benches, the Indian Evidence Act has no application to our proceedings here. Otherwise, in these circumstances one might presume that when a person refuses to answer a question, or to produce any evidence called for, the answer or evidence if given would be unfavourable to him.

My Lord, if you are anxious to remove misconceptions from the mind of the people, you must make a radical change of the system now in vogue. Your Lordship was pleased to state at the last meeting of the Council that in future cases the papers would be placed before two judges for their opinion. Why not let us have a duly-constituted Committee that will inspire greater confidence of the people, to deal with all present and future cases, as suggested in the resolution now before us?

The Hon'ble BABU SURENDRA NATH RAY said :—

"I should like to say a few words with reference to clause 1 of the Resolution, viz., the clause as regards the detention of *détenus*.

Two or three letters were shown to me by the fathers of two of the *détenus* confined in cells. In the letters the boys complained of their lives in solitary cells and if I remember aright they said that their mind might be unhinged any moment that life had become unbearable. Some of the *détenus* have been kept confined in cells for months and months. What is the ordinary law on the subject of solitary confinement as laid down in the Indian Penal Code and which is only applicable to the most hardened criminals in the land. Under section 73 of the Indian Penal Code a man can in no case be kept in solitary confinement for more than three months and section 74 of the Penal Code limits the period of solitary confinement. The section lays down :—

'In executing a sentence of solitary confinement, such confinement shall in no case exceed 14 days at a time, with intervals between the periods of solitary confinement of not less duration than such periods, and when the imprisonment awarded shall exceed three months' solitary confinement shall not exceed seven days in any one month of the whole imprisonment awarded, with intervals between the periods of solitary confinement of not

Resolutions.

Rai Debender Chunder Ghose Bahadur.

less duration than such periods'. So that in no case a criminal, whatever his punishment may be can be, kept in solitary confinement for more than three months and never more than 14 days at a time with intervals of at least 14 days. It is, therefore, not surprising that some of the *détenus* have become mad or have committed suicide.

I think that steps should be taken by Government that the political prisoners, whatever their offences, may at least be treated in the same way as the worst criminals of the land are treated under the Indian Penal Code. I do not ask for a better treatment or for a better place of detention than that of ordinary criminals.

The Hon'ble RAI DEBENDER CHUNDER GHOSE BAHADUR said :—

"My Lord, I should like to say that the internments have had a very wholesome effect on the country. We are safe as regards our lives and property as a result of the internment policy, and I, therefore, congratulate Your Lordship's Government, and especially the Government which preceded Your Lordship's arrival in this country for the steps taken to intern a large number of suspected persons ; at the same time I must own that the feeling in the country is that a large number amongst these interned persons are innocent ; that feeling is growing, and a growing feeling like this leads to discontent, and it is not desirable nor right that a wise Government should allow such discontent to grow. If the mover of this resolution has urged that an Advisory Committee should be appointed on the lines as prevail in England I do not quite see the precise objection to this suggestion being adopted. True, there is here in such cases a machinery for coming to a conclusion as to whether some particular person who has been arrested is guilty or not, and whether he should be interned or not, but there is a great difference between the opinion of an executive officer who performs this function at present and the opinion of a person who has been trained in judicial habits of thought, and the longer, My Lord, we delay in forming an Advisory Committee, the longer this discontent will grow. I am not following exactly my friend the Hon'ble Rai Radha Charan Pal Bahadur in the personnel of the Committee ; it is not exactly necessary that a practising barrister or a resident of the place whence the interned person comes, should form members of the Committee. There might be some advantage in that ; I am not saying that unless you do so the country will remain discontented. If two experienced judicial officers with habits of thought which would commend themselves to the people at large are appointed, it does not matter if no practising barrister does not find a place on the Committee. At the present moment, besides the confessions to which reference has been made by Your Lordship on the last occasion, the majority of the persons, who have been interned, have been so placed on the basis of Police papers, and the opinion which the gentleman who has been detailed to do the business of examining these records, forms of the guilt or otherwise of the persons arrested. I quite believe that the Police of the present day is far superior and far better in their methods, and their hands are more pure than what used to be in this country years ago, but we cannot forget that their conduct does not come up to the mark which Police officers have maintained in England and whatever reliance you can place upon the Police in England, you cannot place that amount of reliance upon the Police in this country. Most people here are aware of the fact that some years ago Sir Andrew Fraser was travelling in the district of Midnapore in a carriage, and below his carriage some bombs exploded, and the Lieutenant-Governor narrowly escaped with his life. The Police were on the spot almost immediately and arrested some coolies working on the line as culprits. True to their instincts they secured the inevitable confessions from these coolies, and these persons were produced before the Magistrate, and then there was a committial to the Sessions, and the Sessions

Resolutions.

Sir H. Wheeler.

Court convicted them; there was an appeal preferred by these coolies before the highest Court of the land and the highest Court of the land comprising two of the best Judges confirmed the conviction. Just a year after that, there was the Maniktola bomb case in which certain people of education were arrested and they confessed that the placing of the bombs in the Midnapore district, to destroy the life of the Lieutenant-Governor, was done by them and not by the coolies, who had nothing to do with it. What did the Government do? The Government released the coolies; and came to the conclusion that the whole Police case was concocted. The persons engaged in investigating that case were not constables or head-constables, but superior Police officers, and here you have an instance as to how the Police work in this country. I for myself would be very cautious in acting upon Police papers. They are often useful, and they are necessary in order to know what has been done in the matter of investigation, but one has to be cautious, and the fact being so, and the fact that our countrymen who compose the Police force are not in their conduct such that you can say that they will always do what is just and proper and refuse to do what is not so, I cannot give that certificate of perfect integrity to my countrymen the Police officers. Therefore I say that you have to see that innocent persons do not suffer, and you have to see that by keeping innocent people in durance, that you do not allow the volume of discontent to grow."

The Hon'ble SIR HENRY WHEELER said :—

"Sir, when I received notice of the resolution which has just been moved by the Hon'ble Rai Radha Charan Pal Bahadur, I had some doubts as to its scope, and taking it in sequence to that which has fallen through owing to the absence of the Hon'ble Babu Akhil Chandra Datta, I imagined that the Hon'ble Rai Bahadur was concerned principally with the methods of dealing with men once interned under the Defence of India Act, granting that restrictions under that Act were required. It is evident, however, from his speech that he has paid but cursory attention to that side of the question, and has dealt mainly upon the larger issues whether Government is justified in taking action at all against the persons whom it has restrained under this Act, and upon the precautions which it should adopt and the advice with which it should fortify itself before taking action. That being so, the resolution really falls into two parts; and I will endeavour to deal with the larger issue first, although, as I have said, I imagined when I saw the resolution that it was mainly concerned with the second.

The proposal of the Hon'ble Rai Bahadur, as I understand it, is that in these matters, Government should fortify itself with the advice of an Advisory Committee, and although this resolution is not so specific as that of the Hon'ble Babu Akhil Chandra Datta, I gather that the Hon'ble Mover would like to have a non-official majority on that Committee, while from the tenor of his speech and the arguments that he has adduced, I think I am right in saying that he desires that the non-official element on that Committee should predominate. Well, Sir, before criticising that proposal, may I again repeat—and it is inevitable that I should, to some extent, recapitulate some of the arguments of which this Council are already aware—that it has never been the wish of Government to neglect any reasonably practical means of testing the value of the evidence against persons to whom restrictions under the Defence Act are applied, and it is absolutely inaccurate to insinuate, as is not infrequently done in some quarters, that action is taken casually on the uncorroborated statements of what are usually called Police spies. The papers are, of course, examined by Police officers; that is inevitable, but we have in this province appointed a special executive officer for the

Resolutions.

Sir H. Wheeler.

examination of papers quite independently of their scrutiny by the members of Government; and this Council is also aware that papers come before a judicial officer before orders are finally passed on them. These are in themselves valuable checks against mistakes, but, as is known, His Excellency has already stated that we are prepared to go further; we are referring the whole matter of the conspiracy in Bengal, under the terms of reference already published, to a Committee upon which there will be judicial officers of the highest standing, and it almost makes one despair when we are told that a Committee of that composition may be expected recklessly to endorse any scheme which, I think one Hon'ble Member said, Government may have ready up their sleeve. Apart from this Committee, we also contemplate referring all future cases of internment for the advice of a judicial committee of two Judges. and the adoption of that procedure is only awaiting the reply to correspondence which is pending with the Government of India. There are the precautions which we have already adopted and are adopting in the hope of meeting the doubts which have been expressed with moderation and restraint by the Hon'ble Rai Debender Chunder Ghosh Bahadur (the fairness of whose speech I quite recognise), and which we know are felt by people who are concerned about the administration of this Act. In addition to these precautions, the cases of those who have been restrained under the Act are constantly coming under the review of Government, and as Your Excellency mentioned at the previous meeting of Council, during the three months, August to October, no less than 65 persons have either been released on assurances of good behaviour or have had the degree of restraint over them mitigated. In fact, since the first enforcement of restrictions under this Act, the total number of persons who have been released from orders originally passed is 132. I would emphasise that process, which is a continuing one, and which largely depends on the conduct of these young men once they are placed under restriction, while it is a process we intend to pursue. But the proposal in the resolution is that we should go further and should adopt a step in the administration of the Act which would materially infringe upon the responsibility of Government for its enforcement. That is a position which we cannot accept. It was not contemplated by the Act when it was passed in the Imperial Council, while the Local Government, as such, are entrusted with the administration of the Act; and it is not a function of which we can absolve ourselves, however distasteful the steps that we have to take may be to us. Apart from the many serious difficulties that there may be in bringing. before a Committee of the kind which the Hon'ble Member contemplates, information and matters which have been given to us in confidence, there is another objection to the proposal, and that is that at a time of stress and war like the present, when the internal peace and tranquillity of the country must be maintained, it must rest with Government to take action towards that end on its own responsibility in accordance with the law of which the administration has been made over to it. We are fully aware of the non-official criticisms that have been directed against the Act and of which we have had expression to-night. We have done our best. as I have explained, to remove any grounds of suspicion for its misuse which trouble the minds of some Hon'ble Members, and we are anxious to carry public opinion with us in what we think right and necessary by giving the public as full a statement of the case as is practicable. This was done on several occasions in Lord Carmichael's time, and it has only recently been done by Your Excellency. With the approaching meeting of the Committee presided over by Mr. Justice Rowlatt, it cannot be fairly said that we have baulked enquiry; in fact we have invited it. But in so far as by the appointment of that Committee the whole matter is, so to speak, *sub judice*, I would ask Hon'ble Members whether they would not be better advised to wait for the results of the enquiry which is about to be undertaken, before

Resolutions.

Sir H. Wheeler.

raising points which cannot but create a certain amount of prejudice around the whole subject.

So much for the first part of the resolution, and although the Hon'ble Member has not dealt with the second at equal length, it stands as part of his recommendations, and I must allude to it.

His proposals under this head relate to the methods of restraint which are enforced over these young men. May I tell the Council what the procedure is that we now adopt? The number of persons at present under restraint is 793, of whom 189 are in home domicile and 584 distributed in various places away from their homes. Assuming that Government is satisfied that restrictive action is required, the first thing to do is to decide where the *détenu* should be located. If this course is considered safe, the lenient step is adopted of permitting him to remain in home domicile, that is, placing him under the supervision of his relatives. If that is not possible, he must be sent elsewhere. Lists of such possible places are in the possession of Government, and from them the responsible officer selects a locality which, having regard to the facts of the case, is most likely to be satisfactory in fulfilling one of the objects of the Act, namely, to keep the *détenu* away from the associations and surroundings which have led to his downfall. When he arrives at the place chosen he passes under the supervision of the District Magistrate and the Superintendent of Police, and it is the duty of the former to see whether the pecuniary circumstances of the youth require the grant of allowance. If after making enquiries into the facts he is satisfied that they are correct he is authorised to make a grant of an appropriate amount, and he merely reports the matter for confirmation by Government.

This explanation covers the first two heads touched upon in the resolution. The third concerns educational facilities. In order to give Hon'ble Members some idea of the special pecuniary allowances that are made, I may state that at present some 535 *détenus* and 68 families are in receipt of allowances, while the total amount so disbursed amounts to about Rs. 18,000 monthly. As regards educational facilities, it is possible that in the case of a boy who is domiciled in his home some sort of home tuition might be permissible, but that is not possible in the case of foreign domicile if it is a question of permitting the boy to attend an educational institution. If there is anything clearer than another in the literature of the revolutionary conspiracy, it is the importance attached by the organisers of it to the contamination of boys in schools. They have persistently directed their efforts towards that end, and their instructions by which they hope to attain that object are minute. The fact that a boy is proceeded against under this Act and is placed under restraint means that he has been contaminated, and in the interests of other innocent boys, who are happily in the majority and still attending school, it is not possible that a boy of this kind, at any rate during the period of his restraint, should be allowed to mix with others. It is a misfortune for him no doubt; but it is only a part of the penalty he is paying for his misguided action.

This explains briefly the practice relative to the locality of detention, allowances and education. At headquarters, we have a special officer deputed to do this work and nothing else, and the volume of the work involved can be judged by the fact that he is one of the most hard-worked officers in the Secretariat. That being the position, is the proposal of the resolution practicable? To it, I submit, there are two objections. My first objection is that which I have already mentioned in connection with the first part of the

Resolutions.

Sir H. Wheeler.

resolution, namely, that the administration of the Act rests upon the responsibility of Government, and it is one which we cannot consent to be delegated or impaired. The constitution of the Committee advocated by the Hon'ble Member is somewhat curious, and the proposal to entrust executive functions to a judicial officer is scarcely one which I should have anticipated as emanating from its present source, while personally I cannot appreciate the particular qualifications of a member of the Calcutta Bar to deal with these essentially local questions. But, apart from these details it is the point of principle, namely, the impairing of the responsibility of Government, to which I mainly take exception. I recognise that the Committee will comprise officials as well as non-officials, but from our point of view we have our accredited officers in the District Magistrates and Superintendents of Police, who are on the spot and best able to ascertain the facts, and I do not see why we should ignore their presence in these matters and place them before other officials in order that the latter may advise on questions for which they have no particular qualification, which are matters of local knowledge, and which are not immediately their concern.

My second objection is to the proposal that the Committee should deal with the details indicated. As those who have had experience of the working of our Legislative Councils are aware, there are two methods which are not infrequently adopted of frustrating action to which exception is taken. The first, if a measure is disliked, is to oppose it in toto. If that is not successful, the second is to propose a system of practical working which will bring the whole machine to a standstill. The present proposal is of the second kind. This point has been already taken by the Hon'ble Mr. Aminur Rahman. who realises that a Committee sitting in Calcutta will not be able to deal with questions affecting all parts of the province where these *détenus* are kept. If the Committee relies on the reports of local officers we are no better off than in dealing with these reports direct. If they trust the co-opted local members, they merely constitute as arbiter an unknown resident of the district on whose dictum in these matters we cannot be expected to rely. Moreover, in practice, looking to the mere volume of the work, it could not go through if it had to be referred to a Committee at every stage. Circumstances may arise which necessitate a modification of the original orders. These details may arise for decision at any moment. Is it seriously proposed that the Committee should sit in perpetual session or is it suggested that they should be convened on every occasion? The officer of Government who is at present entrusted with these particular functions is sitting daily at the Secretariat, and in no other way could he discharge these functions.

Another point to which I desire to draw attention is that these details of method do not merely concern the convenience of the person who has been dealt with under the Act. In order to decide where a man should be placed under restraint and what amount of restraint should be exercised, the officer passing the orders requires to be acquainted with what the charges against the man are, who his associates are, and in fact the whole relation of that man to the revolutionary movement; taking all these factors into consideration. he passes orders for restriction. It would be impossible to lay all these facts before a Committee without placing them in judgment upon the whole administration of the Act, which brings us back to the objections I have already taken to what I have described as the first part of the Hon'ble Member's resolution.

If these objections which I have urged are valid what do we gain by a proposal of this kind? It is made presumably in the interests of these

Resolutions.

Sir H. Wheeler.

détenus, but the answers given to questions asked about them, taken as a whole, show that they are already treated with consideration. Complaints there may be; it is inevitable that there should be, but in that connection I may mention one point for the consideration of the Council. Supposing it is proved that our contention is right, and that these boys who are being dealt with under the Act are members of a revolutionary conspiracy, is there any more obvious method for such a conspiracy to adopt than to promulgate constant complaints and rumours as to the treatment and martyrdom of the men to whom the Act has been applied? It is an obvious thing for any member of the conspiracy to do, and a curious instance of it came into our hands only the other day in the shape of a letter addressed to a relation of one of these boys. If I may read to the Council an extract from this, it will show clearly what I mean. It was written to the relation of a *détenu* to whom I will refer as A, and runs :—

'Those of the *détenus* who do not plead their cause through the medium of newspapers do not get any concessions from Government and have no chance of being interned at home. "A" should, therefore, send in a petition every week. All these petitions are to be sent to the Superintendent of Police. If these petitions produce no good result the Additional Secretary, Government of Bengal, and the Deputy Inspector-General of Police, Intelligence Branch, are to be petitioned simultaneously in the same words. * * * "A" should send in a petition to the Superintendent of Police, saying that he had never been away from home and is, therefore, not accustomed to live in foreign climate; that he generally falls ill in that place; that he is getting worse day by day, which may lead to some serious illness endangering his life; that for these reasons it would be better if he is allowed home domicile; that as his father is a poor man the allowance should continue even in home domicile, though it may be a little curtailed; that in giving home domicile Government will keep him in good health and will not have to spend quite as much for his maintenance and will afford him facilities for nursing his sickly mother and brother. I have written all these to "A" in a clever way, and have asked him to keep you informed whenever he submits any petition regarding his illness, wants or complaints.'

I refer to this letter in order to show the possibility, the obvious possibility, of utilising the spread of rumours as one of the methods of defeating the administration of the Act. India is known as a country where rumours circulate and circulate widely, and I would ask Hon'ble Members not to accept as gospel truth everything which they hear in this connection. With reference to the remarks of the Hon'ble Babu Bhabendra Chandra Roy who, at a previous meeting, said 'if I were to believe all the reports that are conveyed to us, I could unfold here a harrowing tale of misery and suffering,' I would ask the Hon'ble Member if he is in possession of these harrowing tales and reports to take them to the accredited officers of Government to whom other people find no hesitation in going, and I can assure him that an enquiry will be made into them. My information is that the Hon'ble Member has neither been to Mr. Cumming nor to Mr. Stephenson and placed them in possession of these harrowing tales with which he seeks to make the flesh of the Council creep. If he will do so, our officers will enquire into his allegations just as they have enquired into matters which have been brought to their notice by questions and in the papers.

Some Hon'ble Members have made general comments on the policy of the Act, more particularly with reference to men who are detained under Regulation III of 1818, which do not come strictly within the terms of the resolution,

Resolutions.

Rai Radha Charan Pal Bahadur.

and I have purposely confined myself to the proposals of the resolution, but I would submit that, for the reasons I have given, they should prove unacceptable to the Council."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

"My Lord, I have listened with great attention to the speech which has been delivered by the Hon'ble Sir Henry Wheeler. In the first place, if I have followed him aright, he has contended that from the very beginning there was opposition to the passing of this Act and then proposals are made to hamper the practical working of the Act. I do not understand whether he thereby means in all seriousness that I am the person who has been from the very beginning hampering the Government in the administration of the Act. If by simply sending in this resolution I have done that, then I must respectfully repudiate that charge. Sir, if sitting quiet, dumb in this Council and listening only to the explanations vouchsafed from the Government side, without making any suggestions, honestly offering assistance to Government by making these suggestions—if these attempts are interpreted as hampering the Government then I must say, Sir, that we must bid good-bye to all our aspirations for the association of my countrymen with the Government in the administration of the country. Sir, in my observations both to-day and at the budget debate, I have acknowledged that we have derived benefit by the internment of a number of persons, but, Sir, if we were to stop there, and if we did not tell Your Excellency that there is a deep and widespread feeling in this country, we should be failing in our duty. I know that Government are not trying to ignore that feeling, but I do know that there is a deep and widespread feeling that these cases are not properly investigated and are decided on the reports and *ex-parte* statements of Police officers. I do not agree with all that is said by a very large number of people. I do not agree with those who say that all the people that have been interned are innocent, and I do not agree, in spite of the high authority of Sir Henry Wheeler, that all the people that are interned are guilty. In order to reassure the public mind on the subject, and in order to strengthen the hands of Government some sober and moderate members of our community have submitted this motion for your consideration. I do not understand what is the practical difficulty and how the acceptance of this resolution will hamper the administration of the law. Sir Henry Wheeler has pointed out—if I have followed him aright—that I wanted a non-official majority on this Committee. I have never said that I wanted a non-official majority or minority, all I have suggested is that a practising lawyer who is capable of attesting evidence, should be associated with it. He may be an official or a non-official ; he may be the Advocate-General or the Standing Counsel, or he may be an independent practitioner. Have you not nominated Mr. Provash Chunder Mitter, a member of the Committee, to be associated with Justice Rowlatt to inquire and investigate into the existence of a widespread conspiracy in this country ? Is he not a practising lawyer ? Does not the responsibility rest upon Government to show whether there is widespread conspiracy or not and to devise measures to combat it. Why have you then appointed the Committee to advise the Government in this matter ? So, I think, My Lord, my resolution is a perfectly genuine one, intended honestly to help and strengthen the hands of Government. At the last budget debate I said there is no difference between the Government and the people except as to the method in which this Act is being administered. My countrymen are exactly of the same opinion and if it is stated that a single officer of Government or even two judges to whom the case will be referred, will give satisfaction, I must say, My Lord, that that will not be the case, because in this matter you must trust to a certain extent, my countrymen, and if you take a responsible member of my community to be associated with the two judges upon whom the Government

Resolutions.

Rai Radha Charan Pal Bahadur.

must rely on, I think it would go a great way to reassure the public mind. Then, My Lord, as regards the co-opted member I will give one instance as an illustration. The Criminal Investigation Department makes a report on a certain case of a *bhadralok*; he comes and inquires of somebody in the locality as to what the character of this young man is, and he reports on that statement. If that person makes a statement which is adverse to the interests of the young man because he has got some grudge against him, the report goes gradually step by step to the officer who disposes of these cases. If you appoint a co-opted member, for instance the Hon'ble Raja Hrishikesh Laha, who lives close to my locality, in connection with a particular case or cases in that locality, then I believe the Government will be in a better position to know whether that person from whom the information was derived is actually a man upon whose word you can rely, I do not think there will be any difficulty in choosing co-opted members.

Sir Henry Wheeler stated that a large sum of money is spent for the maintenance of the families of *détenus* and on the *détenus* themselves. I have never complained that the Government are neglecting them, but what I state is that whatever allowance is made by Government is made on the recommendation of certain officers who may not be so well informed as a resident of the locality would be. It has been stated that transference of this power to an Advisory Committee will infringe upon the responsibility of Government. That argument, however, does not hold good, because you have yourselves appointed a Committee to investigate into this very matter. Your Excellency in that last speech has clearly stated that there is a widespread conspiracy in this country, and if you are convinced of it, why shirk the responsibility and appoint a Committee to advise upon the same matter. As it is too late I would only say if this resolution be not accepted in some form or other there will be great disappointment in this country and I hope that our motives and our actions will not be misinterpreted."

RESOLUTIONS.

LIST OF BUSINESS—ITEM No. 10.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR moved the following resolution :—

This Council recommends to the Governor in Council that—

(1) the Bengal Government Municipal Department circulars No. 11M., dated the 24th February, 1916, and No. 2445M., dated the 25th September, 1916, which give an interpretation of the law that imposes restrictions on Municipal electorates, be either withdrawn or modified so as to remove such restrictions ; and

(2) if this is not possible, section 15 of the Bengal Municipal Act, 1884, be amended so as to remove the restrictions in question and that the operation of the circulars referred to, be suspended pending such amendment.

He said :—

"My Lord, at a meeting of this Council held on the 5th March, 1917, I moved a resolution for the extension of the municipal corporations in this Presidency. I then pointed out that we had made very little progress in this direction as compared with other provinces. The slight increase in the number

of municipalities in Bengal was mainly due to the splitting up of certain riparian municipalities near about Calcutta. It was also pointed out that out of a total of 52 subdivisional towns within this Presidency no less than 21 subdivisional towns are without any municipality and therefore without any adequate provision either for the conservancy or for the sanitation of those places. The recent policy of the Government has been not to increase the number of municipalities, but gradually to absorb the subdivisional towns inside rural areas by incorporating them with Union Committees. My Lord, that resolution was lost. To-day I stand to draw attention to another phase of that retrograde policy which aims at greatly emasculating and curtailing the municipal electorates by narrow interpretations of the law as existing at present. My Lord, there are two kinds of taxes in force in the Bengal Municipalities. One is the tax or rate on holding which is the proper municipal taxation, and the other is a tax on persons levied according to the means and circumstances of persons occupying holdings, and this is the prevailing tax in most of the municipalities in the interior of the country. It is practically a form of income-tax. In 1884, when the Municipal Act was taken up for consideration, there was an agitation as to the qualification of voters. The property qualification was reduced to a minimum taxation of Rs. 3. That did not satisfy the public, who urged for an additional qualification irrespective of property qualification, and section 15 which deals with the qualification of voters had added to it a sub-section, viz., sub-section (3), which gave this privilege to the educated community and in this sub-section it was laid down that graduates, under-graduates and licentiates of the University, licensed pleaders, mukhtars and revenue agents should also be entitled to vote although they may not pay any tax for the holdings in which they reside. The tax may be paid by somebody else, and if they reside there and occupy a portion of their holdings they would be entitled to vote by virtue of their educational qualifications. Now, the first circular which wanted to cut down this important privilege of the educated community was Circular No. 11 A., dated the 24th February, 1916. That circular says that Government has come to know that certain students have given votes at certain elections and therefore they think it right that certain interpretation should be given to section 15(*3*), and it was held that students *in statu pupilaris* would not be entitled to vote. That in the first instance would mean that if a person has got two sons and has also got a holding within a municipal town and if one son is a B. A. who has left off his study, and the other son having passed the B. A. is prosecuting his studies for the higher M. A. degree—under the operation of this circular it would come to this that the son who has left off his studies with an inferior degree would be entitled to vote, but the other being in the category of students *in statu pupilari* would be debarred from voting. Then the circular goes on to state that the occupation in the holding referred to in section 15(*3*) should be confined to an exclusive occupation and occupation as of rights. I quite understand, my Lord, that mere possession of a stranger ought not to be considered as occupation within the meaning of the Act; but there is this difficulty:—Is the occupation of the son of a father who pays taxes within the municipality not to be considered as occupation under that circular? I contend that occupation there does not mean either exclusive occupation or occupation as of right. Surely we are able to draw some distinction between the bare physical occupation of a stranger and that of a son or grandson living with his parents and possessing an inchoate right in the holding. There may be also cases in which, although the father is the owner, the son's occupation is also derived from some other right and it cannot be classed in the same category as the occupation of a stranger. Then, My Lord, the circular goes on to say that where the student does not pay for his room his occupation is no occupation. My Lord, we have learnt many things from the West which we gratefully acknowledge, but we have yet to

Resolutions.

Babu Ambica Charan Mazumdar.

learn that in this country a son should pay rent to his father for the room he occupies in the house. And what does 'exclusive occupation' mean? How can there be exclusive occupation in the strict sense of the term? A father has got two sons, one of whom is a mukhtar and the other a pleader. They can have no exclusive right to any particular rooms they occupy. The father, as the rightful owner, may some times allot some other rooms to them. So this interpretation based on a state of things which does not exist in this country at all is, I consider, most unfair, because in this country sons, grandsons, nephews and others live together in the same house under the direction of the *pater familias*. Although they may have separate rooms allotted to them, still it cannot be either exclusive possession or possession as of right. If the legislature of 1884 intended to give such a construction on the word 'occupation', then I think there would have been no sub-section (*3*) to section 15. And I submit, My Lord, to the fair judgment of this Council to consider that if this circular were to be enforced, whether sub-section (*3*) of section 15 would not be a nullity. Can it be suggested that under any conceivable circumstances a son cannot live in the house without paying rent to his father or without having exclusive possession of a room? I particularly take exception to the circular where it refers to students. The expression *statu pupilaris* does not occur in the section and why should you interpolate it? It may be very different in the case of students living in hostels or messes who do not live for the whole term through and may not satisfy all the requirements of section 15, but what I object to is that graduates and under-graduates and all those persons who have been given the privilege of voting under section 15(*3*) should have exclusive occupation and pay something by way of rent in order to qualify themselves as voters. If the circular stands, then that section would go. In the face of this circular that section cannot stand. That is my first objection.

The second circular goes a step further. I am referring to circular No. 2445, dated the 25th September. That circular arose out of a peculiar circumstance. In the municipality of Comilla at the last general election two persons belonging to a joint family appeared at the polling station and each wanted to vote for a different candidate. The polling officer very properly refused to record the vote of either of them and referred the matter to the Magistrate who cancelled the election. I think he was perfectly right there. Then the case was referred to Government and this circular was issued which goes to extreme lengths in construing section 15 of the Municipal Act. It lays down broadly—I need not read it out as it is a lengthy one—that a joint family has no right to vote. It is said that as a joint family is not a corporate body, strictly speaking, under the law, no member of it would be entitled to vote, although they pay a requisite taxation jointly. It is also said that business firms or persons occupying a joint holding unless registered under the Company's Act have no corporate existence and as such are not entitled to vote. This is no doubt a plausible argument in favour of this contention, and I ought to draw the closest attention of the Council to this point. The word 'person' is not defined in the Municipal Act and we have to refer to the Bengal General Clauses Act for a definition of this term. In section 3 of the Bengal General Clauses Act it is said that 'person' includes any Company, any Association, or any body of individuals, *whether incorporated or not*. The General Clauses Act was passed in 1899 and the Bengal Municipal Act in 1884. In section 5 of the General Clauses Act there is a provision that this definition of 'person' shall apply to all enactments passed since the passing of the General Clauses Act, otherwise the word 'person' would include only a corporate body or association. But the Municipal Act being of 1884 the General Clauses Act cannot be invoked for the purpose of giving the wider definition to the word 'person.' But here I would ask the Council to consider one point. Whenever an Act is amended, it takes a new start whatever may be the nature of the amendment,

Resolutions.

Babu Ambika Charan Mazumdar.

and although the name may be of the old Act, it is still cited as an Act amended by such and such Acts. My contention is that when an Act is amended it takes a new lease of life from the date of the amendment, whatever the extent of the modification may be. The Bengal Municipal Act of 1884 was amended for the last time in 1900 for the purpose of meeting certain cases of the Darjeeling Municipality, and if my view be correct, then the definition of 'person' in clause 3 of the General Clauses Act ought also to apply to the Bengal Municipal Act and if it is so applied in that case the circular is distinctly *ultra vires*, because section 3 says it would refer to any body or Association, *whether incorporated or not.* Thus even though a joint family may not be strictly called a corporate body, still it is the union of a number of individuals with certain manners and customs, and whether they are incorporated or not they should be allowed under the law to vote. Similarly in the case of business firms there is no valid reason why they should be debarrd from voting.

Now, My Lord, I will ask your attention to the effect of these two circulars. I have received several complaints from various quarters. I have received a letter from the Chairman of the Mymensingh Municipality, from the Secretary of the Naraingunge Mahajan Sabha, and from various other persons complaining that if these two circulars operate municipal elections would become a farce. I will not content myself by simply giving my opinion but I will cite a concrete case. I know of many such cases, but I think one will suffice. In a municipality consisting of 15,000 souls there are no more than 2,300 rate-payers, that is to say, 16 per cent. of the population pay any taxes. Out of these 2,300, only 918 or, in round numbers, 900 persons are voters. That would be 6 per cent. of the whole population. Therefore the situation is this: that out of a population of 15,000 only 900 persons, that is, 6 per cent. of the whole population, return the Commissioners. And if these two circulars are brought into operation, the number of voters in many of the municipalities would come below 5 per cent. of the whole population and in some below 4 per cent. Now contemplate the result of such an election. Out of every 100 persons only 4 persons will return the Commissioners! I doubt whether such an election would be worth the name. I hope and trust that these circulars will be either withdrawn or liberally construed.

There is another aspect of this question. Mufassal municipalities are efficient bodies who have been satisfactorily carrying on their work, particularly sanitation and conservancy works. Most of the municipalities have provided themselves with pure drinking water for their constituents and they attend regularly to the conservancy of the towns: They pay for primary education and do other useful things; but apart from these, in congested areas the municipalities have proved most efficient and useful bodies for the purpose of preserving the health and convenience of the people. The election in such municipalities ought to be more representative and the electorates ought to be enlarged. I do not think it would be politic of the Government to cut down the electorates and curb and curtail them so as to reduce to its minimum, the utility of these institutions, and I hope and trust that the question of the two circulars should not be lightly treated. The first circular introduces words which are not in the section and no one, not even a judge, can introduce words into a section which that section does not contain. The word 'student' is not there and why should you introduce it into the section? Such is also the case in regard to *occupation* of holdings. The word 'person' in the second circular also comes under section 3 and not section 5 of the General Clauses Act. The Bengal Municipal Act was last amended in 1900 and the General Clauses Act was passed in 1899, and therefore I think the definition in the latter Act applies to the case of the former.

I hope that this resolution will be accepted by the Government in the spirit in which it is offered. I do not mean to embarrass the Government

Resolutions.

Rai Mahendra Chandra Mitra Bahadur.

or to tamper with its prestige. It is a pure question of honest interpretation; it is a simple proposition. When we are asking for reforms there are those who are reminding us that we must first improve the local self-governing institutions, and when we come to the local self-governing institutions, they are improved with vengeance by being curbed and emasculated. I submit that these circulars have proceeded from a retrograde spirit and they ought to be at once removed. But if the Government find themselves hopelessly in a position not to be able to withdraw the circulars after they have once passed out of their hands, if that be the position, then I say, let section 15 be amended. If Mahomet will not come to the mountain let the mountain go to Mahomet. If the circulars cannot be withdrawn, let the law be changed, which of course will be done in Council and not in the quiet recesses of the Secretariat. At least let these circulars be suspended, because the general election of many municipalities will shortly come up, and if they are to be enforced now, it will cause great prejudice to many of the municipal elections."

The Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR said :—

"My Lord, I beg to support the resolution which has been so ably moved by my learned friend. There are two questions which deserve the consideration of the Council : firstly, as to the legality of the circulars, and, secondly, as to the expediency of giving a full operation to them. Referring to the legal view of the question it appears to me that the circulars have been conceived in a very illiberal spirit. The Council will note that so far as the law is concerned the residential clause is a most important one, but I cannot imagine how the sons who have a joint family house can be told that they are not in possession. The Council will kindly consider also that the possession of the father is also considered to be the possession of the sons. In a joint family there are two or three brothers and each brother has joint possession in the dwelling house, and can it be contended that one brother has exclusive possession in it? Under the *Dayabhaga* law each brother is considered as a co-sharer, and to my regret I learn that only one should represent the family as a voter because the joint family is not a corporate body. As the Chairman of a mufassal municipality, I have tried to explain to the brothers that only one of them should represent the family, but they could not and did not understand why each of them should not vote. There are difficulties in administering the law in that way, and it is very difficult to see how the law can be administered in the spirit in which the circulars have been issued.

Then, again, referring to the expediency of having the circulars in operation, I have to submit to your Excellency that the educated portion of the community is excluded from voting. Why do I say this? Because a qualified voter is entitled to be elected as a Commissioner. Now if the educated portion of the community be excluded, naturally we will find that there is weakness in the strength of the Commissioners who are elected by the people. It is therefore necessary that a favourable interpretation should be given to the circulars. The election rules were enacted in 1896, and I will take this opportunity of bringing to Your Excellency's notice that these rules ought to be modified. They are antiquated rules, and at the end of every election we find that Chairmen are made defendants in Civil Courts for giving wrong interpretation to the rules. If you refer to any annotated edition of the Municipal Act, you will find that the High Court has to interpret almost every rule. It argues therefore that the rules are defective, and it is high time for Your Excellency's Government to consider whether these rules, which were drafted in 1896, should still be in operation to the fullest extent. I am aware of a circular which was issued by the Bengal Government on the authority of the Advocate-General, stating

Resolutions.

Babu Surendra Nath Ray.

that writs of injunction should not be issued by Civil Courts withholding an election. Of course that circular was issued in 1897, and to my regret I submit that the Civil Courts did not pay any heed to the opinion of the Advocate-General, although it was a weighty one. There are various concrete cases which I can put before the Council showing the defective nature of the rules. These rules no doubt are enacted under the authority of section 15. To my mind section 15 ought to be modified along with the rules which are based upon the provisions of that section. I have submitted my views to Your Excellency, because I feel the difficulty of interpreting the old rules which are in force now. Under altered circumstances the rules demand fresh consideration. I do not know whether I am justified in raising this point at a time when the area of discussion raised by my hon'ble friend is a limited one and thereby trespassing upon the time of the Council, but I do submit and submit again for the consideration of the Council and of Your Excellency that attention should be given to the humble suggestion which I have made just now. My Lord, I must say one word more, namely, that the Bengal Municipal Act ought to be amended in various ways. One who has read the law carefully will, perhaps, agree with me, that the Act itself has already become an antiquated one, although it was passed only in 1884. Your Excellency's Government have taken the trouble of re-drafting the Calcutta Municipal Act and my humble submission before this Council is that this Act may also be re-drafted."

The Hon'ble BABU SURENDRA NATH RAY said :—

" My Lord, I support the resolution of my hon'ble friend Babu Ambika Charan Mazumdar for the reasons given by him. I have been the Chairman of an important municipality for 20 years, and I beg to submit that the interpretation now put by the learned Advocate-General, a high law officer of the Crown, has taken us all by surprise. That has not been the accepted interpretation of these words for so long, that is, ever since the Act came into operation in 1884. Section 15 of the Act lays down that 'any person who immediately preceding such election has paid in respect of the rates an aggregate amount of not less than Rs. 3 would be entitled to vote.'

And then sub-section (*iii*) says :—

> 'being a graduate or licentiate of any University, or having passed the First Arts Examination of the Calcutta University or the corresponding standard of any other University, or holding a license, granted by any Government vernacular school, to practise medicine, or holding a certificate authorising him to practise as a pleader or as a mukhtar or as a revenue-agent—occupies a holding, or part of a holding, in respect of which there has been paid, during the year aforesaid, in respect of any rates, an aggregate amount of not less than three rupees,
>
> shall be entitled to vote at the election of Commissioners of such Municipality.

If the payment of Rs. 3 be the only condition to entitle a person to become a voter, then the other clause of the section, namely, that which lays down certain educational qualifications to entitle a person to become a voter, would be superfluous. That clause then has no meaning at all, because from the interpretation put by the Advocate-General it seems that only persons who pay rates and taxes to the extent of Rs. 3 are entitled to vote.

Then as regards the other circular about the right of voting by persons belonging to joint families, I think there has been a good deal of discussion on this question for a very long time. Under the old rules of the Calcutta Corporation, I believe, members of a joint family could nominate even an outsider to vote for them. I hear that the rule has subsequently been changed, and it is now only a member of the family whom the other members

Resolutions.

Babu Kishori Mohan Chaudhuri; Babu Mahendra Nath Ray.

can nominate to vote on their behalf. In mufassal municipalities, so far as I am aware, the *karta* of a family used to vote. About eight years ago I had occasion to consult a District officer—I may name him, Mr. Bompas about this, and he advised us that if the members of a joint family paid Rs. 6 as rates and taxes, and if there were two brothers in the family, both the brothers were entitled to vote. That practice has been followed for the last eight or ten years in my municipality. As regards the right of graduates to vote, I think it is clear that mufassal municipalities are bound by the interpretation put by the law officer of the Crown and if the Government thinks that they cannot act against the circular, then it is necessary to amend the law on the subject. But I think it would not be necessary to amend the law; the election rules might be amended instead. And as regards the right of voting by the members of a joint family, the question is not very clear, and in this connection, I think, it would not only be necessary to amend the election rules, but also the law on the subject."

The Hon'ble BABU KISHORI MOHAN CHAUDHURI said :—

"My Lord, I need not do any more than give my whole-hearted support to the resolution. Sub-section (*3*), to my mind, was introduced so as to allow a large number of educated persons living in joint families to participate in the municipal elections. But the result of the circular will be to exclude these persons. When the Act was passed, the legislature of the time did not intend that a very narrow view should be taken of it. If any difficulty has arisen, then the law may be amended. I believe it will be amended soon and then the matter may be fully discussed. It should be the aim that the electorates should be more enlightened and more educated. Otherwise the municipal administration would be a farce. In that view, I think, the circulars should be suspended, and if there be any difficulty the amendment of the section should be taken in hand. With these words I support the resolution, and I hope it will be accepted by the Council."

The Hon'ble BABU MAHENDRA NATH RAY said :—

"My Lord, the question before the Council, I take it, is whether the two circulars referred to in the resolutions lay down or give a wrong interpretation of section 15 of the Bengal Municipal Act. If they do, then the request that they should be withdrawn would be a perfectly fair one. If they do not, then the Government, as an executive authority, are powerless in the matter. There is a further question raised in the second part of the resolution, namely, that if the circulars give a correct interpretation of the law, the law might be amended. The learned speakers who have preceded me are all lawyers and some of them, I understand, are Chairmen of mufassal municipalities. The opinion they have expressed to the effect that these circulars are based upon a wrong interpretation of the law is certainly entitled to weight, and I am not going to discuss that question here. So far as the first circular is concerned—the circular of February, 1916—the question as to whether the interpretation of the law contained in that circular is correct or not depends upon the proper meaning of the words 'occupies holding'. Whether it was contemplated when section 15 was enacted that this occupation need not be legal occupation, but includes physical occupation not based upon right, is perhaps a difficult question, and speaking for myself I thought that the opinion of the Advocate-General was correct. But whether the legislature meant that at the time when section 15 was enacted is a very different matter. With regard to the September circular, the question of the right interpretation of the law depends upon the word 'person'. The second circular, to my mind, causes very little difficulty in working the rules. My hon'ble friend, Babu Surendra Nath Ray, intimated that Mr. Bompas had told him some time ago that there would

Resolutions.

Babu Mahendra Nath Ray.

be no difficulty in working out the rules under section 15 in the case of joint families under the Bengal school so as to cause no hardship whatever. The joint family under the Bengal school may not be a 'person' and the interpretation of the law as laid down in the September circular may be perfectly correct, but if a joint family consisted of, say, A, B and C, A may represent the joint family and there is nothing in the law, nothing in the circular, to prevent him from representing the joint family. All that the circular pointed out was the incorrectness of the theory that A, B and C constituting members of a body consisting of A, B and C must present themselves as a composite body and give their votes. I do not think any member can object to what the circular said on that point. And if A, B and C constitute the members of a joint family, it is perfectly open to them with the consent of the members of the family to make A to represent that family and there is, I say, nothing in the circular of September, 1916, nor in section 15 to prevent that being done. It has been worked in this way in some of the municipalities of which I have personal knowledge, but whether it has been worked correctly or not is another matter. In the municipality of Howrah, for instance—we need not go any farther—the rule which has been hitherto followed is this: Suppose a joint family consisted of A, B, C and D, and the whole family is liable to pay a rate of Rs. 18 quarterly. Each of these men, A, B, C and D, is registered in the demand register as an occupier or a holder and in the voters' list as a voter, and I say there is nothing in the circular of September, 1916, nor in section 15 to prevent this being done. I speak subject to correction of course. But we are now concerned with the legality or the propriety of this circular of September, 1916. That circular, however, so far as it says that a 'person' does not include a joint family may or may not be correct, but it does not work any mischief and therefore that circular need not be considered unless the law officers of the Crown are advised that it is based upon a wrong interpretation of the law. With regard to the first circular the law laid down—or rather the interpretation of the law in that circular—is perhaps correct, but it has worked mischief, and I am bound to point out that this matter requires serious consideration by the Government. It is time that gentlemen possessed of educational qualifications, such as are set out in section 15, should have the power of voting at municipal elections irrespective of their right of ownership or right as legal owners or occupiers of a holding within the municipality. There are lawyers, and if the lawyers are a very unpopular body I shall leave them out of account, but there are teachers and school masters and others who are a very useful body of men possessing educational qualifications—that I take it is the most important qualification—but who may not occupy a holding in the legal sense of the term;—whether these men, possessed of educational qualifications and residents within the limits of a municipality for a year as required under section 15, but not owners or occupiers of holding in the legal sense;—whether people of this description should be debarred from taking part at a municipal election is a very serious and important question. To my mind they ought not to be debarred. If they possessed the requisite residential qualifications they ought to have the right of voting, irrespective of any legal right of occupation of property. That, I am afraid, will need an amendment of the law, and so far as the proposal contained in the second part of my hon'ble friend's resolution is concerned, it has my full sympathy, but mainly in respect of the matter which I have just referred to, namely, the question as to whether persons possessed of adequate educational qualifications and satisfying the residential qualifications should or should not be permitted to take part at municipal elections irrespective of their right of ownership or legal occupation. I respectfully submit that they should be permitted."

The Hon'ble MAULVI ABUL KASEM said :—

"My Lord, I beg to support the resolution which has been moved by the Hon'ble Babu Ambika Charan Mazumdar. Certainly the educated section of the community and educated boys should have the right to vote at municipal elections, because they are best qualified to exercise the franchise that has been granted to us. In the municipality of Burdwan, if these circulars are given effect to, one of our most useful Commissioners will not only cease to be such, but will also cease to be a voter because his father pays the rates and taxes and the son does not pay for his room nor has he the holding in his name. My Lord, I do not think it is necessary for me to add anything to what has been said by some of our distinguished lawyers to the interpretation put by the Advocate-General on the section. We have in this Council at the present moment a very high authority on law in the Hon'ble Member in charge of Local Self-Government. I think the Municipal Act should be amended so as to include all enlightened people in the list of voters.

My Lord, my object in rising to support the resolution has also been to draw Your Excellency's attention and also that of the House to the unfortunate remarks which fell from the lips of the Hon'ble Mover of the resolution—I mean his remarks about Mohamed and the mountain. That, my Lord, is a fiction invented by over-zealous Christian missionaries and has no foundation in fact. I would be wanting in my sense of duty if I did not draw Your Excellency's and the Hon'ble Mover's attention to it. And I pray that these words may be deleted from the proceedings of the meeting."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

"My Lord, some reference has been made to the system followed in the Calcutta Municipality in connection with the circular issued on the authority of the opinion of the Advocate-General regarding the voting power of a joint family. I think the practice followed in the Calcutta Municipality is such a simple one that it can be followed without any disadvantage in other municipalities. In Calcutta a joint family consisting of three or four members is empowered to vote under the new rule sanctioned by Government about a year ago by nominating one of the members to vote on their behalf. But they must send their nominee to the Chairman of the Corporation by the 1st of January preceding an election. As regards associations of persons, companies and firms, the rule is that any one employed in the firm or a member of the firm can, by an authority previously sent to the Chairman, claim to have his name entered in the voters' list and can also vote in the municipal election. I do not know whether there is any such rule in connection with the mufassal municipalities. If there is none, then I think it should be introduced in the mufassal, as this rule was approved by the Calcutta Corporation as also by the Local Government. For these reasons, My Lord, I support the resolution of my hon'ble friend. Although I am not a resident of a mufassal municipality, I find from the section which has been shown to me that any one possessing certain educational qualifications is entitled to vote. I do not know whether it means that any person who is not a *bonâ fide* occupier of a holding is entitled to vote simply because he has passed an University examination. I do not also quite understand why there should be any difficulty in connection with the occupier of a holding who pays a certain amount of tax to the municipality. In Calcutta, My Lord, any owner or occupier of a building, whether educated or uneducated, who pays a certain amount of tax, is entitled to vote. According to section 15 of the Bengal Municipal Act, a literate person if he is also the occupier of a holding is entitled to vote. But I do not know whether the *karta* of a family as well as his son who has

passed an examination are both entitled to vote. That is not the practice in Calcutta. But quite apart from educational qualifications, I think, my Lord, that the primary qualification should be that the voter should be an occupier of a holding in respect of which rates are paid. That should be the primary qualification. These are my views, My Lord, which I submit for the consideration of the Council "

The Hon'ble SIR S. P. SINHA said :—

" My Lord, I feel even now somewhat doubtful as to whether the exact nature of the question at issue has been clearly explained to the Council. We have heard of two circulars which the Hon'ble Babu Ambika Charan Mazumdar would like to be withdrawn. The mover of the resolution goes further and says that if they be not withdrawn the law ought to be amended.

The first question therefore is—what are these circulars about and why they have been issued and why by the Government? I will just state, as simply as I can, the answer to these questions. We have all heard of the Municipal Act a section in which lays down the qualifications of persons entitled to vote at municipal elections. I will not trouble the Council by reading the section, because it is hardly the function of the Council to interpret the law, though it is its function to make it. That section lays down the qualification of voters. Under that section, a question was raised not long ago whether two classes of persons were entitled to vote, *i.e.*, whether the language of that section included two classes of persons. The question having arisen the officers of Government, whose duty it is to make up the registers of voters, referred it to Government for advice, asking what the law meant and whether the law, as it existed then, included these two classes of persons or not,—the two classes of persons being, *first*, students living with their parents or in hostels or messes, and, *secondly*, members of a Hindu joint family. The Government could only do one thing on such a reference being made, namely, refer it to their highest legal advisers for their opinion on the meaning of the section, and this they did. They were advised that the section meant a particular thing; they put that in the circular and sent it to the officers who had asked for the advice. The officers naturally acted on that advice. But the fact that they did act upon it does not necessarily mean that it was correct. If it is wrong, it is open to anybody who is aggrieved to go to the Courts and say 'I have been wrongly excluded from voting; I ought to have been included'. The circular is nothing more than a communication by the Government that their law officer, the Advocate-General, is of opinion that the section means so and so. They cannot very well withdraw it until their law officer says that he was wrong. It does not really matter to anybody whether it is withdrawn or not, because it is open to anybody, who thinks that it is wrong, to go to the nearest Munsif's Court and say that the opinion of the Advocate-General is not worth the paper it is written upon, and the Court will thereupon decide as to whether the Advocate-General was right or whether he was wrong.

The Hon'ble Rai Mahendra Chandra Mitra Bahadur himself mentioned a case in which the Advocate-General's opinion was treated in that way by the Courts with regard to injunctions; so it is liable to be treated with regard to these two matters, in the same way if they are wrong. There seems to be some difference in regard to the matter. The Hon'ble Babu Mahendra Nath Ray says that the Advocate-General was right in regard to both these matters. On the other hand, I find that four or five distinguished lawyers in this Council think that the Advocate-General was wrong. It is rather difficult to choose between these two views, and the only course open to Government—so long as the Advocate-General adheres to his opinion—is to say that is how they are advised. It is open to anybody to contest the opinion in the law courts. Therefore, so far as the circulars are concerned, I think

Resolutions.

Babu Ambika Charan Mazumdar.

it is hardly a matter upon which the Council can express an opinion as to the meaning of the section—which is for the law courts to decide. With regard to it, the Government must necessarily be guided by the opinion of its highest legal officers.

So far as the merits of the matter are concerned, I will deal immediately with them. It does seem somewha anomalous that members of a joint Hindu family should not be entitledtto vote. The Hon'ble Babu Mahendra Nath Ray, whose experience as Chairman of one of the largest municipalities —namely, Howrah—must carry weight, says that in practice it does not cause any difficulty. In Calcutta the rule is different, because the section is different. The section in the Calcutta Act expressly gives the right to vote to a member of a joint Hindu family. The section in the Bengal Act does not; and I think it right to say that when the next amendment of the Bengal Act takes place, this matter should receive careful consideration, because it is no use leaving it as a matter for interpretation. Although no practical inconvenience has been caused, as the Hon'ble Babu Mahendra Nath Ray has pointed out, it will probably be necessary to go into that question and put the law on the same footing as the law in Calcutta, in order that no question may arise in future.

Now as regards the second question of students living with parents or guardians or in hostels and messes, it is hardly right to say, as the Hon'ble Babu Ambika Charan Mazumdar has said, that the interpretation of the law as mentioned in the circular is due to any policy or any desire on the part of the Government to restrict the right of municipal voters. To start with that idea is not correct. It is not a matter of policy that the circular was issued, but merely in answer to a request as to what the law meant and after obtaining the advice of the law officers. It is not a question of policy; it is a question as to what the law as it stands means. We can only take it from the law officers until the courts pronounce upon it and say that the law officers were right or not. There is no question of policy involved in this matter at all.

As regards the section itself, it deals not only with educational qualifications, namely, the passing of a certain examination, but also certain property qualifications; it involves both. That is how it has been interpreted by the Advocate-General and, as the Hon'ble Babu Mahendra Nath Ray has remarked, he is probably right. or it may be that he is wrong; but if it is intended or if it is desired that educational qualifications apart from any property qualifications, divorced altogether from any other qualification, should be sufficient to give every resident within the municipality the right to vote, well that ought to be made clear—again I say, when the law is next amended. Whether that ought to be so or not is a very large question; whether educational qualification irrespective of any other qualifications should or should not give the municipal vote, is a question upon which I, at any rate, have an open mind, and I have no doubt that when the Act is next amended, my friends who desire that such should be the rule would place all their arguments before us. and I can only promise that when the Act is next amended—and I think it must be amended very soon, having regard to the length of time that has elapsed since it was passed in 1884—both these matters will receive our careful and sympathetic consideration. But I venture to think that it is hardly the correct procedure to ask this Council to put a construction or interpretation upon the law, as it is not one of the functions of this Council."

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR said :—

"My Lord, in rising to reply. I shall have to notice *seriatim* some of the points which have been raised in this debate. First of all, I shall take some of the points raised by my esteemed friend to the right (Hon'ble Babu

Resolutions.

Sir S. P. Sinha ; Babu Ambika Charan Mazumdar.

Mahendra Nath Ray), who thinks that one of the circulars at least does not interfere with the rights of voters, that is to say, circular No. 2445M. The concluding portion of that circular will show that my hon'ble friend has reckoned without his host. After discussing the question of the joint family, it summarises thus . 'For the above reasons a joint family has no legal capacity to vote.' I fully agree with my hon'ble friend to the right that according to practice one of the circulars may not interfere with the right to vote. I know the practice in different mufassal municipalities has been somewhat different and the opinion of the Advocate-General may not interfere with this practice. We have not the law of Calcutta in the mufassal. I myself was associated with one of these municipalities for the last twenty years and I know what the practice was in the case of joint family. We used to call upon the members of a joint family to elect or nominate one of them to be entered in the voters' register. The register for taxes is one and voters' list is another ; so that there may be half a dozen names put together in the register for assessment, but at the time of election when we had to prepare the voters' list we used to put the name of one of them, as may be decided amongst the members of the joint family, as the qualified voter. But what the municipalities apprehend and complain of is that under the circular no such thing will be allowed, because it is said that a joint family has no legal capacity to vote ; so that it would be inadvisable to let it remain like this, as many would think that the whole family is disfranchised.

In the next place, the circular says that 'for the above reasons a body of persons who hold or carry on business jointly, not being an incorporated association, is not entitled to vote.' So, in those cases in which there is a partnership business and those businesses are often very large, any member of these may also be asked to exercise the right to vote in a municipality. I fully admit that every member of a family and every partner of business may not go to the polling station and be allowed to vote. I contend however that this circular, as it has been worded, is a serious obstacle in the way of voting by these bodies who sometimes pay the heaviest taxes.

My esteemed friend, the Hon'ble Sir S. P. Sinha, has said : 'Well, we do not debar you from voting ; we act upon the advice of our legal advisers.' Very well, My Lord, you can act on the advice of your legal advisers, but where is the guarantee that legal advice tendered by the Government may be ignored and that the municipalities are not bound to obey the interpretation given by Government and with whose advice they need not agree? It may be that at their instance, the circular No. 2445M. was issued, but it does not show that any legal advice was taken in connection with it."

The Hon'ble SIR S. P. SINHA said :—

"Legal advice was taken on both these cases."

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR said :—

"Well, My Lord, I did not know that, but it may be so ; but I submit that the advice of the Advocate-General ought not to have been of this elastic or dubious character. It is openly and broadly said that joint families are not entitled to vote and joint business firms unless registered have not the capacity to vote. The Government may fairly interpret this circular and say that they did not mean absolutely to debar these bodies from voting, but they free to elect one of their members to exercise the franchise. If Government were to say that, it will clear up the matter.

Then my hon'ble friend, Sir S. P. Sinha, says that we may go to the Civil Court. If that is so, My Lord, it is a very large order. For every blessed case the party will have to go to the Civil Court and run considerable expense. It is not a very easy matter and besides how many people would agree

Resolutions.

Babu Ambika Charan Mazumdar.

to fight it out. How many people will agree to fight with the Government? If that day ever comes, when people will risk everything for their political privileges then these laws, these circulars and these interpretations will be scattered to the winds. But we are still bound under the constitution of the day to obey Government circulars. Government's opinion carries considerable weight, and it is not possible for every one to go to the civil court to contest the validity of a circular in every possible case.

Then, My Lord, with regard to the Circular letter No. 11M.—*in statu pupilaris*—both myself and my hon'ble friend Babu Mahendra Nath Ray have pointed out that under that interpretation given sub-section 3 of section 15 becomes a nullity. There is not a single case where it may be pointed out that it may be possible for any graduate, under-graduate or licentiate to vote, if that interpretation holds good. That was a special qualification in the case of mufassal municipalities which my hon'ble friend Rai Radha Charan Pal Bahadur cannot possibly understand, because in Calcutta, which is the centre of light and leading, of education and of enlightenment, the people were not under the necessity of having such a privilege. Mufassal is not what Calcutta is, and therefore in mufassal a special privilege was given by sub-section 3 that educational qualifications, irrespective of any property qualification, would entitle a person to vote, and therefore, the word 'occupation' should not have been so strictly construed as it has been done by this circular, for if that were the intention of Government to insist on exclusive occupation as of right it would not have at all embodied such a sub-section which can have no practical application. Then, My Lord, Your Excellency will observe that in every section it is said 'owner or occupier; and the legislature of 1884 distinctly meant to bring in a distinction between rightful possession and possession of some different kind. I do not mean merely possession by sufferance. I may not draw out the distinction but I do feel that there is some distinction between the occupation of a son and that of a stranger in the house.

Then, My Lord, I have only one word to say with reference to the expression which fell from my friend, the Hon'ble Maulvi Abul Kasem. He is a graduate of the Calcutta University and a highly cultured gentleman. He should have never taken exception to my expression 'if Mahomet does not come to the mountain, the mountain must come to Mahomet'. That expression has got currency in the English language and is understood to mean that if a person who ought to yield does not yield, then the higher body will yield. I never meant any offence to my hon'ble friend and it was never my intention to hurt his feelings. I hope my hon'ble friend will excuse me if I have offended him. The expression is a common one and it is always understood by people in the sense I have used it.

In conclusion, I would only say one word. There is no knowing when the Municipal Act may come in for amendment. I have already said that the general election of a large number of municipal bodies will come on within this year, and this circular will seriously operate upon these elections. I have already said that the Government, if it does not mean to be altogether reactionary, might explain these circulars. I do not want Government to cancel them, if it is offensive to the dignity and position of the Advocate-General, but it might say that it does mean that in the case of joint families, they may elect some person—some one among them for the voters' list—and in the case of students *in statu pupilaris* I submit that that circular, at all events, ought to make it plain that it does not mean that this 'occupation' must mean an 'occupation as of right' or that the possession should be exclusive possession. If the circulars are not binding Government had no business to circulate them amongst these municipalities when Government circulate these opinions they thereby indirectly bind these bodies to follow these circulars. If its object is not to abrogate the right that has been given to educated men in the mufassal, it ought not simply to issue these circulars and sit quiet and say that you can do whatever you

Resolutions.

like and go to the Civil Court or even to the High Court. In moving this resolution, I have approached the question in the spirit that the circulars may be so explained or modified as to give a due and proper interpretation to section 15. Of course if the Government will not do this. I hope hon'ble members, who have heard me, will consider whether from the spirit in which I have approached it, it ought not to have been readily accepted by Government."

LIST OF BUSINESS—ITEM No. 11.

The Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR moved the following resolution :—

This Council recommends to the Governor in Council that a committee of officials and non-officials be appointed to investigate the heavy economic loss sustained this year by the jute cultivators in Bengal, and to devise ways and means to prevent distress among them.

HE said :—

"My Lord, in moving this resolution I think it necessary to go into some detail about the jute industry of Bengal. It is an industry of which Bengal has a monopoly. In the early eighties experiments were made in jute culture in Egypt, and in the *Dundee Trade Report* of March 23rd, 1881, the following statement appeared :—'Some samples of jute grown in Egypt are being sown here. Reports on quality are varied ; but considering it is a first attempt, on the whole satisfactory.' But the project does not appear to have gone much further, no doubt on account of the cost of labour making the cost of production impossible. In Bengal they had suggested cotton bagging for coffee in place of jute ; but so far nothing practical has eventuated. In India itself jute has not been a success, excepting in the districts of Bengal. The history of the rapid development of the industry reads like a romance—jute cultivation to-day rivalling rice-cultivation in the Province. During the opening years of the nineteenth century the agricultural product jute was limited to supplying the wants of small handloom industry. The export of the raw material was unknown. The value of said jute exported in 1829 was approximately £500 ; in 1913 it was close on £20.000,000. In 1855, a beginning in spinning and weaving was made in Calcutta and the first mill was erected at Rishra on a piece of land at present occupied by the Wellington Mills. It produced an outturn of some eight to ten tons a day. At the present time there are some forty-six mills on the River Hooghly with a total of close on 40,000 looms, employing very nearly a quarter of a million Indian labourers, having a capital of over £13,000,000 (including debentures and reserves), and using three-quarters of a million tons of coal per annum. The outturn of the manufactured articles which was about 8 tons per day in 1885 is, in normal years, 3,000 tons per day, or nearly four times as much as Dundee produces. The following list of jute-spinning and weaving mills taken from Mr. McLeod's paper read before the Indian Section of the Royal Society of Arts is approximately correct and will show the importance of this great industry :—

Resolutions.

Rai Mahendra Chandra Mitra Bahadur.

In 1874, Sir George Campbell, the then Lieutenant-Governor of Bengal, advocated the prohibition of the export of rice from Bengal during famine. When confronted with the argument that such prohibition might drive foreign purchasers to Burma for good he replied that he doubted very much if such effect would really be bad. 'Our Bengal Province', he said 'are so densely populated, and they produce so many valuable articles sought for in commerce, that the difficulty is not to use our land, but to find land for all that it is desired to grow without interfering with the food of the population. The demand for jute seems to go on increasing without limit'. The exports of raw jute, given in thousands of rupees, was in 1910-11 no less than 15,48,99. The next year saw a rise to 22,55,66. In 1912-13, we find 27,05,07. And the next year saw a swelling up to 30,82,64. As far gunny bags—1910-11 it was 8,56,40, and in 1914-15 12,59,44. An agricultural product which gives the people of the Province such an income deserves special care and attention. Not only does the industry bring the peasant 20 to 30 millions sterling annually, but it supports in addition something like a quarter of a million factory operatives and their dependants. It has created busy lives of human labour like Naraingunge where huge godowns line river banks either side, tin-roofed, red-bricked, ugly with all modernity—tall chimneys towering behind them and huge cranes swinging on the landing stages—the river alive with craft and boats of every size anchored against the banks. That the Government has not been slow to recognise the importance of this industry will be evident from the endeavours of the Agricultural Department which are worthy of praise. The Department has been busy producing and distributing good jute seed. And it has rendered practical service by the investigation of what is known as "heart damage" in baled jute, a mysterious process of deterioration which causes an entire loss of *tensile* strength. Though the cry is that jute is displacing rice to a dangerous extent the people have not desisted from increasing the area under jute. Because when there is a struggle among the more valuable staples, the rice export is only valuable in so far as it gives us a surplus to fall back upon in times of scarcity; and because with the extension of railways it is neither easy nor advisable to check the increase of the area under jute and oilseeds and its encroachment upon rice land.

The war had dealt this industry a heavy blow—Germany and Austria-Hungary were two of our most important customers. The export of raw jute to these countries (in thousands of rupees) were as follows :—

	1910-11.	1911-12.	1912-13.
Germany	3,61,24	5,08,59	5,73,06
Austria	90,60	1,32,55	1,65,04

In 1913-14, the figure for Germany was 6,74,84 and that for Austria-Hungary 1,97,91. Then the war broke out and there was a drop.

In 1914-15 Germany could take only 1,32,14 and Austria-Hungary not more than 50,86. But that was not all. The war dislocated trade and the difficulty about freight told heavily upon the export trade of India. That year the United Kingdom took only 6,74,30 worth of jute in place of 11,73,95 of the previous year and France not more than 85,66 in place of 3,06,76. The total export of raw jute fell from 30,82,64 to 12,91,02. Since then the export to the enemy countries has been stopped and increased difficulty of transport has diminished export to others. But the area under jute has not decreased proportionately. The total average in 1915-16 was 2,086,300 the normal area in Bengal being not more than 2,643,800. In 1916-17 instead of a decrease, there seems to have been a tendency towards increase. In Nadia the area was 67,200 against the normal 49,400. In Khulna it was 22,100 against a normal of 18,300. In

Resolutions.

Rai Mahendra Chandra Mitra Bahadur.

Midnapore it was 12,100 against 10,400. Thus a large surplus is growing up which is a drag of the market and which is forcing down the price of jute. Here I would like to mention that with the growing demand of jute the cost of production has increased considerably. And I remember how at the Annual General Meeting of the Indian Jute Mills' Association (January 1915) the Chairman alluded to the danger due to a rise in the price. He discussed the proposal of levying an export tax on jute to supplant German and Austrian trade and said—'Whatever else the Germans may be they have already shown signs of chafing under the excessively high prices that have in recent years ruled for a commodity whose principal claim to popularity is its cheapness'. Not only has inferior land been brought under cultivation, but the rate of rent has gone up. Mr. Chaudhuri had about five years back estimated the cost of production at Rs. 3-8 a maund; but now it is probably over Rs. 4. Sir William Duke has pointed out how, with the extension of cultivation, hired labour was more and more being resorted to the price of such labour in Bengal now being pretty high. The rates in the neighbourhood of Dacca and Serajgunj had recently been as high as a rupee a day. Thus the price that the cultivator can now get for his jute barely comes the cost of production. But he cannot find customers for his entire production. This is a serious state of affairs. The tocsin of alarm was sounded long ago by organs of public opinion like the *Basumati* and *Sanjibani*. And recently *Capital* has given 'a timely warning' to Your Excellency's Government. I will quote an extract from *Capital*—'The jute crop for the present season will be far in excess of any possible demand, and it is of vital importance that the mills should consume every maund of jute possible. The annual jute mill consumption, when running full time, is from 55 to 60 lakhs of bales of 400 lbs. net each, etc. etc., etc. The mills began the new season (1st July) with an average stock equal to six months' short-time consumption. This represents about the maximum quantity for which they have godown accommodation in Calcutta and the mufassal. The forecast recently to hand estimates crop at 90 lakhs of bales, although private advices make it still larger, and if the mills by 1st July 1918 are in the same position as this year, *i.e.*, with six months' stock, there will still be 45 lakhs of bales to be disposed of, less, quantity exported. It behoves the Bengal Government to take timely warning and to do everything in their power to prevent distress in Bengal among the cultivators. We need scarcely point out how much more serious the political unrest will become otherwise.'

My Lord, since I submitted the resolution my worst apprehensions have turned out true. Every morning we get disquieting news of looting in the mufassal bazars. I have heard a proclamation issued by Mr. F. A. Sachse, District Magistrate, Noakhali, in which to preclude the possibility of looting in the bazars, he has penalised the holding of *hâts* after 3 P.M. He has openly admitted that as long as the war continues prices will remain high and there is the chance of looting recurring in the bazars. And as it is impossible to station armed police in all bazars he orders, under section 144 of the Criminal Procedure Code, the closing of all bazars at 3 P.M. This, My Lord, is a serious state of affairs. And I am sure it is receiving that consideration from Your Excellency's Government which it demands. But I must say that though our police may be powerful enough to restore tranquillity in disturbed areas they will not be able to eradicate the possibility of a recurrence of disturbance as long as they have to deal with that dangerous element—a poor peasantry subject to hunger and exasperation. Not only should these poor peasants be relieved of their present distress; but steps should also be taken to induce them not to give up the cultivation of jute in despair. True who had reckoned on an earlier peace? But the war cannot be indefinitely prolonged. And when normal conditions return there will

be the same increasing demand for jute and then the cultivators of Bengal will reap a golden harvest which will obliterate every scar.

My Lord, I will not pause to discuss *remedial* measures Agricultural loans have, in times of distress, acted like April showers on the thirsty earth. The Co-operative Credit Societies are now trying to reduce and ultimately to remove agricultural indebtedness. Their sphere of usefulness may be extended. I am aware of the tender solicitude the Government has always evinced for the peasants. I recall, with pleasure. Lord Curzon's words about 'the real people of India:'—'It is the Indian poor, the Indian peasant, the patient, humble silent millions, the 80 per cent. who live by agriculture, who know very little of policies, but who profit or suffer by their results, and whom men's eyes, even the eyes of their own countrymen, too often forget, to them I refer. He has been in the background of every policy for which I have been responsible, of every surplus of which I have assisted in the disposition. We see him not in the splendour or the opulence, nor even in the Squalor of great cities;- he reads no newspapers and for, as a rule, he cannot read at all; he has no policies. But he is the bone and sinew of the country, by the sweat of his brow the soil is tilled, from his labour comes one-fourth of the national income, he should be 'the first and the final object of every Viceroy's regard.' I know the interest Your Excellency takes in these peasants 'the real people' of Bengal whom you have visited in their humble huts observing them in their hours of careless relaxation and enquiring after their needs. And I hope my proposal to device means to prevent distress among them will find favour with Your Excellency as also with my colleagues who are directly interested in them and whose greatest ambition it is to serve them with a view to ameliorate their condition.

The Hon'ble MR. MACKENZIE said :—

"My Lord, my hon'ble friend, the mover of this resolution, has treated us to a history of the jute trade, I have listened to it with interest but most of it is quite irrelevant to the question before the Council. I notice he is very partial to Committees of Enquiry having proposals for no less than three such committees on the list of business for to-day. He has evidently much greater faith in the efficacy of such committees than I have. The impression I have formed is that most of them are a mere waste of time and I do not think the one he now suggests would prove to be any exception. It seems quite unnecessary to appoint a committee to inquire into causes which are obvious and, as the mover has himself shown, the reasons for the present dullness in the jute market are not far to seek. The whole of the Central European market is closed, freight for such markets as are still open is distinctly limited, while the local mills with the best intentions in the world are unable to deal with the balance of the crop for the very good reason that practically every square inch of the available warehouse accommodation is occupied.

The mover has drawn a harrowing picture of starving cultivators but it is quite incorrect, according to my information, to say that the heavy economic loss referred to in the resolution has been by any means general. In the Eastern districts, at all events, quite a considerable portion of the crop was disposed of early in the season at satisfactory prices and although later there may have been a decline it has been counterbalanced by a large yield per acre. In certain other districts however such as Northern Bengal, Rungpur, Rajshahi and the Daisee districts a combination of a poor crop and low prices has resulted in a certain amount of hardship.

The whole situation however has been greatly ameliorated by a bumper crop of rice and I do not think there is any reason to apprehend any widespread distress although you will hear all about it the moment the cultivator gets to know that a committee has been appointed to inquire into the matter.

Resolutions.

Babu Kishori Mohan Chaudhuri; Babu Brojendra Kishore Ray Chaudhuri; Mr. Provash Chunder Mitter.

I think it will be quite sufficient for the present if District Officers are instructed to carefully watch the position.

In this connection it might not be out of place to mention that Government are offering throughout the whole of the districts profitable employment in various Labour and Porter Corps for Mesopotamia and elsewhere and the fact that very few recruits are coming forward would hardly seem to indicate that the cultivators are in the condition described by the mover. At all events if they do not choose to avail of the opportunity of employment offered them it is difficult to see what more Government can do."

The Hon'ble BABU KISHORI MOHAN CHAUDHURI said :—

"My Lord, I think a Government inquiry is needed. There is no doubt that the jute market is dull. It is not possible to have a large export at present. The question is how the materials can be utilized. The jute growers did grow jute in the hope of getting better prices just after the conclusion of the war. The price of gunny-bags, which are used for carrying paddy and rice, has gone very high. What is the reason for this? Is it on account of the labour question or is there any difficulty for the manufacture of these gunny-bags in the jute mills? Jute itself is very cheap, but the price of gunny-bags is very high. There is a great demand for these bags no doubt. So, I think that an inquiry by the Government as suggested by the Hon'ble Mover may do some good, and in that view I support the resolution."

The Hon'ble BABU BROJENDRA KISHORE RAY CHAUDHURI said :—

"My Lord, as representative of the landholders of the Dacca Division, which is well known to be the chief jute growing part of the Province, I feel it my duty to support this resolution. As an eye witness I can well say that the distress of the jute growers has been such that the well wishers of the cultivators must immediately step forward and do all that is possible under the existing circumstances. I know how the Government are anxious to help the poor raiyats and I feel sure that in this instance their case will receive the unstinted support of this Council. With these few words, I beg to support this resolution."

The Hon'ble MR. PROVASH CHUNDER MITTER said :—

"My Lord, I desire to say a few words on this resolution, and I may say at the outset that my reasons are perhaps not the same as those of my hon'ble friend, Rai Mahendra Chandra Mitra Bahadur. The economic condition of the raiyats in Bengal are well known. They get their money by the sale of jute and by the sale of paddy. By this money they have to buy their *dhooties* and their salt which are imported into Bengal. On account of the war and to nobody's fault and on account of the difficulty of tonnage, the price of both these articles has gone up very high. It is but natural that the cash value of jute and of paddy has gone down. The principal market available here is the local jute mills; they manufacture only a certain quantity of jute, and therefore it is no use saying that they ought to buy more. These being the conditions of the market it follows that the price has gone down. On the other hand, the effect on the low price of jute and paddy means that the raiyats have less available cash to buy their necessaries and the result is an economic difficulty in various parts of this Province. We already hear of the looting of *hâts* and bazars in some of the outlying districts of Noakhali, Bakerganj and Rangpur, and I for one feel that unless Government look into the matter very carefully, perhaps further difficulties may have to be faced in future. I do not think that the best way to deal with the question will be by the appointment of a committee, as has been suggested by my

hon'ble friend; but I should like to impress upon Your Excellency's Government—and I have no doubt Your Excellency's government are already impressed with that fact—that the question requires consideration, and the only way that the question can be properly considered is by way of friendly co-operation between the only market available, viz., the local jute mills and the jute-growers. The other question is how to make it possible for the raiyats to buy their necessaries for the lowest possible amount. The economic questions are so intermixed with one another that an inquiry seems desirable, but for the present that inquiry should be instituted by Government, taking such evidence formally and informally as the Government think fit."

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR said :—

"My Lord, the question raised seems to be one of extreme difficulty; it is a question of supply and demand. Bengal is able to put forth much more than either India or England can consume. It had a market outside the Empire and that market has been closed. I do not see how the Government can tackle a question like this directly. Of course, I fully support my friend's resolution that a committee of enquiry be appointed to investigate into the causes of the low prices of jute and the difficulties with which the cultivators are confronted; but, My Lord, it seems to me that the difficulties of the raiyats are not simply owing to the fall in the price of jute, but also to a corresponding rise in other articles of food and use. I know it is the complaint of the jute-grower that he cannot purchase a pair of cloth for one maund of jute that he brings to the market, and the price of salt—the most ordinary article of consumption—has also gone up; so that it seems to me that it is high time for Government in connection with this resolution to intervene for regulating the prices of various articles of food as well of use. Although no means can be devised for the consumption of more jute, still an enquiry might be made to show, through the Agricultural Department of Government, to the raiyats that it is not wise to grow as much jute as they had been growing before. More economical persons might also resort to the practice of burning excess articles and thereby keeping up the market. Whatever that may be, it seems to me that an enquiry ought to be held, if not actually to help the raising of the price of jute, at least for the purpose of regulating the quantity that might be produced in Bengal. To suit the exigencies of the situation, some steps might be taken to regulate the prices of other articles and thereby relieve to a large extent the difficulties of the jute-growers who are unable to tide over their difficulties with jute.

The Hon'ble MR. CUMMING said :—

Sir, the purport of the resolution is that a committee of officials and non-officials be appointed to investigate the heavy economic loss sustained this year by the jute cultivators in Bengal, and to devise ways and means to prevent distress among them.

The great importance of the jute industry needs no comment, and the Hon'ble Mover and other Hon'ble Members have pointed out how far it is bound up with the agriculture of Northern and Eastern Bengal. The reason for the present condition can be explained in one word, namely, the effect of the war; and I do not think that a committee is required to find out that very prominent truth. Now the elucidation of economic problems is a very interesting and important matter and in connection with the jute cultivation and the jute industry within the last three years there have been most elaborate and detailed enquiries made by this Government;

Resolutions.

Mr. Cumming.

in 1913-14 there was one; in 1914-15 there was one; last year, 1916, there was one; and there has been a continuous enquiry since the beginning of the present year up to the present moment. I do not think therefore that Members of Council or the Hon'ble Mover need be under any apprehension that the Government are not keeping a close attention to the situation. But the main issue in this resolution is whether there is such distress as to require State relief. It is known that State relief was given in 1914, when similar circumstances arose. I shall endeavour shortly to explain the circumstances in the present year in comparison with those in 1914. But I will say at once as regards this main issue—the question whether such distress exists as to require State relief, that it is clear that the existing machinery of Government should suffice to bring that to the notice of Government. I agree with one of the Hon'ble Members, who does not think that a committee of this kind would achieve any good, because the main point is already known to Government and all the economic data are already in the possession of Government. So far no officers have represented to Government that the condition is such as to require the special measures that were adopted in 1914. It is quite obvious that there has been a loss this year compared with what the cultivators might have got if they had a good market; but I have had personal experience in the matter of jute cultivation for over a quarter of a century and I can say that Eastern Bengal raiyats are fairly alive to the fluctuations of the jute market; they take the mishaps of a year with a good deal of philosophy and they are only too ready to redistribute their arrangements in subsequent years. I said that the present situation may be compared with that in 1914 when, it is true, Government did take measures. I shall put the comparison under a few heads and I shall be very brief under each.

First of all, in comparison with 1914, the increase in the area since last year is very much less than the increase in the area was in 1914 after 1913; that is a material point. In the next place, the average price per maund this year is 25 per cent. higher than it was in 1914. Then, this year the raiyats have had a fair warning. The fall came in 1914 with dramatic abruptness. This year the fall has been gradual and continuous since the month of January last. Further more, the raiyats have learnt wisdom. During the very prosperous years before 1913 the raiyats were becoming rather indolent and getting their work done by means of hired labour. In the present year they have put their shoulders to the wheel more, and have realised that they must do more work themselves and depend less upon hired labour. Another important matter is as regards the amount of crop that has been disposed of and brought into Calcutta. In the present year the proportion of the gross crop brought into Calcutta by the middle of the current month of December was about 26 per cent., whereas in 1914, the proportion of the crop of that year that had been brought into Calcutta was only 18 per cent.

I think, Sir, that if all these points are considered together it will be realised that economically the raiyats in Bengal who cultivate jute are better off this year than they were in 1914. But it does not follow that the matter does not require very careful consideration. Government have kept their eyes wide open for danger signals, and although they are not prepared to say that, on account of the factors that have been mentioned in the course of the debate, viz., the increase in the price of wearing materials and salt—which is of course due ultimately to the same difficulty of overseas tonnage, the position is dangerous, yet so far, in the areas in which jute is most grown, no clear indication has been given to Government that the raiyats require relief at the expense of the State. In fact, I may be pardoned for wondering why the Hon'ble Rai Mahendra Chandra Mitra Bahadur, representing the Burdwan Division in Western Bengal, should feel called upon to bring this resolution before the Council. His Division, I find, gives this year an outturn of about 70,000 maunds out of a total 2½ millions of

Resolutions.

Rai Mahendra Chandra Mitra Bahadur.

maunds in the whole of Bengal. I do not, of course, lay any stress upon that. I again say that Government is keeping the situation well before them; they have been continually examining and re-examining the matter since the month of July last; and while there is always a possibility of adopting the measures of relief which were given in 1914, there is a possibility also of adopting the measures of relief such as those suggested by the Hon'ble Babu Ambika Charan Mazumdar These are points however of which the Government are well aware; but I doubt very much whether a committee can give us much assistance. On these grounds that Government have the economic data in their possession and are giving very close attention to the situation, I trust the Hon'ble Member will see his way to withdraw the resolution.

The Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR said :—

"My Lord, in putting this resolution before the Council, it was my object to appoint a committee to investigate into the causes of the economic loss sustained by the jute cultivators in Bengal. I put before the Council all the information I have obtained on the subject, and when I am assured that inquiries have already been made on the subject and Government are quite alert as regards the subject matter in discussion, I beg to withdraw the resolution I have brought forward."

The resolution was then, by leave of the President, withdrawn.

LIST OF BUSINESS—ITEM No. 12.

The Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR moved the following resolution :—

This Council recommends to the Governor in Council that a committee be appointed consisting, amongst others, of the Commissioner of the Burdwan Division, the Collector of Hooghly, the District Magistrate of Howrah, the Subdivisional Officer of Uluberia and the Executive Engineer, Northern Embankment and Drainage Division, to examine the water courses in the villages of Gazipur and Sonamukhi in thana Amta, Kandarpapur or Hature, Jot Bireshwar, Latibpur and Khanpur in thana Bagnan, in the district of Howrah, where many thousands of acres of paddy fields are still under deep water, causing heavy damage to the winter rice crop, and also to devise means for draining out the water from these fields as early as possible, and to take such steps as may be necessary for the prevention of similar devastation in the future.

He said :—

"My Lord, I need not detain the Council long on this matter, as the resolution speaks for itself. On a previous occasion I asked a question about the sluice in the Damodar left embankment in mauza Gazipur. In reply I was told that there was only one vent. and its size was given as 2 feet by 4 feet 3 inches. It was used previously for purposes of irrigation when the lands were drained through other channels which have now silted up. The total cultivated area in the village of Sonamukhi was given as approximately 1,000 bighas and that in Gazipur as 1,500 bighas. It was admitted that the village of Sonamukhi is occasionally drained through this sluice. I need hardly tell Your Excellency that the existing arrangement of draining out rain water from paddy fields as referred to in the resolution is very unsatisfactory and calculated to cause heavy damage to the crop.

From the reply given by Mr. C. Addams-Williams, the Executive Engineer, Northern Drainage and Embankment Division, in his letter No. 1509, dated the 4th March 1908, to the Secretary, Hooghly and Howrah

Resolutions.

Rai Mahendra Chandra Mitra Bahadur.

District Association, I noticed that in July 1899, in September 1900, in September 1901 and in July 1905, several mauzas in the Amta Basin were all submerged in water and there were no crops. The average annual yield of crops in 1906 was about three-fourth but in 1907 it was only one-eighth.

Again, in reply to my question asked at the Council meeting of September last, regarding the annual outturn of winter rice during the last few years, I was told that during two years, the peasants got a quarter crop, during two more years an one-eighth crop and during three years they had none.

Your Excellency who takes a keen interest in the poor cultivators will now understand that the extent of injury sustained by the raiyats is 'beyond human belief.'

The other day, Sir James Meston, while reviewing the work of the Agricultural Department of the United Provinces during the past year, did not conceal his conviction that 'in its days of prosperity the Government devoted far too small a share of its surplus revenues to the development of India's first and greatest industry,' and His Honour trusts that this error will not be repeated. The above remarks apply to Bengal as well.

To solve the economic problem that lies at the root of all reforms, we should go out into the real Bengal and must discuss the question from remote unofficial places with the children of the soil who suffer most from the floods. We should adopt the method of seeing and understanding the crying wants of the teeming millions whose interests are the crux of all problems. They live in lands full of promise and loyalty, but fuller still of the oppression of the *mahajans* and natural but preventible calamities.

The supply of water from different sources is so ample that "the crops are immune from failure due to drought," but on the other hand they very often suffer from floods causing ravages and devastations.

In 1873, Colonel Haig, Chief Engineer of Bengal, was deputed to make an engineering survey and he strongly recommended, among other things, the Amta scheme.

My friend, the Hon'ble Mr. O'Malley, has rightly observed in his valuable treatise, the Gazetteer of Howrah, from which I cannot help quoting the following paragraph :—

> 'The completion of the entire project for the drainage of the district by carriyng out the Amta scheme proposed over 30 years ago appears desirable on many grounds. It would not only add hundreds of acres to the cultivated area and improve thousands of acres of low lands—an important consideration in a district which does not raise enough food for its consumption. It would also drain a water-logged locality in which malarial fever threatens to be endemic, owing to the stagnant water being the breeding ground of the malaria-bearing anopheles mosquito. In its present state, moreover, the waters flooding the Amta basin not only damage the Amta crops three or four years out of every five, but also threaten to swamp the western part of the Rajapur basin.'

In Bengal Government Resolution No. 875, dated the 3rd July 1906, it was observed that the Board of Revenue were 'disposed to agree with the Government that a standing committee for each district, including the Commissioner of the Division, the Superintending Engineer, the Collector of the district and the Executive Engineer might, with advantage, be constituted. Such a committee would bring the civil officers and professional officers into closer relation, and proposals started by the former or the latter would be discussed without the delay inevitable to correspondence.'

This was written with respect to Orissa, but 'the general principle that the Engineers and the Revenue Officers should work in conjunction applies everywhere.'

Resolutions.

Mr. Cumming.

'It is also very desirable that the Engineer and Revenue Officers should discuss locally suggestions for minor irrigation schemes or for improvements in drainage, and that landholders interested should join in the discussion.'

It was resolved by Government and was therefore directed that 'standing committees shall be formed for all districts. The committees to be constituted as under :—

President	... ...	The Commissioner of the Division.
Vice-President and Secretary		The Collector of the district.
Members	... ...	The Superintending Engineer in whose Circle the district lies. The Executive Engineer in whose Division the district lies. The District Engineer. Such landholders or other gentlemen directly interested in any schemes as may be appointed by Government on the recommendation of the Collector and with the approval of the Commissioner.

The committees will consider questions relating to—

I.—Flood embankments—

(*a*) New works, including as such sluices or escapes for existing embankments.

(*b*) Alterations in the alignment of existing embankments, such as are caused by important retirements. This will include the discussion of the policy of holding a threatened bank by protective works in preference to the retirement of the embankment.

(*c*) Proposals for raising the level of the crest of an embankment.

(*d*) All questions in which there is any doubt as to the interpretation to be given to the provisions of the Embankment Act or of contracts for the maintenance of embankments.

II.—Any proposal which may be suggested for a minor irrigation work.

III.—Any scheme which may be proposed for improvement in drainage.

IV —Any matter referred by Government for opinion.'

I, therefore, earnestly request Your Excellency that a committee be appointed to examine the condition of the locality and suggest means for the proper drainage of rain water from these fields as early as possible to prevent further distress among the cultivators."

The Hon'ble MR. CUMMING said :—

"Sir, the Hon'ble Member has brought forward a resolution that a committee should be formed of certain members to examine a certain area in the south of the Howrah district in order to devise means for draining out water from that area. My answer to the hon'ble gentleman is that not only have means been devised for this particular area in question, but that the whole of the Amta basin has been the subject of examination, that a scheme, the estimate of the cost of which is nearly 10 lakhs of rupees, has been prepared, and that at the present moment it is simply a question of funds which blocks the way. I do not wish to burden the Council

Resolutions.

Rai Mahendra Chandra Mitra Bahadur.

with too many details, but the exact position may be realised if I could mention one or two facts regarding this Amta basin drainage scheme. It was suggested in the press only about a month ago that no serious attempt had ever been made to tackle this problem. This is a most inaccurate and unfair statement. As long as forty years ago, Government prepared three drainage schemes for the Howrah district, viz., the Howrah scheme, the Rajapur scheme and the Amta scheme, and it was then contemplated that all would be carried out one after the other. The Howrah scheme was completed as long ago as 1884, the Rajapur scheme in 1890, but the Amta scheme has still not yet materialised ; and the people of the Rajapur area have complained very bitterly—and also with a great measure of truth—that they are suffering because the Howrah scheme has not been completed. Now an improvement of this nature, not only in these six villages to which the Hon'ble Mover refers, but also in the whole of the basin, can be carried out under certain Acts. Under the Embankment Act the decision as to the improvement lies with Government, but the Act is unpalatable to the zamindars because there is no procedure for recovery from the tenants. Then, there is the Drainage Act, under which it is possible to recover, through the certificate procedure, from tenants. It is a very democratic Act under which Drainage Commissions are appointed ; and theoretically there should be no difficulty if the people concerned are genuinely anxious to have the improvement effected ; but the law lays down that at least the holders of half the land to be reclaimed should assent, in writing, to the adoption of the scheme. Now, no fewer than four times have the landlords rejected the scheme under the Drainage Act. In the past estimates were made which failed because they were too big ; one estimate was as high as 12 lakhs of rupees. The estimate of a gentleman, whom we all recognise in Bengal to be a master in hydraulics, Mr. Addams-Williams, is, as I have stated, nearly 10 lakhs (Rs. 9,80,000). In January 1915, the leading landlord, at a meeting, plumped for the Drainage Act, but he was not supported by holders of half the land in the area in question ; and far from making no serious attempt, Government, in absolute despair, said that they would take up the scheme under the Embankment Act. The proper procedure was carried through and in the middle of last year the case come up for orders ; but the performance of the scheme has been held over owing to financial reasons. The Hon'ble Mover realises—and I hope all Hon'ble Members realise—that in any problem of this nature, there is, first, investigation of the facts ; the next procedure is the enunciation of the problem ; the third procedure is to find a solution for the problem ; and the last stage of all is to apply the solution. Well, Sir, the first three of these procedures have already been carried out and number four only remains. That being so, I appeal to the Hon'ble Mover and ask him for what purpose would this committee sit. I therefore desire to oppose the resolution, as it stands, on the grounds, first, that it affects only a very small area and that in the next place, all information required has been carefully compiled by the Irrigation Department—that means that the solution of the problem has already been found ; and that the only obstacle being money, this committee, however enthusiastic, would not effect any remedy as far as that difficulty was concerned. For these reasons, I desire to oppose the resolution ; and to add that the scheme has already been approved by Government and is only awaiting funds."

The Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR said:—

My Lord, I have listened with great attention to the speech of the Hon'ble Member in charge and as I feel for the raiyats who have appealed to me for putting the resolution for the consideration of Your Excellency's Council, I came forward with a resolution like this. Year after year these raiyats are suffering much and when the question is that all matters in

connection with the scheme have been inquired into, but that the work has not been taken up on financial grounds—what answer have I to give to it. I feel for the raiyats and I have come to Your Excellency for redress and when I find that the work cannot be taken up on financial grounds, I have nothing to say. Therefore, I think it advisable to withdraw the resolution."

The resolution was then, by leave of the President, withdrawn.

LIST OF BUSINESS—ITEM No. 13.

The Hon'ble Rai Mahendra Chandra Mitra Bahadur asked for leave to withdraw the following resolution which stood in his name :—

This Council recommends to the Governor in Council that a committee of officials and non-officials be appointed in each district to examine the condition of village roads in the districts of Howrah, Bankura, Birbhum and Midnapore, and to submit such recommendations to the Commissioner of the Burdwan Division as they may consider necessary for the improvement of those roads.

The resolution was, by leave of the President, withdrawn.

ADJOURNMENT OF COUNCIL.

The Council was then adjourned to Tuesday, the 22nd January, 1918, at 11 A.M., at Government House, Calcutta.

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF MUNICIPALITIES IN THE BENGAL PRESIDENCY (EXCEPT CALCUTTA) DURING THE YEAR 1916-17.

GOVERNMENT OF BENGAL.

MUNICIPAL DEPARTMENT.

Municipal.

CALCUTTA, THE 29TH DECEMBER 1917.

RESOLUTION No. 2431M.

READ—

The Reports from the Commissioners of Divisions on the working of municipalities in the Bengal Presidency (except Calcutta) during the year 1916-17.

1. **Number of municipalities and rate-payers.**—The number of municipalities increased from 112 to 113 in consequence of the partition of South Barrackpore into the two separate municipalities of Barrackpore

and South Barrackpore. The number of rate-payers increased from 317,722 to 321,099, or 16·3 per cent. of the total population within municipal limits.

2. **Elections—(a) Of Commissioners.**—Thirteen general elections were held during the year, of which five were followed by litigation in the courts or successful objections before the Magistrate. Three were held in towns of which the Commissioners had hitherto been appointed by Government, viz., Jhalakati, Pirojpur and Darjeeling; in the town last named there was no poll in six out of ten wards. Seven took place in the Presidency Division, where the number of voters who appeared at the polling stations was under one-third of the rate-payers. The Commissioners of one municipality in which it had been decided last year that the elective system should be introduced strongly objected to the system as unsuited to local conditions.

(b) Of Chairmen.—Eleven municipalities were removed from Schedule II of the Bengal Municipal Act, *i.e.*, they were given the right to elect their own Chairmen. Two in Bakarganj and one in Bankura preferred not to exercise this right and moved Government to appoint an official Chairman. The election of one Chairman was set aside by Government owing to irregularities of procedure.

3. **Assessment and taxation.**—A water-rate was levied for the first time in Bankura and Chittagong and the introduction of a tax on holdings instead of a tax on persons was sanctioned in Naihati. The average incidence of taxation per head of population rose from Rs. 2-3-10 to Rs. 2-5-4. It remained highest in Darjeeling (Rs. 8-10), and in the plains varied from Rs. 6-12 in Cossipore-Chitpur to such low rates as 4 annas 8 pies in Baduria and 5 annas 10 pies in Ramjibanpur.

4. **Revision of assessment.**—A general revision of assessment, which in the reports is often not easily distinguishable from partial revision, appears to have taken place in 23 municipalities. In order to finance a water-works scheme the Commissioners of Mymensingh raised the rate of the personal tax from 12 annas to one rupee, thereby securing an additional income of Rs. 7,386 per annum. An initial increase of over Rs. 7,000 expected by the Pabna municipality in consequence of reassessment was dependent at the end of the year on the results of numerous appeals.

5. **Collections.**—The total collections, which have risen steadily in recent years, amounted to Rs. 45,04,800, the percentage on the current demand being 96·3. These results are satisfactory, showing as they do a general effort on the part of municipal bodies to make the most of their assessments. Twenty-five municipalities realized arrears sufficient to raise the collections above the current demand. Garulia and Nalchiti opened the year without arrears and realized every rupee of their demand, while twenty-two other municipalities realized over 99 per cent. of the current demand. On the other hand, the percentage was under 85 per cent. in Barisal and Tollyganj among municipalities having a demand of over Rs. 10,000 and in Halishahar, Bansberia, Baduria and Chakdah among the smaller municipalities.

Remissions fell from Rs. 1,80,578 to Rs. 1,61,525, or 3·4 per cent. of the current demand. Debhatta, which was noticed in the resolution of last year as having failed to collect its rates owing to internal dissension, signalized itself by remitting one-fifth of its current demand. The proportion of the remissions made by two other small municipalities, viz., Bansberia (22 per cent.) and Taki (27 per cent.) was still higher, but otherwise there was a general improvement, no other municipality remitting as much as 10 per cent., while only six remitted more than 7 per cent.

There was a further small increase in outstanding balances, which were unduly large in Burdwan, Hooghly-Chinsura, Serampur, Maniktala, Mymensingh, Barisal and Rampur-Boalia. In Cossipore-Chitpur, South Dum-Dum and Rangpur they were again swelled by unsatisfied claims against public bodies, the municipality first named being engaged in litigation with the Corporation of Calcutta about taxes which have been unpaid for four years. The Burdwan municipality is conspicuous, for the third year in succession, for its failure to reduce arrears, which at the close of the year amounted to Rs. 32,889. The Commissioner reports—"The laxity of administration in this municipality is deplorable. Hardly any warrants were issued after the first quarter, and the Municipal Commissioners are now recovering taxes by the cumbrous method of civil suits". Most of the municipalities having excessive arrears have either no explanation to offer or put forward an explanation couched in general and unconvincing terms. Almost all of them had an equally bad record in the previous year; and their failure is particularly noticeable in contrast with the general improvement which has occurred in a large number of other municipalities which were less heavily handicapped at the beginning of the year. There seems reason to fear that once a municipality has allowed its outstanding balances to creep up, the executive are only too ready to take it as a matter of course that they should end the year, as they began it, with the incubus of large outstanding claims instead of issuing and enforcing warrants systematically every quarter.

6. **Income and expenditure.**—The opening balances amounted to Rs. 16,59,012, and the income, exclusive of balances, aggregated Rs. 56,92,488 compared with Rs. 54,06,316 during the previous year. The total expenditure amounted to Rs. 57,25,203 and the closing balance was reduced to Rs. 15,83,492, including a sum of Rs. 1,90,809 held in deposit. Apart from deposits the actual balances were reduced by approximately Rs. 67,000 during the year.

7. **Revenue.**—The increase in revenue was due principally to an increase of approximately two lakhs in receipts from municipal taxation, to which all but one of the different rates and taxes contributed. The variations in the receipts of individual municipalities under the several heads of income are normal and of no general interest.

8. **Grants and contributions (Rs. 3,31,469).**—There was an increase of Rs. 41,287 under this head. Government grants amounted to Rs. 1,86,234, of which Rs. 42.186 consisted of contributions for educational purposes. The municipalities of Midnapore, Chittagong and Dacca received grants amounting in each case to more than Rs. 10,000, which were chiefly intended for educational and sanitary charges of a recurring nature. The only large capital grant made by Government was that of Rs. 36,800 given to the Garden Reach municipality to help it to meet the cost of a drainage scheme.

The total amount of private contributions was reduced by the exclusion of class IIIA dispensary accounts from the municipal returns for West Bengal. The following instances of private liberality deserve special mention. Messrs. Bird & Co. and Messrs. Andrew, Yule & Co. made a grant of Rs. 11,429 to the Garden Reach municipality towards the improvement of the drainage system. Babu Surja Kanta Roy Choudhury gave Rs. 10,000 to the Taki municipality for the construction of a municipal bazar; Raja Jogendra Narayan Ray Bahadur of Lalgola contributed Rs. 4.521 to the Berhampur municipality for the metalling of a road.

9. **Expenditure.**—The outstanding features in the municipal expenditure during the year are a decrease of nearly 2½ lakhs in the amount spent under the head "Public Health and Convenience", which was due to a

necessary reduction in expenditure on new water-works, and an increase of a little under 1½ lakhs in the cost of administration, which, as shown below, is more apparent than real.

10. **General administration and collection charges (Rs. 5,87,858).**—The total under this head includes expenditure of Rs. 49,347 on the survey of the Howrah municipality and Rs. 94,794 refunded to Government by the Narayanganj municipality, being the balance of a Government grant not required for immediate disbursement. If the last figure is left out of account, the actual increase is reduced to Rs. 36,143. The net percentage of the cost of administration on the total expenditure rose from 8·1 to 8·6, the proportion varying from 4·4 in Bhadreswar and 5·4 in Burdwan to the high figure of 22·4 in Gobardanga and 20·4 in North Dum-Dum.

11. **Fire prevention and control (Rs. 80,177).**—The towns of Howrah, Cossipore-Chitpur, Maniktala, Garden Reach and Darjeeling spent Rs. 78,762 on fire brigades. The aggregate expenditure of the other 108 towns amounted to Rs. 1,415, representing an average of only Rs. 13 a town.

12. **Lighting (Rs. 4,35,618).**—An increase of Rs. 61,926 was due chiefly to the increase in the cost of oil and materials and in a minor degree to the extension of the existing lighting system. Of the total expenditure Howrah and Darjeeling are responsible for Rs. 1,87,000, and the fact that in spite of high prices the remaining 111 towns spent between them not more than 2½ lakhs for the lighting of their streets throughout the year shows that there is little tendency to extravagance in this direction. Debhatta and the three Barrackpore municipalities spent nothing on street lighting.

13. **Water-supply (Rs. 7,02,766).**—The outlay on capital works was reduced by Rs. 2,86,372 owing to the difficulty of obtaining materials for new water-works and to the financial stringency which compelled Government to curtail grants and loans. The Chittagong water-works were completed during the year and formally opened by His Excellency Lord Carmichael in July 1916. The only other important original works carried out were the extension of the Howrah water-works (Rs. 1,23,248), the improvement of the Berhampore water-works (Rs. 22,983), and the construction of water-works at Uttarpara, with which a beginning was made during the year. The Narayanganj water-works scheme, for which a grant had been made by Government, was postponed, and no progress could be made with schemes for the improvement of the water-supply in the town of Dacca and for the construction of water-works at Nator and Satkhira owing to want of funds and to the increase of cost due to the rise both of the price of materials and of the rate of interest charged for Government loans. Schemes for the supply of water to the towns of Pabna (Rs. 1,65,000) and Krishnagar (Rs. 3,07,930) received the administrative approval of Government.

It cannot be said that municipalities are at present very successful in their management of water-works. In particular, there is a strong tendency in the majority of municipalities having water-works to evade the statutory rule requiring connections with private holdings to be fitted with a meter. In Hooghly-Chinsurah, for instance, in which this rule is in force, only 44 out of 384 private connections were metered at the close of the year. The management of several water-works has, moreover, been found to be unsound from an engineering and financial point of view. The Berhampore water-works were on the verge of a breakdown in the latter part of 1916; in Burdwan it is reported that owing to the lavish grant of house connections without meters and the prodigious waste of water the engines are being overworked and are in imminent danger of breaking down. Unchecked waste

goes on in Hooghly-Chinsurah municipality and there is a constant danger of the works stopping for want of coal : not only is the stock of coal inadequate—on one occasion fire-wood has had to be burnt to keep up the water-supply—but the quality is so bad that the consumption is 50 per cent. above the ordinary amount. The success of the Chittagong water-works has been imperilled at the outset by the reluctance of the Commissioners to make adequate provision for supervision by a qualified engineer.

The Governor in Council is naturally reluctant to take the extreme action of entirely suspending a municipality in the exercise of his powers under the Bengal Municipal Act, merely because of the mismanagement of one branch of the municipal administration ; and cases such as these illustrate the need for Government having authority, similar to that possessed by the English Local Government Board, to take over temporarily the administration of any particular department in which there is such gross maladministration that the interests of the general body of rate-payers are seriously prejudiced.

14. **Drainage (Rs. 3,32,947).**—The financial conditions of the year proved as great an obstacle to progress with drainage schemes as to schemes of water-supply. Drainage schemes were, however, completed in Burdwan and Katwa ; over half a lakh was spent on the drainage of Garden Reach ; work was in progress on projects designed for Howrah, Bhadreswar, Bhatpara and Tangail ; a special drainage scheme was started in Jangipur at the cost of Government as an experiment in anti-malarial measures ; and a drainage scheme for Krishnagar received the administrative approval of Government.

15. **Conservancy (Rs. 15,66,419).**—Conservancy, though one of the most important branches of municipal administration, is, as usual, that calling for least comment. An important sewerage scheme, the cost of which is estimated at Rs. 80,600, was prepared for Kurseong and received administrative approval. Opinions differ as to the effect of the appointment of sanitary officers on the conservancy service. The Magistrate of Murshidabad finds little change, but other district officers in the Presidency Division report that it has led to improvement in the towns concerned.

16. **Sanitary officers (Rs. 67,113).**—At the end of the year under review there were still several municipalities which had not fulfilled their statutory obligation in regard to the employment of a sanitary staff. At least seven municipalities, which are required to employ a health officer, were without this official, and there were also vacancies in the posts of Sanitary Inspectors. The latter seem to have been due to want of qualified candidates rather than of efforts to find them, and the Governor in Council is satisfied that reasonable though somewhat slow progress is being made towards complying with the law. Enquiries have recently been instituted to ascertain the exact position in this respect, and special attention will be paid to the case of defaulting municipalities.

17. **Hospitals and Dispensaries (Rs. 3,35,150).**—A decrease of Rs. 50,918 under this head was due principally to the exclusion from the returns for West Bengal of the accounts of class IIIA Dispensaries, which have an independent account at the treasury. Improvements were carried out at Burdwan, Rampur-Boalia and Kurseong, but no change of any importance is reported in the administration of municipal or aided dispensaries.

18. **Registration of births and deaths (Rs. 8,932).**—An examination was made during the year of the arrangements for the registration of vital statistics, and the system was found to be defective in many municipalities. Local officers were directed to examine the existing organization and Government impressed on municipalities their responsibility for enforcing the provisions of the law.

19. **Public Works (Rs. 8,48,500).**—A decrease of expenditure amounting to Rs. 17,000 was the result of a reduction of Rs. 35,000 in the amount spent on roads set off against an increase of Rs. 19,000 in the cost of establishment. Both are largely due to the disproportionate influence of the figures for Howrah on the provincial totals, but the same tendency is observable in the case of other municipalities and is a distinctly unsatisfactory symptom. The percentage of outlay on public works to the total expenditure ranged in the smaller towns from 58·6 in Taki to 1·4 in Birnagar and, in municipalities with an expenditure of over Rs. 10,000, from 45·3 in the South Suburban municipality to 4·5 in Suri.

20. **Public instruction (Rs. 2,48,775).**—There was a further increase of Rs. 26,819 in educational expenditure, of which approximately Rs. 22,000 was on account of primary education. As the Government grants exceeded those for the previous year by only Rs. 11,000, it may be deduced that a small but genuine attempt has been made by municipalities to make further use of their resources for the expansion of primary education. The fact remains, however, that the total expenditure on primary schools (Rs. 1,10,561) is less than half the whole amount spent by municipalities on education ; and it is obvious that the principle laid down by the Government of India in reviewing the recommendations of the Decentralization Commission as regards the relation of local bodies to education, that expenditure on secondary education should not be incurred by municipalities until the requirements of primary education are fully met, is far from being realized in this province. Municipalities are not required to expend any fixed proportion of their income on primary education, but for practical purposes 3·2 per cent. of the ordinary municipal income, which some years ago was estimated as the cost of providing for the elementary instruction of half the boys of school-going age, is taken as a suitable standard by which to judge of the adequacy of the provision made for the purpose. Twenty-five municipalities in the whole province failed to attain this very moderate standard during the year under review. On the other hand 42 municipalities, as against 22 in the previous year, spent more than 5 per cent. of their income on primary schools. An extreme case of default is that of the Burdwan municipality, which spent only Rs. 591 or one-half per cent. of its total ordinary income on primary education as against Rs. 22,090 on secondary education. Practically the whole of this latter sum was spent on the municipal high school, and even when allowance is made for the fact that close on Rs. 19,000 was recovered in fees, it is clear that this institution is consuming funds which should properly be devoted to the primary education of the poorer classes. In this and a few other cases, however, the arrangements under which Municipal Commissioners are responsible for the management of secondary institutions are of long standing. The Governor in Council views with disfavour any tendency for municipalities to establish new secondary institutions in view of the increasing demand for primary education, and is pleased to observe that the provision made in the budget of the Baranagore municipality for the establishment of the high school was very properly disallowed by the Commissioner.

21. **Loans.**—Forty municipalities were in debt to Government at the end of the year, their total liability amounting to Rs. 43,49,725, in addition to a sum of Rs. 1,200 outstanding against the Bally municipality for a loan taken from other sources. The largest outstanding liabilities were those of Howrah (Rs. 23,24,562), Darjeeling (Rs. 7,09,753), Dacca (Rs. 2,56,601), Chittagong (Rs. 1,47,517) and Narayanganj (Rs. 1,17,294). Four municipalities took loans during the year, viz., Chittagong (Rs. 40,000 for water-works), Katwa (Rs. 15,000 for drainage), Garden Reach (Rs. 10,000 for drainage) and Sherpur in Bogra (Rs. 1,500 for road repairs). The Burdwan municipality liquidated its loans during the year.

22. **Closing balances.**—The closing balances of the municipalities tend, as usual, to be either unaccountably large, or disproportionately small, rather

than to average an equable percentage on the expenditure of the year. Even when allowance is made for the accumulation of funds in certain towns for large schemes, balances amounting to approximately one quarter of the total expenditure at the close of a year in which few large Government grants were received must be regarded as excessive. Three municipalities had actual closing balances of over a lakh, viz., Dacca (Rs. 1,26,091), Howrah (Rs. 1,22,295) and Darjeeling (Rs. 1,00,373). Six municipalities closed the year with an actual balance of less than 5 per cent. on current expenditure, an extreme case being that of Burdwan, in which the expenditure for the year was Rs. 1,69,000 and the balance was under Rs. 2,000.

Seventy-nine municipalities had outstanding liabilities on account of current bills aggregating Rs. 2,33,369 and in nine municipalities, as against sixteen in the previous year, the outstanding liabilities exceeded the closing balance. Pabna, which opened the year with a net deficit of Rs. 3,825, was in a still worse position at its close, having a balance of Rs. 1,702 against liabilities of Rs. 5,621. No explanation is given of the position of the Serampore municipality, which has outstanding liabilities of Rs. 48,062, or more than half its current demand, against an actual balance of Rs. 6,451.

23. **Audit of accounts and embezzlements.**—No very serious case of embezzlement was discovered during the year, the worst being the misappropriation of Rs. 389 by a collecting sarkar in Panihati, which is reported to have been facilitated by the neglect of the Vice-Chairman. Embezzlements of smaller amounts by the collecting staff came to light in Maniktala, Narayanganj and Rangpur. The Commissioners of the Presidency and Dacca Divisions report favourably on the use made by the municipalities of the greater freedom allowed them in the preparation of their budgets under the orders issued in January 1916.

24. **Howrah.**—A general election in the Howrah municipality was held in December 1915, and the new municipal Committee took office at the beginning of the year under review. The Hon'ble Babu Mahendra Nath Ray, C.I.E., was elected Chairman, and the Governor in Council has read with special interest his report on the first year of his administration.

The total ordinary income rose from Rs. 10,83,028 to Rs. 11,01,398, while the total ordinary expenditure fell from Rs. 12,06,621 to Rs. 11,42,517. The current demand on account of taxes rose from Rs. 9,95,275 to Rs. 10,05,543, and the total demand, including arrears, amounted to Rs. 10,42,047, of which Rs. 9,62,645 or 92·4 per cent., was collected against 92·5 in the previous year. The outstanding liabilities at the end of the year amounted to Rs. 13,697 against an actual closing balance of Rs. 1,22,295. The financial position of the municipality is not such as to allow of much expansion of its activities. The Chairman in fact reports that " having regard to the growing needs of the municipality and the capital outlay which must be incurred to meet absolutely necessary works of improvement, the financial position of the municipality is, from that point of view, by no means stable or satisfactory. Nor are our resources adequate for the maintenance of the roads in good order and for the entertainment of sufficient establishment and the keeping of sufficient animals, trucks and carts for the due conservancy of the town ".

Further construction work on the water-works improvement scheme was prevented by want of funds, as Government were unable to hold that the financial prospects of the municipality towards the end of the year were such as to justify the grant of a loan of Rs. 1,00,000. Expenditure on water-supply, excluding the amount spent from loan funds, consequently fell from 23·4 per cent. of the total expenditure to 2·5 per cent. Progress was made with work on the Bhatpara drainage scheme. Expenditure on the maintenance of roads (Rs. 54,800) was less than half the amount estimated by

the Chairman to be necessary for their proper upkeep. Expenditure on primary education was only 2·3 per cent. of the municipal income. The conservancy service proceeded on the usual lines, no capital improvements being effected, and the Magistrate reports that the Nandibagan trenching ground, which is in the middle of the town, remains a crying scandal. Interesting possibilities were suggested in the discussion by the Calcutta Improvement Trust of the question of extending the operations of the Trust to Howrah. The Board of Trustees decided by a small majority against making any recommendation to Government in favour of this course. The views of the Commissioners of Howrah on the subject were invited by Government, and they were unanimously in support of the extension of the Calcutta Improvement Act to the town.

25. **General remarks.**—The year under review witnessed the first results of the measures taken, in accordance with the resolution of the Government of India of April 1915 on local self-government, to increase the financial responsibilities of Municipal Commissioners, extend the elective system and relax official control. It is gratifying to find that the results are favourably commented on by Commissioners in reviewing the working of the year. At the same time the chronic evils of faction, lack of executive vigour and reluctance to impose taxation on a scale commensurate with civic needs bulk as largely as ever in the divisional reports, more especially for West Bengal.

26. The Commissioner of the Presidency Division states that, while many defects may be found in the administration of the municipalities in that division, there is on the whole a steady improvement in the standard, and he refers to the demand for filtered water-supply and scientific drainage systems in small rural towns where such things were undreamt of 20 years ago. He considers that the worst defects are generally found in places where there are special difficulties, such as towns which are decaying owing to economic changes, or afflicted with the scourge of malaria, which municipal administration is powerless to combat. He adds : "In many other places faction is rife and interferes with municipal government, and there is much slackness in supervision and in matters of accounts". The Magistrate of Nadia speaks well of the work of all the municipalities in that district except Birnagar and writes :—"From my experience in this district during the last five years I can confidently state that there have been elements of progress and growing public spirit." Other district officers are less enthusiastic. The Magistrate of Murshidabad remarks : "Generally, though the record of administration for the year shows some improvement, the result cannot be regarded as satisfactory. The public welfare is too often subordinated to private interests, and there is little sign of the existence of any public opinion which alone can secure that Municipal Commissioners make proper use of their powers. There is a general complaint among the municipalities of lack of funds, and the financial position is unsatisfactory. There is little chance of improvement in this direction, so long as the Municipal Commissioners themselves are afraid to insist upon a rigorous assessment".

27. The Commissioner of the Burdwan Division makes special mention of Asansol, Raniganj, Bankura, Suri and Bhadreswar as progressive and well-administered municipalities, and states that most of the others were fairly well managed. Particularly interesting is the contrast in the Burdwan district between the unsatisfactory record of the headquarters municipality, which is characterized by want of control over the municipal staff, inefficiency and waste of public money, and that of the subdivisional headquarters of Raniganj and Asansol, which are well and economically administered. Of the other two subdivisional towns, Kalna and Katwa, the former suffered from want of public spirit and quarrels between executive officers and the latter from party factions. In Bankura there is reported to have been an all-round improvement in outdoor work due to the energy of the Chairman. Suri continued to be administered smoothly and efficiently. The state of affairs in the important municipality of Hooghly-Chinsurah continued to be far from

satisfactory. The collections were defective and the roads bad; there was excessive consumption of filtered water by private house-holders in the absence of meters; and sanitary officers had not been appointed at the end of the year. The Bansberia municipality again suffered from the apathy of the executive and insufficiency of supervision. The record elsewhere in the Hooghly district is more favourable. The new municipality of Rishra-Konnagore started well; Bhadreswar retained its position as the most progressive municipality in the district; in Baidyabati party-feeling subsided with the compromise of a civil suit; the administration of Uttarpara, in which an elected Chairman held office for the first time, was successful; Arambagh was well managed. The administration of Bally in the district of Howrah, however, was less successful, difficulties being caused by the opposition offered by the Commissioners to a zealous and energetic Chairman, which ultimately led to his resignation.

28. The Commissioner of Rajshahi considers that the improvement in the administration of municipal affairs in the Division, which he noticed in the previous year, is still more marked in the year under review. He writes :— "I visited all the municipalities in my Division in the course of the year, and everywhere I found a keen interest displayed in civic affairs by the Executive and the Municipal Commissioners which augurs well for the future. In Rampur-Boalia, once the headquarters of the Division, energy unfortunately is misdirected and the true welfare of the town lost sight of in factious discussions over trivial things. The rate-payers have been too weak to elect strong body of Commissioners". The first year's working of Darjeeling under the elective system, and of Jalpaiguri with an elected Chairman, is promising. The appointment of a paid Secretary to the Darjeeling municipality has been an unqualified success.

29. There is little noteworthy in the record of the municipalities in the Dacca Division. Mymensingh is faced with large and expensive schemes for the improvement of the drainage and water-supply, and the Commissioners raised the rate of taxation in order to meet the municipal share of their cost. Madaripur introduced a scheme for the examination of food-stuffs to guard against the spread of tuberculosis. Anxiety was caused in Faridpur by the extensive encroachment of the river Padma on the northern part of the town. The Commissioners of Barisal are satisfied with a low standard of efficiency, but otherwise the account of the municipalities in Bakarganj is favourable. The Commissioner of Dacca considers that with one or two exceptions the municipalities in his division give reasonably good service in proportion to the taxes which they levy, and points out that marked progress in the direction of providing municipal services in any way comparable to European standards can only be secured by increased taxation.

30. In the Chittagong Division the record of the Chittagong municipality was unsatisfactory. Party feeling ran high among the Commissioners at the beginning of the year over the election of the Chairman, and irregularities of procedure made it impossible for Government to confirm the proceedings of the original election. At a second election the candidate who had been defeated before carried the day, but appears to have remained without a working majority on the Board, with the result that he was thwarted in his work. The Commissioners, moreover, have not shown a proper sense of responsibility in the administration of the new water-works, and executive work has suffered in the absence of the highly qualified Secretary-Engineer who was previously employed with the help of a grant from Government. It is unfortunate that the municipal administration of Chittagong should have been hampered by these difficulties in the first year in which an Indian gentleman has been elected as Chairman. Cox's Bazar is doing its work quietly and efficiently. Chandpur carried out the construction of a useful embankment; large sanitary schemes both here and in Comilla have had to be deferred on account of the present financial stringency. In Noakhali

work of a permanent nature is still at a standstill in view of the threatened diluvion of the town, but current municipal affairs were efficiently administered.

31. The names of the following gentlemen have been specially brought to the notice of Government by the Commissioners of Divisions on account of the good work done by them in municipal administration, and the Governor in Council desires to express his appreciation of their public spirit :—

Mr. H. P. V. Townend, I.C.S., Chairman, Asansol.
Mr. M. C. C. Young, Vice-Chairman, Asansol.
Mr. W. A. Hutton, Municipal Commissioner, Asansol.

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF DISTRICT BOARDS IN BENGAL DURING 1916-17.

GOVERNMENT OF BENGAL.

MUNICIPAL DEPARTMENT.

Local Self-Government.

CALCUTTA, THE 29TH DECEMBER 1917.

RESOLUTION—No. 2425L. S.-G.

READ—

The Reports from the Commissioners of Divisions on the working of District Boards in Bengal during the year 1916-17.

District Boards.—An important constitutional change was made during the year under review by appointing, as an experimental measure, a non-official to be Chairman of the Murshidabad District Board. The gentleman selected held office for three months before the year came to a close.

2. **Local Boards.**—Fifteen Local Boards failed to meet once a month, but there was a satisfactory decrease in the number of meetings which failed for want of a quorum. General elections were held in the district of Howrah, Hooghly, Dacca and Bakarganj. In six thanas the elections failed, principally owing to the non-attendance of the prescribed number (10 per cent.) of registered voters. The election in one thana was twice set aside because of improper practices and when held for a third time failed owing to the unwillingness of voters to appear and record their votes.

In Midnapore the execution of works for the improvement of rural water-supply was transferred to the District Engineer in consequence of the inadequacy and inefficiency of the Local Boards' staff; while the power to sink and maintain wells was withdrawn from all but one of the Local Boards in Burdwan as the work done by those bodies was found to be unsatisfactory. On the other hand, the Uluberia Local Board is commended for the success of the system of having road and bridge repairs supervised by local gentlemen, which is said to have created a real and widespread interest in its work.

3. **Union Committees—(a) Constitution.**—The number of Union Committees actually at work at the end of the year increased from 90 to 156, of which 73 were in West Bengal and 83 in East Bengal. The increase in numbers took place entirely in East and North Bengal, where, in addition to the establishment of 42 Unions in Dacca, which had been sanctioned in March 1916, two Unions were constituted in Tippera, seven in Faridpur and fifteen in Rangpur. In West Bengal new Union Committees were sanctioned in the districts of Birbhum, Hooghly, Jessore, Khulna and Nadia, but were not actually in operation before the end of the year. In Khulna the formation of 24 new Unions was sanctioned and four old Unions of an unwieldy size were remodelled, so as to coincide with Chaukidari Unions, in conformity with the principles advocated by the District Administration Committee. The new Committees in Dacca and Faridpur were constituted on an elective basis. In West Bengal the elective system was adopted in all but one of the new Committees and was also introduced into six existing Committees. Further steps have since been taken for the extension of the elective system.

4. **(b) Income.**—The total income of Union Committees, excluding opening balances, increased from Rs. 1,11 968 to Rs. 1,68,505, of which Rs. 1,02,087 was contributed by the District Boards. The number of Committees imposing self-taxation rose from 36 to 67, and the amount realized viz., Rs. 39,801, was double what it was two years previously. There-

is considerable disparity in the proportions which District Board contributions bear to the amounts raised by taxation or from other local sources. For instance, two Committees in Birbhum realized Rs. 5,746 from self-taxation; one received no grant from the District Board and the other a grant of only Rs. 135. On the other hand, ten Committees in the 24-Parganas received District Board grants aggregating Rs. 12,148 and were almost entirely dependent on these grants, their receipts from all other sources being only Rs. 598 and no assessment being levied. Five Committees in Burdwan received contributions amounting to Rs. 4,050 and their receipts from other sources came to the insignificant total of Rs. 23.

With two exceptions the District Boards in East and North Bengal make uniform allotments to each Committee, irrespective of local receipts; the same practice is followed by the District Boards of Burdwan, Bankura and Nadia. This is a useful procedure in the case of new Committees, but it is to be hoped that once a Committee is well established, District Boards will determine their contributions with close regard to the needs of each Union and the willingness of the villagers to contribute to expenditure on sanitary improvements.

5. **(c) Balances.**—The number of Committees disposing of the whole of their funds increased from 14 to 35, while twenty-one were left with balances of Rs. 10 or less. The closing balances of the Committees in Burdwan amounted to more than half their expenditure; one Committee spent little more than a third of its income. On the whole, however, there has been a general improvement due as much to the energy which newly formed bodies have shown in making use of their funds as to greater efforts in this direction on the part of the old Committees. Some of the older Committees, such as Rampur Hât, which spent Rs. 7,183 out of an income of Rs. 8,876, are handling larger sums than the smaller municipalities and seem to be doing so in a business-like manner.

6. **(d) Expenditure.**—Approximately half of the total expenditure was incurred on roads, and one-third on sanitation and water-supply. The amount spent on water-supply was doubled but is still only Rs. 22,699. The Committees in three districts in the Presidency Division and one other Committee devoted part of their funds to dispensaries. Nothing was spent on education except by the Committees in Jessore and a few in Murshidabad and Dacca.

7. **(e) General remarks.**—There seems good reason to be satisfied with the progress made by Union Committees during the year. With expanding resources and renewed interest in their work, many of the older Committees are emerging from the torpor which had settled upon them. The majority of the Committees recently established have made a good start, and the following remarks of the Chairman of the Dacca District Board are encouraging:—

"The amount of keenness shown was remarkable and a vast amount of extremely useful work was accomplished. In this work good management was generally conspicuous. Most of the Committees got the work done by their own members and in this way effected considerable economy and obtained far better results than would have been possible if contractors had been employed. In Munshiganj subdivision the Union Committees divided all the work among the various members and arranged that each member's work should be inspected by some of the other members. This arrangement has worked excellently. It is a remarkable proof of the existence of a large amount of public spirit in the villages that every one of the 42 Union Committees has achieved distinct practical success in the first working year of its existence."

Elsewhere also Union Committees have shown considerable vitality and public spirit. Two Committees in the 24-Parganas combined to form a joint Union Committee under section 44 of the Local Self-Government Act with the object of improving the drainage, water-supply and conservancy of the trading centre of Magrahat. Another Committee in the same district raised Rs. 1,500 from voluntary subscriptions for the improvement of roads. In other districts also several Committees succeeded in obtaining private donations for various schemes of improvement. The Narail Committee commenced the execution of a scheme for the drainage of the town of Narail, for which it had been accumulating funds. The

Committees in Birbhum kept up their record of good administration, their funds being intelligently and usefully spent in maintaining village roads, improving the water-supply, filling up insanitary pits, constructing drains and cess-pools, clearing jungles, etc ; their activity is said to have given an impetus to the improvement of sanitation throughout the district. The Committees in Howrah are reported to have suffered from their unwieldy size, faulty composition and a desire to avoid taxation, but in spite of this they have done work of considerable value : the state of their roads is said to compare favourably with that of the Local Board roads and the bazars under their control are ordinarily in a very fair state of cleanliness. In Murshidabad the members of the Committees are beginning to realize that it is their duty to consider the interests of the Union as a whole and not only of the villages to which they themselves belong. This is a healthy symptom, for improvements in the larger Unions are frequently inclined to centre on the main place within the Union—a policy which is an effectual deterrent to the majority of the residents acquiescing in self-taxation.

Some exceptions to the generally favourable account of the working of Union Committees have to be recorded. The creation of Committees in the Khulna district is said to have been unpopular and to have created ill feeling: in one Committee the nominated members object to sitting with elected members on the ground that the latter may be persons who according to the social customs of the country should stand before them. In Burdwan the few enlightened men in the villages have, it is said, to contend against a dead weight of ignorance, apathy and selfishness. Both in that district and in Midnapore Committees show little or no signs of improvement, and the few that exist in Bankura are doing little or no work.

It must be recognised that the work of Union Committees under the existing law can be only a partial preparation for the fuller system of village self-government which is contemplated by the Bengal Government. The Committees are restricted in their powers, and a large number of the Unions formed in the past are of unmanageable size. In Howrah, for instance, no Union corresponds either with a single chaukidari union or group of unions ; the areas vary from 1¼ to 13½ square miles, the population from 7,677 to 30,186. The full development of the Union as the unit of local self-government must await legislation, but in the meantime there is much to be done in remedying this state of affairs and in promoting the formation of new Unions which can be absorbed ultimately in the new system.

8. **District Board Receipts.**—There was a slight decrease during the year both in receipts and expenditure, which cannot, however, be attributed to any general causes. Revaluation and better collections combined to produce an increase of Rs. 2,37.324 in the provincial rates, but grants from Government were reduced by Rs. 4,86,762. On the other hand, receipts from education rose owing to an increase in special educational grants made by Government. The latter amounted to 9½ lakhs. They included Rs. 3,11,000 for the maintenance, and Rs. 57,000 for the repair, of Board Primary Schools, Rs. 4,77,000 for the enhancement of the pay of teachers in boys' aided primary schools and *maktabs* and Rs. 1,05,000 for female and Muhammadan education. Receipts from railways aggregated Rs. 90,704, an addition of Rs. 17,049 being shared in by the districts of Hooghly, Howrah and the 24-Parganas, as the result of an increase in the profits of light railways working under agreements with the Boards. The realizations from pounds (Rs. 3,70,190) and ferries (Rs. 4,94,363) rose by Rs. 19,783 and Rs. 63,186, respectively, owing to keener competition at the auctions of ferry leases and to greater energy in realising arrears from the lessees of pounds.

9. **Expenditure.**—For the last three years the District Boards have been spending more than their current income, as they have been able to utilize the accumulated balances of the receipts from the Public Works cess, which was made over to them in 1913-14. In the years 1914-15 and 1915-16 the current expenditure exceeded the current income by 5½ and 7½ lakhs, respectively. In the year under review the excess amounted to 2½ lakhs. The accumulated balances are being depleted, and it seems inevitable that a stage will soon be reached when the Boards will be mainly

dependent on their ordinary income and will be able to increase their expenditure only in proportion to the growth of their receipts from expanding sources of income, such as the Public Works cess and road cess. In view of these conditions the following remarks of the Commissioner of Dacca regarding the difficulty which District Boards already find in meeting the many demands upon their revenue are of special interest :—

"It seems that neither Government nor the public has realized how utterly inadequate are the resources of these bodies even for the primary purposes of establishing and maintaining reasonable communications within their jurisdictions, and how impossible it is for them to devote to water-supply and other measures of sanitation an expenditure sufficient to make any real impression in the way of supplying deficiencies in such vast areas and for such a teeming population. The long and short of the matter is that with local taxation at 2 annas per head of population it is not possible to provide good roads, good drainage, good water, medical attendance, primary education and other amenities of civilization. So long as their resources remain so insignificant the local bodies can but toy with the great problems set to them to solve."

10. **Administration (Rs. 2,82,228).**—The cost of administration continues to rise ; the percentage to the total expenditure chargeable to current income varied from 1·3 in Bankura to 5·1 in Jessore. The increase is again ascribed to periodical increments of salary, grain compensation allowances, increased travelling allowances, and also to the enhanced cost of stationery due to war conditions.

11. **Education (Rs. 23,30,996).**—The total number of upper and lower primary schools maintained and aided by District Boards increased from 32,194 to 34,020, of which 26,821 were boys' schools, and 7,199 were girls' schools : altogether 2,824 schools were maintained by the Boards. The sum spent on primary schools (Rs. 18,11,731) was almost double the amount of the contribution given by Government. The Government of India have recently emphasised the responsibility of the Boards for primary education, and it is satisfactory to find that over 75 per cent. of their expenditure on education was devoted to primary schools. Of the balance nearly 2½ lakhs were spent on the maintenance of middle, training and special schools, on inspection, and scholarships, and there remains the usual residue of about two lakhs, a large part of which must have been spent in grants to secondary schools.

12. **Technical and Industrial Schools.**—The general record of the technical and industrial schools maintained or aided by the Boards is, as usual, one of high expenses, mediocre examination results and poor attendance. The Diamond Jubilee Industrial School at Rajshahi, however, had 80 pupils against 64 in the previous year, while the numbers at the Kashi Kishore Technical School in Mymensingh increased from 37 to 46, and were more than could be properly trained with the existing staff. The Elliott Bonomali Technical School at Pabna had 136 boys on its rolls and gave practical training in carpentry to 175 more boys from the Zilla School.

The Boards continue to avail themselves to an increasing extent of their power to grant scholarships tenable at the major technical or professional institutions and have also shown considerable liberality in establishing scholarships tenable at the smaller institutions at district headquarters. Weaving, engineering, medicine, veterinary knowledge, agriculture and art are among the subjects in which training is now being given with the help of these scholarships ; they have also been made use of in order to place blind and deaf and dumb students at the schools in Calcutta established for these classes of defectives.

13. **Medical aid (Rs. 7,35,137).**—There was a decrease of Rs. 68,889 in medical expenditure, which the divisional reports agree in attributing to the healthiness of the year. Altogether 37 new dispensaries were established, and the number maintained and aided by the Boards rose to 440. Further efforts were made to bring medical relief to the homes of villagers in riverain tracts, floating dispensaries being started in Bakarganj and Mymensingh, and village market (*hât*) dispensaries in Mymensingh and Faridpur. Measures were taken, as usual, for the supply of quinine, especially in the district of Birbhum, where, with the help of a Government grant, twelve anti-malarial dispensaries were opened, and quinine to the value of over

Rs. 6,000 was distributed free. The co-operation of non-official committees, school masters, etc., was enlisted and the results among school children are said to have been remarkable. Free vaccination was organized in certain thanas of Bakarganj, Faridpur and the 24-Parganas; it is reported that in two years one out of every six persons has been vaccinated in the six thanas of Bakarganj, in which compulsory vaccination is in force.

It does not appear that the District Boards have been able to employ female doctors to any great extent, and the following observations on the subject by the Chairman of the Mymensingh District Board, which employed two lady doctors and three midwives, are of interest :—"Local opinion at Netrokona is strongly in favour of appointing a midwife, and not a lady doctor, the reason given being that the lady doctor is seldom called in for work which a midwife would be unable to do, whilst her fees are very high. In difficult cases male doctors are generally called in, and it is probably true that in small towns and villages midwives are much more required than lady doctors".

14. **Sanitation (Rs. 1,07,391).**—A decrease of expenditure on sanitation amounting to Rs. 56,591 is partly due to the exclusion of expenditure on water-supply from the accounts under this head. As usual, a large part of the money was spent through the agency of Union Committees on sanitary works of a petty character. The services of Sanitary Inspectors were made use of for a variety of tasks ranging from those of a specifically sanitary kind, such as the supervision of arrangements for the prevention of disease at fairs, to purely medical work, such as the treatment of cholera cases and employment in District Board dispensaries. The whole question of the qualifications and functions of the sanitary staff of District Boards is now under the consideration of Government.

15. **Civil Works (Rs. 59,50,530).**—The total expenditure under this head, which includes the sums spent on water-supply and drainage, fell by Rs. 4,20,577. There was a decrease of nearly five lakhs in the outlay on original works of communication, while charges for repairs increased by over half a lakh. The mileage of metalled, unmetalled and village roads in the charge of the District Boards at the end of the year was 2,034, 13,544 and 16,408, respectively, showing an increase of 87 miles in metalled, of 139 miles in unmetalled roads and of 640 miles in village roads. The District Boards of Midnapore, Noakhali, Murshidabad and Burdwan allowed over 20 per cent. of their allotments to lapse, but only three other Boards had lapses of over 10 per cent., whereas in the previous year there were eight Boards with lapses of more than 10 per cent., including one of over 30 per cent.

Instructions were issued by Government at the end of the year under review discouraging District Boards from trenching too largely on the Public Works cess in order to increase expenditure on roads and urging them to allot larger sums for the improvement of rural water-supply. In this connection the Governor in Council has read with much interest the arguments in favour of adequate expenditure on communications, including waterways, which have been put forward by the Chairmen of the Mymensingh and Bakarganj District Boards. It is urged in the case of Bakarganj that the excavation and re-excavation of *khals* and waterways, which are the chief and most convenient means of communication for the bulk of the people, are of primary importance, and in the case of Mymensingh that the resources of the District Board, even after the transfer of the Public Works cess, are still so scanty in comparison with the area and population for which it is responsible, that the improvement of communications will more effectually subserve local interests than disproportionately high expenditure on wells and tanks, which must still remain inadequate for local needs. It is pointed out that a well usually benefits only 400 people and absorbs the rates paid by them during 16 years, and it is contended that in a district from which the most valuable crop has to be exported it is better to increase the prosperity of the people by improving communications. This argument must be recognized to have special force in a district, such as Mymensingh, with a vast area and population, enormous jute crops and a defective road system which requires to be linked up with newly opened railways.

16. **Water-supply (Rs. 6,30,759).**—The returns show an increase of only Rs. 58,208 in the expenditure on water-supply, and in spite of the fact that Government have lost no opportunity of impressing their responsibility in the matter, several District Boards are still backward in taking measures for the improvement of the rural water-supply. Twelve Boards spent less than in the previous year, and the expenditure of those in the Chittagong Division (excluding work done by way of famine relief in Tippera) was barely half of that incurred in 1915-16. An extreme case is that of the Midnapore District Board, which spent only Rs 4,442 or 2·2 per cent. of the Public Works cess, out of a total income of over 5 lakhs. The failure to do more is attributed to difficulty and delay in securing sites for wells, an explanation which, as the Commissioner remarks, is not satisfactory. It is reported that in this district original works in connection with the water-supply were taken out of the hands of the Local Boards. No allotments were made to them, and the working out of the programme drawn up last year was left entirely in the hands of the District Engineer. This policy must be pronounced to be a complete failure so far, and it is not creditable to the Board that it should not have found it possible to attain even to the expenditure of Rs. 5,000 which was looked on as a minimum before the transfer of the Public Works cess. Three other Boards, viz., Dinajpur, Jalpaiguri and Bakarganj, spent less than 10 per cent. of the Public Works cess receipts on water-supply, although the expenditure of the Board last-named was double of that incurred last year. On the other hand, persistent efforts are being made by some Boards to meet local needs on a large and generous scale. For instance, the District Board of Nadia spent as much as two-fifths of the Public Works cess on schemes of water-supply; the District Board of Pabna trebled its expenditure, which amounted to one-third of its income from the cess; the District Board of Bogra has attained a percentage of 35 and three other Boards spent more than 30 per cent.

Important instructions were issued during the year in order further to facilitate expenditure on water-supply. There had been for some time a mistaken idea that Government expected one-third of the cost of tanks executed by a District Board to be contributed by the villagers who would immediately benefit from them. No such orders were in fact in force, and, while the principle of requiring a local contribution is reasonable in the case of a well-to-do locality, Government do not consider that this should be insisted on as a rule. The District Boards were informed of the real position.

17. **Drainage (Rs. 41,897).**—The only drainage work of any importance carried out during the year was the completion of a scheme for draining the Satla Bil in Bakarganj. The work is reported to have been successful and to have improved the condition of crops in the locality.

18. **Arboriculture (Rs. 34,571).**—All the Boards, with the exception of Dacca and Bakarganj, spent small sums on roadside tree-planting, the largest expenditure (Rs. 5,277) being incurred by the District Board of Mymensingh. The District Board of Tippera had the misfortune to lose over 1,000 trees, which were destroyed by floods.

19. **Veterinary charges (Rs. 88,716).**—There was a further increase in the expenditure on veterinary work, which has grown by over 50 per cent. in two years. The expansion of veterinary work is common to all divisions, and the demand for veterinary assistants is reported to have exceeded the supply of qualified men, so that in several cases posts recently sanctioned by District Boards have had to remain unfilled. A veterinary dispensary at Barisal, the cost of which amounted to Rs. 26,682, was completed during the year.

20. **Railways.**—In the Presidency Division the Jessore-Jhenidah Railway continued to work at a loss, and a dispute between the District Board and the Company as to the consequent liabilities remained unsettled at the end of the year. The Kalighat-Falta Railway was completed and the construction of the Khulna-Bagerhat Railway was taken up. The construction of feeder roads to railway stations, especially in connection with newly

opened railways, is a measure for the improvement of communications of which particular mention is made in the reports on the district of Mymensingh and certain districts in the Rajshahi Division.

21. **Famine Relief (Rs. 2,55,297).**—The District Boards of Bankura, Mymensingh and Tippera continued measures for the relief of local distress, which had been begun during the previous year. They came to an end in the early part of the cold weather of 1916.

22. **Closing Balances (Rs. 20,05,902).**—There was a further decrease of Rs. 1,82,267 in the actual closing balances and many of the District Boards are approaching a point beyond which the reduction of working balances cannot reasonably be carried. The process has already gone far enough in the case of some Boards, such as Rangpur, which has an actual closing balance of Rs. 8,282 against current expenditure of Rs. 5,44,000, and Bankura and Nadia, which have balances of less than Rs. 10,000 each against current expenditure of Rs. 3,86,000 and Rs. 3,47,000 respectively. On the other hand, the District Boards of Burdwan and Midnapore retain disproportionately large balances of Rs. 3,06,565 and Rs. 2,23,654 respectively, approximating in each case to half the current expenditure. The reasons assigned are in the case of Burdwan an underestimate of cess receipts, and in the case of Midnapore savings on estimates of expenditure. The savings under the head "Civil Works" in the last district are so large as to suggest a want of proper energy on the part of the Board's engineering staff. The District Boards of the 24-Parganas and Mymensingh retained balances of approximately one and-a-half lakhs each (excluding a Government grant of two lakhs for a drainage scheme in the 24-Parganas which the Board has not yet been able to take up), and the Tippera and Jalpaiguri Boards balances of slightly over one lakh each. In addition to these, the District Boards of Murshidabad, Pabna, Rajshahi, Malda and Noakhali retained closing balances amounting to more than 20 per cent. of their current expenditure, for which only the two Boards first named seem to have put forward an adequate explanation.

23. The Governor in Council desires to express his appreciation of the work done by the following gentlemen in furtherance of the work of District Boards :—

Secy. to the Govt. of Bengal.

DEPARTMENT OF STATISTICS, INDIA.

CALCUTTA TRADE FLUCTUATIONS.

THE following tables are intended to show the trade of the Calcutta Block* in certain selected articles during the months of April to October, 1917, by all routes, *i.e.*, by rail, river, canal, road, and sea. The statistics have been compiled from returns furnished by the Collector of Customs, Calcutta, Railway Audit Offices, Steamer Companies, the Commissioners for the Port of Calcutta, the District Magistrates of the 24-Parganas and Howrah, and the Assistant Engineer, Calcutta Canals.

General Summary.

Imports.—The imports of rice, including paddy†, into Calcutta by rail, river, canal, road, and sea (coastwise) during April to October, 1917, amounted to 6,550,000 maunds as against 9,594,000 maunds in the corresponding period of the preceding year—a decline of 32 per cent. There was a decrease (24 per cent) in the imports of coal and coke (47,979,000 maunds as against 63,628,000 maunds last year). The imports by rail, river, road, and sea (coastwise) of Indian cotton piece-goods showed a slight increase, the total value amounting to Rs. 2,44,81,000 as against Rs. 2,43,54,000 in 1916. The imports of raw jute amounted to 2,243,000 bales as against 3,038,000 bales—a decrease of 26 per cent. The importations of gunny-bags also showed a decrease of 6 per cent (237 million bags as against 254 millions in the preceding year). The quantity of indigo imported by all routes during April to October, 1917, fell by 41 per cent to 2,400 maunds from 4,100 maunds last year. The total imports of oilseeds (linseed and rape and mustard seed) decreased by 48 per cent to 2,812,000 maunds from 5,414,000 maunds. There was a decrease (14 per cent) in the imports of tea (1,784,000 maunds as against 2,076,000 maunds).

Exports.—The exports of cotton piece-goods, foreign, from Calcutta by all routes during April to October, 1917, increased by 17 per cent (Rs. 14,64,20,000 as against Rs. 12,53,61,000 last year). The exports of gunny-bags (excluding exports by sea to foreign countries) decreased from 56 million bags to 53 million bags. The shipments of gunny-bags to other Indian ports also decreased by 1,400,000 in number in the period under review (12,766,000 as against 14,166,000). The quantity of kerosene oil despatched from Calcutta and Budge-Budge by internal routes and by sea (coastwise) decreased from 3,614,000 maunds to 3,343,000 maunds.

* The Calcutta block consists of the town of Calcutta with Howrah and Kidderpore Docks.
† One maund of paddy is equivalent to 25 seers of rice.

GENERAL DEPARTMENT.

NOTIFICATIONS.

No. 58Edn.—The 9th January 1918.—Mr. W. B. Finnigan, Personal Assistant to the Director of Public Instruction, Bengal, is allowed leave, under article 260 of the Civil Service Regulations, for one month and seven days, with effect from the 10th January 1918.

No. 60Edn.—The 9th January 1918.—Rai Sahib Surendra Nath Sinha, an Assistant in the office of the Director of Public Instruction, Bengal, is appointed to act as Personal Assistant to the Director of Public Instruction, Bengal, during the absence, on leave, of Mr. W. B. Finnigan, or until further orders.

No. 82Edn.—The 11th January 1918 —In the year 1903 His Majesty's Secretary of State for India sanctioned as a provisional measure the institution of a certain number of scholarships, tenable by Indians, in Europe or America. The purpose of these scholarships was to provide for Indians that higher technical education which might qualify them to assist in promoting existing indigenous industries and developing new industries wherever this might be possible. Technical education for this purpose was defined as (*a*) the study of the scientific methods and principles underlying the practice of any handicraft, industry or profession, and (*b*) the application of these methods and principles to the handicraft, industry or profession in question. Law, medicine, civil engineering, forestry and veterinary science, being already provided for, were not included among the subjects to be studied by the holders of the technical scholarships and agriculture was excluded from the scope of the scheme.

2. The Government of India have decided to award, during the year 1918, one scholarship to each province, provided that the Local Government or Administration concerned has a suitable candidate to nominate, and that its recommendation is submitted in accordance with the principles which are stated in paragraph 5 below, and that the industry to be studied is either already developed or in the process of development.

3 It may, however, happen that, owing to the dearth of eligible candidates in certain provinces, two or more scholarships may on occasion be available for allotment to other provinces. If, therefore, a Local Government is in a position to recommend confidently more than one candidate, such recommendation may be submitted to the Government of India. In such cases the candidates need not necessarily be selected for the same industry.

4. As regards the year 1918, it has been decided, after consultation with representatives of the mercantile and industrial communities, that one candidate will, if possible, be recommended for a scholarship in connection with either leather tanning or iron smelting and the working of bye-product coke ovens. If a second scholarship is allotted to Bengal, a second candidate may be recommended in one or the other subject. The selection will depend largely on the character of the applications received.

5. The principles in accordance with which recommendations for scholarships will be submitted to the Government of India are as follow:—

(*a*) In making selections Government will bear in mind the fact that it will be necessary for the students to have a competent knowledge of English, or of the language of any other country to which they may be sent.

(*b*) Government will also be guided by consideration of the capacity and intelligence of applicants, and of the practical interest shown by them in the industry selected, as also the assurance which they may afford that they will continue to devote themselves to the industries selected on their return in India. These being matters which cannot be decided by competition, it is to be understood that the scholarships are not to be regarded as prizes, for which every one has a right to claim an equal opportunity of competing

(*c*) As a general rule a scholar, before being nominated, should have received the best technical education available in the province in the particular industry which he proposes to study. The standard of this education differs in different industries, and each may be considered on its own merits. Even if the standard of technical education in a particular industry is low, the scholar may be nominated, if he has availed himself of the best facilities obtainable, and shown an interest in the industry selected

(*d*) No age-limit is fixed for scholars, but an age-limit may, at the discretion of Government, be fixed for any particular scholarship for which they invite applications.

(*e*) No scholar shall be selected without passing a searching examination as to physical fitness to undertake the manual work which will be an essential part of his career.

(*f*) Before a scholar leaves India to take up his scholarship his parent or guardian should be required to show that he had sent to the Educational Adviser for Indian students at the India Office, London, a sum of £15 for initial expenses,

6. The following are the conditions and terms on which the scholarships are tenable :—

(*a*) The value of the scholarships has been fixed at £150 a year, exclusive of fees payable to the institutions where the scholars will study, and travelling expenses; but in special cases Government will consider proposals for increasing the amount of the scholarships.

(*b*) In ordinary circumstances the period for which a scholarship is tenable will be two years, but in special cases it may be increased to a third year, or, on the other hand, it may be reduced below even two years.

(*c*) The scholarships are tenable in foreign countries as well as in Great Britain, and are payable from the date on which a scholar reports his arrival in the country which he may have selected for the purpose of study.

(*d*) The scholarships are tenable by persons born either in British India or in a Native State, and domiciled in British India, of parents habitually resident in India and not established there for temporary purposes only.

(*e*) The scholars, while in England or elsewhere, will be under the supervision and control of the Educational Adviser of Indian Students in London. The conditions under which they will hold the scholarships are given in the "Rules for Government of India Technical Scholars in the United Kingdom," a copy of which is attached to this notification.

7. It is essential, not only in the interests of the scholars themselves, but also in order to avoid unnecessary extensions of scholarships, that the beginning of the period of the scholars' residence in England should coincide with the opening of the academical session of the institution which they propose to enter. It has accordingly been arranged, in consultation with the Secretary of State, that scholars shall report themselves in England not later than the middle of September. It has also been ascertained that it is of no advantage to them to reach England earlier than this, and that consequently they should not ordinarily leave India before the middle of August.

8. The special attention of candidates is invited to the fact that scholars must depend upon their own exertions when they return to India, and that the Government cannot, and does not undertake to provide them with employment.

9. All applications for scholarships to be awarded during the year 1918 must reach the Director of Public Instruction on or before the 15th February 1918.

10. Applicants for scholarships must state their birthplace, age and father's name and occupation and file certificates as to (1) moral character and antecedents, (2) educational qualifications, (3) knowledge of the language of the country in which the scholarship is to be held, and (4) physical fitness. Candidates must name the country to which they propose to

proceed and the course of studies which they propose to take up while in receipt of scholarship. They should also state whether they have had any actual experience of the industry for which the scholarship is offered.

RULES FOR GOVERNMENT OF INDIA (TECHNICAL) SCHOLARS IN THE UNITED KINGDOM.

1. All Government scholars are required to avail themselves of the information and advice which the Educational Adviser for Indian Students and the Local Advisers at University centres are in a position to give them, and to apply to their Local Adviser for instructions as regards their studies and in any circumstances of difficulty. The Local Advisers at Oxford, Cambridge, Manchester, Edinburgh and Glasgow have charge of Government scholars studying at those Universities. Scholars studying elsewhere will be under the charge of the Local Adviser in London. The Adviser is the proper person to bring before the Educational Adviser for Indian Students any matter requiring the sanction of the Secretary of State in Council.

2. Every scholar should, on reaching England, at once report himself to the Local Adviser in London at 21, Cromwell Road, S.W. Accommodation for new arrivals is provided in that house. After seeing the Local Adviser in London, and consulting with him in regard to his course of study he should also call on the Educational Adviser for Indian Students at the India Office.

3. Every scholar must obey all instructions which he may receive, either through the Educational Adviser for Indian Students or through his Local Adviser, and must consult his Local Adviser regularly in regard to his work. No course of study will be sanctioned which does not provide for an adequate practical training. Any course which has received the sanction of the Secretary of State will not be changed without similar sanction.

4. Every scholar must from time to time, whenever the Local Adviser in London or other Local Adviser requires it, submit a certificate from the proper College or University Authority, or from any other Authority under whom he is working, showing that his conduct and progress have been satisfactory.

5. Every scholar must give a written undertaking that he will devote himself exclusively, during the tenure of his scholarship, to the study of the subject for which his scholarship was granted, and that he will return to India on its termination, and there continue to devote himself to the industry which he has studied. Any scholar who neglects his studies, or tries to work for any other profession concurrently, will render himself liable to forfeiture of his scholarship.

6. Every scholar will be required to keep a concise diary, to be submitted at the end of each term to his Local Adviser, and to be forwarded through the Local Adviser at the end of each academic year to the Secretary of State for transmission to India.

7. Scholars will be expected to continue their studies during vacations with the exception of three weeks in each year. Vacation study should, as far as possible, take form of practical work.

8. Plans for vacation work, accompanied by a complete estimate of any extra expenses for fees or travelling involved, should be sent in to the Local Adviser six weeks before the end of any academic term. Scholars are not entitled to any subsistence allowance in addition to the scholarship allowance during time spent on vacation work. but a scholar who receives permission to visit the Continent may, if the Secretary of State for India in Council considers that the circumstances render it desirable, be granted a subsistence allowance calculated at such rate as the Secretary of State may decide.

9. Subject to a due compliance with the above conditions, the scholar's allowance will be paid quarterly in advance by the India Office to the Local Adviser under whose charge he is. It will begin from the date of the scholar's reporting his arrival in England, and the Local Adviser will disburse it to the scholar in such instalments as convenience may indicate. Three months after the date of reporting arrival, the amount to the ensuing official Quarter Day* will be paid to the Local Adviser, and subsequent payments will be made in advance on or after each official Quarter Day. The allowance will, except in special cases, be at the rate of 150*l.* a year.

*Note.—The official Quarter Days are the 1st of January, the 1st of April, the 1st of July and the 1st of October.

10. Every scholar is required to lodge with the Educational Adviser for Indian Students at the India Office, London, before his arrival in England, the sum of 15*l.* for initial expenses. He will have no claim to payment of any instalment of his scholarship until this deposit has been made.

11. Charges for University and College fees, premiums for practical training, and the necessary expenses of scholars by second class, or by third class, if no second be available, will, if sanctioned, be defrayed by the Secretary of State. Applications for payment of all these charges should be made through the Local Adviser. But charges for private tuition, unless specially sanctioned, for books, instruments, hotel bills and medical attendance, must be paid by the scholar himself.

12. No claim can be admitted for the payment of any expenditure unless the scholar has obtained *previous* sanction from the Secretary of State.

13. The scholarship is granted in the first instance for two years, unless the Secretary of State in the exercise of his discretion sees reason to terminate it sooner. Every scholar will forfeit his scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to comply with the rules here set forth. It may be terminated at any time if a scholar fails in health or conduct. It may also be extended for a third year or longer, if the Secretary of State decides that such an extension is required to complete the scholar's training.

14. On the expiration of the scholarship a scholar is provided by the India Office with a free second-class passage to India, and he should apply for it without delay through his Local Adviser. He is not entitled to make his own passage arrangements and to claim an allowance in lieu from the India Office. If a scholarship be forfeited, or if it be resigned before completion of its term, or if the holder of it, on completion of its term, declines to return to India when instructed to do so, the scholar will lose his claim to a free passage back to India.

No. 105Com.—The 9th January 1918.—The following Press Communiqué issued by the Government of India, Indian Munitions Board, is published for general information.

J. DONALD,
Secy. to the Govt. of Bengal.

GOVERNMENT OF INDIA.

INDIAN MUNITIONS BOARD.

Delhi, the 5th January 1918.

PRESS COMMUNIQUÉ.

At the request of the Ministry of Munitions and in order to decrease the exports of tin plates from the United Kingdom, the various Oil Companies operating in India agreed, in January 1917, to endeavour to substitute as far as possible sales of oil in bulk for sales in tins. With this end in view and as a temporary war measure, the price of oil in tins was increased in January 1917 by ten annas per 2-tin unit, the price of oil not in tins remaining the same as before. The prolongation of the war has rendered necessary further measures in the direction already taken, and in view of the increased cost of the production of tins and the fact that the price of old tins is approaching, if it has not already exceeded, the price of new tins, the price of oil in tins will now be advanced by a further increase of eight annas per 2-tin unit. The price of oil not in tins will remain the same as before. Thus the price of the 2-tin unit (8 gallons) of Victoria oil in tins *ex* Budge-Budge will be Rs. 4-10, but the price of Victoria oil not in tins will remain as at present, namely, Rs. 2-14 for 8 gallons. Steps have already been taken during the course of the past year by the railways in India to facilitate the distribution of oil in bulk and by the Oil Companies to increase sales in bulk. Further measures are in progress to increase the facilities available to the public for obtaining oil in their own receptacles at bulk oil rates.

GOVERNMENT OF INDIA.

INDIAN MUNITIONS BOARD.

Calcutta, the 10th January 1918.

NOTIFICATION.

WHEREAS the Governor-General in Council is of the opinion that the following articles can be utilised in connection with the prosecution of the present war, namely—

ROLLED STEEL BEAMS (all beams 12 feet and over in length)

Now, therefore, in pursuance of Rule 11A of the Defence of India (Consolidation) Rules, 1915, I, being an officer of Government authorised by the Governor-General in Council in this behalf by an order in writing, hereby require all persons within the districts of the 24-Parganas, Calcutta, Hooghly and Howrah, who, in the course of business, whether on their own behalf or on behalf of others, hold or have control over any such rolled steel beams, including beams which have not yet been fixed in buildings under construction, to send to the Controller, Bengal Circle, Indian Munitions Board, 1, Kyd Street, Calcutta, the following particulars of all such rolled steel beams, namely:—

(*a*) the quantity held of each dimension,
(*b*) the place or places at which held.
(*c*) the price (if known) at which the owner or person entitled to sell such rolled steel beams is willing to sell the same by agreement;

and I further require that every person shall refrain from disposing of the said steel beams from the date of this order until the said particulars have been furnished as prescribed above, and for a further period thereafter not

exceeding 14 days, after the expiry of which period the whole or any part of the said steel beams may be disposed of as if this notification had not been issued, unless, before the expiry of such period, a notice of requisition under Rule 11AA of the Defence of India (Consolidation) Rules, 1915, has been issued in respect of the whole or part of the said steel beams by me :

Provided also that notwithstanding this order, permits for the disposal of such steel beams will be granted by me upon application when this is in my opinion necessary for the maintenance of an essential industry.

J. C. K. PETERSON,
Controller of Munitions, Bengal Circle.

GOVERNMENT OF INDIA.

INDIAN MUNITIONS BOARD.

Calcutta, the 10th January 1918.

COMMUNIQUÉ.—By the Controller of Munitions, Bengal Circle.

Large demands have been received from the oversea forces for rolled steel beams. The Controller of Munitions, Bengal Circle, has therefore called for returns of stocks of these held within the districts of the 24-Parganas, Calcutta, Hooghly and Howrah, under Rule 11 A of the Defence of India (Consolidation) Rules, 1915, and has also ordered that no beams are to be disposed of until such returns have been made by the persons holding stocks and for 14 days after these have been submitted.

Permits for sale or disposal will be granted by the Controller on application to him at his office at No. 1, Kyd Street, Calcutta, personally or by letter where the beams are required for an essential industry. Early submission of returns will enable the Controller to decide such applications without delay.

It is not intended, unless war demands make this absolutely necessary, hinder work on a building actually under construction, but beams will not be released for new construction unless these sizes and sections are not required by the oversea forces.

The 23rd day of October, 1917.

Present:

THE KING'S MOST EXCELLENT MAJESTY.

LORD PRESIDENT.	MR. SECRETARY LONG.
LORD STEWARD.	SIR FREDERICK PONSONBY.

WHEREAS by the Merchant Shipping Act, 1894, it is enacted as follows:—

Where the Legislature of any British Possession provides for the survey of, and grant of Certificates for, Passenger Steamers and the Board of Trade report to Her Majesty the Queen that they are satisfied that the Certificates are to the like effect, and are granted after a like survey, and in such manner as to be equally efficient with the Certificates granted for the same purpose in the United Kingdom under this Act, Her Majesty in Council may—

(1) declare that the Certificates granted in the said British Possession shall be of the same force as if granted under this Act; and

(2) declare that all or any of the provisions of this Part of this Act which relate to Passenger Steamers' Certificates shall, either without modification or with such modifications as to Her Majesty may seem necessary, apply to the Certificates granted in the said British Possession; and

(3) impose such conditions and make such regulations with respect to the Certificates, and to the use, delivery, and cancellation thereof, as to Her Majesty may seem fit, and impose fines not exceeding £50 for the breach of those conditions and regulations:

AND WHEREAS by Orders in Council dated respectively the 26th day of June, 1884, and the 17th day of October, 1884, Her late Majesty was pleased to direct that, subject to the modifications contained in such Orders, Certificates granted by the Governments of Bombay and Bengal respectively should be of the same force as if they had been granted for the same purpose in the United Kingdom under the Acts relating to Merchant Shipping:

AND WHEREAS it is made to appear expedient to His Majesty that during the present War the modifications contained in the above-recited Orders in Council, dated respectively the 26th day of June, 1884, and the 17th day of October, 1884, should be suspended:

AND WHEREAS the provisions of section 1 of the Rules Publication Act, 1893, have been complied with:

NOW, THEREFORE, His Majesty, in virtue of the powers vested in Him by the above-recited provision, and by and with the advice of His Privy Council, is pleased to direct that during the continuance of the present War.

1. The Certificates granted by the Governments of Bombay and Bengal respectively for Passenger Steamers shall be of the same force as if they had been granted for the same purpose in the United Kingdom under the provisions of the Acts relating to Merchant Shipping.

2. That all the provisions of the said Acts which relate to Certificates granted for Passengers Steamers under those Acts shall apply to the Certificates referred to in this Order without modifications and that during the continuance of the present War the modifications in the above-recited Orders in Council dated the 26th day of June, 1884, and 17th day of October, 1884, be, and the same are hereby, suspended.

PART IB.

Orders by the Governor of Bengal in Council.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

No. 74M.—The 10th January 1918.—The following draft of rules which, in exercise of the power conferred by section 290 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Governor in Council proposes to make and subject to which the Commissioners of the Burdwan Municipality may allow communication-pipes to be laid down from the service-pipes of the Commissioners for the purpose of leading water to premises for domestic purposes only are published for the information of persons likely to be affected thereby.

Burdwan.

II. The draft rules will be taken into consideration on the 15th February 1918, and any objection or suggestion which may be received by the undersigned through the District Magistrate before that date will be duly considered.

Draft Rules.

So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water-supply, they may allow any owner or occupier of a holding paying a water-rate imposed under the provisions of Part VII of the Bengal Municipal Act, 1884 on the annual value of such holding, when such annual value is not less than Rs. 100, to lay down communication-pipes from the service-pipes of the Commissioners for the purpose of leading water to such holding for domestic purposes only, subject to the following rules and conditions :—

1. The owner or occupier of any holding requiring water to be laid on to such holding for domestic purposes, or requiring any addition or alteration to an existing water-supply, must apply for the same on a printed form to be supplied, free of cost, at the Municipal Office.

2. A fee of Rs. 125 must be paid to the Commissioners by such owner or occupier for each connection to a municipal main supply-pipe before any work is commenced, such fee to be in addition to all other costs and charges imposed under these rules.

3. Each holding must have a separate connection to the municipal main supply-pipe, and extension from the communication-pipe of one holding to another holding shall not be permitted :

Provided that no holding shall have more than one separate connection, but if in any case the Commissioners at a meeting are satisfied that an adequate supply to any holding cannot be given through a single connection, they may sanction a second connection thereto.

4. The owner or occupier of the holding in respect of which the connection is required must pay the entire cost of the connection, including the supply and fixing of the fittings referred to in rule 7, and must also pay the cost of such alterations in, or repairs to, roads, drains, sewers, gas or water-mains or pipes, and the cost of such other works as may be necessitated by, or result from, the work of making such connection.

5. The owner or occupier of the holding to which a connection has been given must, at any time, on receipt of notice to do so from the Commissioners, pay the entire cost of any repairs or alterations to the connection or any part thereof that the Commissioners may consider necessary to put it into a satisfactory condition, or which may be necessitated by any change in the Municipal water-works or system of distribution, or by the defective condition of the connection or any part thereof, or by any other cause whatever.

6. (*1*) The works required under rules 4 and 5 may, at the option of the Commissioners, either be carried out by the Commissioners themselves at the expense of the owner or occupier of the holding in respect of which the works are required, or may be carried out by a person or firm employed by such owner or occupier and approved by the Commissioners.

(*2*) No work shall be carried out under sub-rule (*1*), except under the supervision of a Municipal Officer.

7. A holding connection shall comprise the following parts or fittings :—

(*a*) a brass or gun-metal ferrule inserted in the main supply-pipe ;

(*b*) a galvanised iron communication-pipe from the ferrule to the meter ;

(*c*) a stop-cock and its surface-box ;

(*d*) a meter ;

(*e*) service-pipes from the stop-cock to the taps ; and

(*f*) taps.

8. (*1*) All the fittings referred to in rule 7 shall be exact duplicates of standard samples kept in the office of the Commissioners, and approved by them in meeting.

(*2*) All fittings shall be inspected and tested and stamped by an officer of the Municipality before being fixed.

(*3*) If any owner or occupier shall desire to adopt any fitting of a pattern different from the standard patterns, he must present such fitting for the approval of the Chairman, and any fitting so presented may, if considered satisfactory by the Chairman, be stamped, and samples thereof may be purchased and placed among the standard fittings.

9. The holding connection, when fitted in position, must be capable of standing a pressure of 100 feet, and no water shall be supplied until it has stood such a test applied by the Commissioners.

10. The size of the ferrule and the diameter of the communication-pipe referred to in clauses (*a*) and (*b*) of rule 7, and the number of taps shall be fixed in accordance with the annual valuation of the holdings as follows :—

Annual valuation of holding not exceeding—	Number of taps.	Size of ferrule.	Diameter of communication-pipe.	Size of bib-cock.
Rs.		Inch.	Inch.	Inch.
150	2	½	½	½
450	2	¾	½	½
1,500	3	¾	¾	½
3,000	3	¾	¾	½
6,000	4	¾	1	½
Above 6,000	4	¾	1	¾

11. (*1*) On every communication-pipe a brass or gun-metal stop-cock having the same waterway as such pipe shall be placed as near as practicable to the point where that pipe enters the holding to be supplied.

(*2*) The stop-cock shall be built in a brick chamber provided with a cast-iron surface cover-box so designed that it can be locked, and the key of this box shall remain under the control of the Chairman.

(*3*) The stop-cock shall be capable of adjustment so that the supply to the holding may be regulated thereby.

12. (*1*) The meter shall be placed as near to the stop-cock as possible and in a position where it can be conveniently examined.

(*2*) The meter must be fixed in a brick chamber covered over with a cast-iron surface box of approved pattern.

13. Neither the stop-cock nor the meter must be placed in any private premises.

14. The Commissioners shall depute an authorised person to read every meter not less than once a quarter, and shall give notice to the occupier at least twenty-four hours before the reading is recorded. If he fails to attend, the inspection shall be made in his absence.

15. (*1*) Every owner or occupier of any holding in respect of which a connection has been made under these rules shall be entitled to a supply of—

(*a*) 3,000 gallons of water per quarter for each rupee, and

(*b*) a further proportionate number of gallons per quarter for every additional fraction of rupee,

paid by him quarterly as water-rate in respect of such holding.

(*2*) For all water in excess of the amount allowed under sub-rule (*1*), such owner or occupier shall be charged quarterly six annas for each 1,000 gallons or any fraction of it.

16. The Commissioners may cut off the connection between any water-works of the municipality and any holding to which water is supplied from such works, or may turn off such supply, in any of the following cases, namely :—

(*a*) if the holding is unoccupied ;

(*b*) if the occupier refuses to admit any officer duly empowered in that behalf into the holding for the purpose of making any examination or inspection authorised under the provisions of Part VII of the Bengal Municipal Act, or under any by-law or rule framed under this Act, or prevents such officer from making such examination or inspection ;

(*c*) if the owner or occupier of the holding touches or interferes with his meter in any way, or wilfully or negligently injures or damages it ;

(*d*) if the owner or occupier of the holding wilfully or negligently permits waste of water in such volume as will, in the opinion of the Chairman, endanger the water-supply in the neighbourhood ;

(*e*) if the owner or occupier of the holding shall refuse or neglect to pay any of the fees or charges imposed in accordance with these rules for a space of fourteen days after he has been served with a notice of demand for the same ;

(*f*) if the owner or occupier of the holding constructs or fixes any cisterns, tanks, reservoirs, taps, pipes, pumps or any other works in connection with the water-supply not authorised by these rules ;

(*g*) if the pipes, taps, ball-cocks, cisterns, or any other parts of the connection are, in the opinion of the Commissioners, in a leaking condition or a state of disrepair, after notice to repair such defect has been served :

Provided that such disconnection or turning off of water-supply shall not relieve any person from any liabilities which he may have incurred under these rules.

In the circumstances contemplated in clause (*d*) an officer authorised by the Commissioners in this behalf by a general order shall have the power to turn off the supply for a period not exceeding eight hours on his previously recording his reason in writing.

17. No tap shall be of larger size than the pipe to which it is attached and shall be of brass and of the pattern known as "Screw-down." Every tap shall be at least 3 feet above the surface of the ground beneath.

18. No cistern, tank or reservoir of any description which is intended to be supplied with water from the Municipal water-works shall be permitted to any holding except with the sanction of the Commissioners in meeting, and such sanction shall distinctly specify the dimensions and capacity of the cistern, tank or reservoir allowed. The inlet to every such cistern, tank and reservoir must be controlled by an efficient ball-cock so that the discharge thereinto is completely stopped when the cistern, tank or reservoir is full. Any taps fed from such cistern, tank or reservoir must be included in the number of taps allowed under rule 10.

19. No connection shall be permitted to any holding unless and until the owner and occupier makes effective provision to the satisfaction of the Commissioners for draining all waste water away.

NOTICE.

NAMES of Munshis qualified to teach Urdu can be had on application to the undersigned. A complete list is published in the *Gazette of India*, Part II.

O. F. JENKINS,
Secretary and Member, Board of Examiners.

OFFICE OF THE BOARD OF EXAMINERS, 1, COUNCIL HOUSE STREET, CALCUTTA, *the 31st October 1916.*

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

Two State Scholarships in Sanskrit and Arabic, respectively, of £200 per annum for Indians*

*[including those who, though born or temporarily resident in Native States, are domiciled in British India but excluding subjects of Native States and members of the European and Anglo-Indian domiciled community], 1918.

The scholarships will be awarded by the Government of India to Indians to acquire critical and scientific methods of Western scholarship in Sanskrit and Arabic of the value of £200 a year.

2. The language scholars are not expected to join colleges; but when they join colleges in Oxford or Cambridge with the permission of the Secretary of State for India their allowance will then be increased to £250 per annum.

3. The scholarships are tenable in Europe and for a period of two years in the first instance with possibility of extension.

4. The scholarships will carry with them no conditions as to any subsequent career or service under Government, and no expectations of such employment are held out.

5. The scholarships are open to well-qualified students with a genuine taste for Sanskrit and Arabic studies and to those already employed as Professors of Sanskrit and Arabic.

6. Intending candidates who are natives of Bengal or domiciled in Bengal are requested to make application to the Assistant Director of Public Instruction, Bengal, Writers' Buildings, Calcutta, on forms obtainable from the

Personal Assistant to the Director of Public Instruction, Bengal, on or before January 25th, 1918, with a medical certificate of fitness to undergo a course of study abroad.

7. Selected scholars are required to lodge with the Education Adviser for Indian Students at the India Office before their arrival in England the sum of £25 for initial expenses. They will have no claim to payment of any instalment of their scholarship until this deposit has been made.

8. State scholars are required to proceed to England within a reasonable time from the date of their selection so as to arrive there not later than the middle of September and to reside there for the period of their scholarship, unless compelled to return sooner in consequence of ill-health. The scholarship will be payable from the date on which the scholars report their arrival in England. Selected scholars will be provided with a second-class passage to England and also with a second-class return passage if they carry out the instructions of the Secretary of State and complete the full period of residence or are compelled by sickness to return within that period.

9. Necessary travelling expenses of scholars abroad by second class or by third class, if no second be available, will be defrayed by the Secretary of State Travelling expenses in the United Kingdom will be borne by the scholars themselves. Charges for University and College fees, for private tuition, for books, hotel bills and medical attendance must be borne by the scholars and will not be defrayed by the Secretary of State.

10. For further particulars pages 1143 to 1155 of the *Calcutta Gazette*, dated the 21st June 1916, may be consulted.

W. C. WORDSWORTH,
Offg. Director of Public Instruction, Bengal.

NOTIFICATION.

Government Purchase of Tea for the United Kingdom.

Northern India.

TENDERS are invited by the undersigned from Northern India Tea Companies and Tea Estates controlled in India (*i.e.*, concerns the directors or proprietors of which are resident in India) for the supply of black tea for the United Kingdom up to the 31st May 1918. The total quantity required, including War Office requirements from the 1st January to the 31st May 1918, is approximately 40 per cent. of the total crop of 1917. Each estate may, therefore, tender any quantity up to 40 per cent. of its production in 1917, and should state whether a quantity in excess of 40 per cent. can be supplied if necessary. This percentage will include all tea shipped to England from Indian ports on private account on and after the 1st November 1917, which will be taken over by the Food Controller at the contract rates. It will also include all tea subsequently consigned to the Food Controller under interim arrangements pending the conclusion of contracts with estates. Only black tea will be taken. The percentage will apply to all grades of black tea produced including clean dust, estates being required to supply 40 per cent. of the total production of each grade in 1917, each invoice containing, as far as possible, the usual proportions of each grade. In the event of an estate being unable to supply the full required percentage of every grade the fact should be stated in the form of tender, and any adjustment necessary in price will be made before the contract is completed. All teas tendered will be liable to examination by experts in India, and, if the quality is not up to the previous standard of manufacture of the estate, to rejection or acceptance at a lower cost, such reduction being arranged by the undersigned in respect of concerns controlled in India and by the Food Controller in respect of concerns controlled in England. Garden weights will be accepted by the undersigned but the teas will be weighed on arrival in England by the Customs, and any adjustment in payment necessary will be made by the Food Controller through the Tea Commissioner. All teas will, also, be inspected in England and claims made by the Food Controller for damage in transit or defective packing. The usual system of packing, including the quality of the tea boxes and tea lead, must be maintained and boxes must be in sound condition before acceptance for shipment. 1916 tea will be accepted as part of the 40 per cent. allotment, provided it is shipped immediately. The price of 1916 tea shipped by London controlled estates will be arranged by the Food Controller in consultation with owners, while that of similar tea shipped by Indian controlled estates will be fixed by the undersigned at a reduced rate.

The contract price, which will be f.o.b. at the port of shipment, will be calculated as follows :—

I. Estates selling on the London market.—The average London auction price realised in the years 1911, 1912 and 1913, less ·90 of a penny for intermediate charges and cess and plus one halfpenny for increased cost of production, at rate of exchange 1*s.* 4*d.*

II. Estates selling on the Calcutta market.—The average Calcutta auction price realised in the years 1911, 1912 and 1913, plus one halfpenny or half an anna for increased cost of production and plus cost of shipping, and minus sale charges and other Calcutta charges. In order to obviate the labour of making detailed calculations in the case of each concern, the undersigned has, in consultation with the Indian Tea Association, decided that a net deduction of ·08 of an anna per lb. may be made to cover the difference between the cost of shipping and sale charges.

N.B.—The allowance for increased cost of production may be raised hereafter to three farthings, if the Food Controller is satisfied that the higher rate is justified

III. Estates selling partly on the London and partly on the Calcutta market.—The average sale price realised in both markets in the years 1911, 1912 and 1913 with the additions and deductions specified in I and II above.

IV. Estates selling their teas on markets other than the London and Calcutta markets, and partly on outside markets and partly in London or Calcutta, and new estates with no pre-war sales.—The prices paid for similar teas.

The average for the three years should be calculated by dividing the total sale-proceeds by the total crop for the three years, the result being worked out to two places of decimals of a penny or an anna as the case may be. Where a concern consists of two or more estates each manufacturing its own teas, separate figures should be furnished for each estate. The figures submitted should, if possible, be certified as correct by a Chartered Accountant. In the case of concerns, the accounts of which are not audited by a Chartered Accountant, the figures of total crop sold and total sale-proceeds should, if possible, be certified by the Broker who sold the teas.

Teas will be paid for in India. Tea cess and (in the case of all tea except that consigned to the War Office which is exempted from the payment of export duty) export duty will be paid by the Food Controller and should be included in the bills of cost. The delivery of the amount contracted for will be taken in equal monthly instalments so far as freight arrangement permit, but, in any event, delivery in warehouse of the whole quantity will be taken and payment made on or before the 31st August 1918, payments made in August bearing interest at 6 per cent. per annum from the 1st August. Producers will be responsible for warehouse charges and insurance for one month after the date specified by the undersigned for the arrival of the tea at the warehouse, the undersigned paying warehouse charges after that period but not insurance charges, as no insurance will be effected on Government teas.

In order to enable the undersigned to conclude the contracts with estates, the following information in respect of each estate controlled in India should be furnished to him without delay, on a form which will be supplied on application to this office or to the Secretaries, Indian Tea Association, Assam and Surma Valley Branches, Indian Tea Association, Duars, Terai and Darjeeling Planters' Associations :—

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the Fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The Fund is now of ten years' standing and has a balance of over three and-a-half lakhs with Government on four per cent. interest. For forms of applications and rules of the Fund apply to the Comptroller, India Treasuries, Imperial Secretariat Buildings, Calcutta.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.,

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible, after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—
the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

GOVERNMENT OF BENGAL.

BENGAL LEGISLATIVE COUNCIL.

NOTIFICATION.

No. 73L., dated the 14th January, 1918.—His Excellency the Governor having been pleased to order, under rule 31 (*1*) of the Bengal Legislative Rules, 1912, the publication of the following Bill, together with the Statement of Objects and Reasons which accompanies it, in the *Calcutta Gazette*, the Bill and the Statement of Objects and Reasons are accordingly hereby published for general information. It is proposed to introduce the Bill at the meeting of the Bengal Legislative Council to be held on the 22nd instant :—

THE BENGAL (ALIENS) DISQUALIFICATION BILL, 1918.

A

BILL

to disqualify certain persons from voting at elections of, or being elected or nominated as members of, or holding office in, local bodies in Bengal.

Preamble.

WHEREAS it is expedient to disqualify certain persons from voting at elections of, or being elected or nominated as Commissioners of the Corporation of Calcutta or of any other Municipality in Bengal, or as members of District or Local Boards or of Union Committees therein, and also to disqualify them from holding office in any such body;

It is hereby enacted as follows :—

Short title, commencement and local extent

1. (*1*) This Act may be called the Bengal (Aliens) Disqualification Act, 1918.

(*2*) It shall come into force on such date as the Local Government may direct by notification in the *Calcutta Gazette*.

(*3*) It extends to the whole of Bengal.

The Bengal (Aliens) Disqualification Bill, 1918.

(Clauses 2—3).

Definition.

2. In this Act, "India" shall mean British India, together with any territories of any Native Prince or Chief under the suzerainty of His Majesty exercised through the Governor General of India or through any Governor or other officer subordinate to the Governor General of India. [*Cf.* Act X of 1897, s. 3 (27).]

Persons disqualified from voting at elections of, or being members of, or holding office in, local bodies.

3. Notwithstanding anything contained in the Calcutta Municipal Act, 1899, the Bengal Municipal Act, 1884, and the Bengal Local Self-Government Act of 1885, no person who is not a British subject or a subject of any State in India shall be qualified to vote at the election of, or to be a candidate for election as a Commissioner of the Corporation of Calcutta or of any other Municipality in Bengal, or as a member of any District or Local Board or Union Committee therein, or to hold the office of Chairman, Deputy Chairman or Vice-Chairman of any such body under the Calcutta Municipal Act, 1899, the Bengal Municipal Act, 1884, or the Bengal Local Self-Government Act of 1885, nor shall such person be nominated to be a Commissioner or a member or to hold any such office under any of the said Acts; and Ben. Act III of 1899. Ben. Act III of 1884. Ben. Act III of 1885

if, on the date when this Act comes into force, any such person is holding any such office or is a Commissioner of any Municipality or a member of any District or Local Board or Union Committee under any of the said Acts he shall, notwithstanding anything contained in those Acts, be deemed to have vacated his office or seat from such date, and such vacancy shall be filled up in the same manner as if it were caused by resignation duly accepted:

Provided that the Local Government may, with the approval of the Governor General in Council, by notification in the *Calcutta Gazette*, exempt from the provisions of this section, with effect from the commencement of this Act or from such date as may be specified in the notification, any person or class of persons who are not British subjects or subjects of any State in India

STATEMENT OF OBJECTS AND REASONS.

THE objects of the Bill are to prevent persons other than British subjects or subjects of any State in India from voting at elections for, or sitting as members of, local bodies in Bengal and from holding responsible offices under those bodies. It is at the same time proposed to exclude, with the approval of the Government of India, any aliens or class of aliens from the scope of the Bill.

APPENDIX.

NOTICES TO MARINERS.

THE following Notices are published for general information.

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

CALCUTTA, *the 8th January 1918.*

CHINA SEA—NEW STORM SIGNAL CODE.

No. 2 (first publication).—The following Notice to Mariners (No. 648 of 1917) issued by the Coast Inspector, Shanghai, is republished :—

Notice is hereby given that on the 1st February 1918 the appended new Storm Signal Code will come into operation at the Storm Signal Stations of the Maritime Customs, at the French Municipal Storm Signal Station at Shanghai, and at the British Storm Signal Station at Weihaiwei.

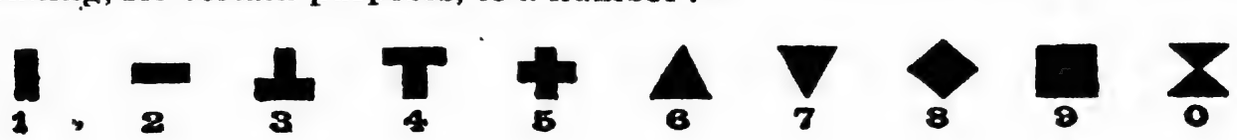
Copies of the Code in single sheet form can be obtained from the several Harbour Masters' Offices of the Maritime Customs.

CHINA SEAS STORM SIGNAL CODE.

(Operative from the 1st February 1918.)

GENERAL EXPLANATION.

1°. The Signals are made by means of certain Symbols, each corresponding, for certain purposes, to a number :—



2°. The Signals are hoisted at the yard-arms and masthead of the Storm Signal Mast and have the following general characteristics :—

Typhoon and Continental Depression Signals :

(*a*) 4 symbols at one yard-arm showing the position of the centre.

(*b*) 3 symbols at the other yard-arm showing the direction of motion and/or certain characteristics (*see* Tables Nos. 1, 2, and 3).

(*c*) 1 symbol at the masthead showing the time the warning was issued by the Observatory (*see* Table No. 4).

Gale Signals :

(*d*) 1 symbol at one yard-arm showing the region threatened (*see* Table No. 5).

(*e*) 2 symbols at the other yard-arm showing the general direction of the wind (*see* Table No. 1).

(*f*) 1 symbol at the masthead showing the time the warning was issued by the Observatory (*see* Table No. 4).

The two upper symbols of group (*a*) indicate by their corresponding numbers the latitude and the two lower symbols the longitude of the centre of a circle of specified size within which the centre of the typhoon or depression lies. The symbols for longitude give the units and tens only ; thus, 32 indicates longitude 132.

The two upper symbols of group (*b*) indicate the direction in which the typhoon is travelling (*see* Table No. 1) or, alternately, certain conditions of the typhoon (*see* Table No. 2). The third and lowest symbol of group (*b*) indicates the radius of the circle whose centre is shown by the latitude and longitude. This symbol may also indicate degree of intensity. In the case of a continental depression it indicates that it is such, and the corresponding latitude and longitude is the centre of an indefinite area affected. (*See* Table No. 3.)

Caution.—It should be clearly understood that the position indicated by the latitude and longitude signalled does not purport to be the position of the centre of the typhoon. It indicates merely the centre of a circle of a specified radius within which the centre of the typhoon is believed to lie.

Table No. 1.—Direction Signals.

Two upper Symbols of hoist.

These indicate the direction in which a typhoon is travelling or the direction from which a gale may be expected.

Note.—The numbers corresponding to the symbols indicate the number of points from North.

Table No. 2.—Condition Signals.

Two upper Symbols of hoist.

Table No. 3.—Radius and Intensity Signals.

The lowest of three Symbols.

Table No. 4.—Time Signals.

Single Symbol at masthead.

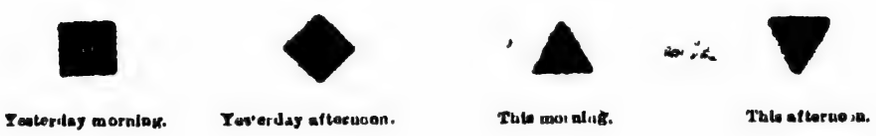

Table No. 5.—Gale Signals.

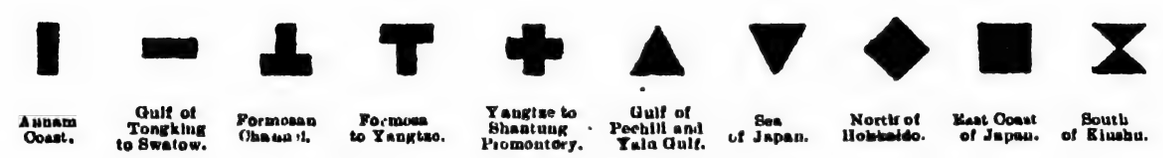
One Symbol at yard-arm.



It is important that seamen should realise that the position of the centre of the typhoon as signalled is the position according to the data possessed by the Observatory at the time of the issue of the warning. That data may be as much as 12 hours old. Thus, if the time signal indicates that the warning was issued "This morning," it may be that the position corresponds to data concerning yesterday afternoon.

If the signal "Deepening" is made, it indicates that there is reason to believe that the barometric gradient and, consequently, the intensity of the typhoon are increasing.

If the signal "Exceptional velocity" is made, it indicates that there is reason to believe that the rate of progression is 25 per cent. or more greater than the average rate.

If the signal "Position uncertain" is made, it indicates that the data possessed is unreliable and that the position signalled is a mere probability.

The several tracks which a typhoon may follow in the several months are very varied, and the velocity of progression is liable to be erratic. It is not safe to count on a typhoon maintaining a velocity indicated by previous positions of its centre. The velocity is liable to increase very suddenly. Seamen are recommended to study from available sources the tracks and average velocities for the month and locality concerned. In the absence of more exact information the following table of velocities in knots for the several latitudes may be useful.
